VISIT JOHNSON CITY

MARKETING & PUBLIC RELATIONS SERVICES – REQUEST FOR QUALIFICATIONS / PROPOSALS

The City of Johnson City, Texas requests that each firm provide a written presentation outlining the firm's qualifications for marketing, creative, media buying, and public relations services.

BACKGROUND

The City of Johnson City, Texas (the "City") is a Type A General Law Municipality located within the Texas Hill Country. Incorporated in 1944, Johnson City seeks to promote tourism and the convention / hotel industry through marketing research, advertising, and public relations efforts.

Each respondent shall furnish the information required in the Scope of Services. Responses submitted in any other format may be rejected at the sole discretion of the City.

It is the respondent's responsibility to ensure that responses are received by the City, 303 E. Pecan Dr. (Physical), P.O. Box 369 (Mailing), Johnson City, Texas 78636, no later than the closing deadline stated on the cover page. Responses received after the closing deadline will not be accepted or considered. No telegraphic or facsimile responses will be considered.

All responses must be submitted with one (1) original and two (2) copies. The original and copies must include the Request for Qualifications / Proposals cover page, the signature section, any section on which annotations are required or exceptions are taken, and any supporting documentation or literature being submitted with the response.

It will be the responsibility of the respondent to contact the City prior to submitting a response to ascertain if any addenda have been issued, to obtain all such addenda, and to return executed addenda with their response.

The winning respondent will report directly to the Chief Administrative Officer (CAO) on its activities in accordance with other policy. The winning respondent will be required to present updated materials, ideas, and designs to the City Council quarterly.

The winning respondent will assume responsibility for the performance of all required services, whether or not subcontractors are involved. The City will consider the winning respondent to be the sole point of contact with regard to all materials and will not maintain contacts with any subcontractors. The winning respondent will specify any subcontractors it intends to use and what their function(s) will be.

All materials, ideas, designs, and layouts developed for the City under this contract are the property of the City, may not be used for any other purpose without prior written consent, and will remain the sole property of the City regardless of termination of services for any reason. If

subcontractors are used, the winning respondent shall obtain all necessary releases to ensure all materials, ideas, and layouts are the property of the City.

RESPONSE AND SIGNATURE SECTION

The City reserves the right to reject any or all responses, without recourse, to waive technicalities, or to accept the response which, in its judgement, best serves the interests of the City. Respondent's submittal costs are considered an operational cost of respondents and shall not be passed on to or be borne by the City.

The City reserves the right to request any additional information needed for clarification from any respondent(s) during the evaluation period of the responses.

Failure to comply with these instructions may be cause of disqualification of your response.

Website: codyemersonbullfighter.com

Standard Objective

Create a platform for our client to build brand awareness, direct fans, and potential sponsors.

Target Audience

Professional Rodeo fans and corporate sponsors

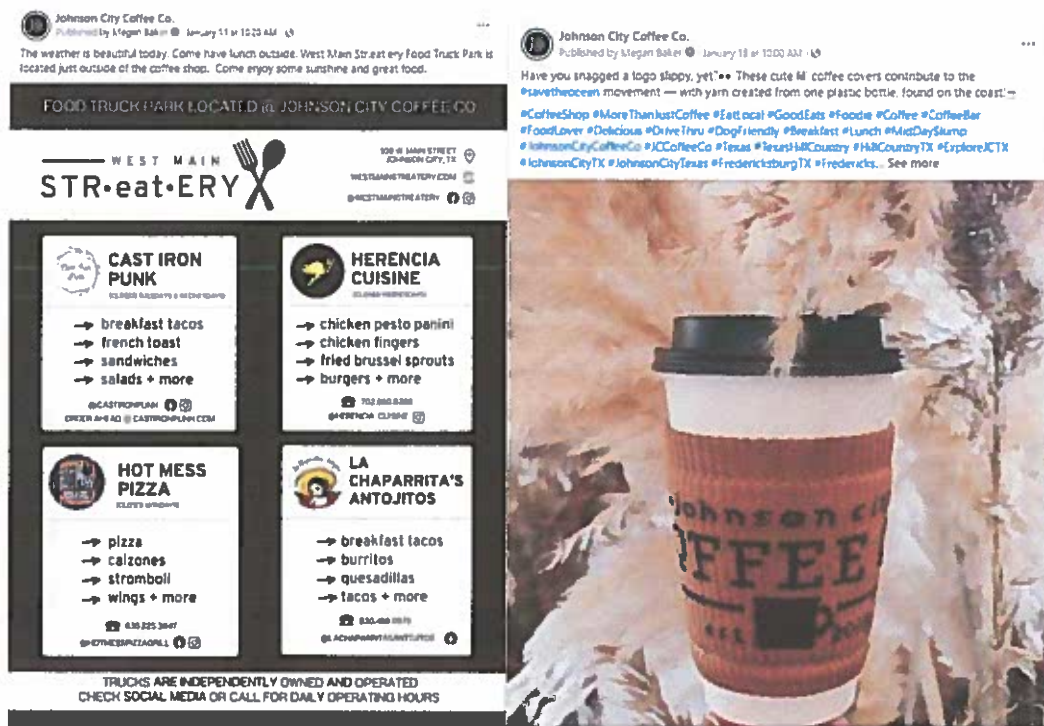

Strategy

The majority of Professional Bullfighters do not have a strong brand image nor do they go after sponsorship agreements and we are changing this. Professional Bullfighters are professional athletes, and they are not leveraging this.

Results

Although we just went live with the website we have already seen the benefit of having a professional brand image in our solicitations of sponsorship agreements

Social Media

Cody Emerson, Professional Bullfighters Sponsorship Information Packet

Standard Objective

Create a sponsorship packet to utilize in the solicitation of new sponsorship agreements.

Target Audience

Corporate sponsors

Strategy

Create clean logo that is easily identifiable and relevant for the client and then build the sponsorship packet around that logo.

Results

This project was just completed but has been instrumental in the solicitation process.

Collateral

Standard Objective

Inform Lights Spectacular attendees about Johnson City Coffee Co & West Main Streatery.

Target Audience

Lights Spectacular attendees

Strategy

Volunteers at Elf Shack during Lights Spectacular hand out to tourists and local restaurants give them to guests looking for a quick option versus waiting.

Results

Client received more walk-in customers than in previous years during Lights Spectacular although more is still needed to drive customers to their business from the courthouse area.

Anatomy of Effectiveness

KEY INSIGHTS

- Today online consumers are spending a lot more time researching and evaluating products and services before buying.
- You never know where someone will be on the customer journey when they encounter your brand or visit your website.
- It is important that you can meet each customer where they are at and continue to move them through the funnel.
- For Visit Johnson City, we recommend focusing on the top and mid funnel, generating awareness of the City as a destination and engaging them with your creative messaging. This will help build a greater pool of prospects interested in planning a trip to the City as we head towards peak summer travel.

OBJECTIVES

- ✓ **Strengthen awareness and consideration for Johnson City as a travel destination among relevant travel audience members**
- ✓ Impressions & Audience Reach
- ✓ Click Through Rate (CTR)
- ✓ Video Completion Rate (VCR)
- ✓ Creative Assistance (Standard Units)

SOLUTIONS

Generate awareness and favorability for Johnson City with display banners, and native units, maximizing reach among qualified prospects and encouraging them to click through to the website (CTR).

Strengthen engagement and consideration among prospects with Pre-Roll Video, driving users to complete the on-screen message (VCR).

Use CIQ's **custom audience targeting** (including demographic, transactional & behavioral data) to connect Visit Johnson City with in-market prospects across their devices.

RYPL by CIQ activates social graphing data to increase digital marketing performance.

We apply the likelihood of individual user action to our **multi-variate optimization algorithm**.

RATIONALE

Display is an efficient advertising format for driving site traffic due to its vast cross-device reach on desktop, mobile and tablet. In addition, the efficient cost model provides us with a scalable format to **optimize performance, train our audience models and provide deeper audience insights**.

Native ad units are also an effective way to capture attention and build relevance. Immerse Visit Johnson City's ads within publisher's sites (likely travel sites) to provide users with a seamless ad experience without sacrificing the best that digital marketing has to offer—**precise targeting, scale, and ease of execution**.

Utilize your best sight and sound assets to deliver a powerful branded experience across digital screens, engaging users with your messaging, **improving understanding of the city, differentiating it from competitive markets, and strengthening consideration**. This will strengthen favorability and intent as prospects move into the latter stages of the sales cycle.

Utilize CIQ's **unified proprietary cross-device profiles** (2B unique profiles globally) to ensure a high degree of relevancy.

We take it further with RYPL. We consider the **effects everyday influencers** have on the consumer's path to purchase and use that information to create a viral impact.

Using **CIQ's predictive analytics**, we're able to understand the business value of each user and impression. To ensure that we're meeting Visit Johnson City's performance goals, our data scientists continuously fine-tune CIQ's robust models and optimization solutions.

Sophisticated Targeting

IDENTIFYING TRAVEL PROSPECTS

- In Market Travel Planners
- Domestic Travelers
- Travel Enthusiasts
- Roadtrippers
- Interests: Wine Tasting, American History, Southern Culture etc.

How We Do It

Rather than target single dimensions of data, Causal IQ employs multi-variate optimization to weigh all attributes within a user's profile, including negative predictors.

- ✓ Pre-stage qualifying demographic dimensions like age, gender, household income, family members and more as pre-stage qualifiers.
- ✓ Crosschecked psychographic characteristics like personality, values, social media usage, travel attitudes, interests, and lifestyles.
- ✓ Generate predictive models based on online and offline transaction-level data across all major card payment networks, including past travel and related purchases (hotels & car rentals) indicating prospects would be interested in a trip to Johnson City.
- ✓ Location based data indicating previous domestic travel – specifically to cities across Texas (Cuebiq, Placed, Factual etc).
- ✓ Related contextual and keyword targeting indicating relevant travel intent in the near future, as an additional layer of accuracy.

Hyper-Targeting Geographical Markets

EVERYTHING'S BIGGER IN TX

➤ Texas Only

CIQ achieves precise geolocation through partnerships with leading geolocation partners such as MaxMind & IP2Location.

- The gold standard for establishing IP geolocation accuracy involves comparing databases against ground truth data, known IP-location pairs.
- CIQ receives a user's IP address in the user-agent string at the time of bid.
- CIQ passes this IP address to IP2Location and receives a geolocation as precise as latitude and longitude to six decimal places.

Contextually-Relevant Media Audience Segmentation

FROM INDEXING TRAVEL INVENTORY

The Causal IQ optimization algorithm leverages a proprietary inventory taxonomy to deliver media via contextually-relevant, high-performing inventory sources to user profiles while users browse relevant content. Sample travel sites that perform well among prospective travelers include:

Kayak.com

Kayak is an American online travel agency and metasearch engine. KAYAK is ranked very highly among websites globally based on its 30.5M monthly web visitors.

Hotels.com

Hotels.com is a website for booking hotel rooms. The company lists over 325,000 hotels in approximately 19,000 locations.

Travelandleisure.com

Travel + Leisure is a travel magazine. Published 12 times a year, it has 4.8 million readers.
