RE: 2014 CAPITAL IMPROVEMENT PROGRAM PROJECT – ACCEPTANCE

Recommendation:

Adopt resolution accepting the 2014 Capital Improvement Program Project.

Issue Statement and Discussion

On August 12, 2014, Town Council awarded the 2014 Capital Improvement Program Project to Western Engineering Contractors, Inc. of Loomis in the amount of \$1,053,838.90. The project limits included Sierra College Boulevard from Bankhead Road to the Union Pacific Railroad tracks and Taylor Road from Circle Drive to the south town limits. Improvements included pavement repair, asphalt overlay, transition paving & grinding, striping and raising of the utilities. During the project, additional repair sections were added and additional asphalt was needed to provide a shallower road section over the existing PCWA transmission line in Taylor Road. The final project cost was \$1,167,852.86.

After the road segments were paved, the overall ride quality was very rough. Staff directed Western to provide a profilograph test on all traveled lanes for smoothness. It was found that many areas were outside the Caltrans specifications for smoothness. Under the specifications, Western was required to grind the high spots in the traveled lanes. The cost to provide the profilograph test, grinding and fog seal on the travelled lanes was paid for by Western.

If accepted, the one year warrantee period will begin.

CEQA Requirements

This project is exempt under the California Environmental Quality Act (CEQA) Section 15301. (c&d) (Class 1), "Existing Facilities" of the guidelines.

Financial and/or Policy Implications

This project was included in the 2013/2014 fiscal year Capital Improvement Program (CIP). Funding was provided by the Town's Transportation Development Act (TDA) funds (\$350,000), Gas Tax Funds (\$60,000), Bickford Ranch Mitigation Funds (\$60,000) and the General Fund Transportation account (\$697,853).
