Artists offering handmade gifts for sale, festive performances by community groups, artist demos, kids' activities, and much more.

### Parks

Results from the PRCA community survey showed support for natural areas and wildlife habitats within our parks. We want to hear more ideas from PAC for how we look to utilize these and new areas within our current parks to transition them to not only reduce our maintenance impacts, but build on the areas that bring great diversity and experiences to our neighborhood and community parks.

#### Visit one of our Neighborhood Parks and provide feedback on the survey

1. Pondview Park
2. Southdale Park
3. Prugh Woods (Adjacent to KRC off Prugh Woods Drive)

Tell us about your experience and explain the things you enjoyed. Think about other park systems and park districts and provide feedback for how we can maximize these areas based on innovative and unique features you have seen elsewhere.

Please choose at least one item in each category and complete a survey about your experience.
