

SYNC YOUR DEVICE

Apple
Watch

1

Mouse over “Fitness Center” and select “My Fitness”. Select “Link Your Apple Watch”

2

Download the “WVConnector” app on your iPhone. Select allow for the app to send notifications.

3

In the app, click on the “Scan QR” button. Hold your phone’s camera up to the computer screen to scan the code. This will connect your watch to Wellvibe.

4

Select “Turn On All Categories” on the permissions screen and then hit “Allow” in the top right hand corner.

fitbit®

1

Mouse over “Fitness Center” and select “My Fitness”. Select “Link Your Fitbit Account.”

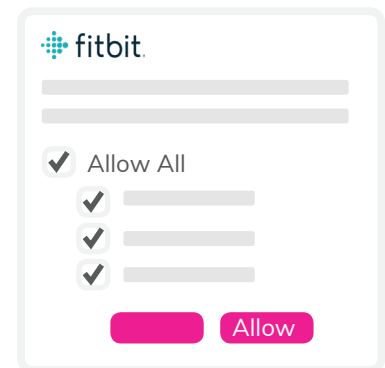

2

Log in to your Fitbit account.

3

Give Wellvibe permission to access your Fitbit Data by checking “Allow All”, then click the “Allow” button.

Having Trouble?

Try disconnecting and re-connecting your device. If you still have trouble, visit our knowledgebase for more answers:
