

Attention Lap Swimmers!

Won't you join us on a journey?

Together, let's make that California trip—from Chicago to L.A., more than two thousand miles all the way!

How long will it take us to travel the length of Route 66?

Can we make the entire **2,448 miles** by the end of 2019?

We won't know until we try!

To participate, stop by Checkpoint at the end of each lap swim and record your name and distance. Each week we will compile the total distance we have traveled together and add it to the map on the bulletin board.

Once our destination has been reached, all participants will receive a prize to let everyone know that they helped us complete the road trip of a lifetime!

LET'S GET YOUR *KICKS* ON ROUTE 66
