**Subject:** Government Center Campus Re-Opening to the Public June 1

---

Good afternoon, everyone.

We are inching our way back to traditional City operations, and I am thrilled. As the state of Ohio lessens the restrictions, we can breathe a bit easier. Beginning **June 1, 2020**, the north and south buildings at 3600 Shroyer Road will re-open to the public.

While customers are encouraged to continue using online services and communicate via email and telephone, we are receiving visitors in person starting Monday. Signage will be posted to appropriately direct visitors; however, please be patient and helpful if one or two miss the messaging.

Shielding, personal protective equipment, cordoning, signage, sanitizing and recognizable Xs are in place to protect you, our visitors and create a natural, understandable flow to ensure safe distancing. Supervisors and directors will convey protocol to their employees working in these two buildings, if necessary. Your safety remains our top priority, and we are making sure every precaution is being taken.

This is another step toward the peak! Hang in there. Try to remember that every day may not be good, but there's something good in every day. And, finding the good is the win.

See you next week.

Mark

Mark W. Schwieterman
