

# Inclement Weather Information

In the event of inclement weather conditions, the Kettering Parks, Recreation and Cultural Arts Department (PRCA) may cancel programs/special events/ drop-in activities and/or close a portion of, or entire facilities based on the severity of the situation. Decisions may be based on current or anticipated weather conditions, staff availability, and our ability to provide safe, accessible facilities.

Affected PRCA facilities include:

**Kettering Recreation Complex**  
**Charles I. Lathrem Senior Center**  
**Adventure Reef Water Park**

**Kettering Fitness & Wellness Center**  
**Rosewood Arts Centre**  
**Habitat Environmental Center**

**Programs/Activities** are defined as any registered/prepaid classes or activities that are led by an instructor or qualified facilitator. This includes daily drop-in exercise classes (land and water), CIL transportation, and drop-in/non pre-paid or planned art activities facilitated by a staff member.

**Drop-in Activities** are defined as those that occur in areas of the facility where patrons pay a one-time fee to participate and do not need a staff person to lead the activity. *Examples include: CIL bingo, Rosewood Studios, senior card groups and the senior lunch program.*

**Facilities** may be closed, or operations altered, when appropriate staff is not available to supervise the facility or patrons. *Examples include open skate, drop-in gym, open swim, senior gym and the nursery.*

## **Adventure Reef Water Park**

In the event of lightning or thunder, facility staff will clear the water park, main pool and spa areas for 30 minutes after the last occurrence. After 90 – 120 minutes of continuous inclement weather, the water park will close for the remainder of the day.

The water park will close on days when the air temperature is below 70 degrees or the number of patrons drops below 25.

Refunds are not issued for inclement weather; however, we will offer a free admission coupon to those guests who are still at the water park when the decision to close, due to inclement weather, is made.

Based on time of day and programming schedules, the main pool and spa areas may reopen after any weather related delays, at the discretion of facility management.

**PRCA will communicate weather-related cancellations and closures via:**
