Subject: Re: Hello

It was proven to BJ that my pool is connected only to the well in addition to others that inquired . I'm having a new back flow installed because the previous one became clogged and ineffective. Those pages from Amercan Leak were complete to what I was given. Make a date for a council meeting. I will attend or my council will.

Mr. Castro –

I apologize in advance if I led you to believe that I was automatically crediting your utility account. I do not believe I have ever stated that I would credit your account, but rather, that I would send the issue to City Council following sufficient Staff review.

The American Leak Detection report you provided did not include all pages of the document. Moreover, I instructed the Public Works Department to:

- 1. Install a new water meter, which I believe they did.
- 2. Verify that you have a PRV valve. I do not believe this has been completed / verified.
- 3. Confirm, definitively, that the pool / autofill valve is connected to the well and not the Public Water System. I do not believe this has been verified.

I have attached to this email the Public Works Director and Water Supervisor.

Best,

Mr. Castro –

I have reviewed your account, the American Leak Detection report, and average activity on your account. I would like to schedule an inspection for some time next week to confirm some items prior to sending my recommendations to City Council.

Please provide a good date / time for our Utility Department to make inspection. They will need access to your meter / PRV and the pool area.

Best,

Subject: Castro Water cost overage

Rick ,

Hello, as a reminder to the following this is our request for a credit toward future billing regarding our past water usage issues in 2021.

As found, our residential bills going back to 2019 average \$140 dollars a month for all but electricity.

In 2001 we had 4 spikes in our water consumption over 4 months. We requested assistance to investigate the concern. With assistance from Larry and BJ as well as American Leak Detection all was concluded that in fact we had no leaks in our 2 homes or on property. Our irrigation is completely independent and provided by our well. The final theory was the meter was not functioning properly. Also in addition we were away most of April through September when in fact no one was here.

April 2021 water bill was 414.88

May 2021 water bill was 328.71

July 2021 water bill was 472.21

August 2021 water bill was 454.54

These months total an amount we paid automatically and discovered later upon returning. We request a credit of \$1,670.34 to our further billing be applied to our account until depletion.

Thank you for your assistance in this matter. Any questions further we are available.

Sincerely ,

Robert and Nora Castro

To proceed, please sign and return by email to southcentraltx@americanleak.com. Acceptance of this quote does not guarantee automatic scheduling of work. Our office will contact you upon receipt of approval and to obtain deposit information, if needed, and to schedule work. This quote expires 30 days from the Quote Date listed above.

I understand and approve the scope of work in the description below and approve the work to be completed at the amount quoted.

I understand that a deposit is required in order for work to be scheduled, for most jobs. A credit card number on file can be taken as the deposit.

I understand that any change of the scope of work, may result in a change of quote amount.

Authorization and Acceptance

Item	Description	Price
DOM REPAIR	PRV Installation	\$850.00
	For installing a new PRV, the installation would include digging and putting the PRV in a box. We recommend installing a PRV in the near future to reduce the chances of another leak. The estimated cost for this repair will be \$ 850.00. However, if the water heater does not have a pressure tank, it is not up to code and will need to be updated. The estimated cost for the PRV installment and updating the water heater will be \$1150.00.	
DOM REPAIR	Bringing Water heater up to code	\$300.00

DOMESTIC LEAK INVESTIGATION

Customer Information

Homeowner's Name	Robert Castro
Work Order #	19681
Testing Address	401 N Avenue N, Johnson City, TX 78636
Date of Service	Aug 20, 2021
Homeowner's Phone #	702-366-3778
Work Performed by:	Kaleb Douglass By AO
Payment Type	Credit Card

Pictures of Home

REASON FOR TESTING/SITE CONDITION

Reason for Testing	Recently, this property has been experiencing higher than average water bills. This indicates a potential leak on the domestic water system.
Is there water surfacing at this property?	No

INITIAL TESTING

Was the Water Meter Monitored?

The meter was registering forward and backward at different times. No constant flow was observed.

Domestic Electronic Points Testing

Were Leak Sounds Heard?

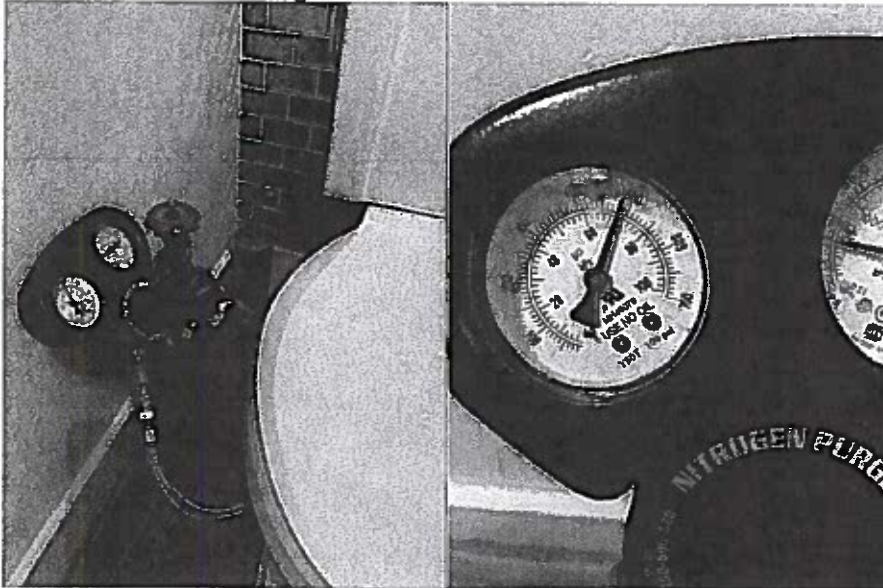

No

DOMESTIC PRESSURE TESTING

What was the Incoming Pressure Gauged at During the Time of Testing?

We have an incoming pressure of 70 PSI.

Picture of the Incoming Pressure

What was the Pressure Increased to?

The pressure was increased to 80 PSI.

Results of the Pressure Testing

A Test Gauge was installed onto the Domestic Water System and a pressure test was performed. The Domestic Water System held pressure for 30 minutes, indicating that there are no leaks on the Domestic Water System at this time.

TECHNICIAN'S ADDITIONAL NOTES

Notes Pool water source is provided only by well on property.

The Homeowner has been experiencing high water bills. The domestic water lines were tested and no leaks were found.

The Homeowner did mention that the autofill valve to the pool was off and that the pool company has replaced the valve at the pool.
