A Limited Term permit allows the short-term activities (such as Temporary Residence) that may not comply with the normal development standards of the applicable zoning district, but may otherwise be acceptable because of their temporary nature. This will allow the applicant, who is acting as owner/builders of their first family home, the ability to monitor the progress of said construction. It will also allow the applicant the ability to perform any required construction related and land improvement tasks.</p>	<p>Application Complete Public notice sent – published in Loomis News 3/31/2016. ACTIVE TREE MITIGATION ITEMS:

(1) **Homewood Lumber (Comm. Development)** – 1,057 trees owed at ±100 per year over 10 years. Existing total owed (as of 4/22/13) = 973 (84 utilized). If any of the required ±100 trees per year are not utilized by the Town, those trees roll-over to the following year. Per the agreement, the Town's Tree Matrix (developed by the Town Arborist) is utilized when selecting tree type(s) to be used by the Town (maximum cost of tree = \$500).

(2) **Leon Code Violation (Code Enf.)** – 75 15-gallon oak trees planted onsite to mitigate for oaks removed without proper permitting. Mitigation planting plan was implemented in August 2011. Arborist report required. 80% of the 75 trees are to be healthy and thriving after the 5-year establishment period August 2016, if 80% are not healthy at that time, additional plantings will be required and the 5-year monitoring starts again for those trees.

(3) **Steinmetz (Res. Development)** – 30 15-gallons planted in September 2010. Mitigation agreement with the Town requires an arborist report to be submitted by the end of September 2015 to determine 80% survivability. If 80% are not healthy, additional plantings will be required and the 5-year monitoring starts again for those trees.
