**Subject:** Animal rights appeal

Dear Council members,

The complaint against Ms. Walden is not really a complaint against animals. It is really a complaint of a new bay area resident retaliating for not getting her way. I have lived in Loomis most of my life. I went to Placer El. school out on Horseshoe Bar Rd. and I graduated from Del Oro. I have watched this town turn from a true rural community to a bay area bedroom community and I hate it. My friends and I used to ride horseback from Brennans Rd. into town to get a frostie. That same trip today would be a suicide mission because of the traffic on King Rd. and in town. I didn't even own a horse trailer until 5 years ago. I didn't need one. There were plenty of open trail areas to get around. Now they are all fenced off. Animals are a natural part of a rural community. There should be no CCNR's restricting them. NONE! This town is turning into a socialist state. What next? Are you going to bust my door down and check to see how much toilet paper I am using? Leave Ms. Walden, our long time neighbor and resident alone, and kick her new bay area transplant neighbor out of the county. If she wants to live in a sterile animal free zone make her move back to the city.

Sincerely,  
The Richardson family  
3655 Wine Way  
Loomis, Ca. 95650

P.S. We love the plan for the area along the railroad tracks. My husband uses that area everyday to walk the dog and we walk to town along there whenever there is an event going on. And it is the one safe place I can ride my horse without a problem. Even the train going by is not as scary as the traffic on the roads these days.=

**Subject:** Rescued Animals - Cindy Walden

Loomis Town Council -

I just read the article regarding the complaint against Ms. Walden for keeping rescued animals. Please, please rule in favor of this woman so that she can keep the animals on her property. To me, Loomis has always been a community that focuses on a rural lifestyle that includes animals. I would hate to see a few disgruntled citizens change that.

This woman should be complimented and supported for her efforts. It appears that her animals are healthy and well cared for and she does not have more animals than she can handle. We should all be so generous with our time and money. Please rule in her favor.

Thank you for your time,  
Michelle Turner  
Rocklin, CA

**Subject:** Ms Walden's Appeal- Attn Council Members

Dear Mayor Morillas and Council Members,

I would like to thank you for the opportunity to speak to the issue "*Ms Walden's animals and the complaint*". Thank goodness for people such as Ms Walden ... She cares ... not only for animals that need special attention but extends that into her everyday life as person to person.

Ms Walden through the years has addressed the issue of animals needing care when no one else steps forward. She has taken in animals as a fostering home until a permanent home is found, she is a strong advocate of spay/neuter. Abandoned, abused, in need animals and people can count on her to be there for them. ... She is not "*A Hoarder*". She has placed 100's of animals into forever homes ... No, she is not the perfect angel... she is a truly caring person that promotes respect to all living things.

I appeal to you as a Town Council to commend her and work with her as a valuable resource within your community.

Respectfully, Lloyd

Lloyd Strong

*The Town of Loomis is a quaint, family-oriented community. Established in 1850 and incorporated in 1984, Loomis retains its rural character and charm with its large residential lots and custom homes, an old-fashioned downtown, and woodlands with natural streams and rolling hillsides.*

What are you doing Loomis? Let the lady have her animals!! 20 years and no problems and then one person has issues????? Bad bad decision. Really.

John in Stockton.

**Subject:** Town Council meeting re: 3467 Humphrey Rd

To Whom it May Concern

Because of prior commitments we will be unable to attend this meeting.

We have lived in our house since 1977. Our north property line and the 3467 Humphrey south property line are adjacent. We have not had a complaint about any of the animals housed there and feel this was a frivolous issue brought about by a personal feud. We feel the animals would be fine living out their natural life at that location. June and Nick Zeri

**Subject:** 3467 Humphrey Rd Hearing

My name is Cynthia Christmon and I was given a form and seen the sign to the public hearing regarding the keeping of animals at 3467 Humphrey Rd, I live at 3487 Humphrey Rd and her property sits behind my house with no big boarded fence and I can tell you her animals are not a bother to me or to my family and you never hear them they are not noisy. To make someone remove her animals that she has had on her property for 24 years is insane and an act of cruel intentions by the town of loomis. If you feel it necessary to make her do this then I would suggest to the town to go around and investigate more people because I can promise you there are alot of people that have more animals than her.

I grew up here in loomis and my husband also grew up here in loomis and he knows for a fact that she has had those animals for a really long time.

I will try to make the meeting tonight but have 3 kids and it might be hard but if you have any questions please contact me at 916-505-8436.

Also please note that if the neighbor who is complaining about her should complain about more than just her because I never hear her animals as I do some other neighbors but they do not bother me.... just to let you know that my uncle lives on Frances Drive the 3rd house down from King on the Left and he told me the neighbors behind him complained about the noise of his business so just to let the town of loomis know I think he have a nosy neighbor that wants to cause problems for people.....this neighbor lives on King Rd and backs up to our homes behind Humphrey....

**Subject:** Fw: 3467 Humphrey Rd Hearing

Hi again,

I just wanted to stress to the town that my property and her property are like so close together and the animals are not a bother and a joy to have around I got a little crazy in my 1st email but I just wanted to stress that her animals do not bother us at all.

Thanks  
Cynthia
