

# Medical Marijuana Options & Timelines

## Do Nothing:

- Moratorium ends May 31, state law regulations in effect June 1.
- No further Council action necessary.

## Enact Kettering-specific regulations, stricter than state law:

- Need to extend moratorium beyond May 31.
- Staff time needed to write proposed regulations.
- Zoning Code change requires P.C. and Council process with public hearings.
- Business Regulation enacted through regular ordinance process (two readings with or without public hearings).
- Would be enacted by end of 2018.

## Fully prohibit Medical Marijuana:

- Minimal staff time to write proposed regulations.
- Could be enacted quickly by emergency ordinance to stay within May 31 moratorium deadline, if desired.
- If public input desired, could go through either the P.C. process or Business Regulation process listed above.
