

HABITAT AND ENVIRONMENT

The Habitat Environmental Center allows all ages to learn about nature. Year-round programs are offered, as well as summer camps filled with hands-on experiences. In partnership with the Kettering City Schools, a curriculum based Land Lab program is also offered for students in kindergarten through fifth grade. The mission of the Habitat is to teach residents about how we impact our world and how to become better stewards of the environment. Learn about Earth, science, nature and how to love the great outdoors.
