

Staff Report

TO: Staff Report Council
FROM: Mary Beth Van Voorhis, Planning Director
DATE: February 9, 2021
RE: General Plan Update –Committee Assignments

Recommendation

Town Councilmembers will appoint remaining General Plan Committee Members for Circulation, Environmental Justice, Land Use and Community Development, Public Services and Facilities, Conservation of Resources, and Public Health and Safety, including sub-committees.

Issue Statement and Discussion

Town staff began outreach for volunteers to serve on the various General Plan Update Committees in August 2020.

At the November 10, 2020 Town Council meeting and the December 8, 2020 Housing Committee members were assigned.

At this time, Councilmembers have reviewed the 57 remaining applications received to determine their recommendations.

Each Committee will be comprised of the following members:

Chairman	A Councilmember assigned by the Town Council (1)
Vice-Chairman	A Planning Commissioner assigned by the Town Council (1)
Committee Member	A volunteer, selected by each Councilmember (5 total)
Auxiliary Member	A volunteer, selected, one each, by the Chairman and Vice Chairman of the representative Committee (2)

Each assigned Committee will consist of 9 members.

Sub-Committee assignments:

Chairman	As selected by Town Council for the Main Committee
Vice Chairman	As selected by Town Council for the Main Committee
Committee Member	A volunteer, selected by each Councilmember (5 total)
Auxiliary Member	A volunteer, selected, one each, by the Chairman and Vice Chairman of the representative Committee (2)

Note: Auxiliary Members are non-voting committee members and are not required to reside within the Town of Loomis limits to serve.

There are numerous persons who have volunteered to serve on a main committee and the related sub-committees. Example: A volunteer of the Land Use Committee can also serve on various sub-committees of interest, Parks and Recreation and Economic Development. This could lead to less sub-committee

members but would still meet the committee formation obligation as established by the Town Council.

Please refer to the following Committee Roster Assignments Worksheet for Committee composition profile beginning on Page 3 of this report.

COMMITTEE SCHEDULE

Staff provides the tentative General Plan Committee Schedule as Attachment B. This schedule provides Committee and Sub-Committee meetings at regular weekly intervals.

Note: Committee meeting dates will occur as needed. The regular meetings dates/times will be canceled as necessary but will continue to the next regular meeting date/time until the topic is completed.

All Committee meetings are conducted in accordance with Brown Act compliance.

CEQA Requirements

None.

Financial and/or Policy Implications

None at this time.

Statement of Interest: As a 35 year resident of Loomis I am interested in the future of the Town of Loomis. I believe that as a member of the Loomis Town Council I have a duty to participate in any way that would be of service to achieving the timely and successful completion of our General Plan update.

Statement of Qualifications: Served on Town of Loomis Planning Commission from December 2013 until October 2017 when I was appointed to the Loomis Town Council. I am currently serving on the Town Council.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

Participation Availability (Convenient Days/Times): Monday through Friday or as needed.

<input type="checkbox"/> Public Health and Safety (VIII)	<input type="checkbox"/> Noise (VIII)	<input type="checkbox"/> Other _____

Statement of Interest: My priority of interests: 1. Housing 2. SE of Horseshoe Bar 3. NW Sierra College Blvd. Also interest in land behind Raley's (related to economic development, and have been through the Village process), and Land Use in general. I could help with Open Space if needed (e.g. preserving ag/ trees/lifestyle). Parks interest for park behind library.

Statement of Qualifications: Attended all hearings/meetings on previous Gen. Plan, including Steering Committee. Planning Commission since 2001, revamp of Zoning Ordinance, and later lots of work on 2014 Housing Element. Aware of issues concerning the Village area as well as difficult housing requirements we will have to meet.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

As a Southside resident, I am aware of the kinds of rural issues people here are concerned about, as well as the Town's need for appropriate development of the Tourist Commercial area. I am also aware of potential development conflicts on NW Sierra College, as well as misunderstandings on housing requirements. I would hope to be able to listen and help people come to a good and balanced perspective on how these issues could be treated,

To: Planning Loomis
Subject: Committee application
Attachments: Committee Interest_david ring.pdf

Hello,

I would like to submit my name for any committee that needs me for the general plan update.

Please, also add my name to any email list that involves general plan updates.

Finally, I can't remember if I asked this earlier, but I was wondering if the General Plan was going to be submitted in its final state as a hypertext document. This would allow you to read it on a computer, and create links to other sections of the document. So, if you reference a town ordinance, or section IIa.30.134, you can just click on it, and it will take you right there.

Thanks again.

david ring.

Statement of Interest:

Thank you for the opportunity to apply for a committee position for the Loomis General Plan update. I've been a resident of Loomis for 7 years and have 3 kids, two of which are currently at Del Oro High School. My reason for applying for the committee positions is to help Loomis grow as a sustainable community (both financially and environmentally) that best serves the needs of the residents and businesses. I also have a particular interest in making sure the interests of youth sports are represented in the General Plan update.

Statement of Qualifications:

I have a degree in Environmental Engineering and over 20 years of experience as a real estate consultant working all over the United States. Part of my job involves researching the history of how towns and cities have grown since the industrial revolution. I have read General Plans from all over the State of California and a good working knowledge of the existing Loomis General Plan, as well as the original Town Center Master Plan, and the Draft Loomis Parks Master Plan. I also have a good working knowledge of basic housing laws (RHNA, etc.). I understand that growth is inevitable, but we need to make sure developments fit the best long term interests of the town.

Additional Experience, Skills, Etc.

I'm President of the Legacy Lane HOA and also President of Loomis Youth Soccer Club. I meet regularly with representatives from Placer County Parks and Rec Department, Del Oro High School, and Loomis Union School District to discuss athletic field resources in Loomis. I have relationships with representatives from other youth sports programs based in Loomis (Golden Eagle Baseball, Sierra Foothills Lacrosse, Five Cities Softball, etc.)

Statement of Interest: I would like to assist in the General Plan Update to maintain a balance of interests.

I favor a slow-growth approach for Loomis, that should be phased in slowly. Then the Town can actually see

the impacts of projects before agreeing to building more projects. Loomis needs to remain rural, increase

affordable housing, support local businesses, improve I-80 access and add more ways to travel across town.

Statement of Qualifications: I am very familiar with the 2001 General Plan, as I used it to guide decision-making on numerous land use issues while on Town Council. I also helped lead the development of the

Downtown Master Plan, the Parks, Recreation and Open Space Master Plan, the Bikeways and Trails Master Plans, the Green Ribbon Task Force Report and the Open Space Committee 2 Report to Council.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

Former Mayor (2009-2010); on Council when Housing Element was updated in April 2009; served on Council from 2008-2012;

closely followed the proposed Village project and am aware of needs, opportunities and concerns of the community with

regard to housing issues. I work on Zoom, GoToWebinar, Webex, and REMO platforms, and am skilled at working virtually

with small and large groups. I'm on a new Diversity, Equity & Inclusion Council of the National Recycling Coalition.

Statement of Interest:

CIRCULATION: Even without the new Costco, the traffic congestion is getting worse in downtown Loomis, especially at rush hours. I feel some major improvements in traffic circulation are needed, which could be effected by the General Plan update. OPEN SPACE: Remaining Open Space areas in Loomis need to be identified and evaluated per the Loomis Open Space Committee's Recommendations. NOISE: As Loomis grows, rules regarding noise need to be updated.

Statement of Qualifications:

Loomis property owner; retired Transportation Engineer; long-time interest and involvement in Town of Loomis affairs; served on Town's Open Space Committee; former noise measurement specialist

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

general knowledge of City and County programs for road management and engineering; and knowledge of Caltrans policies and specifications for highways; well versed in noise science and measurement and mitigation; extensive experience working in committees

Statement of Interest: Interested in providing feedback to grow Loomis while preserving what makes Loomis, Loomis. Not sure i check all the right boxes above but interesting in preserving natural resources, urban in-fill, core revitalization and growth, and for residential development that supports Loomis feel and has something for all demographics (young professionals, families, and so on).

Statement of Qualifications: Grew up in the foothills, college educated, a practicing and licensed landscape architect who has been living in Loomis for 4 years and the second we moved here felt like coming home. Great place for my family and want to continue the traditions.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):
Educational and practical experience in zoning, planning, development, land-use, and resource use and preservation.

Participation Availability (Convenient Days/Times): Daily after 3pm (varies per work schedule/travel)

Statement of Interest:

As a representative of BEM on behalf of a significant landowner and business operator (Mima Capital LLC) in the Southwest Sierra College and Delmar Area of Loomis, I would like to contribute to the consideration and implementation of development plans that will meet the requirements and needs of the town, have a reduced impact on the rural environment, and maintain the small town identity.

Statement of Qualifications:

As a manager at BEM, I am heavily involved with the evaluation and execution of requirements and improvements for the benefit of all involved. I have a strong critical thinking background from my BS in Neuroscience and Physiology.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

BEM's strong focus on green building practices, energy efficiency, and sustainability make us intimately aware of how important it is to not simply meet a requirement, but to create something better for the earth and for the people. Rather than acceptance, we have ambition. BEM has carried out multiple construction and development projects and has firsthand experience striving for forward progress while keeping the values of the community at

the forefront. I would be honored to utilize the experience and perspective gained from BEM to help guide the Town of Loomis.

Statement of Interest:

As a resident of South Placer County, a significant landowner and business operator in the southwest Sierra College and Delmar area of Loomis, I want to be involved in developing a controlled economic development and housing path for the area.

Statement of Qualifications: _

Over 30 years of experience operating successful businesses in the aerospace (technology), real estate and construction industries. Degreed in Mechanical Engineering with a minor in Electrical Engineering with formal Business School MBA education.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

Controlled growth that provides housing that is compliant with State requirements, employment opportunities and medical services should be planned for and integrated into the Town Master Plan. This offers the opportunity for our children to continue to live locally with decent jobs and housing options. I believe investments generating Tax revenues for the Town are a good thing. Last but not least, I believe in employing compromise and empathy to reach constructive resolutions to issues.

Participation Availability (Convenient Days/Times): 24-7, will make myself available

Statement of Interest:

As a representative of BEM and on behalf of Mima Capital, a significant land owner in the Town of Loomis, my interest in serving on the General Plan Committees is based on a desire to actively participate in preparing the plan for land use and community development that will best serve the current and future needs of the Town and its Citizenry. Furthermore, to have an opportunity to gain firsthand insight into the nuances of those needs and the tools available to meet them.

Statement of Qualifications:

I am a Mechanical Engineer and have enjoyed a career working in that capacity in the aerospace and AEC industries. Arguably the strongest asset my education and work experience have provided me with is the ability to face complex problems with an open, objective mind and to apply a rational approach to reaching their solutions.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

While not a Loomis resident nor native to California, I grew up in a town much like Loomis that cherished its smaller size and strong sense of community and that actively sought to maintain that character while still doing what was necessary to evolve responsibly with the changing times and needs of its residents. I was also fortunate to learn from my father who served on the zoning board and wetland committee of our town.

Participation Availability (Convenient Days/Times): Anytime necessary to participate in the process.

Jon Cunningham

Statement of Interest:

I am seeking to serve on the Land Use Sub Committee: Sierra College Blvd. North-West of Railroad ROW. Having observed, with keen interest, the development of various locales within Loomis, I believe the Sierra College Blvd. corridor is positioned in a strategic location to help facilitate the evolution of Costco to the east but we do not want to create disharmony with residents and businesses along the corridor. I believe that careful study and planning will allow further development in a responsible manner.

Statement of Qualifications:

I am a 20-year Loomis resident and 17-year Hospital Manager of Loomis Basin Veterinary Clinic. I earned a Bachelor's degree in Business Administration from CSU, Sacramento in 1987 and a Master's of Business Administration degree from CSU, Chico in 1992. I am also a member of the Loomis Basin Chamber of Commerce and a lifetime member of the South Placer Heritage Foundation.

Additional Experience, Skills, Perspectives or Qualifications Applicable to the Committee:

I have managed individual businesses with staff sizes of 25 to 180 for 23 years, and now oversee operations at 15 separate sites including one in Loomis. I also served for 10 years on the Board of Directors of the Veterinary Hospital Managers Association (~3,000 members), including 2 years as President. I have helped plan and oversee numerous capital projects at the Loomis location and other sites throughout Northern California including identifying an outstanding site which led to a successful hospital relocation in West Sacramento. My purpose as a servant leader is to help others achieve their dreams.

Statement of Interest and Qualifications

Thor Lude
Mailing: PO Box 161, Loomis, CA 95650
916-215-2312
mtntrelaxn@gmail.com
Physical: 3690 Bankhead Road, Loomis, CA 95650

Committees of Interest:

1. Land Use Sub Committee: Sierra College Boulevard North-West of Railroad ROW (III)
2. Circulation (IV)

Statement of Interest:

1. Land Use Sub Committee: Sierra College Boulevard North-West of Railroad ROW (III)

As a resident in the vicinity of this land use area, I am interested a General Plan that protects the Loomis and surrounding area's environmental resources/assets. The plan should be thoughtful, smart and allows for measured growth that will provide an overall benefit the Town of Loomis, protecting the small town feel and its motto "A Small Town Is Like A Big Family"

2. Circulation (IV)

As a resident of Loomis, I am interested in a General Plan update that provides forward thinking to traffic circulation for its residents and those who travel through the Town of Loomis from neighboring communities. Circulation is a local and regional issue and concern, so to the extend we can, we need to control and provide a guide (General Plan) to address future circulation as well as a plan to address current circulation issues/bottlenecks. This could mean reaching out to neighboring towns such as Rocklin or Placer County to coordinate circulation through the Town of Loomis' limits.

Statement of Qualifications:

I retired in August 2019 after working for 30 years for Sacramento County's Public Works Department. For the last 18 years of my career I was the Division Chief for the County's Construction Management and Inspection Division (CMID). My Division providing Construction Management for the County's Public Works Projects, Private Development and Encroachment Projects. I am registered Professional Civil Engineer in the State of California and am a Certified Construction Manager.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

In addition to what is noted above, I moved to Loomis 5 years ago. Thus, I bring to the committees I am interested in a new and fresh perspective. During the past 5 years, I have been a subscriber to both the Planning Commission and Town Council Meeting Agendas. I followed with interest the Village at Loomis Project and attended multiple meetings on this project. Most recently I reviewed and commented on the Preliminary and Draft COSTCO EIR. My comments focused on the circulation/traffic element.

Statement of Interest: I remember being in the general plan update meetings with my mom about 25 years ago.

She would explain to me it's our responsibility as members of this community to help shape it. As I got older and attended many events with her she would remind me we volunteer in the the community because you should never expect to be part of this amazing organism we call Loomis without giving back. Being back in this community with our business has given me more perspective than I ever imagined would be possible. I would like to help be part of this organsim.

Statement of Qualifications: I was a mechanical engineer for 10 years working with businesses in all sizes from the local mini-mart to the Amazon campus in Seattle, WA on their energy efficiency. I visited each site and client and learned how their business effects so many parts of the community they're in. Many times, the simple act of communication

made the difference between making a project happen or no. I hope understanding these types of aspects can help.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

As a business owner, community member, volunteer, and multi-generational resident I hope I can bring a unique perspective to the economic development of this amazing place.

Participation Availability (Convenient Days/Times): M, W mornings, M-Thursday late afternoon

Attachment for Beth Williams-Ruskauff

Statement of Interest:

As a resident of Loomis, I have a high interest in how land in and around the town is developed and used in order to ensure the prosperity and aesthetics of the town. I would very much like to see Loomis plan its community for future uses while maintaining its natural small town charm. It is relevant that land is used not only in accordance with current regulations and needs but is developed in such a way that forthcoming generations can easily adapt the land for future needs.

Statement of Qualifications:

Although I do not hold any degrees in civil engineering, nor do I have any construction experience, I grew up in Loomis, attending its schools and working within the community both for employment and volunteer work. I have been privileged to live in and experience what I consider a safe town with considerate and caring residents. I want what is best for Loomis now and the future. I believe Loomis is a unique place.

Additional Experience, skills, Perspectives, or Qualifications:

I am a state certified secondary English teacher since 1993. I attended Sierra Community College and Sonoma State University. I am currently raising my son, who attends Del Oro High School, in Loomis. I own property in Loomis and my mother still lives in Loomis. I have seen this town work on growing its prosperity over the years in its down town areas. I would love to be part of a committee(s) planning for additional growth that fits with the charm and atmosphere that makes Loomis so appealing to so many.

Statement of Interest:

I have lived in the Loomis area for the past 20 years where my husband (a Del Oro graduate) and I have raised our children while owning and operating a family winery on our vineyard and farm. While residing just outside the town limits, for all practical purposes, I consider myself a Loomis resident. I have a keen affection for Loomis' history and character and I would like to offer my experience and service in helping Loomis plan for its future through the production of a well conceived updated General Plan.

Besides my personal knowledge of Loomis as a resident, my interest in serving on the General Plan Update committees stems from my professional training in urban and regional planning where I focused on historic preservation, the protection of agricultural lands and the sustainability of urban development through Smart Growth principles. More recently, I have developed an interest in the interplay of economics, culture, agriculture and land use planning through my extensive travel where I was able to experience and understand agri-tourism

in Italy and Germany. As a result, I would also like to work more closely with the Loomis Basin Chamber of Commerce to explore ways in which agri-tourism can help economically support and strengthen local farms and the town of Loomis. 54

Based on my educational and professional background in urban planning, historic preservation and agri-tourism, I am interested in serving on one or more of the General Plan Update committees including: Historic & Cultural Resources, Economic Development, and Land Use Subcommittees - Sierra College NW of RR ROW, SE I-80/Horseshoe Bar and Taylor Rd/Downtown.

Statement of Qualifications:

In addition to owning and operating our family winery and farm in the Loomis Basin, my previous professional experience includes teaching environmental science at Heald College and working in historic preservation planning and recordation with the National Park Service. I hold a master's degree in urban and regional planning with an emphasis in historic preservation and land use planning from the University of Colorado. My bachelor's degree is in cultural anthropology with a minor in environmental design.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):

My experience with community organizations and projects includes:

DeWitt Community Complex - Current Board President. This non-profit that was recently formed with the mission of preserving key historic buildings to be adaptively reused for community use at the National Register listed DeWitt General Hospital in Auburn, CA.

Loomis Friends of the Library - Secretary, 2016-2019. During these critical years, Friends of the Library board members worked tirelessly to save the library and transition operations from Placer County to the Town of Loomis.

Del Oro Band Supporters - Secretary, 2016-present. A major identity of Loomis is Del Oro High School, including football and main street parades led by the Del Oro Marching Band. For over 40 years, Del Oro Band Supports has organized the Del Oro Band Spectacular, one of Northern California's longest running parade and marching band competitions.

Loomis Leadership - Class of 2020 Graduate

Participated in a variety of public workshops including: Civilis Consultants/Michele Reeves Main Street Technical Assistance; California Main Street Alliance; Main Street America Program; and Placer County Government Center Master Plan Update.

Participation Availability (Convenient Days/Times):

Tuesdays & Thursdays - available during business hours and evenings

Mondays, Wednesdays & Fridays - available in the evenings

Saturday & Sunday - available during the day through February 6, 2021

Statement of Qualifications: See attached.

Additional Experience, Skills, Perspectives, or Qualifications Applicable to the Committee(s):
See attached.

STATEMENT OF INTEREST:

My family's long history in Loomis gives me particular insight into the difficult decisions faced by every generation to make this Town one of the most desirable places to live in Northern California. In fact, my children are the fifth generation to live in Loomis and attend our top-ranking schools. Reference the 1924 news article displayed on the Loomis Basin History Society's website (as linked on the Town History page) and you will see the "Law Brothers" identified as helping to rebuild the Town with brick and concrete after a notable fire devastated businesses at the turn of the 20th century. Albert Law (of the "Law Brothers") is the great-great grandfather of my children; all five generations between Albert Law and my children have been born and raised in Loomis. I can assure you that I have the long-term interest of the Town as my centralized goal for helping to shape the General Plan Update because I want the next five generations of my family to enjoy this community as much as the last five.

The 2020 General Plan Update is of particular interest to me because I understand the importance of this document as the guiding principles that becomes the blueprint for all future Town decisions (specifically regarding land use, natural resources, and development). It is by no accident that Loomis real estate values are 50-percent higher than neighboring communities, bringing along increased property tax revenues and associated benefits to the schools. Indeed, it was with great care and intention that preserved the integrity of our Town, making our small community lifestyle so desirable. When considering the future prospects of Loomis, we must be cognizant that our current land use practices are the defining regulatory backdrop that ensures property values remain high.

By volunteering my time and attention to the rigorous details included in the General Plan Update, I will maintain the vision that this Town was built on and ensure future development enhances the long-term viability of our community. I want to make sure committees are not outweighed by special interest groups (often driven by short term profits). Rather, if you select me to sit on the committees, I will remain committed to shaping plans that are mindful of the long-term sustainability of Loomis (because the next five generations of my family deserve it).

QUALIFICATION STATEMENT:

I am a licensed civil engineer with 18 years of professional consulting experience*, working almost exclusively with Central Valley Communities. I specialize in preparing General Plans and associated Master Planning documents for California public agencies. Specifically, I help clients understand impacts from land use and zoning map updates. Ensuring municipal infrastructure are sized to support future land use projections allows communities to continue working towards critical long-term planning objectives.

I will use my intimate understanding of our local community vision, as well as my professional knowledge of regional mandates to inform any decisions that need to be made while serving on the committee. I will put the long-term interest of our beloved Town ahead of any short-term benefits that may be promised. We must ensure our General Plan update allows Loomis to continue the long tradition of controlled and calculated growth, which ensures our Town remains a top ranked community in all measurable aspects (property value, education, public safety, etc.).

*Specific client references, project descriptions, and contact information can be provided upon request.

Re: Application Submittal
Opportunity to Serve on a General Plan Update Committee

Dear: Mary Beth Van Voorthis

Please for your consideration except my application, resume and other items included for the potential to serve on the General Plan Committee. I have lived here in Loomis for over 30 years and have witnessed the growth in our community that is at times sad. However, it is inevitable that development must continue, and that careful General Planning must responsibly prevail.

I have a strong interest in participating on a committee that would reflect the development and implementation of the necessary needs of our precious Environment. Land Use, Conservation of Resources, Public Health and Safety, Environmental Justice, Protection of Biological Resources, Air Quality, Greenhouse Gases, and Climate Adaptations are on the forefront of the integrity of our livelihoods.

My Education includes a BA in Environmental Studies and Minor in Geoscience from California State University of Sacramento. I also have Interned for the Department of Fish and Game Region II Headquarters for two years. I am very good friends with Retired Capt. Of DFG, Mark Jeeter, of whom lives down the street from me.

I have also worked extensively in the Environmental Field as served 3 years as a Scientist and Marketing Specialist. Please review my Resume attached for the extent of my experience.

My Daughters are now 18 and 20 and on their way to College. I am ready to reenter the work force and fulfil my passion for the protection of my community and all the necessary components of Respectable Conservatism. I have included several informational items that I have an interest in that are overly concerning. Pollutants such CAMBISTAT which is being inserted into our soil for tree growth remission and EMF's which is a major Health and Safety issue. Cell Tower Radiation is even redeemed hazardous by the World Health Organization.

Respectfully Yours,

Georgia Anne Kern

Date

Elizabeth A. Blase

LAW

ENGINEERING AND ENVIRONMENTAL SERVICES

This is to certify that

Georgia Anne Chacks

has successfully completed the course in

Basic Risk Management

This the 19th day of March, 1994

Wally M. Hoge

P. Hoge

SECTION 1: Product and Company Identification

1.1. Product identifier

Trade name : CAMBISTAT
Product code : EPA Reg. No. 74779-3

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1. Relevant identified uses

Use of the substance/preparation : Plant Growth Regulator

1.2.2. Uses advised against

No data available

1.3. Details of the supplier of the safety data sheet

Rainbow Treecare Scientific Advancements
11571 K-Tel Drive
Minnetonka, MN 55343
Phone: 1-(877) 272-6747 (toll free)
www.treecarescience.com

1.4. Emergency telephone number

Emergency number : (800)-424-9300 (CHEMTREC)

SECTION 2: Hazards identification

Hazard Symbols :

Signal word

: WARNING

Hazard statements (health)

: Harmful if swallowed, absorbed through the skin or inhaled.

Precautionary statements

: Avoid contact with skin, eyes, or clothing.
Avoid breathing spray mist.

Hazard statements (environmental)

: Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash water or rinsate.

Hazard statements (physical/chemical) : Do not store near heat or open flame.

SECTION 3: Composition/information on ingredients

Chemical Name	CAS Number	%/wt.
Paclobutrazol	76738-62-0	22.3

Ingredients not precisely identified are proprietary or non-hazardous.

SECTION 4: First aid measures

4.1. Description of first aid measures

- IF SWALLOWED** : Call physician or Poison Control Center immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or a physician. Do not give anything by mouth to an unconscious person.
- IF INHALED** : Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.
- IF ON SKIN OR CLOTHING** : Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or physician for treatment advice.
- IF IN EYES** : Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Poison Control Hotline at 1-800-222-1222 for emergency medical treatment information 24 hours a day, seven days a week.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media : Dry chemical, foam, or CO₂ extinguishing media.

5.2. Special hazards arising from the substance or mixture

Specific Hazards : This product will burn with flames if ignited. This product has a minimum ignition energy between 100 and 300 millijoules. Mechanical sparks, open flames, and certain hot surfaces can serve as ignition sources for this material. Eliminate the presence of mechanical sparks and other ignition sources where dust clouds of this material could form. During a fire, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.

5.3. Advice for firefighters

Protective Equipment : Wear full protective clothing and self-contained breathing apparatus with full facepiece.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions: Refer to **Section 8 "Exposure controls/personal protection"**

6.2. Environmental precautions

This material should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water.

6.3. Methods and materials for cleaning up

Control the spill at its source. Contain the spill to prevent from spreading or contaminating soil, or from entering sewage and drainage systems or any body of water. Clean up spills immediately, observing precautions outlined in section 8. Cover entire spill with absorbing material and place into compatible disposal container. Scrub area

with hard water detergent (e.g. commercial products such as Tide, Joy, Spic and Span). Pick up wash liquid with additional absorbent and place into compatible storage container. Once all material is cleaned up and placed in a disposal container, seal the container and arrange for disposition. This material should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water.

SECTION 7: Handling and storage

KEEP OUT OF REACH OF CHILDREN!

7.1. Precautions for safe handling

Precautions for safe handling : Use in a well-ventilated area.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Do not contaminate water, food or feed by storage or disposal. Keep container closed when not in use. Do not store near food or feed. Protect from freezing. In case of spill or leak on floor or paved surfaces, soak up with sand, earth, or synthetic absorbent. Remove to chemical waste area.

SECTION 8: Exposure controls/personal protection

8.1. Personal protective equipment

Exposure Limit:

OSHA PEL: Not Listed
ACIGH TLV: Not Listed

Individual protection measures:

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long sleeved shirt and long pants, socks, shoes, and gloves. Remove and wash contaminated clothing before reuse.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the state or tribal agency responsible for pesticide regulation.

EYE PROTECTION – Use chemical splash goggles. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

CLOTHING – Wear chemical-resistant (such as nitrile or butyl) gloves, coveralls, socks and chemical-resistant footwear. For overhead exposure, wear chemical-resistant headgear.

GLOVES – Wear chemical-resistant gloves, such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyvinyl chloride (PVC), viton.

RESPIRATOR – A respirator is not normally required when handling this substance. Use effective engineering controls to comply with the occupational exposure limits.

Discard clothing and other absorbent materials that have been heavily contaminated with this product. Do not reuse them. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Use a self-contained breathing apparatus in cases of emergency spills, when exposure levels are unknown, or under circumstances where air-purifying respirators may not provide adequate protection. In case of emergency spills, use a NIOSH approved respirator with any N, R, P or HE filter.

8.2. Exposure controls

Engineering Controls:

No applicable information available.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	: Off-white/beige liquid
Odor	: No data available
Odor threshold	: No data available
pH	: No data available
Melting/freezing point	: No data available
Boiling point	: Approx. 212 °F
Flash point	: Does not flash
Flammability	: No data available
Explosive properties	: No data available
Vapor pressure	: Paclobutrazol: 7.5×10^{-9} mmHg @ 68 °F (20 °C)
Vapor density	: No data available
Relative density	: 1.09 g/ml
Solubility(ies)	: Water: 26 mb/l @ 20 °C Fat: No applicable information available
Partition coefficient	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Viscosity	: No data available

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

No applicable information available

10.2. Chemical stability

Stable under standard conditions.

10.3. Possibility of hazardous reactions

No applicable information available

10.4. Conditions to avoid

None known

10.5. Incompatible materials

Oxidizing agents (e.g. chlorates, nitrates)

10.6. Hazardous decomposition products

Can decompose at high temperatures forming toxic gas.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Based on an evaluation of the ingredients and/or similar products.

ACUTE TOXICITY		
Oral	LD50 rat	>2000 mg/kg body weight
Inhalation	LC50 rat	>250 mg/M ³ air
Dermal	LD50 rat	>2000 mg/kg body weight
Irritation		
Eye Contact	Rabbit	Slightly irritating
Skin Contact	Rabbit	Non-irritating
Respiratory tract	-	No applicable information available
Sensitization	unknown	Not a sensitizer

Carcinogenicity	: No evidence of carcinogenicity in 2-year rodent studies.
Mutagenicity	: No applicable information available.
Reproductive Toxicity	: Dose-related increase in minor skeletal defects and evidence of fetotoxicity in rat studies (urogenital defects). No adverse effects seen on reproductive parameters or reproductive organs in a 2-generational rat study. Liver effects were noted at the highest dose level in the FO females and male and female offspring (active ingredient).
Chronic Toxicity	: Evidence of liver toxicity in repeat dose rodent studies at high dose levels. (1250 ppm, 90 day and 2 year tests). No effects noted in rabbit studies. No adverse health effects are expected in humans at airborne levels below the occupational exposure limit.
NTP/IARC/OSHA listing(s)	: No applicable information available.

SECTION 12: Ecological information

12.1. Toxicity

ECOTOXICITY:

Fish: LC ₅₀	: 23.6 ppm
Daphnia: EC ₅₀	: 33.2 ppm
Bird (8-day dietary – Bobwhite Quail): LC ₅₀	: >20,000 ppm
Bees: LC ₅₀	: >50 ug/bee

12.2. Persistence and degradability

No applicable information available.

12.3. Bioaccumulative potential

Soil DT50 0.5-1.0 y in general; in calcareous clay loam (pH 8.8, 14% o.m.), DT50<42 d.; in coarse sandy loam (pH 6.8, 4% o.m.), DT50>140 d. Stable in water. Mixes in water (after 24 h).

12.4. Mobility in soil

No applicable information available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Pesticide disposal:

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

Container disposal:

Less than or equal to 5 gallons: Non-refillable container. Do not reuse this container to hold materials other than pesticides or dilute pesticides (rinsate). After emptying and cleaning, it may be allowable to temporarily hold rinsate or other pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your state. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into the application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container $\frac{1}{4}$ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by incineration. Do not burn unless allowed by state and local ordinances.

Over 5 gallons: Non-refillable container. Do not reuse this container to hold materials other than pesticides or dilute pesticides (rinsate). After emptying and cleaning, it may be allowable to temporarily hold rinsate or other pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your state. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into the application equipment or a mix tank. Fill the container $\frac{1}{4}$ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by incineration. Do not burn unless allowed by state and local ordinances.

SECTION 14: Transport information

UN number	: Not applicable
Proper shipping name	: Plant growth inhibitor, modified or regulator
Class	: Not applicable
Packaging group	: Not applicable
NMFC number/class	: 101685/65
Marine pollutant	: Not applicable

SECTION 15: Regulatory information

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label.

Saddling up in style

Christensen's Saddlery in Loomis the destination for horse gear

By Joyia Emard
Loomis News Staff Writer

Christensen's Saddlery has put Loomis on the map as the go-to place in Northern California for all things equine.

"We're the largest equine store in the Sacramento area, and even in Northern California. People even come here from Reno," said Christensen's employee Tivona

Kenneth.
Equestrians are drawn to the shop in search of tack, saddles, apparel and "anything that relates to horses," said Jami Kolopos, who has managed the business since 1994. Customers come in looking for show and everyday wear, trail-riding equipment, books, boots, equestrian gifts, home décor, and of course, saddles.

Some of the horse activities that Christensen's customers participate in include endurance, pleasure, trail, dressage, hunter/jumper and eventers. Eventers

See Store, page A5

Georgia Kern, of Loomis, outfits her daughter Grace, 8, in new riding pants and boots, while sister Gianna, 7, examines the merchandise. Christensen's Saddlery manager Jami Kolopos helps them pick out just the right pair of boots.

and general psychological well-being.

...general because they perceive as a form of relaxation. Others see meditation as a way to reduce stress and anxiety.

...against a control group of non-practitioner participants.

The results—detailed in Trey's latest book, *The Effect of Falun Gong on Health*

...reason why. Many Chinese people already held a favorable opinion of the kind of graceful, meditative exercises featured in Falun Gong. Other types of qigong exercises—such as tai chi—have long

How EMFs Disturb Your Immune System

Mounting research makes it impossible to ignore the biological effects of electromagnetic radiation

We are living in an unprecedented time, one in which electromagnetic fields (EMFs) from cellphones and cellphone base stations, Wi-Fi devices, power lines, electrical wiring, and even computers, televisions, and microwave ovens surround us 24/7.

Olle Johansson, associate professor and head of the Experimental Dermatology Unit, Department of Neuroscience, at the Karolinska Institute in Sweden, is among those who have questioned whether humans are affected by such an assault.

In a 2009 review published in *Pathophysiology*, Johansson points out that since life on Earth began more than 3.5 billion years ago, the geomagnetic fields and radiation from the sun have remained largely static. During life's progression, living organisms have developed ways to cope with these influences, including developing pigmented skin to shield from the sun or, for other species, living underground or under the dense, protective foliage of a rainforest. During the past 100 years, however, as EMFs became prolific, we haven't developed a similar adaptation. "Is it possible to adapt our biology to altered exposure

conditions in less than 100 years, or do we have to have thousands of years—or longer—for such an adaptation? And, in the meantime, what kind of safety standards must we adopt?" Johansson asked.

After reviewing a number of papers on the effects of manmade EMFs on the immune system, he found disturbing consequences and ultimately concluded not only that existing public safety limits are inadequate to protect public health but also that limits should be set on the deployment of further untested technologies.

EMFs Disturb Immune Function

EMFs present in everyday life, including at workplaces, homes, and areas of recreation, disturb the human body at the cellular level, often at low or very low (non-thermal) levels. Johansson cites research showing that EMF exposures stimulate increases in mast cells and other physiological changes that indicate an allergic response and inflammatory conditions.

He believes that rapid rises in the incidence of allergies, asthma, and other sensitivities worldwide are a warning signal

OSBORNE/SHUTTERSTOCK

Our cities are now saturated with electromagnetic fields that may be interfering with immune system function, inflammatory responses, and cellular repair mechanisms.

as chronic exposure to EMFs may lead to immune dysfunction, chronic allergic responses, inflammatory responses, and overall ill health.

EMF exposures have also been linked to a variety of specific immune system effects, including overreaction of the immune system, alteration of immune cells, profound increases in mast cells in the upper layers of the skin, larger size of mast cells in electrohypersensitive individual, suppressed or impaired immune function, decreased count of natural killer cells, immune cells that help kill cells infected with viruses and control early signs of cancer, and negative effects on pregnancy.

Research published by the World Health Organization in 2006 suggested 1 percent to 3.5 percent of people are hypersensitive to electromagnetic radiation, though estimates have reached as high as 10 percent of populations in the United States, Sweden, Switzerland, Germany, Norway, and many other countries.

This condition is known as electrohypersensitivity (EHS), and it leads to a number of physical and cognitive symptoms upon exposure to EMFs. Common symptoms of EHS include headaches, dizziness, fatigue, trouble concentrating, cognitive problems, sleep interruptions, and skin symptoms such as stinging, itching, and burning.
