F. PERMIT-RELATED INFORMATION

Please read the following information and sign the next page

Time limitation of application. An application for a permit for any proposed work shall be deemed to have been abandoned if work hasn't commenced within 180 days, calculated after the date of filing, unless such an application has been pursued in good faith, or a permit has been issued. The Building Official may extend the time for action for a period not exceeding 90 days upon written request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken.

Any application not issued prior to the effective date of any new law, statute, provision, ordinance, or any revision or update to the same, that directly or indirectly applies to code regulation and enforcement, will be deemed void, and a new application shall be made, and new fees shall be calculated and collected at the rates currently in effect at the time of the new application.

Permit Expiration. Every permit issued by the Building Official under the provisions of the Technical Codes shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 365 days of permit issuance, and/or completed within the prescribed time frame, as determined in Table 105. Permits where no inspection activity has occurred for a period of 180 days, and the permit has been determined to be abandoned, may be expired administratively if no attempt is made by the permittee to retain the permit's open status.

Before work can be recommended, the expired permit shall be renewed. The minimum fee for renewal will be calculated as one hour of inspection time, plus one hour of administrative work time, multiplied by the current labor rate for the appropriate positions. The maximum renewal fee will not exceed the full permit fee cost, provided no changes have been made or will be made in the original plans and specifications for such work; and provided further that such suspension or abandonment has not exceeded 180 days, as prescribed by California Health & Safety Code 18938.6.

Permits deemed to have been expired, suspended or abandoned shall be subject to all permit-related fee increases, and new fees and code requirements currently in effect at the time of permit renewal as applicable, subject to the discretion of the Building Official.

All permits will become null and void ("closed") 180 days after the prescribed expiration date as described in Table 105.

The Building Official may extend the time for action by the permittee upon written request showing that circumstances beyond the control of the permittee have prevented action from being taken. Extensions may be granted in no more than 180 days increments.

Permit Description (and Type)	Expiration Point for Plan Approval and Issuance of Permit
<i>New Residential Custom Homes</i>	180 days from plan approval; 365 days from issuance of permit; 365 Days to pass Final Inspection
<i>Residential Alteration, Remodel</i>	180 days from plan approval; 365 days from issuance of permit; 365 Days to pass Final Inspection

<i>Residential Accessory Structures</i>	180 days from plan approval; 365 days from issuance of permit; 365 Days to pass Final Inspection
<i>Residential Incidental Permits (re-roof, interior demolition, etc.)</i>	180 days from plan approval; 365 days from issuance of permit; 365 Days to pass Final Inspection
<i>Residential Exterior Demolition – Full Structure</i>	180 days from plan approval; 365 days from issuance of permit; 365 Days to pass Final Inspection
<i>Residential Pool and/or Spa</i>	180 days from plan approval; 365 days from issuance of permit; 365 Days to pass Final Inspection

Placement of Permit. Work requiring a permit shall not be commenced until the permit holder or an agent of the permit holder shall have posted the building permit in a highly visible location on the job site to allow the Building Official to conveniently make the required entries thereon regarding inspection of the work. The permit application, or a copy, and all correction notices must be kept with the building permit. This permit shall be maintained and made available by the permit holder until completion of the work and final approval has been granted by the Building Official.

Refunds. The Building Official may authorize the refunding of any fee paid here under that was erroneously paid or collected. The Building Official may authorize the refunding of not more than 40 percent of the total permit fee paid when no work has been done under a permit issued in accordance with this Code. Where no plan review fee was required, the Building Official may authorize the refunding of not more than 80 percent of the total permit fee paid when no work has been done under a permit issued in accordance with this Code. The Building Official may authorize the refunding of not more than 80 percent of the plan review fee paid when an application for a permit for which a plan review fee has been paid is withdrawn or canceled before any plan reviewing is done. The Building Official shall not authorize the refunding of any fee paid except upon written application filed by the original applicant no later than 180 days after the date of fee payment.

HOA/ Subdivision Design Review Committee. Building permit approval and issuance does not constitute Homeowner's Association or a subdivisions' Design Review Committee approval. It is the applicant's responsibility to contact the necessary association to obtain project approval prior to work beginning.

CALIFORNIA BUILDING CODE / CALIFORNIA RESIDENTIAL CODE

CBC Section 105.6 / CRC Section R105.6- Suspension or Revocation - The building official is authorized to suspend or revoke a permit issued under the provisions of this code wherever the permit is issued in error or on the basis of incorrect, inaccurate or incomplete information, or in violation of any ordinance or regulation or any of the provisions of this code.

CRC Section R105.8. Responsibility. It shall be the duty of every person who performs work for the installation or repair of building, structure, electrical, gas, mechanical or plumbing systems, for which this code is applicable, to comply with this code.

CRC Section R108.6 - Work Commencing Before Permit Issuance - Any person who commences any work requiring a permit on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits shall be subject to a fee established by the applicable governing authority that shall be in addition to the required permit fees.
