*Each Certified Group Exercise Instructor is unique, with some teaching exercise classes in a darkened atmosphere and some in a lighted atmosphere. An * denotes classes taught in a darkened atmosphere; ** denotes classes taught in a lighted atmosphere.

CLASS DESCRIPTIONS

BOOT CAMP — A little bit of everything—cardio, strength, and intervals. When weather permits, we head outdoors. Inside, we get creative with equipment (weights, medicine balls, kettle bells, stability balls, etc.) and use our body weight for an awesome workout.

CARDIO CROSS TRAIN — It's part step, part aerobic dance, part kick box, part stability balls, part intervals—all heart-pumping cardio! Get your cardio workout in a variety of ways (depending on the instructor).

CORE CRUNCH — A mix of Pilates, Yoga, and balance exercises to strengthen the core. Light cardio moves may be added; class is appropriate for all fitness levels.

FRIDAY FITNESS FUN — This 45 minute class will get your heart pumping and your feet moving! This class is designed from different formats of cardio, strength, core, circuit, intervals and more. All fitness levels welcome and modifications will be incorporated.

INDOOR CYCLING — There's nothing like a cycling class to get the heart pumping and the sweat flowing. Burn more calories in 55 minutes than most people burn all day! Pedal to the music as you climb mountains and sprint at top speeds.

KICKBOXING — It's cardio and martial arts all in one. Get your heart rate up while learning different kicks and punches. Occasionally, the instructor will use extra equipment such as "swords", gloves and blocks.

LAND AEROBICS AND WEIGHTS/LAND INTERVAL — Get both cardio and strength training in during one class. Choreographed aerobic dance, step along with weight training.

LENGTHEN AND STRENGTHEN — Class emphasizes both the strengthening and stretching of the body using weights, fit balls, bands, mats, and our Studio Wall.

PARKINSON'S CIRCUIT CLASS — Specifically designed for people living with Parkinson's focused on improving balance, flexibility, motor skills and overall strength.

PILATES/EXPRESS PILATES — A mind-body exercise form focusing on stretching and core strength using mat-based movements that rely on gravity and body weight. Additional equipment such as weights, bands, and stability balls may also be used for modification and challenge.

POUND® — Combination cardio and strength with constant simulated drumming. Yes, with drum sticks!

STEP — Get your heart rate up doing choreographed dance moves on the step.

STRONG BY ZUMBA® — Combines high intensity interval training with the science of synced music motivation in every class, music and moves "sync" in a way that pushes you to reach your fitness goals faster.

TRX — Great strength training for people of any fitness level. Using straps, your body weight and the angle of your body you increase or decrease difficulty.

TRX BOOT CAMP — Utilizing the TRX straps, ladders, cycle bikes, weights and much more for a cardio, strength, flexibility training class, designed for all fitness levels with a yoga warm down to complete your workout.

WEIGHTS — Strength training using a variety of equipment (weights, bands, tubing, body bars, fit balls).

YOGA/YOGA FLOW — Breath control, simple meditation, and specific postures practiced for health and relaxation.

YOGALATES — Combines the benefits of both Yoga and Pilates including core strengthening, muscle toning, flexibility and stress reduction.

ZUMBA® — A Latin-inspired, calorie-burning dance fitness class that blends upbeat Latin, pop, and international rhythms with easy-to-follow moves for a total body workout that feels like a celebration.
