<u>Out of Town Business Licenses Issued or Renewed -</u>	185	184	193	186	197	182	175	168	216

**ACTIVE TREE MITIGATION ITEMS:**

**(1) Homewood Lumber (Comm. Development)** – 1,057 trees owed at ±100 per year over 10 years. *Existing total owed (as of 4/22/13) = 973 (84 utilized).* If any of the required ±100 trees per year are not utilized by the Town, those trees roll-over to the following year. Per the agreement, the Town's Tree Matrix (developed by the Town Arborist) is utilized when selecting tree type(s) to be used by the Town (maximum cost of tree = \$500).

**(2) Leon Code Violation (Code Enf.)** – 75 15-gallon oak trees planted onsite to mitigate for oaks removed without proper permitting. Mitigation planting plan was implemented in August 2011. Arborist report required. 80% of the 75 trees are to be healthy and thriving after the 5-year establishment period August 2016, if 80% are not healthy at that time, additional plantings will be required and the 5-year monitoring starts again for those trees.

**(3) Steinmetz (Res. Development)** – Original mitigation agreement with the Town entailed planting 30 15-gallons in September 2010 and required an arborist report to be submitted by the end of September 2015 to determine 80% survivability. If 80% are not healthy, additional plantings will be required and the 5-year monitoring starts again for those trees. Due to the ongoing drought, the planting of trees was postponed. Trees to be planted fall/summer of 2016 and the 5 year clock restarted and subsequent arborist report to be submitted September 2021
