RE: Collection Development Policy Updates

Recommendation

Adopt the updates to the Collection Development Policy as proposed.

Issue Statement and Discussion

In 2018, the Loomis Library & Community Learning Center adopted a Collection Development Policy. This policy helps govern the selection of materials included in the library collection. In September 2024, California passed the California Freedom to Read Act (AB 1825) which requires specific language to be used in a library's collection development policy. This update reflects the required changes.
