

AGREEMENT FOR PROFESSIONAL ENGINEERING SERVICES

This Agreement is entered into between the City of Johnson City, Texas (the “Owner”) and EDGE Engineering, PLLC (the “Engineer”), acting by and through their duly authorized representatives, to be effective on the date this Agreement is fully executed.

WHEREAS, the Owner desires to employ the Engineer to provide certain professional engineering services. This Agreement shall apply to all Services for as many Projects as Owner and Engineer agree will be performed under the terms and conditions of this Agreement. All services Engineer performs for Owner hereunder shall be designated by a Task Order (“The Project”). A sample Task Order is attached to this Agreement and marked as “Attachment 1”. No Task Order shall be binding or enforceable unless and until it has been properly executed by both Owner and Engineer. Each properly executed Task Order shall become a separate supplemental agreement to this Agreement. After receiving written notice to proceed, Engineer shall perform the Services described in each Task Order in accordance with the Terms and Conditions of this Agreement. All Engineer’s Services under this Agreement will be provided as an independent contractor.

NOW, THEREFORE, for and in consideration of the mutual agreements, promises and undertakings herein set forth, the parties hereby agree as follows:

1. Contractual Relationship

1.1 The Owner agrees to employ the Engineer, and the Engineer agrees to perform, as an independent contractor, certain professional engineering services as specified herein in connection each assigned Task Order (the “Services”), and for having rendered such Services, the Owner shall pay to the Engineer compensation as stated in the sections to follow.

1.2 The relationship of the Owner and the Engineer under this Agreement and otherwise shall be that of independent contractors. The Engineer is not, by the terms of this Agreement or otherwise, an agent, employee or representative of the Owner. Any direction or instruction by the Owner or any of its authorized representatives in respect to the Services provided by Engineer shall relate to the results the Owner desires to obtain from the Services, and Engineer shall be solely responsible for determining how the work shall be performed.

1.3 The Engineer agrees to satisfy all claims for labor, material and equipment employed or used in anyway in connection with the Services, and not to permit any liens to be fixed upon or against the property of the Owner by its laborers, mechanics, materialmen, suppliers or subconsultants and agrees to indemnify, protect and save the Owner harmless from and against all such claims and liens.

2. The Engineer’s Obligations

2.1 The Engineer shall provide to the Owner the Services and incidental materials specified in each executed Task Order.

2.2 By its execution of this Agreement below, the Owner hereby authorizes the Engineer to proceed with the performance of Services pursuant to the terms of this Agreement.

2.3 The Engineer agrees that it is experienced and fully qualified to perform the Services contemplated by this Agreement, and that it is properly licensed pursuant to applicable law to perform such Services. All Services shall be performed with due diligence and in accordance with the standard of care required by this Agreement. The standard of care for all professional engineering and related Services performed or furnished by the Engineer under this Agreement will be the professional care and skill ordinarily provided by competent registered professional engineers practicing under the same or similar circumstances and professional license performed as expeditiously as is prudent considering the ordinary professional skill and care of a competent engineer. The Engineer shall be responsible, in accordance with that professional standard, for the completeness and accuracy of the Engineer's drawings and specifications, subject to the terms of this Agreement.

2.4 If, after the construction has begun or after construction is completed, an error or omission in any services provided by Engineer is discovered, Engineer shall pay to Owner all costs, expenses and damages, including but not limited to attorneys fees incurred by Owner as a result of such error or omission.

2.5 The Engineer shall comply with current interpretations of all applicable laws, rules and regulations. Further, the Engineer will see to it that its documents and specifications comply with all legal requirements (including applicable codes and regulations and interpretations thereof) in effect at the time of their submittal to the Owner.

2.8 The Owner shall at all times have reasonable access to the files and personnel of the Engineer relating to the Project in order to answer any questions the Owner may have relating to the Engineer's performance on the Project.

2.9 Throughout the course of the Services under this Agreement, the Engineer will: (a) keep the owner informed of its Services including, without limitation, submitting to the Owner upon request, at appropriate intervals, written reports monitoring the progress of the Engineer's Services, (b) attend meetings as reasonably required by the Owner relative to the Engineer's Services for the design and construction of the Project, (c) coordinate its Services hereunder with the services of any other consultants separately engaged by the Owner and (d) when requested by the Owner after reasonable notice, meet with the Owner and the other consultants engaged by the Owner regarding the Project.

3. Opinions of Probable Construction Cost

Any opinions or estimates of probable construction costs to be provided under this Agreement are to be made or reviewed on the basis of the Engineer's experience and qualifications and represent the Engineer's judgment as an experienced and qualified professional, familiar generally with the construction industry. However, since the Engineer has no control over the cost of labor, materials, equipment or services furnished by others or over the Contractor's methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids or actual final construction costs will not vary from the opinions or estimates prepared or reviewed by the Engineer. If the Owner wishes greater assurance as to probable construction cost, the Owner may choose to employ an independent cost estimator for that purpose.

4. The Owner's Responsibilities

4.1 The Owner shall provide to the Engineer its available criteria and requirements for the Project and available information pertinent to the Project including previous reports. The Engineer may reasonably rely upon such information; keeping in mind, however, that the Owner does not represent, guarantee or warrant to the Engineer the accuracy or completeness of such information.

4.2 The Owner, with the assistance of the Engineer, shall arrange for access to and make all provisions for the Engineer to enter upon public and private property as required for the Engineer to perform Services under this Agreement.

4.3 Unless otherwise specified, the Owner will obtain, arrange and pay for all advertisements for bids and all land, easements, rights-of-way and access necessary for the Engineer's Services under this Agreement or for construction of the Project. The Owner will pay for all permits and licenses required for the Project which the Engineer notifies the Owner are required.

4.4 The Owner will examine the Engineer's studies, reports, sketches, drawings, specifications, proposals and other information submitted by the Engineer; consult with others as the Owner deems appropriate; and render timely written approvals and decisions to the Engineer.

4.5 The Owner shall give prompt written notice to the Engineer whenever the Owner becomes aware of any development that affects the scope or timing of the Engineer's Services, or of any defect or nonconformance in the Services of the Engineer or work of the Contractor.

5. Engineer's Compensation

5.1 As compensation for all of the Services, the Owner shall pay to the Engineer an amount not to exceed the amount as outlined within each Task Order.

5.2 Invoices for Services performed and expenses incurred will be submitted to the Owner by the Engineer monthly. Unless the Owner disputes the amount of an invoice, any undisputed amount will be payable within thirty (30) days after Owner receives the invoice. The Engineer shall submit invoices in sufficient detail for the Owner to verify the Services performed and expenses incurred. Each invoice shall constitute a representation of the Engineer to the Owner made under this Agreement that the proportion of the Services has been fully performed in accordance with this Agreement, that the expenses have been properly incurred and that payment of the indicated amount has been earned by, and is properly due and payable to, the Engineer in accordance with this Agreement. Notwithstanding the presentation of any invoice to the Owner, the amount reflected thereon shall be due and payable to the Engineer only to the extent earned by the Engineer in accordance with the terms of this Agreement and not disputed by the Owner.

5.3 Payment shall be governed by Texas Government Code Chapter 2251, as amended.

5.4 In the event of a disputed or contested billing, only that portion so contested may be withheld from payment, and the undisputed portion will be paid. No interest will accrue on any contested portion of the billing until mutually resolved. The Owner will exercise reasonableness in contesting any billing or portion thereof. Notwithstanding anything contained in this Agreement to the contrary, the Owner shall not be obligated to make any payment to the Engineer if any one or more of the following conditions exist: (a) the Engineer is in default of any one or more of its obligations in this agreement or otherwise in default under this Agreement; (b) any part of such payment is attributable to services which are not performed in accordance with this Agreement; provided, however, that payment shall be made as part thereof attributable to services which were performed in accordance with this Agreement; (c) the Engineer has failed to make payments promptly to consultants or other third parties used in connection with the Services for which the Owner has made payment to the Engineer (d) the Owner, in its good faith judgment, determines that the portion of the compensation then remaining unpaid for a particular phase of the Services of the Engineer shall not be sufficient to complete such phase in accordance with the Agreement, in which event no additional payments will be due the Engineer unless and until the Engineer, at its sole cost, performs a sufficient portion of the Services so that such portion of the compensation then remaining unpaid is reasonably determined by the Owner to be sufficient to so complete the Services; or (e) a claim has been asserted against the Owner by a third party based upon an alleged error or omission in the Services performed or required to be performed by the Engineer or any of its subconsultants. No partial or final payment by the Owner to the Engineer is to be treated as a waiver of any of the Owner's rights, nor is the acceptance of any partial payment or final payment by the Engineer from the Owner a waiver of any of the Engineer's rights.

5.5 The Owner may make changes to the Scope of Services to be provided by Engineer pursuant to the terms of this Agreement. If such changes affect the Engineer's cost of or time required for performance of the Services, an equitable adjustment to the compensation payable to the Engineer under this Agreement will be made through an amendment to this Agreement.

6. Indemnification

6.1 With respect to claims brought by third parties against either the Engineer or the Owner relating to the property or facilities with respect to which this Agreement pertains, the Engineer and the Owner agree the Engineer will indemnify and hold harmless the Owner, its directors, officers, agents and employees against all claims, demands or causes of action; and all costs, administrative costs, judgments and settlements, losses, liabilities, expenses, settlements, interest and judgments incurred in connection therewith, including attorneys' fees and court costs, brought by any of the Engineer's employees or representatives, by any governmental entity or by any other third party, except to the extent of the limitations expressed in Texas Local Government Code Section 271.904, as amended.

6.2 At the Owner's discretion, Engineer will defend the Owner and its elected officials, agents and employees with attorneys acceptable to the Owner from any claims asserted against the Owner, its elected officials, agents and employees based upon any act of negligence, intentional tort, intellectual property infringement, or failure to pay a subcontractor or supplier committed by the Engineer or the Engineer's agent, consultant under contract, or another entity over which the Engineer exercises control or will reimburse the Owner the

reasonable attorneys fees incurred by the Owner in proportion to the Engineer's liability hereunder.

6.3 The terms and provisions of this Agreement are intended to comply with the provisions of Texas Local Government Code § 271.904, as amended. If a court should determine that the terms and provisions of this Agreement do not comply with the provisions of Texas Local Government Code § 271.904, the terms and provisions of this Agreement will be reformed to comply with the requirements of Texas Local Government Code § 271.904.

7. **Insurance**

7.1 The Engineer shall obtain and maintain, throughout the term of the Agreement, insurance of the types and in the minimum amounts set forth below.

7.2 The Engineer shall, upon its execution of this Agreement, furnish certificates of insurance to the Owner evidencing compliance with the insurance requirements hereof. Certificates shall indicate name of the Engineer, name of insurance company, policy number, term of coverage and limits of coverage. When any required insurance, due to the attainment of a normal expiration date or renewal date, shall expire, the Engineer will supply the Owner with certificates of insurance and, if applicable, amendatory riders or endorsements that clearly evidence the continuation of all coverage in substantially the same manner, limits of protection and scope of coverage as was provided by the previous policy. The Engineer shall cause its insurance companies to provide the Owner with at least 30 days' prior written notice of any reduction in the limit of liability by endorsement of the policy, cancellation or non-renewal of the insurance coverage required under this Agreement. The Engineer shall obtain such insurance from such companies having a Best's rating of A-/VI or better, licensed or approved to transact business in the state in which the Services shall be performed, and shall obtain such insurance of the following types and minimum limits:

a. Workers' Compensation insurance in accordance with the laws of the State of Texas, or state of hire/location of Services, and Employer's Liability coverage with a limit of not less than \$500,000 each employee for Occupational Disease; \$500,000 policy limit for Occupational Disease; and Employer's Liability of \$500,000 each accident.

b. Commercial General Liability insurance including coverage for Products/ Completed Operations, Blanket Contractual, Contractors' Protective Liability, Broad Form Property Damage, Personal Injury/Advertising Liability, and Bodily Injury and Property Damage with limits of not less than:

\$2,000,000 General Aggregate Limit

1,000,000 Each Occurrence, combined single limit

1,000,000 Aggregate Products, combined single limit

1,000,000 Aggregate Personal Injury/Advertising Liability

50,000 Fire Legal Liability

5,000 Premises Medical

c. Business Automobile Liability coverage applying to owned, non-owned and hired automobiles with limits not less than \$1,000,000 each occurrence combined single limit for Bodily Injury and Property Damage combined.

d. Umbrella Excess Liability insurance written as excess of Employer's Liability, with limits not less than \$1,000,000 each occurrence combined single limit.

e. Professional Liability insurance with limits not less than \$1,000,000 each claim/annual aggregate, which insurance shall be maintained for a period that will cover claims made within three (3) years after the substantial completion of the Project.

8. Termination

8.1 This Agreement may be terminated by Owner for convenience upon notice to Engineer. Upon delivery of such notice the Engineer shall, unless the notice states otherwise, immediately discontinue all Services, proceed to cancel promptly all existing orders and contracts insofar as such orders or contracts are chargeable to the Services, and deliver to the Owner all instruments of service produced under this Agreement. Upon termination, the Owner will owe the Engineer only for all compensation earned under this Agreement to date of termination.

8.2 In the event of a termination by Owner under this Article 8, for convenience, the Engineer consents to the Owner's selection of another engineer of the Owner's choice to assist the Owner in completing the Project. The Engineer further agrees to cooperate and provide any information and documentation including but not limited to change, modification, adjustment to plates, etc. requested by the Owner in connection with the completion of the Project and consents to and authorizes the making of any reasonable changes to the design of the Project by the Owner and such other engineer as the Owner may desire; provided however, that the Engineer shall have no liability to the Owner or any third party for any changes or services made or performed by another engineer.

8.3 This Agreement may be terminated by Owner for cause upon notice to the Engineer setting forth the basis for the termination and the Engineer's failure to cure the default described in the notice within ten (10) days after the date of the notice. If the Owner terminates this Agreement for cause, the Engineer shall have no further right to receive payment for any Services provided by the Engineer under this Agreement. Further, the Engineer shall be liable to the Owner for any and all damages, costs and expenses incurred by the Owner as a result of the Engineer's breach of its obligations under the Agreement.

8.4 The Engineer may terminate this Agreement for breach of the Agreement by the Owner provided the Engineer sends written notice to the Owner itemizing the acts which the Engineer believes constitutes a breach of this Agreement and provided the Owner fails to cure any such breach within thirty (30) days after receipt of the notice. If the Engineer terminates this Agreement based upon a breach of the Agreement by the Owner, the Engineer

shall be entitled to recover only for the Services rendered prior to the date of termination and shall not be entitled to recover any compensation for any Services that were not performed by the Engineer.

9. Inspections and Audits

The Owner shall have the right to perform, or cause to be performed, audits of all books, documents, receipts, expenditures, deposits, ledgers and records and any other available information or document of the Engineer as necessary to verify the accuracy of the Engineer's billings and inspections of all places where Services were undertaken, provided that the Engineer shall not be required to keep such books and records longer than 3 years after the termination of this Agreement or the completion of the performance of the Services required to be performed by the Engineer under this Agreement, whichever date occurs later. If an audit of the Engineer's books, payrolls and records indicates that the Owner has overpaid the Engineer, the Engineer shall pay the Owner the amount of such overpayment promptly upon demand, with interest at the rate of 10% per annum. The terms of this Section shall survive the termination or expiration of this Agreement.

10. Reuse of Documents

10.1 All documents including, but not limited to, reports, drawings and specifications provided or furnished by the Engineer pursuant to this Agreement are instruments of service in respect of the Project, whether or not the Project is completed, and can be reused by the Owner or others on extensions of the Project.

10.2 When such documents are in electronic form, the Owner shall be permitted to retain copies of data files, text, specifications or drawings for the Owner's information in its use of the project. However, due to the potential that the information set forth on the computer disks and/or magnetic tapes can be modified by the Owner or other persons, unintentionally or otherwise, the Engineer reserves the right to remove all indicia of its ownership and/or involvement from each electronic display. For documentation purposes, the original computer files will be retained by the Engineer for a period not to exceed 5 years after completion of the Services. Notwithstanding anything to the contrary contained in this Article 10, the Owner and its successors and assigns shall have (and the Engineer hereby grants to the Owner and its successors and assigns) a perpetual, irrevocable, royalty-free license to use, copy, reproduce, display, perform, and make derivative works from, all documents and all other works of authorship prepared, authored, conceived or furnished by the Engineer in respect to the Project or otherwise prepared, authored, conceived or furnished by the Engineer pursuant to this Agreement, for or in connection with the use, initial construction, rebuilding, alteration or repair of the Project, or for or in connection with any addition to, or expansion of, the Project (but not in connection with any other projects). The Engineer agrees to procure and furnish to the Owner any and all such licenses, in form and substance reasonably acceptable to the Owner, but otherwise consistent with the foregoing, from third parties (such as but not limited to engineers, photographers, or other consultants) whose services have been engaged by or for the Engineer, which may be necessary or appropriate to vest in the Owner and its successors and assigns, the rights contemplated hereby to works of authorships of such third parties. The Engineer also agrees to execute or cause to be executed, and deliver to the Owner, such additional documentation as may be reasonably requested by the Owner in order to carry out the purposes and intents of this Paragraph. The Engineer agrees to indemnify, defend and hold

harmless the Owner and its successors and assigns (individually and collectively the “Indemnified Parties”), from and against any and all damages, including but not limited to any and all losses, liabilities and expenses (including without limitation reasonable attorneys’ fees, court costs and pre- and post-judgment interest), suffered or incurred by, the Indemnified Parties to the extent arising from any infringement or claim of infringement by the Engineer or its agents in connection with the documents or any other works of authorship referred to in this Section.

10.3 Any such use or reuse of any instrument of service by the Owner or others, except as expressly permitted in Section 10.2 above, without written verification or data adaptation by the Engineer for the specific purpose intended will be at the Owner’s sole risk and without liability or legal exposure to the Engineer. Any such verification or adaptation will entitle the Engineer to further compensation at rates to be mutually agreed upon by Owner and the Engineer.

11. Waiver

No consent or waiver, express or implied, by either party to this Agreement, to or of any breach or default by the other in the performance of any obligations under this Agreement shall be deemed or construed to be a consent or waiver to or of any other or future breach or default by such party. Failure on the part of any party to this Agreement to complain of any act or failure to act of the other party or to declare the other party in default hereunder, irrespective of how long such failure continues, shall not constitute a waiver of the rights of such party hereunder.

12. No Third Party Rights

12.1 The Services to be performed by the Engineer under this Agreement are solely for the benefit of the Owner. This Agreement shall not be construed as creating any contractual relationship of any kind between the Engineer and any third party. It is the intent of the Engineer that there are no third party beneficiaries of this Agreement. The fact that the Owner may enter into other agreements with third parties which provide the Engineer the authority to observe the work being performed by the third party shall not give rise to any duty or responsibility on the part of the Engineer in favor of such third party.

13. Miscellaneous

13.1 This Agreement shall be effective upon its execution by the Engineer and the Owner, and shall remain in force until all obligations under this Agreement have been fulfilled, unless sooner terminated as provided herein. Where this Agreement is entered into subsequent to the Engineer’s beginning performance of Services for the Project, the parties acknowledge and agree that this Agreement is intended to and shall govern all services provided by the Engineer for the Project, whether initiated or performed prior or subsequent to the execution of this Agreement, that the effective date of this Agreement shall be deemed to be the first date when any such services were so provided by the Engineer and that this Agreement is intended to and shall supersede and replace any and all prior agreements whether written or oral.

13.3 This Agreement shall be construed and enforced for all purposes pursuant to

the laws of the State of Texas. All claims, counterclaims, disputes, and other matters in question between the Owner and the Engineer arising out of or relating to this Agreement or the breach thereof shall be decided in a court of competent jurisdiction in Travis County, Texas.

13.4 Neither the Engineer nor the Owner shall assign, sublet or transfer the interest in this Agreement without the prior written consent of the other; provided, however, the Owner may assign or transfer its interest herein to any express third-party beneficiary of this Agreement and to an affiliate of the Owner or any entity which controls, is under common control with or is controlled by the Owner. The obligations of the Engineer hereunder are joint and several.

13.5 This Agreement (including all documents incorporated by reference or attached as exhibits hereto) represents the entire agreement between the Engineer and the Owner with respect to the subject matter hereof and supersedes and merges all prior negotiations, representations, discussions or agreements, either written or oral, with respect to the subject matter hereof.

13.6 This Agreement may be amended only by written instrument signed by duly authorized representatives of both the Engineer and the Owner.

13.7 If a provision of this Agreement, or the application thereof to any person or circumstances, is rendered or declared illegal for any reason or shall be invalid or unenforceable, the remainder of this Agreement and the application of such provision to other persons or circumstances shall be not affected thereby, but shall be enforced to the greatest extent permitted by applicable law. The parties agree to negotiate in good faith for a proper amendment to this Agreement in the event any provision hereof is declared illegal, invalid or unenforceable.

13.8 All notices required or permitted hereunder shall be in writing and shall be deemed delivered 3 days after deposit with the United States Postal Service (certified mail, return receipt requested), addressed to the respective other party at the addresses shown below:

If to Engineer: EDGE Engineering, PLLC
3410 Far West Blvd, Suite 315
Austin, Texas 78731
Attention: Travis Kaatz, PE, CFM

Email Address: [REDACTED]

If to Owner: City of Johnson City
303 E. Pecan Dr.
Johnson City, TX 78636
Attention: Rick Schroder

Email Address: rschroder@johnsoncitytx.org

13.9 Time is of the essence of the performance of the parties' obligations pursuant to this Agreement.

13.10 If either party places the enforcement of this Agreement, or any part hereof, or the exercise of any remedy herein provided, in the hands of an attorney who institutes an action or proceeding upon the same (either by direct action or counterclaim), the non-prevailing party shall pay to the prevailing party its reasonable attorneys' fees and costs of court. In addition to the foregoing award of attorneys' fees to the prevailing party, the prevailing party shall be entitled to its attorneys' fees incurred in any post-judgment proceeding or action to collect or enforce the judgment. This provision is separate and several and shall survive the expiration or earlier termination of this Agreement or the merger of this Agreement into any judgment on such instrument.

13.11 In the event there is a conflict between any of the provisions hereof and any proposals, general conditions, specifications or other agreements which may have been executed by the parties hereto in connection with the subject matter hereof, it is understood and agreed that the provisions hereof shall be controlling. The parties acknowledge and represent that this Agreement has been jointly drafted by the parties and that each of them has read, understood, and approved the language and terms set forth herein. This Agreement may be executed in multiple counterparts, each of which shall constitute but one agreement.

13.12 The Engineer expressly waives any right to payment for any Services or Reimbursable Expenses incurred if not billed as Services or Reimbursable Expenses within ninety (90) calendar days following the date such services were rendered or such expenses were incurred.

13.13 Each person who signs this Agreement states that he has the express authority to sign this Agreement and to bind the entity he represents to all of the terms and conditions stated herein.

IN WITNESS WHEREOF, this Agreement is hereby executed as of the date first above set forth.

PROFESSIONAL SERVICES AGREEMENT

ATTACHMENT 1

SAMPLE TASK ORDER

This Task Order dated May 13, 2022 pertains to an Agreement by and between The City of Johnson City, ("Owner"), and EDGE Engineering, PLLC ("Engineer"), dated May 12, 2022 ("Agreement"). The Engineer shall perform Services on the Project described below as provided herein and in the Agreement. This Task Order shall not be binding until it has been properly signed by both parties. Upon execution, this Task Order shall supplement the Agreement as it pertains to the Project described below.

PROJECT NAME: XXXX

TASK ORDER NUMBER: XXX

PART 1. PROJECT DESCRIPTION: XXXX

PART 2. SCOPE OF SERVICES: The Engineer will provide the following Engineering Services set forth in "Exhibit A" for this Task Order.

PART 3. COMPENSATION: The maximum amount payable to Engineer for the services under this Task Order without modification is XXXX. Payment for the services established under this Task Order shall be made in accordance with the Agreement.

PART 4. ACCEPTANCE: This Task Order is hereby accepted and acknowledged below.

Subject: Johnson City Floodplain Administrator Support
Attachments: EDGE_PSA.docx

Rick,

Attached is our standard PSA and rates. Please review and if the terms/rates are agreeable we can prepare the following Task Orders:

- Task Order 1 – Time and materials support to review floodplain permit applications and naming myself as the City's Floodplain Administrator.
- Task Order 2 – Time and materials with a not-to-exceed amount to review the City's floodplain ordinance and provide recommended updates.

We're excited to have the opportunity to work with you and Johnson City. My direct line and cell phone number are in my signature below. I live in Hays County so I'm just a short drive away.

Thanks,
Travis
