### *Appendix III: Housing Cost Spreads between 1990 and 2008-2012*

NOTE: On the next four tables, the value spread of \$1,000 to \$1,499 is left empty for 1990 because the Census did not include the category. Rather, the 1990 Census included housing costs of greater than \$1,000. As such, for 1990, the number of households in the "\$1,500 or more" category really equals "\$1,000 or more."

*Housing Needs. Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the Asset Management and Housing Choice Voucher Program tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.*

**Statement of Housing Needs**

Greater Dayton Premier Management works with the local jurisdictions of Montgomery County, the City of Dayton and the City of Kettering to ensure that GDPM housing activities are aligned with the housing needs of the community. Each jurisdiction provides Consolidated Plan information to GDPM for the PHA planning process and to complete the housing needs statement for the Annual Plan. GDPM reviewed the 2013-2018 Montgomery County Consolidated Plan, the Cities of Dayton and Kettering joint Consolidated Plan for 2011-2015 to identify and confirm housing needs within community. In addition, maps and data analysis of U.S. Census Data and American Community Survey data were reviewed from the Miami Valley Regional Planning Commission, [http://www.mcoho.org/services/planning\\_commission/docs/MOT\\_1.pdf](http://www.mcoho.org/services/planning_commission/docs/MOT_1.pdf). The maps reviewed from MVRPC provide GDPM with information regarding the location of geographic needs related to poverty, as well as, various housing needs throughout the community.

According to 2010 Census data, approximately 535,154 persons reside in Montgomery County and 141,761 reside in Dayton. Census data estimated that 89,906 (or 16.8%) of Montgomery County residents are living in poverty, and 47,717 (or 33.8%) of Dayton residents are living in poverty. The Average Median Income is \$43,895. 2010 Census data indicated that 49.6% of Montgomery County renter households are spending more than 30% of their household income toward rent which is considered a housing costs burden. Burdens for homeowners are similarly high, with Census data estimating that 31.7% of Montgomery County homeowners are spending more than 30% of their household income toward housing.

Analysis of GDPM's HCV and Asset Management waiting lists indicates that there is a shortage of affordable housing for low income residents of Montgomery County, particularly families with extremely low income (less than 30% of AMI). Currently, the asset management housing waiting list contains 2,774 households, and the Housing Choice Voucher wait list contains 162 households representing a total of 2,936 families seeking affordable housing. The combined waiting lists contain approximately 93 percent of the households, in the extremely low income category, 4 percent in the very low income category and the remaining 2 percent considered in the low income bracket.

Families with disabilities represent 16.08% of the asset management waiting list, and 0% of the HCV waiting list. Elderly families represent 3.35% of the asset management waiting list and 0% of the HCV waiting list.

The following table outlines the bedroom size needs for families currently represented on the asset management waiting list.

Characteristics by Bedroom Size	# of Families Requested	Percent of Total Request
1 BR	1,494	53.9%
2 BR	925	33.3%
3 BR	275	9.9%
4 BR	35	1.3%
5 BR	4	.1%
5+ BR	2	.1%

9.0

*Strategy for Addressing Housing Needs. Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list in the upcoming year. Note: Small, Housing Choice Voucher Program only, and High Performing PHAs complete only for Annual Plan submission with the 5-Year Plan.*

In order to address the housing needs identified in section 9.0 and of the applicants on the waiting list, GDPM will:

1. Maximize the number of affordable units available to GDPM by:
  - a. Implement policies and strategies to reduce off-line units;
  - b. Reduce vacancies two (2) percent per year in Asset Management units;
  - c. Reduce time to make vacant units available;
  - d. Seek replacement of Asset Management units through demolition/disposition and mixed finance development;
  - e. Utilize all HUD approved Budget authority for the Housing Choice Voucher Program.
  - f. Participate in the Consolidated Plan development process to ensure coordination with broader community strategies;
  - g. Explore the use of Capital Funds Financing to leverage the renovation of additional asset management units;
  - h. Increase the number of accessible units in GDPM's asset management portfolio.
2. Increase the number of affordable housing units by:
  - a. Apply for additional Housing Choice Voucher units and funding as they become available;
  - b. Leverage affordable housing resources in the community through the creation of mixed finance housing;
  - c. Leverage Replacement Housing Factor Funds through the acquisition rehab and new construction of affordable housing units.
3. Provide housing resources for the homeless:
  - a. Continue to develop alternative housing for homeless in partnership with other agencies;
  - b. Set aside the remaining 135 (of the original 250) Housing Choice Vouchers for Project-based housing to assist the homeless in Montgomery County owned and operated by GDPM. GDPM plans to issue the remaining vouchers by 2016.
  - c. Temporary and permanent conversion of Asset Management units.

9.1 Currently, GDPM is working with for profit developers to build capacity in an effort to increase the affordable housing stock in both the City of Dayton and in Montgomery County. The Germantown Broadway project is an example of a mixed finance project to be modeled during this current 5 year plan. A summary of the project and future phases are as follows:

The Germantown Broadway Project is projected to be a four phase revitalization project that is sanctioned by the City of Dayton. GDPM was awarded LIHTC's for Germantown Village Phase I which includes the construction of 60 multi-family units at the northeast corner of the intersection of Germantown and Broadway Streets. The development will include community and green space. The facility will be developed in conjunction with Michaels/Model Group as the co-developer.

The first phase of the Germantown Broadway project required the Authority to acquire approximately 55 lots. Many of the lots were vacant and in foreclosure. Currently all 55 of the lots are under the control of GDPM and the developer. The Germantown Broadway development is projected to be a four phase revitalization project that is sanctioned by the City of Dayton. GDPM may apply for phase II LIHTC funding during the FY15-18 Five Year Plan. Phase II is anticipated to include the construction of up to 80 mixed income units. The development may be developed in conjunction with a developer Michaels/Model Group.

The funding sources for the developments includes Replacement Housing Factor Funds, proceeds from the sale of several properties GDPM has liquidated in the past, City of Dayton CDBG and/or HOME funds, HDAP, and Low-Income Housing Tax Credits. These funding requests will be from the preservation pool or the pool most suitable for the proposed development.

Wilkinson Plaza may be considered for repositioning as mixed income housing. The site is located in downtown Dayton. This site has excellent access to downtown Dayton and surrounding communities via State Route 35 and Interstate 75. Public transportation is also available. The site is within close proximity of two Dayton parks, shopping, Miami Valley Hospital, Sinclair Community College and the University of Dayton.

GDPM has partnered with developers to assist in assembling financing for each phase of the implementation plan using various sources of public and private funding at the federal, state and local levels. The developer is expected to secure additional funding including, but not limited to tax credit equity, state funds, Federal Home Loan Bank funds, and as appropriate bank loans/mortgages. Additionally, the Authority is looking to continue to acquire and rehabilitate units as a part of the Authority's approved Replacement Housing Factor Plan.

As mentioned in previous sections of this plan, GDPM will continue to explore partnerships to address housing needs, as well as expand social service options for clients.
