

Treasurer's Report – Quarterly Investment Report August 13, 2024

TO: Honorable Mayor and Members of the Town Council
FROM: Ami Chilton, Finance Director
DATE: August 1, 2024
RE: Treasurer's Report – Investment Report for the Quarter Ended 06-30-24

Recommendation:

Receive and file.

Issue Statement and Discussion:

It is the policy of the Town of Loomis (the Town) to invest public funds with the primary objectives, in priority order, of safety, liquidity and return on investment while conforming to all State and Town statutes governing the investment of public funds.

California Government Code Section 53646 requires a quarterly investment report be submitted to the Town Council. Such report shall include at least the following information:

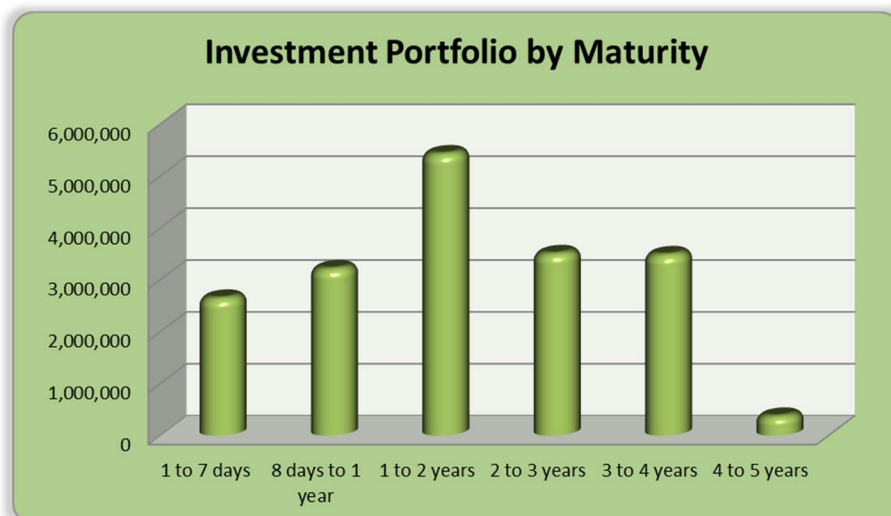

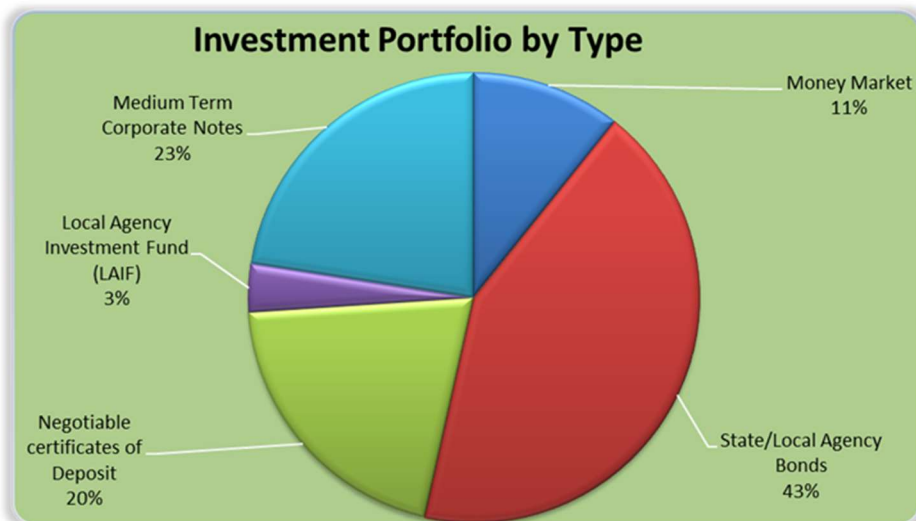

- Types of Investments.
- Name of the institution in which funds are invested or deposited.
- Date of Maturity, if applicable.
- Par and dollar amount invested for all securities.
- Percent distribution of each type of investment or deposit; current market value as of the date of the report, including source of the valuation except those under LAIF.
- Rate of interest.
- Average weighted yield of all investments.
- A statement relating the report to the Town's Investment Policy; and
- A statement that there are sufficient liquid funds to meet the Town's operating requirements which might be reasonably anticipated.

Other Information

The total investment portfolio at June 30, 2024 is \$18,661,497.94. Investments are reported on a Fair Value Basis (Market Value) – often referred to as "Mark to Market" on the Balance Sheet. This valuation method recognizes market fluctuations as they occur and changes in the fair value are reported on the income statement as revenue or loss.

A listing of individual securities held at the end of the reporting period by authorized category is included in the attached Quality Analysis Report.

Strategy

Currently, Town staff evaluates cash flow and maintains a conservative balance in the Wells Fargo checking account to meet current and short-term needs. Any excess funds are being invested in the Local Agency Investment Fund (LAIF) which has a current average effective yield of 4.48%. Any funds required to meet short term needs more than the checking account balance will be withdrawn from LAIF.

The current reinvestment strategy for bonds, securities and CD's is to roll maturities into the Money Market Account held at BNY Mellon which has a current market yield of 4.96%. Withdrawals from this account can also be made to meet short-term cash needs.

New investments outside of the Money Market account and LAIF are currently on hold. Staff is investigating the possibility of engaging an investment firm to guide and direct the Town's investments. The annual review of the Town investment policy will be part of this review process.

CEQA Requirements
