COMMITTEE COMMENTS

Comments at previous committee meetings seem to focus on the many sources of information available for establishing the historic context and developing interpretive text.

To address the further work that can be done to help meet the goal of preserving the historic character of the Town, we have created an additional implementation measure for future historical research to be undertaken. This includes sources that may have been used in the past as well as sources suggested by committee members. Research can be undertaken by current and future residents, allowing anyone to contribute to understanding and interpreting the past.
