2 ABBREVIATIONS

3	
4	AB: Assembly Bill
5	ACS: American Community Survey
6	ADT: Average Daily Trips made by vehicles or persons in a 24-hour period (Average Daily Traffic)
7	ADL: Activities of Daily Living
8	ADU: Accessory Dwelling Unit
9	ADA: Americans with Disabilities Act
10	AFFH: Affirmatively Furthering Fair Housing
11	AFH: Assessment of Fair Housing
12	AFY: Acre-feet Per Year
13	ALS: Advanced Life Support
14	APSH: Adult Permanent Supportive Housing
15	APR: Annual Percentage Rate
16	AQAP: Air Quality Attainment Plan
17	AQMP: Air Quality Management Plan (Federal)
18	ARPA: Archaeological Resources Protection Act
19	AWSC: All-way-stop-controlled [traffic intersection]
20	BACT: Best Available Control Technology
21	BMPs: Best Management Practices
22	B.P.: Before Present
23	BP: Business Park Zoning District
24	Btu: British thermal output
25	CAAQs: California Ambient Air Quality Standards
26	CAFE: Corporate Average Fuel Economy
27	CalEPA: California Environmental Protection Agency
28	Caltrans: California Department of Transportation
29	CASQA: California Stormwater Quality Association
30	CBC: California Building Code
31	CC: Central Commercial Zoning District
32	CCAA: California Clean Air Act
33	CCE: California Candidate Endangered (species regulatory status)
34	CCR: California Code of Regulations
35	CC&Rs: Covenants, Conditions, and Restrictions
36	CDBG: Community Development Block Grant
37	CE: California Endangered (species regulatory status)
38	CEC: California Energy Commission
39	CEQA: California Environmental Quality Act
40	CESA: California Endangered Species Act
41	CFCs: Chlorofluorocarbons
42	CFP: California Fully Protected (species regulatory status)
43	CFR: Code of Federal Regulations
44	CG: General Commercial Zoning District
45	CH₄: Methane
46	CHAS: Comprehensive Housing Affordability Strategy
47	CHRIS: California Historical Resources Information System

1	CHWMP:	Placer County Hazardous Waste Management Plan
2	CIP:	Capital Improvements Program
3	CLC:	Community Learning Center
4	CNDDDB:	California Natural Diversity Database
5	CNEL:	Community Noise Equivalent Level
6	CO:	Office Commercial Zoning District
7	CO:	Carbon Monoxide
8	CO₂:	Carbon Dioxide
9	CO₂e:	Carbon Dioxide Equivalent
10	COG:	Council of Governments
11	CoSWMP:	Placer County Solid Waste Management Plan
12	CRHR:	California Register of Historic Places
13	CSA:	California Special Animal (species regulatory status)
14	CSC:	California Species of Special Concern (species regulatory status)
15	CT:	California Threatened (species regulatory status)
16	CT:	Tourist/Destination Commercial Zoning District
17	CUP:	Conditional Use Permit
18	CUPA:	Certified Unified Program Agency
19	CV:	Central Valley
20	CWA:	Clean Water Act
21	DAR:	Dial-A-Ride
22	dB:	Decibel
23	dBA:	“A-weighted” Decibel
24	DBH	Diameter at Breast Height (trees)
25	DDT:	Dichlorodiphenyltrichloroethane
26	DPM:	Diesel Particulate Matter
27	DPS:	Distinct Population Segment
28	DU:	Dwelling Unit
29	EDU:	Equivalent Dwelling Unit
30	EFH:	Essential Fish Habitat
31	EIR:	Environmental Impact Report (State)
32	EIS:	Environmental Impact Statement (Federal)
33	EMS:	Emergency Medical Services
34	EMT:	Emergency Medical Technician
35	EO:	Executive Order
36	EPCRA:	Emergency Planning Community Right-to-Know Act
37	ESA:	Environmentally Sensitive Area
38	FAR:	Floor Area Ratio
39	FD:	Federally Delisted (species regulatory status)
40	FE:	Federally Endangered (species regulatory status)
41	FEMA:	Federal Emergency Management Agency
42	FESA:	Federal Endangered Species Act
43	FHAP:	Fair Housing Assistance Program
44	FHEO:	Fair Housing and Equal Opportunity
45	FHWA:	Federal Highway Administration
46	FIP:	Federal Implementation Plan
47	FIRM:	Flood Insurance Rate Map
48	FLSRA	Folsom Lake State Recreation Area
49	FMD:	Fisheries Management Plan
50	FMRs:	Fair Market Rents
51	FT:	Federally Threatened (species regulatory status)

DEFINITIONS OF SPECIALIZED TERMS AND PHRASES

Abut. Having property lines, street lines, or zoning district lines in common.

Acceptable Risk. A hazard deemed to be a tolerable exposure to danger given the expected benefits to be obtained. Different levels of acceptable risk may be assigned according to the potential danger and the criticalness of the threatened structure. The levels may range from "near zero" for nuclear plants and natural gas transmission lines to "moderate" for open space, ranches and low-intensity warehouse uses.

Access/Egress. The ability to enter a site from a roadway and exit a site onto a roadway by motorized vehicle.

Accessory Dwelling Unit (ADU). An attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family or multi-family dwelling is or will be situated. An accessory dwelling unit also includes the following: A) An efficiency unit. B) A manufactured home, as defined in Section 18007 of the California Health and Safety Code. ~~A smaller, independent residential dwelling unit located on the same lot as a stand-alone (i.e., detached) single family home. ADUs can be converted portions of existing homes (i.e., internal ADUs), additions to new or existing homes (i.e., attached ADUs), or new stand-alone accessory structures or converted portions of existing stand-alone accessory structures (i.e., detached ADUs). An ADU is a permanent dwelling unit that provides permanent facilities for living, sleeping, eating, cooking, and sanitation. An ADU may occupy up to 1,200 square feet.~~

Accessory Dwelling Unit, Junior (JADU). A unit that is no more than 500 square feet in size and contained entirely within a single-family residence. A junior accessory dwelling unit may include separate sanitation facilities, or may share sanitation facilities with the existing structure. ~~A specific type of conversion of existing space contained entirely within an existing or proposed single family residence. JADUs must not exceed 500 square feet, must include a kitchen and an entrance separate from those serving the primary dwelling, but may be served by a common bathroom with the primary dwelling.~~

Accessory Retail or Services. The retail sale of various products, or the provision of certain personal services within a health care, hotel, office, or industrial complex, to employees or customers. Examples of these uses include pharmacies, gift shops, and food service establishments within hospitals; convenience stores and food service establishments within hotel, office and industrial complexes; and barber and beauty shops within residential care facilities

Accessory Structure. A structure that is physically detached from, secondary and incidental to, and commonly associated with a primary structure on the same site. See also **Agricultural accessory structure**, and **Residential accessory uses and structures**.

Accessory Use. A use customarily incidental to, related and clearly subordinate to a primary use on the same parcel, which does not alter the primary use nor serve property other than the parcel where the primary use is located.

1
2 **Acres, Gross.** The entire acreage of a site. Most communities calculate gross acreage to the centerline of
3 proposed bounding streets and to the edge of the right-of-way of existing or dedicated streets.

4
5 **Acres, Net.** The portion of a site that can actually be built upon. The following generally are not included
6 in the net acreage of a site: public or private road rights-of-way, public open space, and flood ways.

7
8 **Active Park.** Park that usually contains improvements such as baseball fields, skateboard parks,
9 playground equipment, amphitheater, soccer fields and other amenities intended for organized play or
10 individual recreation. A park may also contain support structures such as restrooms, parking, picnic
11 facilities, gazebos, and similar facilities

12
13 **Adverse Impact.** A negative consequence for the physical, social, or economic environment resulting
14 from an action or project.

15
16 **Adult-oriented Business.** A business based upon materials or performances that depict, describe, or relate
17 to **specified sexual activities** or **specified anatomical areas**, as defined in the municipal code.

18
19 **Affordability Requirements.** Provisions established by a public agency to require that a specific
20 percentage of housing units in a project or development remain affordable to very low- and low- income
21 households for a specified period.

22
23 **Affordable Housing.** Housing capable of being purchased or rented by a household with very low,
24 low, or moderate income, based on a household's ability to make monthly payments necessary to
25 obtain housing. Housing is considered affordable when a household pays less than 30 percent of its
26 gross monthly income (GMI) for housing including utilities.

27
28 **Affordable Rent.** Monthly housing expenses, including a reasonable allowance for utilities, for rental units reserved
29 for very low or low income households, not exceeding the following calculations:

- 30 1. **Low income** means eighty percent of median income as defined by state law (Health and Safety Code
31 Section 50079.5) and the HUD income limits.
- 32 2. **Very low income** means fifty percent of median income as defined by state law (Health and Safety Code
33 Section 50105) and the HUD income limits.
- 34 3. **Extremely low income** means thirty percent of the median income as defined by state law (Health and
35 Safety Code Section 50106) and the HUD income limits.

36
37 **Affordable Sales Price.** A sales price at which very low- and low-income households can qualify for the
38 purchase of designated dwelling units, calculated on the basis of underwriting standards of mortgage
39 financing available for the development.

40
41 **Agency.** The governmental entity, department, office, or administrative unit responsible for carrying
42 out regulations.

43
44 **Agent.** A person authorized in writing by the property owner to represent and act for a property owner in contacts
45 with town employees, committees, commissions, and the council, regarding matters regulated by this title.

1 **Agricultural Accessory Structure.** A structure for sheltering or confining animals, or agricultural equipment, hay,
2 feed, etc. Examples of these structures include barns, noncommercial greenhouses, coops, corrals, and pens. Does
3 not include pasture fencing

4
5 **Agricultural Area.** An area of land dedicated to agriculture as defined in the Zoning Ordinance. This
6 may include: Livestock grazing fields and facilities, orchards, flower fields, vineyards, plant nurseries,
7 crop production fields, and equestrian facilities.

8
9 **Agricultural Preserve.** Land designated for agriculture or conservation. (See "Williamson Act.")

10
11 **Agricultural Products Processing.** The processing of harvested crops to prepare them for on-site marketing or
12 processing and packaging elsewhere. Examples of this land use include the following: alfalfa cubing; corn shelling;
13 cotton ginning; custom grist mills; custom milling of flour, feed and grain; dairies (but not feedlots, see instead
14 **livestock operations, sales yards, feedlots, stockyards**); drying of corn, rice, hay, fruits and vegetables; grain
15 cleaning and custom grinding; hay baling and cubing; precooling and packaging of fresh or farm-dried fruits and
16 vegetables; sorting, grading and packing of fruits and vegetables; and tree nut hulling and shelling. Does not include
17 wineries, which are separately defined.

18
19 **Agriculture.** Use of land for ~~the production of food and fiber, including the growing of crops and/or~~
20 ~~the grazing of animals keeping on natural prime or improved pastureland.~~ Means and includes the
21 activities defined by this glossary under the terms **agricultural accessory structure, agricultural**
22 **products processing, animal keeping, and crop production, horticulture, orchard, vineyard, plant**
23 **nursery, and winery**; and as defined by the state of California under the term **agricultural use** in
24 Government Code Section 51200 (the "Williamson Act").

25
26 **Agriculture-related Business.** Feed mills, dairy supplies, poultry processing, creameries, auction
27 yards, veterinarians and other businesses supporting local agriculture.

28
29 **Air Pollution.** Concentrations of substances found in the atmosphere that exceed naturally occurring
30 quantities and are undesirable or harmful in some way.

31
32 **Alcoholic Beverage Sales.** The retail sale of beer, wine, and/or distilled spirits for on-premises or off-
33 premises consumption.

34
35 **Alley.** A narrow service way, either public or private, which provides a permanently reserved but
36 secondary means of public access not intended for general traffic circulation. Alleys typically are
37 located along rear property lines. A public or private roadway that provides vehicle access to the rear or
38 side of parcels having other public street frontage, that is not intended for general traffic circulation.

39
40 **Allowed Use.** A use of land identified by the zoning code as a permitted or conditional use that may be
41 established with land use permit and, where applicable, design review and/or building permit approval,
42 subject to compliance with all applicable provisions of the zoning code.

43
44 **Alteration.** Any construction or physical change in the internal arrangement of rooms or the supporting
45 members of a structure, or a change in the external appearance of any structure, not including painting.

46
47 **Alluvial.** Soils deposited by stream action.

1
2 **Alquist-Priolo Act, Seismic Hazard Zone.** A seismic hazard zone designated by the State of
3 California within which specialized geologic investigations must be prepared prior to approval of
4 certain new development.

5
6 **Ambient.** Surrounding on all sides; used to describe measurements of existing conditions with respect
7 to traffic, noise, air and other environments.

8
9 **Ambient Noise.** The distinctive acoustical characteristics of a given space consisting of all noise sources
10 audible at that location. In many cases, the term ambient is used to describe an existing or pre-project
11 condition such as the setting in an environmental noise study.

12
13 **Ambulance, Taxi, or Limousine Dispatch Facility.** A base facility from which taxis and limousines are
14 dispatched, and/or where ambulance vehicles and crews standby for emergency calls.

15
16 **Animal Keeping.** The keeping, raising, or boarding of animals including pets, fowl, livestock, or other small and
17 large animals. See Loomis Municipal Code Section 13.42.060.

18
19 **Annex.** To incorporate a land area into an existing district or municipality, with a resulting change
20 in the boundaries of the annexing jurisdiction.

21
22 **Apartment.** (1) One or more rooms of a building used as a place to live, in a building containing at
23 least one other unit used for the same purpose. (2) A separate suite, not owner occupied, which
24 includes kitchen facilities and is designed for and rented as the home, residence, or sleeping place of
25 one or more persons living as a single housekeeping unit. See **Multifamily housing**

26
27 **Applicant.** Any person who is filing an application requesting an action who is:

- 28
1. The owner or lessee of property;
 - 29 2. A party who has contracted to purchase property contingent upon that party's ability to acquire the
30 necessary approvals required for that action in compliance with this title, and who presents written
31 authorization from the property owner to file an application with the town; or
 - 32 3. The agent of either of the above who presents written authorization from the property owner to file an
33 application with the town.

34
35 **Appropriate.** An act, condition, or state that is considered suitable.

36
37 **Approval.** Means and includes both approval and approval with conditions.

38
39 **Aquifer.** An underground, water-bearing layer of earth, porous rock, sand, or gravel, through which
40 water can seep or be held in natural storage. Aquifers generally hold sufficient water to be used as a
41 water supply.

42
43 **Arable.** Land capable of being cultivated for farming.

44
45 **Arborist.** (1) A person currently certified by the Western Chapter of the International Society of
46 Arboriculture as an expert on the care of trees; (2) a consulting arborist who satisfies the requirements of

1 the American Society of Consulting Arborists; or (3) other qualified professionals who the director
2 determines have gained through experience the qualifications to identify, remove, or replace trees.

3
4 **Archaeological.** Relating to the material remains of past human life, culture, or activities.

5
6 **Archeology.** The study of historic or prehistoric peoples and their cultures by analysis of their artifacts
7 and sites.

8
9 **Architectural Control; Architectural Review.** Regulations and procedures requiring the exterior
10 design of structures to be suitable, harmonious, and in keeping with the general appearance, historic
11 character, and/or style of surrounding areas. A process used to exercise control over the design of
12 buildings and their settings. (See "Design Review.")

13
14 **Architectural Feature.** An exterior building feature including roof, windows, doors, porches, etc.

15
16 **Area; Area Median Income.** As used in State of California housing law with respect to income
17 eligibility limits established by the U.S. Department of Housing and Urban Development (HUD),
18 "area" means metropolitan area or non-metropolitan county. In non-metropolitan areas, the "area
19 median income" is the higher of the county median family income or the statewide non-metropolitan
20 median family income.

21
22 **Arterial.** Medium-speed (30-40 mph), medium-capacity (10,000-35,000 average daily trips)
23 roadway that provides intra-community travel and access to the county-wide highway system. Access
24 to community arterials should be provided at collector roads and local streets, but direct access from
25 parcels to existing arterials is common.

26
27 **Artisan/Craft Product Manufacturing.** Establishments manufacturing and/or assembling small
28 products primarily by hand, including jewelry, pottery and other ceramics, as well as small glass and metal
29 art and craft products.

30
31 **Artisan Shop.** A retail store selling art glass, ceramics, jewelry, paintings, sculpture, and other
32 handcrafted items, where the store includes an area for the crafting of the items being sold.

33
34 **Assessed Value.** The value of a structure as shown in the records of the county assessor.

35
36 **Assisted Housing.** Generally multi-family rental housing, but sometimes single-family ownership
37 units, whose construction, financing, sales prices, or rents have been subsidized by federal, state, or
38 local housing programs including, but not limited to Federal Section 8 (new construction, substantial
39 rehabilitation, and loan management set-asides), Federal Sections 213, 236, and 202, Federal Section
40 221(d)(3) (below market interest rate program), Federal Section 101 (rent supplement assistance),
41 CDBG, FmHA Section 515, multi-family mortgage revenue bond programs, local redevelopment and
42 in-lieu fee programs, and units developed pursuant to local inclusionary housing and density bonus
43 programs. By January 1, 1992, all California Housing Elements are required to address the
44 preservation or replacement of assisted housing that is eligible to change to market rate housing by
45 2002.

1 **Attached.** Connected, or solidly incorporated together, through the extension of a common wall or similar main
2 component for at least five feet and not capable of being removed without damage to the structure and not simply
3 joined together by a breezeway or similar smaller connecting structure.

4
5 **Attic.** The area located between the uppermost plate and the roof or ridge of a structure.

6
7 **Auto and Vehicle Sales/Rental.** A retail or wholesale establishment selling and/or renting automobiles, trucks and
8 vans, trailers, motorcycles, and bicycles (bicycle sales are also included under “General retail”). May also include
9 repair shops and the sales of parts and accessories, incidental to vehicle dealerships. Does not include: the sale of
10 auto parts/accessories separate from a vehicle dealership (see **auto parts sales**); mobile home, recreational vehicle,
11 or watercraft sales (see **mobile home, RV and boat sales**); tire recapping establishments (see **vehicle services**);
12 businesses dealing exclusively in used parts, (see **recycling—scrap and dismantling yards**); or **gas stations**,
13 which are separately defined.

14
15 **Auto Parts Sales.** Stores that sell new automobile parts, tires, and accessories. Establishments that provide
16 installation services are instead included under “Vehicle services—repair and maintenance—minor.” Does not
17 include tire recapping establishments, which are found under “Vehicle services” or businesses dealing exclusively
18 in used parts, which are included under “Recycling—scrap and dismantling yards.”

19
20 **Auto Repair.** See **vehicle services**.

21
22 **Automated Teller Machine (ATM).** Computerized, self-service machines used by banking customers for financial
23 transactions, including deposits, withdrawals and fund transfers, without face-to-face contact with financial
24 institution personnel. The machines may be located at or within banks, or in other locations.

25
26 **A-Weighting.** A frequency-response adjustment of a sound level meter that conditions the output signal
27 to approximate human response

28
29 **Bank, Financial Services.** Financial institutions including: Banks and trust companies, credit agencies,
30 holding (but not primarily operating) companies, lending and thrift institutions, other investment
31 companies, securities/ commodity contract brokers and dealers, security and commodity exchanges, and
32 vehicle finance (equity) leasing agencies. See also, **automated teller machine**.

33
34 **Bar/Tavern.** A business where alcoholic beverages are sold for on-site consumption, which are not part
35 of a larger restaurant. Includes bars, taverns, pubs and similar establishments where any food service is
36 subordinate to the sale of alcoholic beverages. May also include beer brewing as part of a microbrewery
37 (“brew-pub”), and other beverage tasting facilities. Does not include adult-oriented businesses.

38
39 **Base Flood.** In any given year, a 100-year flood that has 1 percent likelihood of occurring and is
40 recognized as a standard for acceptable risk.

41
42 **Baseline Hydromodification Management Measures.** Storm water control measures designed to
43 mitigate hydromodification on Regulated Projects that are not hydromodification Management Projects.

44
45 **Bed and Breakfast Inn (B&B).** A residential structure with one or more bedrooms rented for overnight
46 lodging, where meals may be provided subject to applicable Environmental Health Department
47 regulations. Does not include room rental, which is separately defined (see **Rooming house**).

1 **Best Management Practices (BMPs).** Methods, measures, or practices designed and selected to reduce
2 or eliminate the discharge of pollutants to surface waters from point and non-point source discharges
3 including storm water. BMPs include structural, which are permanent, and non-structural controls and
4 operation and maintenance procedures, which when implemented prevents, controls, removes, or reduces
5 pollution from entering surface waters.

6
7 **Bicycle Lane (Class II facility).** A corridor expressly reserved for bicycles, existing on a street or
8 roadway in addition to any lanes for use by motorized vehicles. A striped lane for one-way bike travel
9 on a street or highway.

10
11 **Bicycle Path (Class I facility).** A completely separated paved route not on a street or roadway with
12 minimized cross-flow and expressly reserved for bicycles and pedestrians traversing an otherwise
13 unpaved area. Bicycle paths may parallel roads but typically are separated from them by landscaping.

14
15 **Bicycle Route (Class III facility).** A facility shared with motorists and identified only by signs, a
16 bicycle route has no pavement markings or lane stripes. Level A provides shared use with motor
17 vehicle traffic and is identified by Bike Route signs. These routes are intended to have a minimum
18 amount of paving (at least two feet beyond the travel to provide more room for bicyclists. Level B
19 includes unsigned “bike routes” that provide “Share the Road” only. signage on roads that are very
20 narrow, winding, or difficult to widen due to physical/environmental constraints.

21
22 **Bikeways.** A term that encompasses bicycle lanes, bicycle paths, and bicycle routes.

23
24 **Bioretention.** Post-construction storm water treatment BMP that treats storm water runoff vertically
25 through an engineered soil filter media and vegetation and retains storm water runoff on-site through
26 infiltration or evapotranspiration.

27
28 **Bioswale.** Shallow channels lined with grass and used to convey and store runoff.

29
30 **Biotic Community.** A group of living organisms characterized by a distinctive combination of both
31 animal and plant species in a particular habitat.

32
33 **Brownfields.** Sites with soil contamination.

34
35 **Building and Landscape Materials Sales.** Retail establishments selling hardware, lumber and other
36 large building materials, plant materials and other landscaping materials. Includes paint, wallpaper,
37 glass, fixtures. Includes all these stores selling to the general public, even if contractor sales account for
38 a major proportion of total sales. Establishments primarily selling electrical, plumbing, heating, and air
39 conditioning equipment and supplies are classified in **Wholesaling and distribution.**

40
41 **Buffer.** A forested or otherwise vegetated are located between water bodies such as streams, wetlands,
42 and lakes that provides a permanent barrier against runoff from development, agriculture, construction,
43 and other land uses. Buffers are designed to filter pollutants in storm water runoff before the pollutants
44 reach surface waters.

1 **Buffer Zone.** An area of land separating two distinct land uses that acts to soften or mitigate the
2 effects of one land use on the other.

3
4 **Building.** Any structure used or intended for supporting or sheltering any use or occupancy.

5
6 **Buildout; Build-out.** Development of land to its full potential or theoretical capacity as permitted
7 under current or proposed planning or zoning designations. (See "Carrying Capacity (3).")

8
9 **Business Support Service.** An establishment within a building that provides services to other businesses. Examples
10 of these services include: Blueprinting, computer-related services (rental, repair), copying and quick printing
11 services, film processing and photofinishing (retail), outdoor advertising services, mailing and mailbox services,
12 protective services (other than office related), and security systems services.

13
14 **Cabinet Shop.** See **furniture and fixtures manufacturing, cabinet shops.**

15
16 **California Department of Transportation (Caltrans).** The governmental agency that manages
17 California's highway and freeway lanes, provides inter-city rail services, and permits public-use
18 airports and special-use hospital heliports, working with local agencies. Caltrans has six primary
19 programs: Aeronautics, Highway Transportation, Mass Transportation, Transportation Planning,
20 Administration and the Equipment Service Center. <https://dot.ca.gov>.

21
22 **California Environmental Protection Agency (CalEPA).** The governmental agency overseeing
23 environmental protections. CalEPA consists of the Air Resources Board, Department of Pesticide
24 Regulation, Department of Resources Recycling Recovery, the Department of Toxic Substances
25 Control, the Office of Environmental Health Hazard Assessment, and the State Water Resources
26 Control Board. <https://calepa.ca.gov>

27
28 **California Environmental Quality Act (CEQA).** A State law (California Public Resources Code
29 Sections 21000 et seq.) requiring public agencies to document and consider the environmental effects of
30 a proposed action, prior to allowing the action to occur. If a proposed activity has the potential for a
31 significant adverse environmental impact, an Environmental Impact Report (EIR) must be prepared
32 and certified as to its adequacy before taking action on the proposed project. General Plans require
33 the preparation of a "program EIR."

34
35 **California Housing Finance Agency (CHFA).** A State agency, established by the Housing and
36 Home Finance Act of 1975, which is authorized to sell revenue bonds and generate funds for the
37 development, rehabilitation, and conservation of low-and moderate-income housing.

38
39 **California Public Utilities Commission (CPUC).** The governmental agency which regulates the terms
40 and conditions of public utilities in the state.

41
42 **California State Water Resources Control Board (SWRCB).** The state-level entity that regulates storm
43 water runoff and treatment in California.

44
45 **California Stormwater Quality Association (CASQA).** Statewide association of municipalities, storm
46 water quality managers, and other interested parties. Publisher of the California Stormwater Best

1 Management Practices Handbooks, available at www.cabmphandbooks.com. Successor to the Storm
2 Water Quality Task Force (SWQTF).

3
4 **Capital Improvements Program (CIP).** A program, administered by the Town and reviewed by its
5 Town Council, which schedules permanent improvements, usually for a minimum of five years in the
6 future, to fit the projected fiscal capability of the local jurisdiction. The program generally is reviewed
7 annually, for conformance to and consistency with the General Plan.

8
9 **Carbon Dioxide.** A colorless, odorless, non-poisonous gas that is a normal part of the atmosphere.

10
11 **Carbon Monoxide.** A colorless, odorless, highly poisonous gas produced by automobiles and other
12 machines with internal combustion engines that imperfectly burn fossil fuels such as oil and gas.

13
14 **Card Room.** An establishment offering legal gambling activities in compliance with a state license.

15
16 **Caretaker/Employee Unit.** A permanent residence that is secondary or accessory to the primary use of
17 the property, and used for housing a caretaker employed on the site of any nonresidential use where needed
18 for security purposes or to provide twenty-four-hour care or monitoring of people, plants, animals,
19 equipment, or other conditions on the site.

20
21 **Carriage House.** A secondary residential unit located over a detached garage.

22
23 **Carrying Capacity.** Used in determining the potential of an area to absorb development: (1) The
24 level of land use, human activity, or development for a specific area that can be accommodated
25 permanently without an irreversible change in the quality of air, water, land, or plant and animal
26 habitats. (2) The upper limits of development beyond which the quality of human life, health, welfare,
27 safety, or community character within an area will be impaired. (3) The maximum level of
28 development allowable under current zoning. (See "Buildout.")

29
30 **Catering Service.** A business that prepares food for consumption on the premises of a client.

31
32 **Cemetery, Mausoleum, Columbarium.** An interment establishment engaged in subdividing property into
33 cemetery lots and offering burial plots or air space for sale. Includes animal cemeteries, cemetery, mausoleum,
34 crematorium and columbarium operations, and full-service mortuaries and funeral parlors accessory to a
35 cemetery or columbarium.

36
37 **Census.** The official decennial enumeration of the population conducted by the federal government.

38
39 **Change of Use.** The replacement of an existing use on a lot or parcel, or any portion thereof, by a new
40 use, or a change in the nature of an existing use; but does not include a change of ownership, tenancy, or
41 management associated with a use for which the previous nature of the use will remain substantially
42 unchanged.

43
44 **Channelization.** (1) The straightening and/or deepening of a watercourse for purposes of storm-runoff
45 control or ease of navigation. Channelization often includes lining of stream banks with a retaining
46 material such as concrete. (2) At the intersection of roadways, the directional separation of traffic

lanes through the use of curbs or raised islands that limit the paths that vehicles may take through the intersection.

Character. Special physical characteristics of a structure or area that set it apart from its surroundings and contribute to its individuality.

Charging Station. A public or private parking space equipped with an Electric Vehicle Supply Equipment battery charging station system or device used specifically to transfer electrical energy to the battery of a plug-in electric vehicle as its primary purpose.

Check Dam. Structures constructed of a non-erosive material, such as suitably sized aggregate, wood, gabions, riprap, or concrete, used to slow water to allow sedimentation, filtration, evapotranspiration, and infiltration into the underlying native soil. Check dams can be employed in practices such as dry and enhanced grass swales.

Circulation Element. One of the ~~seven~~ State-mandated elements of a local General Plan, it contains adopted goals, policies, and implementation programs for the planning and management of existing and proposed thoroughfares, transportation routes, and terminals, as well as local public utilities and facilities, all correlated with the land use element of the General Plan.

City. City with a capital "C" generally refers to the government or administration of a city. City with a lower case "c" may mean any city or may refer to the geographical area of a city (e.g., the city bikeway system).

Clean Water Act (CWA). The Federal Water Pollution Control Act. (33 U.S.C. 1251 et seq.)

Club, Lodge, Private Meeting Hall. Permanent, headquarters-type and meeting facilities for organizations operating on a membership basis for the promotion of the interests of the members, including facilities for: Business associations; civic, social and fraternal organizations; labor unions and similar organizations; political organizations; professional membership organizations; other membership organizations; and includes grange halls and similar facilities.

Clustered Development. Development in which a number of dwelling units are placed in closer proximity than usual, or are attached, with the purpose of retaining an open space area.

Collector. Relatively-low-speed (25-30 mph), relatively-low-volume (5,000-20,000 average daily trips) street that provides circulation within and between neighborhoods. Collectors usually serve short trips and are intended for collecting trips from local streets and distributing them to the arterial network.

Commercial. A land use classification that permits facilities for the buying and selling of commodities and services.

Commercial Recreation Facility, Indoor. Establishments providing indoor amusement and entertainment services for a fee or admission charge, including: Bowling alleys, coin-operated amusement arcades, dance halls, clubs and ballrooms, electronic game arcades (video games, pinball, etc.), ice skating and roller skating, and pool and billiard rooms as primary uses. This use does not include adult-oriented businesses, which are separately defined. Four or more electronic games or coin-operated amusements in any establishment, or a premises where fifty percent or

1 more of the floor area is occupied by amusement devices, are considered an electronic game arcade as described in
2 this definition; three or fewer machines are not considered a land use separate from the primary use of the site.
3

4 **Commercial Recreation Facility, Outdoor.** A facility for various outdoor recreational activities, where a fee is
5 charged for use. Examples include: Amusement and theme parks, go-cart tracks, golf driving ranges, miniature golf
6 courses, and water slides. May also include commercial facilities customarily associated with the above outdoor
7 commercial recreational uses, including bars and restaurants, video game arcades, etc.
8

9 **Commercial Zoning District.** Any of the commercial zoning districts established by Zoning Code Section
10 13.20.020.
11

12 **Common/Larger Plan of Development or Sale.** A contiguous area, plan area, specific plan, subdivision or any
13 other project site that has evaluated storm water management and may be phased in the future or where multiple,
14 distinct construction activities may be taking place at different times under one plan.
15

16 **Community Center.** A multi-purpose meeting and recreational facility typically consisting of one or more meeting
17 or multi-purpose rooms, kitchen and/or outdoor barbecue facilities, that are available for use by various groups for
18 such activities as meetings, parties, receptions, dances, etc.
19

20 **Community Development Block Grant (CDBG).** A grant program administered by the U.S. Department of
21 Housing and Urban Development (HUD) on a formula basis for entitlement communities, and by the State
22 Department of Housing and Community Development (HCD) for non-entitled jurisdictions. This grant allots
23 money to cities and counties for housing rehabilitation and community development, including public facilities
24 and economic development.
25

26 **Community Equity.** Justice and fairness in Town policy where all members are afforded the same societal
27 benefits and participation.
28

29 **Community Noise Equivalent Level (CNEL).** A 24-hour energy equivalent level derived from a variety of
30 single-noise events, with weighting factors of 5 and 10 dBA applied to the evening (7 PM to 10 PM) and
31 nighttime (10 PM to 7 AM) periods, respectively, to allow for the greater sensitivity to noise during these
32 hours.
33

34 **Community Park.** Land with full public access intended to provide recreation opportunities beyond those
35 supplied by neighborhood parks. Community parks are larger in scale than neighborhood parks but smaller than
36 regional parks. Community parks are owned by the Town and offer a range of developed amenities including play
37 structures (tot lots), sport fields, walking paths, and picnicking facilities along with open space. These parks are
38 located in the north of town to be accessible to residents with smaller home lots.
39

40 **Compatible.** Capable of existing together without conflict or ill effects.
41

42 **Complete Streets.** A transportation policy and design approach that requires streets to be planned,
43 designed, operated and maintained to enable safe, convenient and comfortable travel and access for users
44 of all ages and abilities regardless of their mode of transportation.
45

46 **Complex.** A patterned grouping of similar artifact assemblages from two or more sites, presumed to
47 represent an archaeological culture.
48

49 **Condominium.** A structure of two or more units, the interior spaces of which are individually owned;
50 the balance of the property (both land and building) is owned in common by the owners of the

1 individual units. (See "Townhouse.") ~~As defined by Civil Code Section 1315, a development where~~
2 ~~undivided interest in common in a portion of real property is coupled with a separate interest in space~~
3 ~~called a unit, the boundaries of which are described on a recorded final map or parcel map.~~

4
5 **Conference/Convention Facility.** One or more structures accommodating multiple assembly, meeting,
6 and/or exhibit rooms, and related support facilities (e.g., kitchens, offices, etc.).

7
8 **Conservation.** The management of natural resources to prevent waste, destruction, or neglect. The
9 state mandates that a Conservation Element be included in the General Plan.

10
11 **Conservation Area.** A public or private area protected in order to maintain or improve sensitive or
12 highly valued resources and functions including natural, scenic, ecological, historic, agricultural,
13 hydrological, or geological resources. Secondary uses may be accommodated in conservation areas
14 (e.g., passive park uses) provided they do not impact the primary uses for which the area is protected.

15
16 **Conservation Element.** One of the seven State-mandated elements of a local General Plan, it contains
17 adopted goals, policies, and implementation programs for the conservation, development, and use of
18 natural resources including water and its hydraulic force, forests, soils, rivers and other waters,
19 harbors, fisheries, wildlife, minerals, and other natural resources.

20
21 **Consistent.** Free from variation or contradiction. Programs in the General Plan are to be consistent,
22 not contradictory or preferential. State law requires consistency between a General Plan and
23 implementation measures such as the zoning ordinance.

24
25 **Construction Contractors.** Office, and indoor and/or outdoor storage facilities operated by, or on behalf
26 of a contractor licensed by the state of California for storage of large equipment, vehicles, and/or other
27 materials commonly used in the individual contractor's type of business; storage of scrap materials used
28 for repair and maintenance of contractor's own equipment; and buildings or structures for uses such as
29 repair facilities.

30
31 **Construction/Heavy Equipment Sales and Rental.** Retail establishments selling or renting construction,
32 farm, or other heavy equipment. Examples include cranes, earth-moving equipment, tractors, combines,
33 heavy trucks, etc.

34
35 **Convenience Store.** A retail store of three thousand five hundred square feet or less in gross floor area,
36 which carries a range of merchandise oriented to convenience and/or travelers' shopping needs.

37
38 **Conveyance System.** Any channel, swale, gutter, or pipe for collecting and directing storm water.

39
40 **Core Concept.** The land use planning concept that represents the Town of Loomis, where higher-
41 intensity uses are concentrated within and adjacent to the downtown, along Taylor Road, and
42 adjacent to Interstate 80 (I-80), with the land uses in surrounding areas becoming progressively less
43 intense (and with lower residential densities) as the distance from the "core" increases.

1 **County.** The county of Placer, state of California. County with a capital "C" generally refers to the
2 government or administration of a county. County with a lower case "c" may mean any county or
3 may refer to the geographical area of a county (e.g., the county road system).

4
5 **Covenants, Conditions, and Restrictions (CC&Rs).** A term used to describe restrictive limitations
6 that may be placed on property and its use, and which usually are made a condition of holding title
7 or lease.

8
9 **Criterion.** A standard upon which a judgment or decision may be based. (See "Standards.")

10
11 **Critical Facility.** Facilities housing or serving many people, which are necessary in the event of an
12 earthquake or flood, such as hospitals, fire, police, and emergency service facilities, utility "lifeline"
13 facilities, such as water, electricity, and gas supply, sewage disposal, and communications and
14 transportation facilities.

15
16 **Crop Production, Horticulture, Orchard, Vineyard.** Commercial agricultural production field and
17 orchard uses, including the production of the following, primarily in the soil on the site and not in
18 containers, other than for initial propagation prior to planting in the soil on the site, and/or in containers
19 occupying one acre or less: Field crops, flowers and seeds, fruits, grains, melons, ornamental crops, tree
20 nuts, trees and sod, vegetables, wine and table grapes. Also includes associated crop preparation services
21 and harvesting activities, such as mechanical soil preparation, irrigation system construction, spraying,
22 crop processing and retail sales in the field, not including **sales sheds**, which are instead defined under
23 **produce stand**. Does not include **greenhouses** which are instead defined under **plant nursery**, and
24 **residential accessory use or structure**, or **containerized crop production**, which is instead defined
25 under **plant nursery**.

26
27 **Cul-de-sac.** A short street or alley with only a single means of ingress and egress at one end and with
28 a large turnaround at its other end.

29
30 **Cumulative Impact.** As used in CEQA, the total impact resulting from the accumulated impacts of
31 individual projects or programs over time.

32
33 **Curb Cuts.** Curb openings that allow storm water runoff to enter landscaped areas, vegetated swales,
34 planters, rain gardens, and other BMP features.

35
36 **Day Care.** Facilities that provide nonmedical care and supervision of minor children for periods of less
37 than twenty-four hours. These facilities include the following, all of which are required to be licensed by
38 the California State Department of Social Services:

- 39 1. **Child day care center.** Commercial or nonprofit child day care facilities designed and
40 approved to accommodate fifteen or more children. Includes infant centers, preschools, sick-
41 child centers and school-age day care facilities. These may be operated in conjunction with a
42 school or church facility, or as an independent land use.
- 43 2. **Large family day care home.** As provided by Health and Safety Code Section 1596.78, a
44 home that regularly provides care, protection, and supervision for seven to fourteen children,
45 inclusive, including children under the age of ten years who reside in the home, for periods of
46 less than twenty-four hours per day, while the parents or guardians are away.

- 1 3. **Small family day care home.** As provided by Health and Safety Code Section 1596.78, a
2 home that provides family day care for eight or fewer children, including children under the
3 age of ten years who reside in the home.
- 4 4. **Adult day care facility.** A day care facility providing care and supervision for adult clients.

5

6 **Daytime Hours.** In relation to noise and the limitation of hours of construction, daytime hours are
7 7:00 a.m. to 7:00 p.m. Monday through Friday, 8:00 a.m. to 7:00 p.m. Saturday, and by commission
8 or council approval between 9:00 a.m. and 5:00 p.m. on Sundays and National Holidays.

9

10 **dB, Decibel.** A fundamental unit of sound used to express the relative intensity of a sound as it is
11 heard by the human ear. A Bel is defined as the logarithm of the ratio of the sound pressure squared over
12 the reference pressure squared. A Decibel is one-tenth of a Bel.

13

14 **dBA.** The "A-weighted" scale for measuring sound in decibels; weighs or reduces the effects of low
15 and high frequencies in order to simulate human hearing. Every increase of 10 dBA doubles the
16 perceived loudness though the noise is actually ten times more intense.

17

18 **Dedication.** The turning over by an owner or developer of private land for public use, and the
19 acceptance of land for such use by the governmental agency having jurisdiction over the public
20 function for which it will be used. Dedications for roads, parks, school sites, or other public uses often
21 are made conditions for approval of a development by a city or county.

22

23 **Dedication, In lieu of.** Cash payments that may be required of an owner or developer as a substitute
24 for a dedication of land, usually calculated in dollars per lot, and referred to as in lieu fees or in lieu
25 contributions.

26

27 **Deer Fencing.** A fence that protects property from damage by deer or other animals. It is generally a
28 maximum of eight feet in height, with posts of metal or wood, and open fencing material such as netting,
29 wire or plastic mesh. It may also include such fencing added atop other allowable fences.

30

31 **Density.** The number of housing units per gross acre, unless otherwise stated, for residential uses.

32

33 **Density, Residential.** The number of permanent residential dwelling units per acre of land. Densities
34 specified in the General Plan may be expressed in units per gross acre or per net developable acre.
35 (See "Acres, Gross," and "Developable Acres, Net.")

36

37 **Density Bonus.** The allocation of development rights that allow a parcel to accommodate additional
38 square footage or additional residential units beyond the maximum for which the parcel is zoned,
39 usually in exchange for the provision or preservation of an amenity at the same site or at another
40 location. Under California law, a housing development that provides 20 percent of its units for lower
41 income households, or 10 percent of its units for very low income households, or 50 percent of its
42 units for seniors, is entitled to a density bonus. (See "Development Rights, Transfer of.") As defined
43 by state law (Government Code Section 65915 et seq.), an increase of at least twenty five percent over
44 the maximum density otherwise allowed by the applicable zoning district, that is granted to the
45 owner/developer of a housing project who agrees to construct a prescribed percentage of dwelling units
46 that are affordable to households of very low and/or low income. When determining the number of

1 ~~dwelling units that shall be affordable, the units authorized by the density bonus shall not be included in~~
2 ~~the calculation.~~

3
4 **Density, Control of.** A limitation on the occupancy of land. Density can be controlled through zoning
5 in the following ways: use restrictions, minimum lot-size requirements, floor area ratios, land use-
6 intensity ratios, setback and yard requirements, minimum house-size requirements, ratios comparing
7 number and types of housing units to land area, limits on units per acre, and other means. Allowable
8 density often serves as the major distinction between residential districts.

9
10 **Density, Employment.** A measure of the number of employed persons per specific area (for example,
11 employees/acre).

12
13 **Density Transfer.** A way of retaining open space by concentrating densities-usually in compact areas
14 adjacent to existing urbanization and utilities-while leaving unchanged historic, sensitive, or
15 hazardous areas. In some jurisdictions, for example, developers can buy development rights of
16 properties targeted for public open space and transfer the additional density to the base number of
17 units permitted in the zone in which they propose to develop.

18
19 **Design Engineer.** Engineer responsible for preparing the SWQP for Regulated Projects, site design, and
20 site plan.

21
22 **Design Review; Design Control.** The comprehensive evaluation of a development and its impact on
23 neighboring properties and the community as a whole, from the standpoint of site and landscape
24 design, architecture, materials, colors, lighting, and signs, in accordance with a set of adopted criteria
25 and standards. "Design Control" requires that certain specific things be done and that other things not
26 be done. Design Control language is most often found within a zoning ordinance. "Design Review"
27 usually refers to a system set up outside of the zoning ordinance, whereby projects are reviewed
28 against certain standards and criteria by a specially established design review board or committee. (See
29 "Architectural Control.")

30
31 **Destination Retail.** Retail businesses that generate a special purpose trip and that do not necessarily
32 benefit from a high-volume pedestrian location.

33
34 ~~**Developable Acres, Net.** The portion of a site that can be used for density calculations. Some~~
35 ~~communities calculate density based on gross acreage. Public or private road rights of way are not~~
36 ~~included in the net developable acreage of a site.~~

37
38 **Developable Land.** Land that is suitable as a location for structures and that can be developed free of
39 hazards to, and without disruption of, or significant impact on natural resource areas.

40
41 **Developer.** An individual who or business that prepares raw land for the construction of buildings or
42 causes to be built physical building space for use primarily by others, and in which the preparation of
43 the land or the creation of the building space is in itself a business and is not incidental to another
44 business or activity.

1 **Development.** The physical extension and/or construction of urban land uses. Any construction
2 activity or alteration of the landscape, its terrain contour or vegetation, including the erection or alteration
3 of structures. Development activities include: subdivision of land; construction or alteration of
4 structures, roads, utilities, and other facilities; installation of septic systems; grading; deposit of
5 refuse, debris, or fill materials; and clearing of natural vegetative cover (with the exception of
6 agricultural activities). Routine repair and maintenance activities are exempted.

7
8 **Development Agreement.** A contract between the town and an applicant for a development project, in
9 compliance with the municipal code, and Government Code Sections 65864 et seq. A development
10 agreement is intended to provide assurance to the applicant that an approved project may proceed subject
11 to the policies, rules, regulations and conditions of approval applicable to the project at the time of
12 approval, regardless of any changes to town policies, rules, and regulations after project approval. In
13 return, the town ~~is may be~~ assured that the applicant will provide infrastructure and/or pay fees required
14 by a new project.

15
16 **Development Fee.** (See "Impact Fee.")

17
18 **Development Rights.** The right to develop land by a ~~property owner landowner~~ who maintains fee-
19 simple ownership over the land or by a party other than the owner who has obtained the rights to
20 develop. Such rights usually are expressed in terms of density allowed under existing zoning. For
21 example, one development right may equal one unit of housing or may equal a specific number of
22 square feet of gross floor area in one or more specified zone districts. (See "Interest, Fee" and
23 "Interest, Less-than-fee," and "Development Rights, Transfer of [TDR].")

24
25 **Development Rights, Transfer of (TDR).** Also known as "Transfer of Development Credits," a
26 program that can relocate potential development from areas where proposed land use or
27 environmental impacts are considered undesirable (the "donor" site) to another ("receiver") site
28 chosen on the basis of its ability to accommodate additional units of development beyond that for
29 which it was zoned, with minimal environmental, social, and aesthetic impacts. (See "Development
30 Rights.")

31
32 **Diameter of a Tree.** Trunk diameter measured at fifty-four inches above the ground (also known as
33 "Diameter at breast height," or "DBH"). In the case of a trunk that is divided into limbs at a point below
34 fifty-four inches, the trunk diameter shall be measured at the narrowest diameter of the trunk between the
35 base of the tree and fifty-four inches above the ground.

36
37 **Director.** The town of Loomis planning director, or designee of the director.

38
39 **Disabled.** Any person who has a physical or mental impairment that substantially limits one or more major
40 life activities; anyone who is regarded as having such an impairment or anyone who has a record of such
41 impairment. ~~People who are currently using illegal substances are not covered under the Fair Housing
42 Act, unless they have a separate disability.~~

43
44 **Disadvantaged Community.** An area identified by the California Environmental Protection Agency
45 pursuant to Section 39711 of the Health and Safety Code or a low-income area that is disproportionately

1 affected by environmental pollution and other hazards that can lead to negative health effects, exposure,
2 or environmental degradation.

3
4 **Discourage.** To advise or persuade to refrain from.

5
6 **Discretionary Decision.** As used in CEQA, an action taken by a governmental agency that calls for
7 the exercise of judgment in deciding whether to approve and/or how to carry out a project.

8
9 **Discretionary Permit.** A town land use review and entitlement process where the review authority
10 exercises discretion in deciding to approve or disapprove the permit. Includes minor use permits, use
11 permits, minor variances, variances, design review approval, master development plans, and subdivision
12 maps.

13
14 **Diseased Tree.** A tree afflicted by, but not limited to, any of the following: insect infestation, heart rot,
15 exfoliation, slime flux, crown rot, leaf scorch, root fungus, structural defects or weaknesses.

16
17 **Diversity.** Differences among otherwise similar elements that give them unique forms and qualities.
18 E.g., housing diversity can be achieved by differences in unit size, tenure, or cost.

19
20 **Downtown.** The “downtown/town center area” shown in Figure 3-3 of the general plan.

21
22 **Drip Line.** A line that may be drawn on the ground around a tree directly under its outermost branch tips
23 and which identifies that location where rainwater tends to drip from the trees. When depicted on a map,
24 the drip line will appear as an irregular shaped circle that follows the contour of the tree’s branches as
25 seen from overhead.

26
27 **Drive-through Sales or Services.** A facility where food or other products may be purchased, or where
28 services may be obtained by motorists without leaving their vehicles. Examples of drive-through sales
29 facilities include fast-food restaurants, drive-through coffee, dairy product, photo stores, pharmacies, etc.
30 Examples of drive-through service facilities include drive-through bank teller windows, dry cleaners, etc.,
31 but do not include automated teller machines (ATMs), gas stations or other vehicle services, which are
32 separately defined.

33
34 **Duplex.** A detached building under single ownership that is designed for occupation as the residence
35 of two families living independently of each other.

36
37 **Dwelling Unit.** A room or group of internally connected rooms (including sleeping, eating, cooking,
38 and sanitation facilities, but not more than one kitchen), which constitutes an independent
39 housekeeping unit, occupied or intended for occupancy by one household on a long-term basis.

40
41 **Easement.** A grant of one or more of the property rights by the property owner to and/or for the use by
42 the public, a corporation or another person or entity. Usually the right to use property owned by another
43 for specific purposes or to gain access to another property. For example, utility companies often have
44 easements on the private property of individuals to be able to install and maintain utility facilities.

1 **Easement, Conservation.** A tool for acquiring open space with less than full-fee purchase, whereby
2 a public agency buys only certain specific rights from the **property owner landowner**. These may be
3 positive rights (providing the public with the opportunity to hunt, fish, hike, or ride over the land), or
4 they may be restrictive rights (limiting the uses to which the **property owner landowner** may devote
5 the land in the future.)
6

7 **Easement, Scenic.** A tool that allows a public agency to use an owner's land for scenic enhancement,
8 such as roadside landscaping or vista preservation.
9

10 **Ecology.** The interrelationship of living things to one another and their environment; the study of
11 such interrelationships.
12

13 **Economic Base.** Economic Base theory essentially holds that the structure of the economy is made
14 up of two broad classes of productive effort-basic activities that produce and distribute goods and
15 services for export to firms and individuals outside a defined localized economic area, and non-basic
16 activities whose goods and services are consumed at home within the boundaries of the local
17 economic area. Viewed another way, basic activity exports goods and services and brings new dollars
18 into the area; non-basic activity recirculates dollars within the area. This distinction holds that the
19 reason for the growth of a particular region is its capacity to provide the means of payment for raw
20 materials, food, and services that the region cannot produce itself and also support the non-basic
21 activities that are principally local in productive scope and market area. (See "Industry, Basic" and
22 "Industry, Non-basic.")
23

24 **Ecosystem.** An interacting system formed by a biotic community and its physical environment.
25

26 **Emergency Shelter.** A facility that provides immediate and short-term housing of six months or less
27 and minimal supplemental services for the homeless. Shelters come in many sizes, but an optimum
28 size is considered to be 20 to 40 beds. Supplemental services may include food, counseling, and
29 access to other social programs. (See "Homeless" and "Transitional Housing.") No individual or
30 household may be denied emergency shelter because of an inability to pay.
31

32 **Eminent Domain.** The right of a public entity to acquire private property for public use by condemnation,
33 and the payment of just compensation.
34

35 **Emission Standard.** The maximum amount of pollutant legally permitted to be discharged from a
36 single source, either mobile or stationary.
37

38 **Encourage.** To stimulate or foster a particular condition through direct or indirect action by the
39 private sector or government agencies.
40

41 **Endangered Species.** A species of animal or plant is considered to be endangered when its prospects
42 for survival and reproduction are in immediate jeopardy from one or more causes.
43

44 **Enhance.** To improve existing conditions by increasing the quantity or quality of beneficial uses or
45 features.
46

1 **Environment.** CEQA defines environment as "the physical conditions which exist within the area which
2 will be affected by a proposed project, including land, air, water, mineral, flora, fauna, noise, and objects
3 of historic or aesthetic significance."
4

5 **Environmental Impact Report (EIR).** An informational document used to assess the physical
6 characteristics of an area and to determine what effects will result if the area is altered by a proposed
7 action, prepared in compliance with the California Environmental Quality Act (CEQA). **A report required**
8 **of General Plans by CEQA and which assesses all the environmental characteristics of an area and**
9 **determines what effects or impacts will result if the area is altered or disturbed by a proposed action.** (See
10 "California Environmental Quality Act.")
11

12 **Environmental Impact Statement (EIS).** Under the National Environmental Policy Act, a statement on
13 the effect of development proposals and other major actions that significantly affect the environment.
14

15 **Environmentally Sensitive Area (ESA).** A designated area that requires special protection because of its
16 landscape, wildlife, and/or historical value.
17

18 **Equestrian Facility.** A commercial facility for horses, donkeys, and/or mules, examples of which include
19 horse ranches, boarding stables, riding schools and academies, horse exhibition facilities (for shows or
20 other competitive events), and barns, stables, corrals and paddocks accessory and incidental to these uses.
21 Does not include the simple pasturing of horses, donkeys, and/or mules, which is instead included in
22 "Animal keeping".
23

24 **Equipment Rental.** A service establishment that may offer a wide variety of household and business
25 equipment, furniture, and materials for rental. Does not include construction equipment rental, which is
26 separately defined.
27

28 **Equivalent Dwelling Unit (EDU).** A unit of measure for **the projected water use by or** sewage generated
29 from particular buildings, structures or uses, for which one equivalent dwelling unit is equal to an
30 approximation of the amount of **water used or** sewage generated by an average single-family residence.
31

32 **Erosion.** (1) The loosening and transportation of rock and soil debris by wind, rain, or running water. (2)
33 The gradual wearing away of the upper layers of earth.
34

35 **Ethnology.** The study of different societies and cultures.
36

37 **Exaction.** A contribution or payment required as an authorized precondition for receiving a development
38 permit; usually refers to mandatory dedication (or fee in lieu of dedication) requirements found in many
39 subdivision regulations.
40

41 **Expansive Soils.** Soils that swell when they absorb water and shrink as they dry.
42

43 **Extended Hour Retail.** Any business that is open to the public between the hours of 11:00 p.m., and 6:00
44 a.m.
45

1 **Family.** (1) Two or more persons related by birth, marriage, or adoption [U.S. Bureau of the Census]. (2)
2 An individual or a group of persons living together who constitute a bona fide single-family housekeeping
3 unit in a dwelling unit, not including a fraternity, sorority, club, or other group of persons occupying a
4 hotel, lodging house or institution of any kind [California].
5

6 **Farm Supply and Feed Store.** A retail business selling supplies for use in soil preparation and
7 maintenance, the planting and harvesting of crops, the keeping and raising of farm animals, and other
8 operations and processes pertaining to farming and ranching. Does not include the sale, rental, or repair
9 of farm machinery and equipment, which is instead included in the definition of **construction and heavy**
10 **equipment sales and rental.**

11
12 **Fault.** A fracture in the earth's crust forming a boundary between rock masses that have shifted.
13

14 **Feasible.** Capable of being accomplished in a successful manner within a reasonable period of time, taking
15 into account economic, environmental, social and technological factors.
16

17 **Feasible, Technically.** Capable of being implemented because the industrial, mechanical, or application
18 technology exists.
19

20 **Finding(s).** The result(s) of an investigation and the basis upon which decisions are made. Findings are
21 used by government agents and bodies to justify action taken by the entity.
22

23 **Fire Hazard Zone.** An area where, due to slope, fuel, weather, or other fire-related conditions, the
24 potential loss of life and property from a fire necessitates special fire protection measures and planning
25 before development occurs.
26

27 **Fire-resistive.** Able to withstand specified temperatures for a certain period of time, such as a one-hour
28 fire wall; not fireproof.
29

30 **Fiscal Impact Analysis.** A projection of the direct public costs and revenues resulting from population or
31 employment change to the local jurisdiction(s) in which the change is taking place. Enables local
32 governments to evaluate relative fiscal merits of General Plans, specific plans, or projects.
33

34 **Flood, 100-Year.** The magnitude of a flood expected to occur on the average every 100 years, based on
35 historical data. The 100-year flood has a 1/100, or one percent, chance of occurring in any given year.
36

37 **Flood Insurance Rate Map (FIRM).** For each community, the official map on which the **Federal**
38 **Emergency Management Agency (FEMA) Federal Insurance Administration** has delineated areas of
39 special flood hazard and the risk premium zones applicable to that community.
40

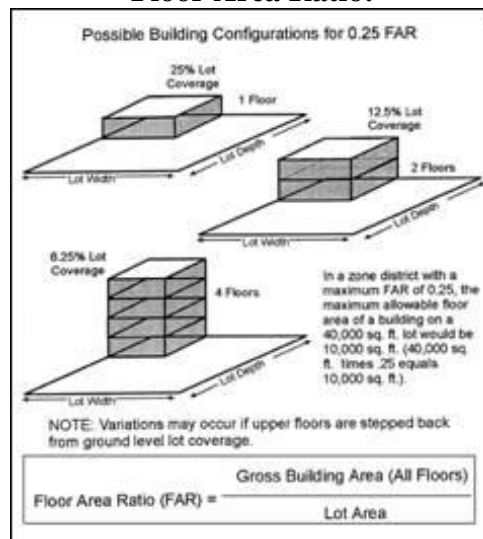

41 **Flood Plain.** The relatively level land area on either side of the banks of a stream regularly subject to
42 flooding. That part of the flood plain subject to a one percent chance of flooding in any given year is
43 designated as an "area of special flood hazard" by the Federal Insurance Administration.
44

45 **Flood Plain Fringe.** All land between the floodway and the upper elevation of the 100-year flood.
46

1 **Floodway.** The channel of a river or other watercourse and the adjacent land areas that must be
 2 reserved in order to discharge the "base flood" without cumulatively increasing the water surface
 3 elevation more than one foot. No development is allowed in floodways.
 4

5 **Floor Area Ratio (FAR).** The ratio of floor area to total lot area. FAR restrictions are used to limit the
 6 maximum floor area allowed on a site (including all structures on the site). The maximum floor area of all
 7 structures (measured from exterior wall to exterior wall) permitted on a site (including carports) shall be
 8 determined by multiplying the floor area ratio (FAR) by the total net area of the site (FAR x Net Site Area
 9 = Maximum Allowable Floor Area). The gross floor area permitted on a site divided by the total net
 10 area of the site, expressed in decimals to one or two places. For example, on a site with 10,000 net
 11 sq. ft. of land area, a Floor Area Ratio of 1.0 will allow a maximum of 10,000 gross sq. ft. of building
 12 floor area to be built. On the same site, a FAR of 1.5 would allow 15,000 sq. ft. of floor area; a FAR
 13 of 2.0 would allow 20,000 sq. ft.; and a FAR of 0.5 would allow only 5,000 sq. ft. Also commonly
 14 used in zoning, FARs typically are applied on a parcel-by-parcel basis as opposed to an average FAR
 15 for an entire land use or zoning district.
 16
 17
 18

Floor Area Ratio:

19
 20 **Footprint; Building Footprint.** The outline of a building at all of those points where it meets the
 21 ground.
 22

23 **Freeway.** A high-speed, high-capacity, limited-access transportation facility serving regional and
 24 county-wide travel. Such roads are free of tolls, as contrasted with "turnpikes" or other "toll roads"
 25 that are now being introduced into Southern California. Freeways generally are used for long trips
 26 between major land use generators. At Level of Service "E," they carry approximately 1,875 vehicles
 27 per lane per hour, in both directions. Major streets cross at a different grade level.
 28

29 **Frequency.** The measure of the rapidity of alterations of a periodic signal, expressed in cycles per second
 30 or hertz (Hz).
 31

32 **Fuel Dealer.** A retail trade establishment that sells fuel oil, butane, propane and liquefied petroleum gas (LPG),
 33 bottled or in bulk, to consumers.

1
2 **Fueling Station.** A motor vehicle fueling component of a warehouse retail store, where warehouse consumers
3 purchase bulk fuel from said warehouse retail store. Fueling stations are located adjacent to an operate in
4 conjunction with a warehouse retail store. Fueling stations are an ancillary use of a warehouse retail use and are
5 subject to siting and design requirements of the CG General Commercial zone Section 13.26.040 and are not subject
6 to Section 13.42.100 regarding gas stations.
7

8 **Furniture/Fixtures Manufacturing, Cabinet Shop.** Manufacturers producing: wood and metal household
9 furniture and appliances; bedsprings and mattresses; all types of office furniture and public building furniture and
10 partitions, shelving, lockers and store furniture; and miscellaneous drapery hardware, window blinds and shades.
11 Includes furniture re-upholstering businesses, wood and cabinet shops, but not sawmills or planing mills, which are
12 instead included under “Manufacturing—heavy.”
13

14 **Furniture, Furnishings and Appliance Store.** A store that primarily sells the following products and related
15 services, that may also provide incidental repair services: Computers and computer equipment, draperies, floor
16 coverings, furniture, glass and chinaware, home appliances, home furnishings, home sound systems, interior
17 decorating materials and services, large musical instruments, lawn furniture, movable spas and hot tubs, office
18 furniture, other household electrical and gas appliances, outdoor furniture, refrigerators, stoves, and televisions.
19

20 **Garage or Carport.** Parking space and shelter for automobiles or other vehicles, where the size of the
21 parking space complies with the provisions of Chapter 13.36 of the Zoning Code.

22 1. A garage is an attached or detached accessory structure with a door, enclosed on at least three
23 sides.

24 2. A carport is an attached or detached accessory structure enclosed on not more than two sides.

25 A garage or carport complies with the requirements for **covered parking spaces**.
26

27 **Gas Station.** A retail business selling gasoline and/or other motor vehicle fuels, and related products.
28 Where allowed by Division 2, a gas station may also include a **convenience store, vehicle services**, and/or
29 **trailer rental (auto and vehicle sales or rental)**, which are separately defined.
30

31 **Gateway.** A point along a roadway entering a city or county at which a motorist gains a sense of
32 having left the environs and of having entered the city or county.
33

34 **General Plan.** The town of Loomis general plan, including all its elements and all amendments thereto,
35 as adopted by the town council in compliance with Government Code Sections 65300 et seq. A
36 compendium of city or county policies regarding its long-term development, in the form of maps and
37 accompanying text. The General Plan is a legal document required of each local agency by the State
38 of California Government Code Section 65301 and adopted by the Town or City Council or Board of
39 Supervisors. In California, the General Plan has mandatory elements (Land Use, Open Space,
40 Conservation, Housing, Environmental Justice [required in some areas], Circulation, Noise, Air
41 Quality [required in some areas], and Safety) and may include any number of optional elements (such
42 as Economic Development, Hazardous Waste, and Parks and Recreation). The General Plan may also
43 be called a "City Plan," "Comprehensive Plan," or "Master Plan."
44

45 **General Retail.** Stores and shops selling many lines of merchandise. Examples of these stores and lines of
46 merchandise include: Antique stores; art galleries or retail; art supplies, including framing services; auction rooms;
47 bicycles; books, magazines, and newspapers; cameras and photographic supplies; clothing, shoes, and accessories;
48 collectibles (cards, coins, comics, stamps, etc.); department stores; drug stores and pharmacies; dry goods; fabrics

1 and sewing supplies; florists and houseplant stores (indoor sales only—outdoor sales are **building and landscape**
2 **materials sales**); hobby materials; jewelry; luggage and leather goods; musical instruments, parts and accessories;
3 orthopedic supplies; religious goods; small wares; specialty shops; sporting goods and equipment; stationery; toys
4 and games; and variety stores.

5
6 **Geological.** Pertaining to rock or solid matter.

7
8 **Goal.** A general, overall, and ultimate purpose, aim, or end toward which the City or County will
9 direct effort.

10
11 **Golf Course, Country Club.** Golf courses, and accessory facilities and uses including: clubhouses with
12 bar and restaurant, locker and shower facilities; driving ranges; “pro shops” for on-site sales of golfing
13 equipment; and golf cart storage and sales facilities.

14
15 **Grade.** The ground surface immediately adjacent to the exterior base of a structure, typically used as the
16 basis for measurement of the height of the structure.

17
18 **Grading.** The removal, addition, or alteration of surface or subsurface conditions of land by excavating
19 or filling to achieve a level earthen base or specific slope.

20
21 **Grasslands.** Land reserved for pasturing or mowing, in which grasses are the predominant
22 vegetation.

23
24 **Grocery Store.** A retail business where the majority of the floor area open to the public is occupied by
25 food products packaged for preparation and consumption away from the store.

26
27 **Groundwater.** Any water under the earth's surface, except for underground rivers.

28
29 **Groundwater Recharge.** The natural process of infiltration and percolation of rainwater from land
30 areas or streams through permeable soils into water-holding rocks that provide underground storage
31 ("aquifers").

32
33 **Guest House.** A detached structure accessory to a single-family dwelling, accommodating living/sleeping
34 quarters, but without kitchen or cooking facilities.

35
36 **Guidelines.** General statements of policy direction around which specific details may be later
37 established.

38
39 **Habitable Space.** Space within a dwelling unit for living, sleeping, eating, or cooking.

40
41 **Habitat.** The physical location or type of environment in which an organism or biological population
42 lives or occurs.

43
44 **Handicapped.** A person determined to have a physical impairment or mental disorder expected to
45 be of long or indefinite duration. Many such impairments or disorders are of such a nature that a
46 person's ability to live independently can be improved by appropriate housing conditions.

1 **Hazardous Material.** Any substance that, because of its quantity, concentration, or physical or
2 chemical characteristics, poses a significant present or potential hazard to human health and safety
3 or to the environment if released into the workplace or the environment. The term includes, but is not
4 limited to, hazardous substances and hazardous wastes.

5
6 **Health/Fitness Facility.** A fitness center, gymnasium, health and or athletic club., which may include any
7 of the following: sauna, spa or hot tub facilities; indoor tennis, handball, racquetball, archery and shooting
8 ranges and other indoor sports activities. Does not include adult entertainment businesses.

9
10 **High Occupancy Vehicle (HOV).** Any vehicle other than a driver-only automobile (e.g., a vanpool,
11 a bus, or two or more persons to a car).

12
13 **Highway.** High-speed, high-capacity, limited-access transportation facility serving regional and
14 county-wide travel. Highways may cross at a different grade level.

15
16 **Hillsides.** Land that has an average percent of slope equal to or exceeding fifteen percent.

17
18 **Historic; Historical.** An historic building, landscape, or site is one that is noteworthy for its
19 significance in local, state, or national history or culture, its architecture or design, or its works of art,
20 memorabilia, or artifacts.

21
22 **Historic Building or Property.** A building over 45 years old and meeting historic criteria set by the
23 Town. Any building, site, object, place, location, district or collection of structures, and their associated
24 sites, deemed of importance to the history, architecture or culture of an area by an appropriate local, state
25 or federal governmental jurisdiction. This shall include historical buildings or properties on, or determined
26 eligible for, national, state or local historical registers or inventories, such as the National Register of
27 Historic Places, California Register of Historical Resources, State Historical Landmarks, State Points of
28 Historical Interest, and Town or county registers, inventories, or surveys of historical or architecturally
29 significant sites, places or landmarks.

30
31 **Historic Landscape.** A geographic area, including both. Cultural and natural resources and the
32 wildlife or domestic animals therein, associated with a historic event, activity, or person, or that
33 exhibits other cultural or aesthetic values.

34
35 **Historic Preservation.** The preservation of historically significant structures and neighborhoods
36 until such time as, and in order to facilitate, restoration and rehabilitation of the building(s) or
37 landscape to a former condition.

38
39 **Home Occupation.** A commercial activity conducted solely by the occupants of a particular dwelling
40 unit in a manner incidental to residential occupancy. The conduct of a business within a dwelling unit
41 or residential site, employing only the occupants of the dwelling, with the business activity being
42 subordinate to the residential use of the property.

43
44 **Homeless.** Persons and families who lack a fixed, regular, and adequate nighttime residence. Includes
45 those staying in temporary or emergency shelters or who are accommodated with friends or others with
46 the understanding that shelter is being provided as a last resort. California Housing Element law,

1 ~~Section 65583(e)(1) requires all cities and counties to address the housing needs of the homeless.~~ (See
2 "Emergency Shelter" and "Transitional Housing.")

3
4 **Hotel or Motel.** A facility with guest rooms or suites, with or without kitchen facilities, rented to the
5 general public for transient lodging. Hotels typically include a variety of services in addition to lodging;
6 for example, restaurants, meeting facilities, personal services, etc. Also includes accessory guest facilities
7 such as swimming pools, tennis courts, indoor athletic facilities, accessory retail uses, etc.

8
9 **Household.** All those persons--related or unrelated--who occupy a single housing unit. (See
10 "Family.")

11
12 **Household Pets.** The keeping/raising of birds, cats, dogs, or other common household pets, ~~as determined~~
13 ~~by the director,~~ accessory to a residential use. (See "Animal Keeping.")

14
15 **Householder.** The head of a household.

16
17 ~~**Households, Number of.** A household consists of all the people who occupy a housing unit. A~~
18 ~~household includes the related family members and all the unrelated people, if any, such as lodgers,~~
19 ~~foster children, wards, or employees who share the housing unit. A person living alone in a housing unit,~~
20 ~~or a group of unrelated people sharing a housing unit such as partners or roomers, is also counted as a~~
21 ~~household. The count of households excludes group quarters. The count of all year-round housing~~
22 ~~units occupied by one or more persons. The concept of household is important because the~~
23 ~~formation of new households generates the demand for housing. Each new household formed~~
24 ~~creates the need for one additional housing unit or requires that one existing housing unit be shared~~
25 ~~by two households. Thus, household formation can continue to take place even without an increase~~
26 ~~in population, thereby increasing the demand for housing.~~

27
28 **Housing and Community Development Department of the State of California (HCD).** The State
29 agency that has principal responsibility for assessing, planning for, and assisting communities to meet
30 the needs of low- and moderate-income households.

31
32 **Housing Authority, Local (LHA).** Local housing agency established in State law, subject to local
33 activation and operation. Originally intended to manage certain federal subsidies but vested with
34 broad powers to develop and manage other forms of affordable housing.

35
36 **Housing Element.** One of the ~~seven~~ State-mandated elements of a local General Plan, it assesses the
37 existing and projected housing needs of all economic segments of the community, identifies potential
38 sites adequate to provide the amount and kind of housing needed, and contains adopted goals,
39 policies, and implementation programs for the preservation, improvement, and development of
40 housing. ~~Under State law, Housing Elements must be updated every four, five, or eight years,~~
41 ~~depending on a jurisdiction's planning period as determined by HCD.~~

42
43 **Housing and Urban Development, U.S. Department of (HUD).** A cabinet-level department of the
44 federal government that administers housing and community development programs.

1 **Housing Unit.** The place of permanent or customary abode of a person or family. A housing unit
2 may be a single-family dwelling, a multi-family dwelling, a condominium, a modular home, a mobile
3 home, a cooperative, **accessory dwelling unit**, or any other residential unit considered real property
4 under State law. A housing unit has, at least, cooking facilities, a bathroom, and a place to sleep. It
5 also is a dwelling that cannot be moved without substantial damage or unreasonable cost. (See
6 "Dwelling Unit," "Family," and "Household.")
7

8 **Identity.** A consistent quality that makes a **town**, city, place, area, or building unique and gives it a
9 distinguishing character.
10

11 **Image.** The mental picture or impression of a **town**, city or place taken from memory and held in
12 common by members of the community.
13

14 **Impact.** The effect of any direct man-made actions or indirect repercussions of man-made actions on
15 existing physical, social, or economic conditions.
16

17 **Impact Fee.** A fee, also called a development fee, levied on the developer of a project by a city, county,
18 or other public agency as compensation for otherwise-unmitigated impacts the project will produce.
19 **California Government Code Section 66000 et seq specifies that development fees shall not exceed**
20 **the estimated reasonable cost of providing the service for which the fee is charged. To lawfully**
21 **impose a development fee, the public agency must verify its method of calculation and document**
22 **proper restrictions on use of the fund.**
23

24 **Impacted Areas.** Census tracts where more than 50 percent of the dwelling units house low- and
25 very low-income households.
26

27 **Impervious Surface.** Surface through which water cannot penetrate, such as roof, road, sidewalk,
28 and paved parking lot. **The amount of impervious surface increases with development and establishes**
29 **the need for drainage facilities to carry the increased runoff.**
30

31 **Implementation.** Actions, procedures, programs, or techniques that carry out policies.
32

33 **Important Scenic Resource.** Public or private resources identified as having valued aesthetic
34 properties, or which **may** contribute to a desirable rural character in the Town. Such features **may**
35 include: natural resources such as scenic vistas, ridgelines, granite outcroppings, specimen trees, and
36 views of Significant Ecological Areas, and cultural resources (contemporary and historic) such as
37 rustic barns, historic or unique buildings, agricultural areas, equestrian facilities, open storm-water
38 treatment or detention areas, roadway corridors with a soft shoulder or no shoulder, paved pathways
39 or trails (as opposed to concrete sidewalks), areas of dark night sky, Loomis "gateways" that remain
40 in a natural state. These important scenic resources include lands with public rights and lands where
41 there are no public rights.
42

43 **Improvement.** The addition of one or more structures or utilities on a parcel of land.
44

45 **Industrial.** **A land use classification in which** the manufacture, production, and processing of
46 consumer goods **may occur. Industrial is often divided into "heavy industrial" uses, such as**

1 construction yards, quarrying, and factories; and "light industrial" uses, such as research and
2 development and less intensive warehousing and manufacturing.

3
4 **Industrial, Light.** Industrial use where industrial manufacturing, sales, warehousing, offices, research
5 and development offices, outdoor storage, and assembly that may generate objectionable noise, smoke,
6 odor, dust, noxious gases, glare, heat, vibration, and industrial wastes.

7
8 **Industrial, Limited.** Industrial use where a limited range of industrial and manufacturing activities,
9 warehousing, and office uses are appropriate to adjacent residential uses. Appropriate uses do not
10 produce objectionable noise, smoke, odor, dust, noxious gases, glare, heat, vibration or industrial
11 waste. Operational limits may affect hours of operations, outdoor operations and storage, and and
12 loading or delivery activities.

13
14 **Industrial Park/Office Park.** An industrial complex set in parklike surroundings with such facilities
15 as parking lots, restaurants, and recreation areas. A planned assemblage of buildings designed for
16 "Workplace Use." (See "Workplace Use.")

17
18 **Industrial Research and Development (R&D).** A facility for scientific research, and the design,
19 development and testing of products, services, or processes, which is compatible with adjacent uses in
20 regard to health and safety. electrical, electronic, magnetic, optical and computer and telecommunications
21 components in advance of product manufacturing, and the assembly of related products from parts
22 produced off-site, where the manufacturing activity is secondary to the research and development
23 activities. Includes pharmaceutical, chemical and biotechnology research and development. Does not
24 include soils and other materials testing laboratories (see "laboratory."), or medical laboratories (see
25 "medical service—clinic, laboratory, urgent care.")

26
27 **Infill Development.** Building within unused and underutilized lands within existing development
28 patterns, typically but not exclusively in urban areas. Development of vacant land (usually individual
29 lots or left-over properties) within areas that are already largely developed.

30
31 **Infrastructure.** Public services and facilities, such as sewage-disposal systems, water-supply
32 systems, other utility systems, and roads.

33
34 **In-Lieu Fee.** (See "Dedication, In-lieu of.")

35
36 **Intensification of Use.** A change in the use of a structure or site, where the new use is required by this
37 title to have more off-street parking spaces than the former use; or a change in the operating characteristics
38 of a use (for example, hours of operation), which generates more activity on the site.

39
40 **Institutional Use.** (1) Publicly or privately owned and operated activities that are institutional in
41 nature, such as hospitals, museums, and schools; (2) churches and other religious organizations; and
42 (3) other nonprofit activities of a welfare, educational, or philanthropic nature that cannot be
43 considered a residential, commercial, or industrial activity.

44
45 **Intelligent Transportation Systems (ITS).** Technologies that advance transportation safety and
46 mobility and enhance productivity by integrating advanced communications technologies into

1 transportation infrastructure and into vehicles. ITS encompasses a broad range of wireless and traditional
2 communications-based information and electronic technologies.

3
4 **Inter-agency.** Indicates cooperation between or among two or more discrete agencies in regard to a
5 specific program.

6
7 **Intermittent Stream.** ~~A stream that normally flows for at least thirty (30) days after the last major~~
8 ~~rain of the season and is dry a large part of the year.~~ A stream that flows only at certain times of the year
9 when it receives water from springs, groundwater, or rainfall, or from surface sources such as melting snow.

10
11
12 **Issues.** Important unsettled community matters or problems that are identified in a community's
13 General Plan and dealt with by the plan's goals, objectives, policies, plan proposals, and
14 implementation programs.

15
16 **Joint Powers Authority (JPA).** A legal arrangement that enables two or more units of government
17 to share authority in order to plan and carry out a specific program or set of programs that serves both
18 units.

19
20 **Joint Use Agreement.** An agreement between the Town and agencies or organizations to broaden access
21 for community use.

22
23 **Kennel, Animal Boarding.** A commercial facility for the grooming, keeping, boarding or maintaining of
24 five or more dogs (four months of age or older), or five or more cats except for dogs or cats for sale in pet
25 shops, or patients in animal hospitals. See also **veterinary clinic, animal hospital.**

26
27 **Kitchen.** A room or space within a building used or intended to be used for the cooking or preparation
28 of food, which includes a refrigerator of at least 5 cubic feet in capacity with an appropriately sized
29 electrical outlet, a sink less than 18 inches in depth with a waste line drain 1.5 inches or greater, and
30 cooking appliances or rough in facilities including, but not limited to: any of the following: refrigerator,
31 stoves, ovens, convection ovens, range top, dishwasher, kitchen sink. A bar or counter with a small sink,
32 small refrigerator, and/or microwave is not considered a kitchen facility.

33
34 **Laboratory, Medical, Analytical, Testing.** A facility for testing, analysis, and/or research. Examples of
35 this use include medical labs, soils and materials testing labs, and forensic labs.

36
37 **Land Banking.** The purchase of land by a local government for use or resale at a later date. "Banked
38 lands" have been used for development of low- and moderate-income housing, expansion of parks,
39 and development of industrial and commercial centers. Federal rail banking law allows railroads to
40 bank unused rail corridors for future rail use while allowing interim use as trails.

41
42 **Landlord.** The owner of a property, including land or a structure, that is rented or leased to another.

43
44 **Landmark.** (1) A building, site, object, structure, or significant tree, having historical, architectural,
45 social, or cultural significance and marked for preservation by the Town local, state, or federal
46 government. (2) A visually prominent or outstanding structure or natural feature that functions as a
47 point of orientation or identification.

1
2 **Landscaping.** Planting-including trees, shrubs, and ground covers-suitably designed, selected,
3 installed, and maintained as to enhance a site or roadway permanently.

4
5 **Landslide.** A general term for a falling mass of soil or rocks.

6
7 **Land Use, General Plan.** ~~The occupation or utilization of land or water area for any human activity~~
8 ~~or any purpose defined in the General Plan. A classification of uses and characteristics for parcels~~
9 ~~within the Town of Loomis. (See "Land Use Designation")~~

10
11 **Land Use, Zoning.** ~~The purpose for which a parcel of land, a premises or building or a structure is~~
12 ~~designed, arranged, or intended, or for which it is or may be occupied or maintained, consistent with the~~
13 ~~General Plan Land Use Designation.~~

14
15 **Land Use Designation.** A system for classifying and designating the appropriate use of properties,
16 ~~as designated on the General Plan Land Use Diagram.~~

17
18 **Land Use Element.** A required element of the General Plan that uses text and maps to designate the
19 future use or reuse of land within a given jurisdiction's planning area. ~~The land use element serves as~~
20 ~~a guide to the structuring of zoning and subdivision controls, urban renewal and capital improvements~~
21 ~~programs, and to official decisions regarding the distribution and intensity of development and the~~
22 ~~location of public facilities and open space. (See "Mandatory Element.")~~

23
24 **Land Use Permit.** Authority granted by the Town to use a specified site for a particular purpose. ~~Includes~~
25 ~~use permits, minor use permits, limited term permits, variances, minor variances, design review, master~~
26 ~~development plans, and zoning clearances.~~

27
28 **Land Use Regulation.** A term encompassing the regulation of land in general and often used to mean
29 those regulations incorporated in the General Plan, as distinct from zoning regulations (which are more
30 specific).

31
32 **Laundry, Dry Cleaning Plant.** A service establishment engaged primarily in high volume laundry and
33 garment services, including: carpet and upholstery cleaners; diaper services; dry cleaning and garment
34 pressing; commercial laundries; linen supply. ~~These facilities may include accessory customer pick-up~~
35 ~~facilities. These facilities do not include coin-operated laundries or dry-cleaning pick-up stores without~~
36 ~~dry-cleaning equipment; see personal services.~~

37
38 **Ldn.** Day-Night Average Sound Level. The A-weighted average sound level for a given area
39 (measured in decibels) during a 24-hour period with a 10 dB weighting applied to night-time sound
40 levels. The Ldn is approximately numerically equal to the CNEL for most environmental settings.

41
42 **Lease.** A contractual agreement by which an owner of real property (the lessor) gives the right of
43 possession to another (a lessee) for a specified period of time (term) and for a specified consideration
44 (rent).

1 **Leq.** The energy-averaged or equivalent sound level, defined as the average sound level on the basis
2 of sound energy (or sound pressure squared). The Leq is a "dosage" type measure and is the basis for
3 the descriptors used in current standards, such as the 24-hour CNEL used by the State of California.
4

5 **Level of Service (LOS).** (1) A scale that measures the amount of traffic a roadway may be capable
6 of handling on a roadway or at the intersection of roadways. Levels range from A to F, with A
7 representing the highest level of service, as follows:
8

9 **Level of Service A.** Indicates a relatively free flow of traffic, with little or no limitation. On
10 vehicle movement or speed.

11 **Level of Service B.** Describes a steady flow of traffic, with only slight delays in vehicle
12 movement and speed. All queues clear in a single signal cycle.
13

14 **Level of Service C.** Denotes a reasonably steady, high-volume flow of traffic, with some
15 limitations on movement and speed, and occasional backups on critical
16 approaches.
17

18 **Level of Service D.** Denotes the level where traffic nears an unstable flow. Intersections still
19 function, but short queues develop, and cars may have to wait through one
20 cycle during short peaks.
21

22 **Level of Service E.** Describes traffic characterized by slow movement and frequent (although
23 momentary) stoppages. This type of congestion is considered severe, but is
24 not uncommon at peak traffic hours, with frequent stopping, long-standing
25 queues, and blocked intersections.
26

27 **Level of Service F.** Describes unsatisfactory stop-and-go traffic characterized by "traffic jams"
28 and stoppages of long duration. Vehicles at signalized intersections usually
29 have to wait through one or more signal changes, and "upstream"
30 intersections may be blocked by the long queues.
31

32
33 ~~(2) Some communities in California are developing standards for levels of service relating to municipal~~
34 ~~functions such as police, fire, and library service. These standards are incorporated in the General Plan or in~~
35 ~~separate "Level of Service Plans."~~
36

37 **Library, Museum.** Public or quasi-public facilities, examples of which include: aquariums, arboretums,
38 art galleries and exhibitions, botanical gardens, historic sites and exhibits, libraries, museums,
39 planetariums, and zoos, and accessory gift shops. ~~May also include accessory retail uses such as a~~
40 ~~gift/book shop, restaurant, etc.~~
41

42 **Light Rail Transit (LRT).** "Street cars" or "trolley cars" that typically operate entirely or substantially
43 in mixed traffic and in non-exclusive, at-grade rights-of-way. Passengers typically board vehicles
44 from the street level (as opposed to a platform that is level with the train) and the driver may collect
45 fares. Vehicles are each electrically self-propelled and usually operate in one or two-car trains.
46

47 **Linkage Fee.** A fee charged to new development projects for the purpose of funding affordable
48 housing. ~~With respect to jobs/housing balance, a program designed to offset the impact of~~

1 ~~employment on housing need within a community, whereby project approval is conditioned on the~~
 2 ~~provision of housing units or the payment of an equivalent in lieu fee. The A linkage program must~~
 3 ~~establish the cause and effect relationship between a new commercial or industrial development and~~
 4 ~~the increased demand for housing.~~

5
 6 **Liquefaction.** The transformation of loose water-saturated granular materials (such as sand or silt)
 7 from a solid into a liquid state. A type of ground failure that can occur during an earthquake.

8
 9 **Live/Work Unit.** An integrated housing unit and working space, occupied and utilized by a single
 10 household in a structure, either single-family or multifamily, that has been designed or structurally
 11 modified to accommodate joint residential occupancy and work activity, and which includes: 1) Complete
 12 kitchen space and sanitary facilities in compliance with the building code; and 2) Working space reserved
 13 for and regularly used by one or more occupants of the unit.

14
 15 **Lmax.** The highest root-mean-square (RMS) sound level measured over a given period of time.

16
 17 **Local Agency Formation Commission (LAFCo).** A ~~five or seven-member commission within~~
 18 ~~Placer County whose purpose is to review and approve or deny proposals for the formation, consolidation,~~
 19 ~~or dissolution of cities or special districts; and to review and approve or deny proposals for the annexation~~
 20 ~~to or detachment from cities or special districts. None of these proceedings may be initiated until approved~~
 21 ~~by the Commission to develop and determine the sphere of influence for each local government agency~~
 22 ~~each county that reviews and evaluates all proposals for formation of special districts, incorporation~~
 23 ~~of cities, annexation to special districts or cities, consolidation of districts, and merger of districts~~
 24 ~~with cities. Each county's LAFCo is empowered to approve, disapprove, or conditionally approve~~
 25 ~~such proposals. The five LAFCo members generally include two county supervisors, two city council~~
 26 ~~members, two representatives of special districts and one member representing the general public.~~
 27 ~~Some LAFCos include two representatives of special districts.~~

28
 29 **Lot, or Parcel.** A recorded lot or parcel of real property ~~under single ownership, lawfully created as~~
 30 ~~required by applicable Subdivision Map Act and town ordinance requirements, including this title. Types~~
 31 ~~of lots include the following. See Figure Lot Types. (See "Site.")~~

- 32
33 1. **Corner lot.** A lot located at the intersection of two or more streets, where they intersect at an
34 interior angle of not more than one hundred thirty-five degrees. If the intersection angle is more
35 than one hundred thirty-five degrees, the lot is considered an interior lot.
- 36 2. **Flag lot.** A lot having access from the building site to a public street by means of private right-
37 of-way strip that is owned in fee.
- 38 3. **Interior lot.** lot abutting only one street.
- 39 4. **Key lot.** An interior lot, the front of which adjoins the side property line of a corner lot.
- 40 5. **Reverse corner lot.** A corner lot, the rear of which abuts a key lot.
- 41 6. **Through lot.** A lot with frontage on two generally parallel streets.

Lot Types

19
20
21
22
23
24

Lot Area. Gross lot area is the total area included within the lot lines of a lot, exclusive of adjacent dedicated street rights-of-way. Net lot area is the gross area of the lot, exclusive of easements for streets or driveways that are not for the exclusive use of the lot on which the easement is located.

Lot Coverage. See **site coverage**.

Lot Depth. The horizontal distance between the front and the rear lot lines measured longitudinally at the midpoints of the front and rear lot lines.

Lot Frontage. The boundary of a lot adjacent to a public street right-of-way.

Lot Line or Property Line. Any recorded boundary of a lot. Types of lot lines are as follows (See Figure Lot Features):

1. **Front lot line.** On an interior lot, the property line separating the parcel from the street. The front lot line on a corner lot is the line with the shortest frontage. (If the street-fronting lot lines of a corner lot are equal in length, the front lot line shall be determined by the director.) On a through lot, both lot lines are front lot lines and the lot is considered to have no rear lot line.
2. **Interior lot line.** Any lot line not abutting a street.
3. **Rear lot line.** A property line that does not intersect the front lot line, which is most distant from and most closely parallel to the front lot line.
4. **Side lot line.** Any lot line that is not a front or rear lot line.

Lot Features

Lot of Record. A lot that is part of a recorded subdivision or a parcel of land that has been recorded at the county recorder's office containing property tax records.

Lot Width. The horizontal distance between the side lot lines, measured at right angles to the lot depth at a point midway between the front and rear lot lines. See Figure Lot Features. The director shall determine lot width for parcels of irregular shape.

Loudness. A subjective term for the sensation of the magnitude of sound.

Low Impact Development (LID). A sustainable practice that benefits water supply and contributes to water quality protection. Unlike traditional storm water management, which collects and conveys storm water runoff through storm drains, pipes, or other conveyances to a centralized storm water facility, LID takes a different approach by using site design and storm water management to maintain the site's pre-development runoff rates and volumes. The goal of LID is to approximate a site's pre-development hydrology by using design techniques that infiltrate, filter, store, evaporate, and detain storm water runoff close to the source of rainfall.

Low-Income Area. an area with household incomes at or below 80 percent of the statewide median income or with household incomes at or below the threshold designated as low income by the Department of Housing and Community Development's list of state income limits adopted pursuant to Section 50093 of the Health and Safety Code.

Low-Income Household. A household with an annual income usually no greater than 80 percent of the area median family income adjusted by household size, as determined by a survey of incomes conducted by a city or a county, or in the absence of such a survey, based on the latest available eligibility limits established by the U.S. Department of Housing and Urban Development (HUD) for the Section 8 housing program. (See "Area.")

1 **Low-Income Housing Tax Credits.** Tax reductions provided by the federal and State governments
2 for investors in housing for low-income households.

3
4 **LIO.** A statistical descriptor indicating peak noise levels--the sound level exceeded ten percent of the
5 time. It is a commonly used descriptor of community noise, and has been used in Federal Highway
6 Administration standards and the standards of some cities and counties.

7
8 **Maintain.** To keep in an existing state. (See "Preserve.")

9
10 **Maintenance Service, Client Site Services.** Base facilities for various businesses that provide services
11 on the premises of their clients. Includes gardening, janitorial, pest control, water and smoke damage
12 recovery, and similar services; and appliance, computer, electronics, elevator, equipment, HVAC,
13 instrument, plumbing, and other maintenance and repair services not operating from a retail establishment
14 that sells the products being maintained or repaired. When these services operate from a retail
15 establishment that sells the products being maintained or repaired, they are instead considered part of the
16 retail use.

17
18 **Mandatory Element.** A component of the General Plan mandated by State Law. California State
19 law requires that a General Plan include elements dealing with seven subjects--circulation,
20 conservation, housing, land use, noise, open space and safety--and specifies to various degrees the
21 information to be incorporated in each element. (See "Land Use Element.")

22
23 **Manufactured Housing.** Residential structures that are constructed entirely in the factory, and that
24 since June 15, 1976, have been regulated by the federal Manufactured Home Construction and Safety
25 Standards Act of 1974 under the administration of the U.S. Department of Housing and Urban
26 Development (HUD). (See "Mobile Home" and "Modular Unit.")

27
28 **Manufacturing/Processing, Heavy.** A facility accommodating manufacturing processes that involve and/or
29 produce basic metals, building materials, chemicals, fabricated metals, paper products, machinery, textiles, and/or
30 transportation equipment, where the intensity and/or scale of operations may cause significant impacts on
31 surrounding land uses or the community. Heavy manufacturing uses are not allowed within the town of Loomis
32 except where limited varieties are included under the definition of **manufacturing—intensive**. Examples of heavy
33 manufacturing uses include the following:

- 34
35 1. **Chemical product manufacturing.** An establishment that produces or uses basic chemicals, and other
36 establishments creating products predominantly by chemical processes. Examples of these products
37 include: basic chemicals, including acids, alkalies, salts, and organic chemicals; chemical products to
38 be used in further manufacture, including synthetic fibers, plastic materials, dry colors, and pigments;
39 and finished chemical products to be used for ultimate consumption, including drugs/pharmaceuticals,
40 cosmetics, and soaps; or to be used as materials or supplies in other industries including paints,
41 fertilizers, and explosives. Also includes sales and transportation establishments handling the chemicals
42 described above, except as part of retail trade.
- 43 2. **Concrete, gypsum, and plaster product manufacturing.** An establishment that produces bulk
44 concrete, concrete building block, brick, and/or other types of precast and prefabricated concrete
45 products. Also includes ready-mix concrete batch plants, lime manufacturing, and the manufacture of
46 gypsum products, including plasterboard. A retail ready-mix concrete operation as an incidental use in
47 conjunction with a building materials outlet is defined under **building and landscape materials sales**.

3. **Glass product manufacturing.** An establishment that manufactures glass and/or glass products by melting silica sand or cullet, including the production of flat glass and other glass products that are pressed, blown, or shaped from glass produced in the same establishment. Artisan and craftsman type operations of a larger scale than home occupations are instead included under (**manufacturing—light—handcraft industries and small-scale manufacturing**).
4. **Paving and roofing materials manufacturing.** The manufacture of various common paving and petroleum-based roofing materials, including bulk asphalt, paving blocks made of asphalt, creosote wood, and various compositions of asphalt and tar. Does not include the manufacture of wood roofing materials (shingles, shakes, etc.) (**lumber and wood product manufacturing**).
5. **Petroleum refining and related industries.** Industrial plants for purifying petroleum, and the compounding of lubricating oils and greases from purchased materials. Also includes oil or gas processing facilities, liquefied natural gas (LNG) facilities, the manufacture of petroleum coke and fuel briquettes, tank farms, and terminal facilities for pipelines. Does not include petroleum pipeline surge tanks and pump stations (**public utility facilities**), or petroleum product distributors (**petroleum product storage and distribution**).
6. **Plastics, other synthetics, and rubber product manufacturing.** The manufacture of rubber products including: tires, rubber footwear, mechanical rubber goods, heels and soles, flooring, and other rubber products from natural, synthetic, or reclaimed rubber. Also includes establishments engaged primarily in manufacturing tires; products from recycled or reclaimed plastics or styrofoam; molding primary plastics for other manufacturers, manufacturing miscellaneous finished plastics products, fiberglass manufacturing, and fiberglass application services. Does not include establishments engaged primarily in recapping and retreading automobile tires (**vehicle services—major repair/body work**).
7. **Primary metal industries.** An establishment engaged in: the smelting and refining of ferrous and nonferrous metals from ore, pig, or scrap; the rolling, drawing, and alloying of metals; the manufacture of castings, forgings, stampings, extrusions, and other basic metal products; and the manufacturing of nails, spikes, and insulated wire and cable. Also includes merchant blast furnaces and by-product or beehive coke ovens.
8. **Pulp and pulp product manufacturing.** An establishment that manufactures pulp, paper, or paperboard. Includes pulp, paper, and paperboard mills. Does not include establishments primarily engaged in converting paper or paperboard without manufacturing the paper or paperboard, including envelope manufacturing, converted paper products, paper coating and glazing, paper bags, assembly of paperboard boxes, wallpaper (**manufacturing—light—paper product manufacturing**).
9. **Textile and leather product manufacturing.** An establishment that converts basic fibers (natural or synthetic) into a product, including yarn or fabric, that can be further manufactured into usable items (**manufacturing—light—clothing and fabric product manufacturing**), and industries that transform hides into leather by tanning or curing. Includes: Coating, waterproofing, or otherwise treating fabric; dressed and dyed furs; drying and finishing fiber, yarn, fabric, and knit apparel; leather-tanned, curried, and finished; manufacture of knit apparel and other finished products from yarn; manufacture of felt goods, lace goods, nonwoven fabrics and miscellaneous textiles; manufacturing of woven fabric, carpets, and rugs from yarn; preparation of fiber and subsequent manufacturing of yarn, threads, braids, twine cordage; scouring and combing plants; upholstery manufacturing; and yarn and thread mills

Manufacturing/Processing, Intensive. A facility accommodating manufacturing processes that involve and/or produce building materials, fabricated metal products, machinery, and/or transportation equipment, where the intensity and/or scale of operations is greater than those classified under **manufacturing—light**, but where impacts on surrounding land uses or the community can typically be mitigated to acceptable levels. Examples of intensive manufacturing uses include the following:

1. **Lumber and wood product manufacturing.** Manufacturing, processing, and sales involving the milling of forest products to produce rough and finished lumber and other wood materials for use in other manufacturing, craft, or construction processes. Includes the following processes and products:

1 Containers, pallets and skids; manufactured and modular homes; matches (wood); milling operations;
 2 trusses and structural beams; turning and shaping of wood products; wholesaling of basic wood
 3 products; and wood product assembly. Does not include craft-type shops (**handcraft industries and**
 4 **small-scale manufacturing**); other wood and cabinet shops (**furniture and fixture manufacturing,**
 5 **cabinet shops**); or the entirely indoor retail sale of building materials, construction tools and equipment
 6 (**building and landscape materials sales**).

- 7 2. **Machinery manufacturing.** An establishment that makes or processes raw materials into finished
 8 machines or parts for machines. Does not include the manufacture of electronics, equipment, or
 9 appliances (**electronics, equipment, and appliance manufacturing**).
- 10 3. **Metal products fabrication, machine and welding shops.** An establishment engaged in the
 11 production and/or assembly of metal parts, including the production of metal cabinets and enclosures,
 12 cans and shipping containers, doors and gates, duct work, forgings and stampings, hardware and tools,
 13 plumbing fixtures and products, tanks, towers, and similar products. Examples of these uses include:
 14 Blacksmith and welding shops; plating, stripping, and coating shops; sheet metal shops; and machine
 15 shops and boiler shops.
- 16 4. **Motor vehicles and transportation equipment.** Manufacturers of equipment for transporting
 17 passengers and cargo by land, air and water, including motor vehicles, aircraft, spacecraft,
 18 ships, boats, railroad and other vehicles such as motorcycles, bicycles and snowmobiles.
 19 Includes manufacture of motor vehicle parts and accessories; trailers and campers for
 20 attachment to other vehicles; self-contained motor homes; and van conversions. Does not
 21 include mobile home and modular home assembly (listed under **lumber and wood products**).
- 22 5. **Stone and cut stone product manufacturing.** An establishment that cuts, shapes, and/or
 23 finishes marble, granite, slate, and/or other stone for construction and miscellaneous uses. Does
 24 not include establishments engaged primarily in buying or selling partly finished monuments
 25 and tombstones (**handcraft industries, small-scale manufacturing**).
- 26 6. **Structural clay and pottery product manufacturing.** An establishment that produces brick
 27 and structural clay products, including pipe, china plumbing fixtures, vitreous china articles,
 28 and/or fine earthenware and porcelain products. Does not include artist/craftsman uses (see
 29 **handcraft industries and small scale manufacturing, home occupations**).

30
 31 **Manufacturing/Processing, Light.** A facility accommodating manufacturing processes involving and/or
 32 producing: apparel; food and beverage products; electronic, optical, and instrumentation products; ice;
 33 jewelry; and musical instruments. Light manufacturing also includes other establishments engaged in the
 34 assembly, fabrication, and conversion of already processed raw materials into products, where the
 35 operational characteristics of the manufacturing processes and the materials used are unlikely to cause
 36 significant impacts on surrounding land uses or the community. Examples of light manufacturing uses
 37 include the following:

- 38
 39 1. **Clothing and fabric product manufacturing.** An establishment that assembles clothing,
 40 draperies, and/or other products by cutting and sewing purchased textile fabrics, and related
 41 materials including leather, rubberized fabrics, plastics and furs. Does not include custom
 42 tailors and dressmakers not operating as a factory and not located on the site of a clothing store
 43 (see **personal services**). See also, **manufacturing—heavy—textile and leather product**
 44 **manufacturing**.
- 45 2. **Electronics, equipment, and appliance manufacturing.** An establishment that manufactures
 46 equipment, apparatus, and/or supplies for the generation, storage, transmission, transformation

1 and use of electrical energy, including: Appliances including stoves/ovens, refrigerators,
2 freezers, laundry equipment, fans, vacuum cleaners, sewing machines; aviation instruments;
3 computers, computer components, peripherals; electrical transmission and distribution
4 equipment; electronic components and accessories, semiconductors, integrated circuits, related
5 devices; electrical welding apparatus; lighting and wiring equipment such as lamps and
6 fixtures, wiring devices, vehicle lighting; industrial controls; instruments for measurement,
7 testing, analysis and control, associated sensors and accessories; miscellaneous electrical
8 machinery, equipment and supplies such as batteries, X-ray apparatus and tubes,
9 electromedical and electrotherapeutic apparatus, electrical equipment for internal combustion
10 engines; motors and generators; optical instruments and lenses; photographic equipment and
11 supplies; radio and television receiving equipment; surgical, medical and dental instruments,
12 equipment, and supplies; storage media, blank and pre-recorded, including magnetic, magneto-
13 optical, and optical products such as compact disks (CDs), computer diskettes and hard drives,
14 digital versatile disks (DVDs), magnetic tape products, phonograph records, etc.; surveying
15 and drafting instruments; telephone and telegraph apparatus; transformers, switch gear and
16 switchboards; and watches and clocks. Does not include testing laboratories (soils, materials
17 testing, etc.) (see **business support services**), or research and development facilities separate
18 from manufacturing (see **research and development**).

- 19 3. **Food and beverage product manufacturing.** Manufacturing establishments producing or
20 processing foods and beverages for human consumption, and certain related products.
21 Examples of these uses include: Bottling plants; breweries; candy, sugar and confectionery
22 products manufacturing; catering services separate from stores or restaurants; coffee roasting;
23 dairy products manufacturing; fats and oil product manufacturing; fruit and vegetable canning,
24 preserving, related processing; grain mill products and by-products; meat, poultry, and seafood
25 canning, curing, by-product processing; soft drink production; and miscellaneous food item
26 preparation from raw products. Does not include: bakeries, which are separately defined; or
27 beer brewing as part of a brew pub, bar or restaurant (see **bar/tavern**, and **night club**)
- 28 4. **Handcraft industries, small-scale manufacturing.** Establishments manufacturing and/or
29 assembling small products primarily by hand, including jewelry, pottery and other ceramics,
30 as well as small glass and metal art and craft products, and taxidermists. Also includes
31 manufacturing establishments producing small products not classified in another major
32 manufacturing group, including: brooms and brushes; buttons, costume novelties; jewelry;
33 musical instruments; pens, pencils, and other office and artists' materials; sporting and athletic
34 goods; toys; etc.
- 35 5. **Paper product manufacturing.** An establishment that converts pre-manufactured paper or
36 paperboard into boxes, envelopes, paper bags, wallpaper, etc., and/or that coats or glazes pre-
37 manufactured paper. Does not include the manufacturing of pulp, paper, or paperboard
38 (see **manufacturing—heavy—pulp and pulp product manufacturing**).
- 39 6. **Photo/film processing lab.** A facility that provides high volume and/or custom processing
40 services for photographic negative film, transparencies, and/or prints, where the processed
41 products are delivered to off-site retail outlets for customer pick-up. Does not include small-
42 scale photo processing machines accessory to other retail businesses.

43
44 **Map Act.** See **Subdivision Map Act**.
45

1 **Marsh.** Any area designated as marsh or swamp on the largest scale United States Geologic Survey
2 topographic map most recently published. A marsh usually is an area periodically or permanently
3 covered with shallow water, either fresh or saline.

4
5 **May.** That which is permissible.

6
7 **Mean Sea Level.** The average altitude of the sea surface for all tidal stages.

8
9 **Media Production.** Facilities for motion picture, television, video, sound, computer, and other
10 communications media production. These facilities include the following types:

- 11 1. **Backlots/outdoor facilities.** Outdoor sets, backlots, and other outdoor facilities, including
12 supporting indoor workshops and craft shops.
- 13 2. **Indoor support facilities.** Administrative and technical production support facilities,
14 including administrative and production offices, post-production facilities (editing and sound
15 recording studios, foley stages, etc.), optical and special effects units, film processing
16 laboratories, etc.
- 17 3. **Soundstages.** Warehouse-type facilities providing space for the construction and use of indoor
18 sets, including supporting workshops and craft shops.

19
20 **Median Strip.** The dividing area, either paved or landscaped, between opposing lanes of traffic on a
21 roadway.

22
23 **Medical Services, Clinic, Urgent Care.** A facility other than a hospital where medical, mental health, surgical and
24 other personal health services are provided on an outpatient basis. Examples of these uses include: Medical offices
25 with four or more licensed practitioners and/or medical specialties; out-patient care facilities; urgent care facilities;
26 and Other allied health services. These facilities may also include accessory medical laboratories. Counseling
27 services by other than medical doctors or psychiatrists are included under **offices—professional**.

28
29 **Medical Services, Doctor Office.** A facility other than a hospital where medical, dental, mental health,
30 surgical, and/or other personal health care services are provided on an outpatient basis, and that
31 accommodates no more than three licensed primary practitioners (for example, chiropractors, medical
32 doctors, psychiatrists, etc., other than nursing staff) within an individual office suite. A facility with four
33 or more licensed practitioners is instead classified under **medical services—clinic, urgent care**.
34 Counseling services by other than medical doctors or psychiatrists are included under **offices—**
35 **professional**.

36
37 **Medical Services, Extended Care.** Residential facilities providing nursing and health-related care as a
38 primary use with in-patient beds. Examples of these uses include: board and care homes; convalescent
39 and rest homes; extended care facilities; and skilled nursing facilities. Long-term personal care facilities
40 that do not emphasize medical treatment are included under **residential care**.

41
42 **Medical Services, Hospital.** Hospitals and similar facilities engaged primarily in providing diagnostic
43 services, and extensive medical treatment, including surgical and other hospital services. These
44 establishments have an organized medical staff, inpatient beds, and equipment and facilities to provide
45 complete health care. May include on-site accessory clinics and laboratories, accessory retail uses and
46 emergency heliports (see the separate definition of **accessory retail uses**).

1
2 **Mello-Roos Bonds.** Locally issued bonds that are repaid by a special tax imposed on property owners
3 within a "community facilities" district established by a governmental entity. The bond proceeds can
4 be used for public improvements and for a limited number of services. Named after the program's
5 legislative authors.

6
7 **Mercalli Intensity Scale.** A subjective measure of the observed effects (human reactions, structural
8 damage, geologic effects) of an earthquake. Expressed in Roman numerals from I to XII.

9
10 **Merger (District).** Elimination of a special district by transferring its service responsibilities to a
11 city government. The merging district's territory must be totally included inside the city.

12
13 **Metropolitan.** Of, relating to, or characteristic of a large important city.

14
15 **Microclimate.** The climate of a small, distinct area, such as a city street or a building's courtyard;
16 can be favorably altered through functional landscaping, architecture, or other design features.

17
18 **Midden.** A deposit marking a former habitation site and containing such materials as discarded artifacts,
19 bone and shell fragments, food refuse, charcoal, ash, rock, human remains, structural remnants, and
20 other cultural leavings.

21
22 **Mineral Resource.** Land on which known deposits of commercially viable mineral or aggregate
23 deposits exist. This designation is applied to sites determined by the State Division of Mines and
24 Geology as being a resource of regional significance, and is intended to help maintain the quarrying
25 operations and protect them from encroachment of incompatible land uses.

26
27 **Minimize.** To reduce or lessen, but not necessarily to eliminate.

28
29 **Mining.** The act or process of extracting resources, such as coal, oil, or minerals, from the earth.

30
31 **Ministerial (Administrative) Decision.** An action taken by a governmental agency that follows
32 established procedures and rules and does not call for the exercise of judgment in deciding whether to
33 approve a project.

34
35 **Mitigate.** To ameliorate, alleviate, or avoid to the extent reasonably feasible.

36
37 **Mitigated Negative Declaration (MND).** A statement describing the reasoning that a proposed action
38 will not have a significant adverse effect on the environment with the implementation of measures that
39 eliminate, reduce or minimize significant adverse effects associated with that action, in compliance with
40 the California Environmental Quality Act (CEQA).

41
42 **Mixed-use.** Properties on which various uses, such as office, commercial, institutional, and
43 residential, are combined in a single building or on a single site in an integrated development project
44 with significant functional interrelationships and a coherent physical design. A "single site" may
45 include contiguous properties.

1 **Mixed-use Project.** A project that combines both commercial and residential uses, where the residential
2 component is typically located above the commercial.
3

4 **Mixed-use Structure.** A structure or building housing more than one type of use, such as commercial or
5 office and residential uses. The uses may be vertically separated with one use on the bottom floor and
6 another use on secondary floors, horizontally separated with one use at the front of the structure and other
7 uses at the rear of the structure, or a combination of both vertical and horizontal separation.
8

9 **Mobile Home.** A structure, transportable in one or more sections, built on a permanent chassis and
10 designed for use as a single-family dwelling unit and that (1) has a minimum of 400 square feet of
11 living space; (2) has a minimum width in excess of 102 inches; (3) is connected to all available
12 permanent utilities; and (4) is tied down (a) to a permanent foundation on a lot either owned or leased
13 by the homeowner or (b) is set on piers, with wheels removed and skirted, in a mobile home park.
14 (See "Manufactured Housing" and "Modular Unit."). A trailer, transportable in one or more sections,
15 that is certified under the National Manufactured Housing Construction and Safety Standards Act of 1974,
16 which is over eight feet in width and forty feet in length, with or without a permanent foundation and not
17 including recreational vehicle, commercial coach or factory-built housing. A mobile home on a permanent
18 foundation is included under the definition of **single-family dwellings**.
19

20 **Mobile Home Park.** Any site that is planned and improved to accommodate two or more mobile homes
21 used for residential purposes, or on which two or more mobile home lots are rented, leased, or held out
22 for rent or lease, or were formerly held out for rent or lease and later converted to a subdivision,
23 cooperative, condominium, or other form of resident ownership, to accommodate mobile homes used for
24 residential purposes. May include a common storage area for recreational vehicles owned by residents
25 only.
26

27 **Mobile Home Park Conversion.** Changing the use of a mobile home park for a purpose other than the
28 rental, or the holding out for rent, of two or more mobile home sites to accommodate mobile homes used
29 for human habitation. Such conversion may affect an entire mobile home park or any portion thereof. A
30 conversion shall include, but is not limited to, a change of any existing mobile home park or any portion
31 thereof to condominium, stock cooperative, planned unit development, or any form of ownership wherein
32 spaces within the mobile home park are to be sold, and the cessation of use of all or a portion of the park
33 as a mobile home park, whether immediately or on a gradual basis, or the closure of the park. **Conversion**
34 shall not include the purchase of the park by its existing residents.
35

36 **Mobile Home, RV, and Boat Sales.** Retail establishments selling both mobile home dwelling units,
37 and/or various vehicles and watercraft for recreational uses. Includes the sales of boats, campers and
38 camper shells, jet skis, mobile homes, motor homes, and travel trailers.
39

40 **Moderate-income Household.** A household with an annual income between the lower income
41 eligibility limits and 120 percent of the area median family income adjusted by household size,
42 usually as established by the U.S. Department of Housing and Urban Development (HUD) for the
43 Section 8 housing program. (See "Area" and "Low-income Household.")
44

45 **Modular Unit.** A factory-fabricated, transportable building or major component designed for use by
46 itself or for incorporation with similar units on-site into a structure for residential, commercial,

1 educational, or industrial use. Differs from mobile homes and manufactured housing by (in addition
2 to lacking an integral chassis or permanent hitch to allow future movement) being subject to
3 California housing law design standards. California standards are more restrictive than federal
4 standards in some respects (e.g., plumbing and energy conservation). Also called Factory-built
5 Housing and regulated by State law of that title. (See "Mobile Home" and "Manufactured Housing.")
6

7 **Mortuary, Funeral Home.** Funeral homes and parlors, where deceased are prepared for burial or
8 cremation, and funeral services may be conducted.

9
10 **Motel.** See **hotel or motel.**

11
12 **Multifamily Housing.** A dwelling unit that is part of a structure containing one or more other dwelling
13 units, or a structure containing a nonresidential use. An example of the latter is a mixed-use project where,
14 for example, one or more dwelling units are part of a structure that also contains one or more commercial
15 uses (retail, office, etc.). Multifamily dwellings include carriage units, duplexes, triplexes, fourplexes
16 (buildings with two, three or four dwelling units, respectively, in the same structure); apartments (five or
17 more units in a single building); and townhouse development (three or more attached dwellings where no
18 unit is located over another unit). Multifamily housing may also comprise a row of single-family homes
19 adjacent to existing single-family homes within a larger multifamily project.
20

21 **Multiple Family Building.** A detached building designed and used exclusively as a dwelling by three
22 or more families occupying separate suites.
23

24 **Multi-Use Trail.** A trail designed to accommodate a variety of user groups, such as pedestrians,
25 cyclists, and equestrians, on the same trail with two-way, non-motorized off-street access.
26

27 **Must.** That which is mandatory.
28

29 **National Ambient Air Quality Standards.** The prescribed level of pollutants in the outside air that
30 cannot be exceeded legally during a specified time in a specified geographical area.
31

32 **National Environmental Policy Act (NEPA).** An act passed in 1974 establishing federal legislation
33 for national environmental policy, a council on environmental quality, and the requirements for
34 environmental impact statements.
35

36 **National Flood Insurance Program.** A federal program that authorizes the sale of federally
37 subsidized flood insurance in communities where such flood insurance is not available privately.
38

39 **National Historic Preservation Act.** A 1966 federal law that established a National Register of
40 Historic Places and the Advisory Council on Historic Preservation, and that authorized grants-in-aid
41 for preserving historic properties.
42

43 **National Pollutant Discharge Elimination System (NPDES).** A national program for issuing,
44 modifying, revoking and reissuing, terminating, monitoring and enforcing permits, and imposing and
45 enforcing pretreatment requirements under sections 307, 402, 318, and 405 of the Clean Water Act.
46

1 **National Register of Historic Places.** The official list, established by the National Historic
2 Preservation Act, of sites, districts, buildings, structures, and objects significant in the nation's history
3 or whose artistic or architectural value is unique.

4
5 **Natural or Existing Grade.** The contour of the ground surface before grading.

6
7 **Natural State.** The condition existing prior to development.

8
9 **Necessary.** Essential or required.

10
11 **Need.** A condition requiring supply or relief. The City or County may act upon findings of need
12 within or on behalf of the community.

13
14 **Negative Declaration (ND).** A statement describing the reasoning that a proposed action will not have a
15 significant adverse effect on the environment, in compliance with the California Environmental Quality
16 Act (CEQA).

17
18 **Neighborhood Park.** ~~City or County owned~~ **A park** intended to serve the recreation needs of people
19 living or working within one-half mile radius of the park.

20
21 **Night Club.** A facility serving alcoholic beverages for on-site consumption, and providing entertainment,
22 examples of which include live music and/or dancing, comedy, etc.

23
24 **Nitrogen Oxide(s).** A reddish brown gas that is a byproduct of combustion and ozone formation
25 processes. Often referred to as NOX, this gas gives smog its "dirty air" appearance.

26
27 **Noise.** Any sound that is undesirable because it interferes with speech and hearing, or is intense
28 enough to damage hearing, or is otherwise annoying. Noise, simply, is "unwanted sound."

29
30 **Noise Attenuation.** Reduction of an acoustic signal or the level of a noise source using a substance,
31 material, or surface, such as earth berms and/or solid concrete walls.

32
33 **Noise Contour.** A line connecting points of equal noise level as measured on the same scale. Noise
34 levels greater than the 60 Ldn contour (measured in dBA) require noise attenuation in residential
35 development.

36
37 **Noise Element.** One of the ~~seven~~ State-mandated elements of a local General Plan, it assesses noise levels
38 of highways and freeways, local arterials, railroads, airports, local industrial plants, and other ground
39 stationary sources, and adopts goals, policies, and implementation programs to reduce the community's
40 exposure to noise.

41
42 **Non-attainment.** The condition of not achieving a desired or required level of performance. Frequently
43 used in reference to air quality.

1 **Non-conforming Parcel.** A parcel that was legally created prior to the adoption of this title or
2 amendment, but does not comply with the current area, width, depth, or other applicable requirements of
3 this title.

4
5 **Non-conforming Sign.** A sign that lawfully existed prior to the effective date of this title or amendment,
6 but does not comply with the current sign regulations of this title.

7
8 **Non-conforming Structure.** A structure that was legally constructed prior to the adoption or amendment
9 of this title, but does not comply with the current setback, height limit, and/or other applicable
10 requirements of this title.

11
12 **Non-conforming Use.** A use that was valid when brought into existence, but by subsequent regulation
13 becomes no longer conforming. "Non-conforming use" is a generic term and includes (1) non-conforming
14 structures (by virtue of size, type of construction, location on land, or proximity to other structures), (2)
15 non-conforming use of a conforming building, (3) non-conforming use of a non-conforming building, and
16 (4) non-conforming use of land. Thus, any use lawfully existing on any piece of property that is
17 inconsistent with a new or amended General Plan, and that in turn is a violation of a zoning ordinance
18 amendment subsequently adopted in conformance with the General Plan, will be a non-conforming use.
19 Typically, non-conforming uses are permitted to continue for a designated period of time, subject to
20 certain restrictions.

21
22 **Non-prime Agricultural Land.** Property used for the production of food or fiber, with soils that qualify
23 for rating as Classes III through VII in the Soil Conservation Service land capability classifications
24

25 **Notice (of Hearing).** A legal document announcing the opportunity for the public to present their views to
26 an official representative or board of a public agency concerning an official action pending before the
27 agency.

28
29 **Nuisance.** a person, thing, or circumstance causing inconvenience or annoyance. A nuisance involves an
30 unreasonable or unlawful use of property that results in material annoyance, inconvenience, discomfort,
31 or injury to another person or to the public. The unlawful use may involve doing something or failing to
32 do something. Common nuisances may include junk accumulation, animals, repetitive noise, dangerous
33 buildings, sewage and unsanitary conditions, and encroachments on the public right-of-way that interfere
34 with pedestrian passage.

35
36 **Objective.** A specific statement of desired future condition toward which the City or County will expend
37 effort in the context of striving to achieve a broader goal. An objective should be achievable and, where
38 possible, should be measurable and time-specific. The State Government Code (Section 65302) requires
39 that General Plans spell out the objectives, principles, standards, and proposals of the General Plan. "The
40 addition of 100 units of affordable housing by 1995" is an example of an objective.

41
42 **Occupancy.** All or a portion of a structure occupied by one tenant.

43
44 **Off-sale Liquor Establishment.** Any establishment at which alcohol is sold, served, or given to
45 patrons, to be consumed off-site, except food markets, supermarkets, drugstores, and other retail

1 establishments in which the sale of alcohol for off-site use constitutes less than twenty percent of the
2 total sales.

3
4 **Off-site.** An activity or accessory use that is related to a specific primary use, but is not located on the
5 same site as the primary use.

6
7 **Office.** The following are types of offices. These do not include medical offices (see **medical service—**
8 **clinic, laboratory, urgent care, and medical service—doctor office.**)

- 9 1. **Accessory.** Office facilities that are incidental and accessory to another business or sales
10 activity that is the primary use.
- 11 2. **Business/service.** Establishments providing direct services to consumers. Examples of these
12 uses include employment agencies, insurance agent offices, real estate offices, travel agencies,
13 utility company offices, etc. This use does not include **bank, financial services**, which are
14 separately defined.
- 15 3. **Government.** Administrative, clerical, or public contact and/or service offices of a local, state,
16 or federal government agency or service facilities. Includes post offices, but not bulk mailing
17 distribution centers, which are under **truck or freight terminal**.
- 18 4. **Processing.** Office-type facilities characterized by high-employee densities, and occupied by
19 businesses engaged in information processing, and other computer-dependent and/or
20 telecommunications-based activities. Examples of these uses include: Airline, lodging chain,
21 and rental car company reservation centers; computer software and hardware design and
22 development; consumer credit reporting; data processing services; health management
23 organization (HMO) offices where no medical services are provided; insurance claim
24 processing; mail order and electronic commerce transaction processing; telecommunications
25 facility design and management; and telemarketing.
- 26 5. **Professional.** Office-type facilities occupied by businesses that provide professional services
27 and/or engaged in the production of intellectual property. Examples of these uses include:
28 Accounting, auditing and bookkeeping services; advertising agencies; attorneys; commercial
29 art and design services; construction contractors (office facilities only); counseling services;
30 court reporting services; detective agencies and similar services; design services including
31 architecture, engineering, landscape architecture, urban planning; educational, scientific and
32 research organizations; financial management and investment counseling; literary and talent
33 agencies; management and public relations services; media post-production services; news
34 services; photographers and photography studios; psychologists; secretarial, stenographic,
35 word processing, and temporary clerical employee services; security and commodity brokers;
36 and writers and artists offices.
- 37 6. **Temporary.** A mobile home, recreational vehicle or modular unit used as a temporary office
38 facility. Temporary offices may include: construction supervision offices on a construction
39 site or off-site construction yard; a temporary on-site real estate office for a development
40 project; or a temporary business office in advance of permanent facility construction.
- 41 7. **Temporary real estate.** The temporary use of a dwelling unit within a residential development
42 project as a sales office for the units on the same site, which is converted to residential use at
43 the conclusion of its office use.

44 **Office Park.** (See "Industrial Park.")
45

1 **Office Park.** An office complex set in parklike surroundings with such facilities as parking lots,
2 restaurants, and recreation areas. A planned assemblage of buildings designed for "Workplace Use."
3 (See "Workplace Use.")

4
5 **Office-supporting Retail.** A retail store that carries one or more types of merchandise that will typically be of
6 frequent interest to and/or needed by the various businesses listed under the definition of **office**, and/or the
7 employees of those businesses. Examples of these types of merchandise include: Books; computer equipment;
8 flowers; newspapers and magazines; office supplies, stationery; and photographic supplies and cameras.

9
10 **Office Use.** The use of land by general business offices, medical and professional offices, administrative
11 or headquarters offices for large wholesaling or manufacturing operations, and research and development.

12
13 **On-sale Liquor Establishment.** Any establishment at which alcohol is sold, served, or given to patrons,
14 to be consumed on-site.

15
16 **On-site.** An activity or accessory use that is related to a specific primary use, which is located on the same
17 site as the primary use.

18
19 **Open Fencing.** A barrier constructed of material which is transparent, such as glass, plastic panels or
20 wrought iron, used in conjunction with recreation and seating areas.

21
22 **Open Space.** Open space is an area where there are no improvements but rather an emphasis on keeping
23 the land in its natural state and may include conservation areas. ~~an area where improvements are minimal,~~
24 ~~but could include a trail, shade structure, bench, or similar small facilities designed for passive enjoyment.~~
25 Open space may surround areas of passive or active park.

26
27 **Open Space Element.** One of the ~~seven~~ State-mandated elements of a local General Plan, it contains an
28 inventory of privately and publicly owned open-space lands, and adopted goals, policies, and
29 implementation programs for the preservation, protection, and management of open space lands.

30
31 **Open Space Land.** Any parcel or area of land or water that is essentially unimproved and devoted to an
32 open space use for the purposes of (1) the preservation of natural resources, (2) the managed production
33 of resources, (3) outdoor recreation, or (4) public health and safety.

34
35 **Ordinance.** A law or regulation set forth and adopted by a governmental authority, usually a city or
36 county.

37
38 **Ordinary Maintenance and Repair.** Work for which a building permit is not required, the purpose and
39 effect of which is to correct deterioration of or damage to a structure or any part thereof and to restore the
40 structure to its condition before the deterioration or damage

41
42 **Organizational House.** A residential lodging facility operated by a membership organization for its
43 members and not open to the general public. Includes fraternity and sorority houses, student dormitories,
44 convents, monasteries, and religious residential retreats.

45
46 **Outdoor Recreation Use.** A privately or publicly owned or operated use providing facilities for outdoor
47 recreation activities.

1
2 **Paleontology.** The science of the forms of life existing in former geologic periods, as represented by
3 their fossils.

4
5 **Parcel.** A lot, or contiguous group of lots, in single ownership or under single control, usually considered
6 a unit for purposes of development. See **Lot**.

7
8 **Parking Facility, Public or Commercial.** Parking lots or structures operated by the town, or a private
9 entity providing parking for a fee. Does not include towing impound and storage facilities, which are
10 instead defined under **storage—outdoor**.

11
12 **Park.** A park is an area of land open to the public for recreational purposes. Includes **Active Park** and
13 **Passive Park**.

14
15 **Passive Park.** Park that is primarily a public area of predominantly undisturbed or restored natural land,
16 with little disturbance to topography and vegetation, that provides passive recreational activities (e.g.,
17 walking/jogging, photography wildlife viewing, picnicking, biking, other non-motorized uses).

18
19 **Peak Hour/Peak Period.** For any given roadway, a daily period during which traffic volume is highest,
20 usually occurring in the morning and evening commute periods. Where "F" Levels of Service are
21 encountered, the "peak hour" may stretch into a "peak period" of several hours' duration.

22
23 **Pedestrian Orientation.** Any physical structure or place with design qualities and elements that
24 contribute to an active, inviting and pleasant place for pedestrians including:

- 25 1. Building facades that are highly articulated at the street level, with interesting uses of material,
26 color, and architectural detailing, located directly behind the sidewalk;
- 27 2. Design amenities related to the street level such as awnings, paseos, arcades;
- 28 3. Visibility into buildings at the street level;
- 29 4. A continuous sidewalk, with a minimum of intrusions into pedestrian right-of-way;
- 30 5. Continuity of building facades along the street with few interruptions in the progression of
31 buildings and stores;
- 32 6. Signs oriented and scaled to the pedestrian rather than the motorist;
- 33 7. Landscaping; and
- 34 8. Street furniture.

35
36 **Pedestrian-oriented Use.** A land use that is intended to encourage walk-in customers and that generally
37 does not limit the number of customers by requiring appointments or otherwise excluding the general
38 public. A pedestrian-oriented use provides spontaneous draw from sidewalk and street due to visual
39 interest, high customer turnover, and social interaction.

40
41 **Performance Standards.** Zoning regulations that permit uses based on a particular set of standards of
42 operation rather than on particular type of use. Performance standards provide specific criteria limiting
43 noise, air pollution, emissions, odors, vibration, dust, dirt, glare, heat, fire hazards, wastes, traffic impacts,
44 and visual impacts of use.

1
2 **Person.** Any individual, firm, partnership, corporation, company, association, joint stock association; city,
3 county, state, or district; and includes any trustee, receiver, assignee, or other similar representative
4 thereof.

5
6 **Personal Services.** Establishments providing nonmedical services to individuals as a primary use.
7 Examples of these uses include: Barber and beauty shops; clothing rental; dry cleaning pick-up stores with
8 limited equipment; home electronics and small appliance repair; laundromats (self-service laundries);
9 locksmiths; massage (licensed, therapeutic, nonsexual); pet grooming with no boarding; shoe repair shops;
10 tailors; tanning salons. These uses may also include accessory retail sales of products related to the
11 services provided.

12
13 **Personal Services, Restricted.** Personal services that may tend to have a blighting and/or deteriorating
14 effect upon surrounding areas and which may need to be dispersed to minimize their adverse impacts.
15 Examples of these uses include: Check cashing stores; fortune tellers; palm and card readers; pawnshops;
16 psychics; spas and hot tubs for hourly rental; tattoo and body piercing services.

17
18 **Planned Development (PD) or Planned Unit Development (PUD).** A description of a proposed
19 unified development, consisting at a minimum of a map and adopted ordinance setting forth the
20 regulations governing, and the location and phasing of all proposed uses and improvements to be
21 included in the development.

22
23 **Planning and Research, Office of (OPR).** A governmental division of the State of California that
24 has among its responsibilities the preparation of a set of guidelines for use by local jurisdictions in
25 drafting General Plans.

26
27 **Planning Area.** The Planning Area is the land area addressed by the General Plan. For a city, the
28 Planning Area boundary typically coincides with the Sphere of Influence that encompasses land both
29 within the City Limits and potentially annexable land.

30
31 **Planning Commission.** The town of Loomis planning commission, appointed by the Loomis town
32 council. A body, usually having five or seven members, created by a city or county in compliance with
33 California law (Section 65100) that requires the assignment of the planning functions of the city or county
34 to a planning department, planning commission, hearing officers, and/or the legislative body itself, as
35 deemed appropriate by the legislative body.

36
37 **Plant Nursery.** A commercial agricultural establishment engaged in the production of ornamental plants
38 and other nursery products, grown under cover either in containers or in the soil on the site, or outdoors
39 in containers. The outdoor production of ornamental plants in the soil on the site is instead included under
40 **crop production, horticulture, orchard, vineyard.** Also includes establishments engaged in the sale of
41 these products (e.g., wholesale and retail nurseries) and commercial-scale greenhouses (home greenhouses
42 are included under **residential accessory use or structure**). The sale of house plants or other nursery
43 products entirely within a building is also included under **general retail**.

1 **Policy.** A specific statement of principle or of guiding actions that implies clear commitment but is
2 not mandatory. A general direction that a governmental agency sets to follow, in order to meet its
3 goals and objectives before undertaking an action program. (See "Program.")
4

5 **Pollutant.** Any introduced gas, liquid, or solid that makes a resource unfit for its normal or usual
6 purpose.
7

8 **Pollution.** The presence of matter or energy whose nature, location, or quantity produces undesired
9 environmental effects.
10

11 **Pollution, Non-Point.** Sources for pollution that are less definable and usually cover broad areas of
12 land, such as agricultural land with fertilizers that are carried from the land by runoff, or automobiles.
13

14 **Pollution, Point.** In reference to water quality, a discrete source from which pollution is generated
15 before it enters receiving waters, such as a sewer outfall, a smokestack, or an industrial waste pipe.
16

17 **Poverty Level.** As used by the U.S. Census, families and unrelated individuals are classified as being
18 above or below the poverty level based on a poverty index that provides a range of income cutoffs or
19 "poverty thresholds" varying by size of family, number of children, and age of householder. The
20 income cutoffs are updated each year to reflect the change in the Consumer Price Index.
21

22 **Preserve.** An area in which beneficial uses in their present condition are protected; for example, a
23 nature preserve or an agricultural preserve. (See "Agricultural Preserve" and "Protect.")
24

25 **Preserve.** To keep safe from destruction or decay; to maintain or keep intact. (See "Maintain.")
26

27 **Primary Structure.** A structure that accommodates the primary use of the site.
28

29 **Primary Use.** The main purpose for which a site is developed and occupied, including the activities that
30 are conducted on the site a majority of the hours during which activities occur.
31

32 **Primary Zoning District.** The zoning district applied to a site by the zoning map, to which an overlay
33 zoning district may also be applied.
34

35 **Prime Agricultural Land.** Any of the following, in compliance with Williamson Act Section 51201:

- 36 1. All land that qualifies for rating as Class I or Class II in the Soil Conservation Service land
37 capability classifications.
- 38 2. Land that qualifies for a rating of eighty through one hundred in the Storie Index Rating.
- 39 3. Land that supports livestock used for the production of food and fiber and which has an annual
40 carrying capacity equivalent to at least one animal unit per acre as defined by the United States
41 Department of Agriculture.
- 42 4. Land planted with fruit- or nut-bearing trees, vines, bushes, or crops that have a nonbearing
43 period of less than five years and which will normally return during the commercial bearing
44 period on an annual basis from the production of unprocessed agricultural plant production not
45 less than two hundred dollars per acre.

- 1 5. Land that has returned from the production of unprocessed agricultural plant products an
2 annual gross value of not less than two hundred dollars per acre for three of the previous five
3 years.

4
5 **Principle.** An assumption, fundamental rule, or doctrine that will guide General Plan policies,
6 proposals, standards, and implementation measures. The State Government Code (Section 65302)
7 requires that General Plans spell out the objectives, "principles," standards, and proposals of the
8 General Plan. "Adjacent land uses should be compatible with one another" is an example of a
9 principle.

10
11 **Printing and Publishing.** An establishment engaged in printing by letterpress, lithography, gravure,
12 screen, offset, or electrostatic (xerographic) copying; and other establishments serving the printing trade
13 such as bookbinding, typesetting, engraving, photoengraving and electrotyping. This use also includes
14 establishments that publish newspapers, books and periodicals; establishments manufacturing business
15 forms and binding devices. **Quick printing** services are included in the definition of **business support**
16 **services.**

17
18 **Private Residential Recreation Facility.** A privately owned, noncommercial outdoor recreation facility
19 provided for residential project or neighborhood residents, including swimming pools, swim and tennis
20 clubs, park and sport court facilities. Does not include golf courses and country clubs, which are separately
21 defined.

22
23 **Production of Food or Fiber.** Any type of commercial agricultural operation that produces food or fiber
24 products, including but not limited to all types of: irrigated field crop production (vegetables, fruits, grains,
25 seed crops, etc.), dry farming operations (grain, etc.), orchards and vineyards, berries, etc.; and animal
26 raising operations such as the raising of cattle, fowl or poultry, goats, sheep, swine, or other animals used
27 for food or clothing products; but not including timber production

28
29 **Program.** An action, activity, or strategy carried out in response to adopted policy to achieve a
30 specific goal or objective. Policies and programs establish the "who," "how" and "when" for carrying
31 out the "what" and "where" of goals and objectives.

32
33 **Project.** A proposal that requires a discretionary action by the Town.

34
35 **Property Line.** The recorded boundary of a parcel of land.

36
37 **Property Owner.** The person(s) or company that has owner's rights to the property, such as land or
38 structures, and who is responsible for the payment of any rates and taxes associated with that property.

39
40 **Proposed Project.** A proposed new structure, new addition to an existing structure, or area of other new site
41 development; these do not include the alteration of any portion of an existing structure other than an addition.

42
43 **Protect.** To maintain and preserve beneficial uses in their present condition as nearly as possible.
44 (See "Enhance.")

1 **Public and Quasi-public Facilities.** Institutional, academic, governmental and community service
2 uses, either publicly owned or operated by non-profit organizations. **Public facilities also means**
3 **public amenities such as sidewalks, street lighting, public benches, drinking fountains, and other**
4 **similar public enhancements.**

5
6 **Public Buildings and Uses.** Facilities owned and operated by the town, and/or state or federal
7 governments, or a local agency (e.g., a special district).

8
9 **Public Safety Facility.** A facility operated by a public agency including fire stations, other fire prevention
10 and fire-fighting facilities, police and sheriff substations and headquarters, including interim incarceration
11 facilities.

12
13 **Qualifying Resident.** A senior citizen or other person eligible to reside in senior citizen housing.

14
15 **Rare or Endangered Species.** A species of animal or plant listed in: Sections 670.2 or 670.5, Title
16 14, California Administrative Code; or Title 50, Code of Federal Regulations, Section 17.11 or
17 Section 17.2, pursuant to the Federal Endangered Species Act designating species as rare, threatened,
18 or endangered.

19
20 **Recharge.** The infiltration and movement of surface water into the soil, past the vegetation root zone, to
21 the zone of saturation or water table.

22
23 **Reclamation.** The reuse of resources, usually those present in solid wastes or sewage.

24
25 **Recognize.** To officially (or by official action) identify or perceive a given situation.

26
27 **Recreation, Active.** A type of recreation or activity that requires the use of organized play areas
28 including, but not limited to softball, baseball, football, and soccer fields, tennis and basketball courts,
29 and various forms of children's play equipment.

30
31 **Recreation, Passive.** Type of recreation or activity that does not require the use of organized play
32 areas.

33
34 **Recreational Vehicle (RV).** A motor home, travel trailer, truck camper, or camping trailer, with or
35 without motive power, originally designed for human habitation for recreational, emergency, or other
36 occupancy, which:

- 37 1. Contains less than three hundred twenty square feet of internal living room area, excluding
38 built-in equipment, including wardrobe, closets, cabinets, kitchen units or fixtures, and bath
39 or toilet rooms;
- 40 2. Contains four hundred square feet or less of gross area measured at maximum horizontal
41 projections;
- 42 3. Is built on a single chassis; and
- 43 4. Is either self-propelled, truck-mounted, or permanently towable on the highways without a
44 towing permit.

1 **Recreational Vehicle Park.** A site where one or more lots are used, or are intended to be used, by campers
2 with recreational vehicles or tents. Recreational vehicle parks may include public restrooms, water, sewer,
3 and electric hookups to each lot and are intended as a higher density, more intensively developed use than
4 campgrounds. May include accessory retail uses where they are clearly incidental and intended to serve
5 RV park patrons only.

6
7 **Recreational Use.** The use of land by the public, with or without charge, for walking, hiking, picnicking,
8 camping, swimming, boating, fishing, hunting, or other outdoor games or sports for which facilities are
9 provided for public participation.

10
11 **Recycle.** The process of extraction and reuse of materials from waste products.

12
13 **Recycling Facility.** A variety of facilities involved with the collection, sorting and processing of
14 recyclable materials.

- 15 1. **Collection facility.** A center where the public may donate, redeem or sell recyclable materials,
16 which may include the following, where allowed by the applicable zoning district:
 - 17 a. Reverse vending machines;
 - 18 b. Small collection facilities which occupy an area of three hundred fifty square feet or
19 less and may include:
 - 20 i. A mobile unit;
 - 21 ii. Bulk reverse vending machines or a grouping of reverse vending machines
22 occupying more than fifty square feet; and
 - 23 iii. Kiosk-type units which may include permanent structures.
 - 24 c. Large collection facilities which occupy an area of more than three hundred fifty
25 square feet and/or include permanent structures.
- 26 2. **Mobile recycling unit.** An automobile, truck, trailer, or van used for the collection of
27 recyclable materials, carrying bins, boxes, or other containers.
- 28 3. **Processing facility.** A structure or enclosed space used for the collection and processing of
29 recyclable materials for shipment, or to an end-user's specifications, by such means as baling,
30 briquetting, cleaning, compacting, crushing, flattening, grinding, mechanical sorting, re-
31 manufacturing and shredding. Processing facilities include the following types, both of which
32 are included under the definition of **scrap and dismantling yards**, below:
 - 33 a. A **light processing facility** occupies an area of under forty-five thousand square feet
34 of collection, processing and storage area, and averages two outbound truck shipments
35 each day. Light processing facilities are limited to baling, briquetting, compacting,
36 crushing, grinding, shredding and sorting of source separated recyclable materials
37 sufficient to qualify as a certified processing facility. A light processing facility shall
38 not shred, compact, or bale ferrous metals other than food and beverage containers; and
 - 39 b. A **heavy processing facility** is any processing facility other than a light processing
40 facility.
- 41 4. **Recycling facility.** A center for the collection and/or processing of recyclable materials. A
42 "certified" recycling or processing facility is certified by the California Department of
43 Conservation as meeting the requirements of the California Beverage Container Recycling and

1 Litter Reduction Act of 1986. A recycling facility does not include storage containers located
2 on a residentially, commercially or industrially designated site used solely for the recycling of
3 material generated on the site. See **collection facility** above.

- 4 5. **Recycling or recyclable material.** Reusable domestic containers and other materials which
5 can be reconstituted, re-manufactured, or reused in an altered form, including glass, metals,
6 paper and plastic. Recyclable material does not include refuse or hazardous materials.
- 7 6. **Reverse vending machine.** An automated mechanical device which accepts at least one or
8 more types of empty beverage containers and issues a cash refund or a redeemable credit slip
9 with a value not less than the container's redemption value, as determined by state law. These
10 vending machines may accept aluminum cans, glass and plastic bottles, and other containers.
11 A bulk reverse vending machine is a reverse vending machine that is larger than fifty square
12 feet, is designed to accept more than one container at a time, and issues a cash refund based on
13 total weight instead of by container.
- 14 7. **Scrap and dismantling yards.** Outdoor establishments primarily engaged in assembling,
15 breaking up, sorting, and the temporary storage and distribution of recyclable or reusable
16 scrap and waste materials, including auto wreckers engaged in dismantling automobiles for
17 scrap, and the incidental wholesale or retail sales of parts from those vehicles. Includes
18 light and heavy processing facilities for recycling (see the definitions above). Does not
19 include: places where these activities are conducted entirely within buildings; pawnshops,
20 and other secondhand stores; the sale of operative used cars; or landfills or other waste
21 disposal sites.

22
23 **Redevelop.** To demolish existing buildings; or to increase the overall floor area existing on a
24 property; or both; irrespective of whether a change occurs in land use.

25
26 **Regional.** Pertaining to activities or economies at a scale greater than that of a single jurisdiction, and
27 affecting a broad geographic area.

28
29 **Regional Housing Needs Plan.** A quantification by a COG or by HCD of existing and projected
30 housing need, by household income group, for all localities within a region.

31
32 **Regional Park.** A park typically 150-500 acres in size focusing on activities and natural features not
33 included in most other types of parks and often based on a specific scenic or recreational opportunity.
34 Regional parks offer a variety of improvements including sport fields, tot lots, an equestrian facility, and
35 more.

36
37 **Regional Water Quality Control Board (RWQCB).** California RWQCBs are responsible for
38 implementing pollution control provisions of the Clean Water Act and California Water Code within their
39 jurisdiction.

40
41 **Regulation.** A rule or order prescribed for managing government.

42
43 **Rehabilitation.** The repair, preservation, and/or improvement of substandard housing.
44

1 **Religious facility.** A permanent facility operated by a religious organization exclusively for worship, or
2 the promotion of religious activities, including accessory uses on the same site. Examples of these types
3 of facilities include churches, mosques, synagogues, and temples. Examples of allowable accessory uses
4 on the same site include living quarters for ministers and staff, facilities for child day care and religious
5 instruction operated at the same time as religious services (where authorized by the same type of land use
6 permit required for the religious facility itself). May also include fund-raising sales, bazaars, dinners,
7 parties, or other indoor and outdoor events on the same site. Other facilities maintained by religious
8 organizations, including full-time day care centers, full-time educational institutions, hospitals and other
9 potentially related operations (for example, a recreational camp) are defined in this chapter according to their
10 respective activities. Does not include the temporary use of an approved public assembly facility (for example,
11 a private meeting hall, community center, theater, or auditorium) by a congregation for religious meetings,
12 which is instead defined under the type of meeting facility hosting the congregation.

13
14 **Repair Service—Equipment, Large Appliances, etc.** A service and facility where various types of
15 electrical, electronic, and mechanical equipment, and home and business appliances are repaired and/or
16 maintained away from the site of the equipment owner. Does not include vehicle repair or maintenance,
17 which is included under **vehicle services**, the repair of small home appliances and electronic equipment,
18 which is included under **personal services**, or maintenance and repair activities that occur on the client's
19 site, which are included under **maintenance service—client site services**.

20
21 **Resident.** A person who lives somewhere on a permanent or long-term basis. Residents include owners
22 of property who reside in the property, as well as long-term guests and family members of the property
23 owner, and tenants.

24
25 **Residential.** Land designated in the City or County General Plan and zoning ordinance for buildings
26 consisting only of dwelling units. May be improved, vacant, or unimproved. (See "Dwelling Unit.")

27
28 **Residential Accessory Use or Structure.** Any use and/or structure that is customarily a part of, and
29 clearly incidental and secondary to a residence, and does not change the character of the residential use.
30 This definition includes the following detached accessory structures, and other similar structures normally
31 associated with a residential use of property. See also **agricultural accessory structure**. Includes:
32 garages, gazebos, greenhouses (noncommercial), spas and hot tubs, storage sheds, studios, swimming
33 pools, tennis and other on-site sport courts, and workshops. Also includes the indoor storage of
34 automobiles (including their incidental restoration and repair), personal recreational vehicles and other
35 personal property, accessory to a residential use. Does not include: second units, which are separately
36 defined; guest houses, which are included under the definition of second units (see **Additional Residential**
37 **Unit, ADU**); or home satellite dish and other receiving antennas for earth-based TV and radio broadcasts
38 (see **telecommunications facilities**).

39
40 **Residential Care Facility.** A single dwelling unit or multiple-unit facility licensed or supervised by a
41 federal, state, or local health/welfare agency that provides twenty-four-hour nonmedical care of unrelated
42 persons who are **disabled** and in need of personal services, supervision, or assistance essential for
43 sustaining the activities of daily living or for the protection of the individual in a family-like environment.

44
45 **Residential Care Facility for the Elderly (RCFE).** A housing arrangement chosen voluntarily by the
46 residents, or the residents' guardians, conservators or other responsible persons; where seventy-five

1 percent of the residents are at least sixty-two years of age, or, if younger, have needs compatible with
2 other residents; and where varying levels of care and supervision are provided, as agreed to at the time of
3 admission or as determined necessary at subsequent times of reappraisal (definition from California Code
4 of Regulations Title 22, Division 6, Chapter 6, Residential Care Facilities for the Elderly). RCFE projects
5 may include basic services and community space. RCFE projects include assisted living facilities (board
6 and care homes), congregate housing, independent living centers/senior apartments, and life care facilities
7 as defined in this definition:

- 8 1. **Assisted living facility.** A residential building or buildings that also provide housing, personal
9 and health care, as permitted by the Department of Social Services, designed to respond to the
10 daily, individual needs of the residents. Assisted living facilities may include kitchenettes
11 (small refrigerator, sink and/or microwave oven) within individual rooms. Assisted living
12 facilities are required to be licensed by the California Department of Social Services, and do
13 not include skilled nursing services.
- 14 2. **Independent living center/senior apartment.** Independent living centers and senior
15 apartments and are multifamily residential projects reserved for senior citizens, where
16 common facilities may be provided (for example, recreation areas), but where each
17 dwelling unit has individual living, sleeping, bathing, and kitchen facilities.
- 18 3. **Life care facility.** Sometimes called continuing care retirement communities, or senior
19 continuum of care complex, these facilities provide a wide range of care and supervision, and
20 also provide health care (skilled nursing) so that residents can receive medical care without
21 leaving the facility. Residents can expect to remain, even if they become physically
22 incapacitated later in life. Life care facilities require multiple licensing from the State
23 Department of Social Services, the State Department of Health Services, and the State
24 Department of Insurance.

25
26 **Residential, Multiple Family.** Usually three or more dwelling units on a single site, which may be
27 in the same or separate buildings.

28
29 **Residential, Single-family.** A single dwelling unit on a building site.

30
31 **Residential Zoning District.** Any of the residential zoning districts established by the Zoning Code.

32
33 **Resources, Non-renewable.** Refers to natural resources, such as fossil fuels and natural gas, which,
34 once used, cannot be replaced and used again.

35
36 **Rest Stop.** A public or private facility providing restrooms, sitting and/or picnic areas, traveler
37 information kiosks, and similar facilities to serve the traveling public on Interstate 80.

38
39 **Restaurant, Cafe, Coffee Shop.** A retail business selling ready-to-eat food and/or beverages for on- or
40 off-premises consumption. These include eating establishments where customers are served from a walk-
41 up ordering counter for either on- or off-premises consumption (counter service); and establishments
42 where customers are served food at their tables for on-premises consumption (table service), that may also
43 provide food for take-out.

44
45 **Restore.** To renew, rebuild, or reconstruct to a former state.

1 **Restrict.** To check, bound, or decrease the range, scope, or incidence of a particular condition.

2
3 **Retrofit.** To add materials and/or devices to an existing building or system to improve its operation,
4 safety, or efficiency. Buildings have been retrofitted to use solar energy and to strengthen their ability
5 to withstand earthquakes, for example.

6
7 **Review Authority.** The individual or official town body (the planning director, planning commission, or town
8 council) identified by this title as having the responsibility and authority to review, and approve or disapprove
9 permit applications.

10
11 **Rezoning.** An amendment to the map and/or text of a zoning ordinance to effect a change in the
12 nature, density, or intensity of uses allowed in a zoning district and/or on a designated parcel or land
13 area.

14
15 **Richter Scale.** A measure of the size or energy release of an earthquake at its source. The scale is
16 logarithmic; the wave amplitude of each number on the scale is 10 times greater than that of the
17 previous whole number.

18
19 **Rideshare.** A travel mode other than driving alone, such as buses, rail transit, carpools, and vanpools.

20
21 **Ridgeline.** A line connecting the highest points along a ridge and separating drainage basins or small-
22 scale drainage systems from one another.

23
24 **Right-of-way.** A strip of land occupied or intended to be occupied by certain transportation and
25 public use facilities, such as roadways, railroads, and utility lines.

26
27 **Riparian Areas.** Plant communities contiguous to and affected by surface and subsurface hydrologic
28 features of perennial or intermittent waterbodies. Riparian areas have one or both of the following
29 characteristics: 1) distinctively different vegetative species than adjacent areas, and 2) species similar to
30 adjacent areas but exhibiting more vigorous or robust growth forms. Riparian areas are usually transitional
31 between wetland and upland.

32
33 **Riparian Lands.** Riparian lands or habitat are comprised of the vegetative and wildlife areas adjacent
34 to perennial and intermittent streams. Riparian areas are delineated by the existence of plant species
35 normally found near freshwater per California Department of Fish and Wildlife regulations.

36
37 **Risk.** The danger or degree of hazard or potential loss.

38
39 **Rooming or Boarding House.** A dwelling or part of a dwelling where lodging is furnished for compensation
40 to five or more persons living independently from each other. Meals may also be included. Does not include
41 fraternities, sororities, convents, or monasteries, which are separately defined under **organizational house**.

42
43 **Runoff.** That portion of rain or snow that does not percolate into the ground and is discharged into
44 streams instead.

1 **Rural.** In, relating to, or characteristic of the countryside, country people or country living, rather than
2 urban; rustic, or country living.

3
4 **Rural Character.** A predominant visual landscape of open spaces, topography, forests, and farms and the
5 activities which preserve such features. It balances environmental, forest, and farm protection with rural
6 development and recreational opportunities. Socially, it means knowing your neighbors and valuing
7 community.

8
9 **Safety Element.** One of the seven elements of a local General Plan mandated by California law, it
10 contains adopted goals, policies, and implementation programs for the protection of the community
11 from any unreasonable risks associated with seismic and geologic hazards, flooding, and wildland
12 and urban fires. Many safety elements also incorporate a review of police needs, objectives, facilities,
13 and services.

14
15 **Sanitary Landfill.** The controlled placement of refuse within a limited area, followed by compaction
16 and covering with a suitable thickness of earth and other containment material.

17
18 **Sanitary Sewer.** A system of subterranean conduits that carries refuse liquids or waste matter to a
19 plant where the sewage is treated, as contrasted with storm drainage systems (that carry surface water)
20 and septic tanks or leech fields (that hold refuse liquids and waste matter on-site). (See **Combined**
21 **Sewer** and **Septic System**.)

22
23 **School.** A public or private academic educational institution, including: boarding school; community
24 college, college, or university, elementary, middle, and junior high schools; high school; and military
25 academy. Also includes schools providing specialized education/training. Examples include the
26 following: art school; ballet and other dance school; business, secretarial, and vocational school;
27 computers and electronics school; drama school; driver education school; establishments providing
28 courses by mail **or internet**; language school; martial arts; music school; professional school (law, medicine,
29 etc.); and seminaries/religious ministry training facility. Also includes facilities, institutions and conference
30 centers that offer specialized programs in personal growth and development, such as fitness,
31 environmental awareness, arts, communications, and management. Does not include pre-schools and child
32 day care facilities (see **day care**). See also the definition of **studios—art, dance, martial arts, music,**
33 **etc.** for smaller-scale facilities offering specialized instruction.

34
35 **Secondhand Store.** A retail store that buys and sell used products, including clothing, furniture and
36 household goods, jewelry, appliances, musical instruments, business machines and office equipment,
37 tools, motors, machines, instruments, firearms, or any similar secondhand articles or objects. Does not
38 include bookstores (**retail stores**); secondhand farm and construction equipment (**construction, farm,**
39 **and heavy equipment sales**); junk dealers, or scrap/dismantling yards (**recycling facilities—scrap and**
40 **dismantling yards**); the sale of antiques and collectibles (**retail stores**); the sale of cars and other used
41 vehicles (**auto and vehicle sales, leasing, and rental, used**); or pawnshops (**personal services—**
42 **restricted**).

43
44 **Second Unit.** A second permanent dwelling that is accessory to a primary dwelling on the same site. A
45 second unit provides complete, independent living facilities for one or more persons, including permanent
46 provisions for living, sleeping, eating, cooking, sanitation, and parking, and if attached to the primary

1 dwelling, is provided exterior access separate from the primary dwelling. Includes guest houses.
2 Sometimes called a "Granny Flat." **See Additional Residential Unit, ADU.**

3
4 **Seiche.** An earthquake-generated wave in an enclosed body of water such as a lake, reservoir, or bay.

5
6 **Seismic.** Caused by or subject to earthquakes or earth vibrations.

7
8 **Semi-Rural.** A previously rural area of increasing development, having both rural and urban
9 characteristics.

10
11 **Senior Housing.** (See "**Elderly Housing Residential Care Facility for the Elderly.**")

12
13 **Seniors.** Persons age 62 and older.

14
15 **Sensitive Land Uses or Noise-Sensitive Land Uses.** (See "Sensitive Receptors.")

16
17 **Sensitive Receptors.** Persons or areas where the occupants are more susceptible to the adverse effects
18 of exposure to toxic chemicals, pesticides, and other pollutants, including noise. Sensitive receptors
19 include, but are not limited to, residences, hospitals, schools, daycare facilities, playgrounds, elderly
20 housing and convalescent facilities.

21
22 **Sensitive Plant and Wildlife Species or Sensitive Species.** Species listed as rare, threatened, endangered,
23 candidate, and those not yet officially listed but undergoing status review for listing on the USFWS's or
24 CDFW's official threatened and endangered list; species whose populations are small and widely dispersed
25 or restricted to a few localities; and species whose numbers are declining so rapidly that official listing
26 may be necessary. Those species which rely on specific habitat conditions that are limited in abundance,
27 restricted in distribution, or are particularly sensitive to development.

28
29 **Septic System.** A sewage-treatment system that includes a settling tank through which liquid sewage
30 flows and in which solid sewage settles **in a tank** and is decomposed by bacteria in the absence of
31 oxygen, **and a leaching field for secondary treatment and absorption.** Septic systems are often used
32 for individual-home waste disposal where an urban sewer system is not available. (See **Sanitary**
33 **Sewer.**)

34
35 **Service Station.** See **gas station**, and **vehicle services.**

36
37 **Setback.** The distance by which a structure, parking area or other development feature must be separated
38 from a lot line, other structure or development feature, or street centerline (unless otherwise provided).

39
40 **Shall.** That which is obligatory or necessary.

41
42 **Shopping Center.** A primarily retail commercial site with three or more separate businesses sharing
43 common pedestrian and parking areas.

44
45 **Should.** Signifies a directive to be honored if at all possible.

1 **Sign.** A structure, device, figure, display, message placard, or other contrivance, or any part thereof,
2 situated outdoors or indoors, which is designed, constructed, intended, or used to advertise, or to provide
3 information in the nature of advertising, to direct or attract attention to an object, person, institution,
4 business, product, service, event, or location by any means, including words, letters, figures, designs,
5 symbols, fixtures, colors, illumination, or projected images. Does not include murals, paintings and other
6 works of art that are not intended to advertise or identify any business or product. Types of signs include
7 the following:

- 8 1. **Abandoned sign.** A sign that no longer advertises a business, lessor, owner, product, service
9 or activity on the premises where the sign is displayed.
- 10 2. **Animated or moving sign.** A sign which uses movement, lighting, or special materials to
11 depict action or create a special effect to imitate movement.
- 12 3. **Awning sign.** A sign copy or logo attached to or painted on an awning.
- 13 4. **Banner, flag, or pennant.** Cloth, bunting, plastic, paper, or similar nonrigid material used
14 for advertising purposes attached to a structure, staff, pole, line, framing, or vehicle, not
15 including official flags of the United States, the state of California, and other states of the
16 nation, counties, municipalities, official flags of foreign nations and nationally or
17 internationally recognized organizations.
- 18 5. **Bench sign.** Copy painted on a portion of a bench.
- 19 6. **Cabinet sign (can sign).** A sign with its text and/or logo symbols and artwork on a translucent
20 face panel that is mounted within a metal frame or cabinet that contains the lighting fixtures that
21 illuminate the sign face.
- 22 7. **Changeable copy sign.** A sign designed to allow the changing of copy through manual,
23 mechanical, or electrical means including time and temperature.
- 24 8. **Directional sign.** A sign that is designed and erected solely for the purposes of directing
25 vehicular and/or pedestrian traffic within a project.
- 26 9. **Directory sign.** A sign for listing the tenants and their suite numbers of a multiple tenant
27 structure or center.
- 28 10. **Double-faced sign.** A sign constructed to display its message on the outer surfaces of two
29 identical and/or opposite parallel planes.
- 30 11. **Electronic reader board sign.** A sign with a fixed or changing display composed of a series
31 of lights, but not including time and temperature displays.
- 32 12. **Flashing sign.** A sign that contains an intermittent or sequential flashing light source.
- 33 13. **Freestanding sign.** A sign fixed in an upright position on the ground not attached to a structure
34 other than a framework, pole or device, erected primarily to support the sign. Includes monument
35 signs and pole signs.
- 36 14. **Illegal sign.** A sign that includes any of the following:
 - 37 a. A sign erected without complying with all regulations in effect at the time of its
38 construction or use;
 - 39 b. A sign that was legally erected, but whose use has ceased, the structure upon which
40 the display is placed has been abandoned by its owner, or the sign is not being used to
41 identify or advertise an ongoing business for a period of not less than ninety days;

- 1 c. A sign that was legally erected which later became nonconforming as a result of the
2 adoption of an ordinance, the amortization period for the display provided by the
3 ordinance rendering the display conforming has expired, and conformance has not been
4 accomplished;
- 5 d. A sign that was legally erected which later became nonconforming and then was
6 damaged to the extent of fifty percent or more of its current replacement value;
- 7 e. A sign which is a danger to the public or is unsafe;
- 8 f. A sign which is a traffic hazard not created by relocation of streets or highways or by
9 acts of the town; or
- 10 g. A sign that pertains to a specific event, and five days have elapsed since the
11 occurrence of the event.
- 12 15. **Indirectly illuminated sign.** A sign whose light source is external to the sign and which
13 casts its light onto the sign from some distance.
- 14 16. **Internally illuminated sign.** A sign whose light source is located in the interior of the sign
15 so that the rays go through the face of the sign, or light source which is attached to the face of
16 the sign and is perceived as a design element of the sign.
- 17 17. **Marquee (canopy) sign.** A sign which is attached to or otherwise made a part of a
18 permanent roof-like structure which projects beyond the building wall in the form of a large
19 canopy to provide protection from the weather.
- 20 18. **Monument sign.** An independent, freestanding structure supported on the ground having a
21 solid base as opposed to being supported by poles or open braces.
- 22 19. **Multi-tenant sign.** An identification sign for a commercial site with multiple tenants,
23 displaying the names of each tenant on the site.
- 24 20. **Nonconforming sign.** An advertising structure or sign which was lawfully erected and
25 maintained prior to the adoption of this title, but does not now completely comply with
26 current regulations.
- 27 21. **Off-site directional sign.** A sign identifying a publicly owned facility, emergency facility, or
28 a temporary subdivision sign, but excluding real estate signs.
- 29 22. **Off-site sign.** A sign identifying a use, facility, service, or product that is not located, sold, or
30 manufactured on the same premises as the sign, or that identifies a use, service, or product by
31 a brand name which, although sold or manufactured on the premise, is not a principal item
32 for sale or manufactured on the premises.
- 33 23. **Permanent sign.** A sign constructed of durable materials and intended to exist for the
34 duration of time that the use or occupant is located on the premises; and any other sign that is
35 in place for more than thirty days.
- 36 24. **Political sign.** A sign designed for the purpose of advertising support of or opposition to a
37 candidate or proposition for a public election.
- 38 25. **Pole/pylon sign.** An elevated freestanding sign, typically supported by one or two poles or
39 columns.
- 40 26. **Portable sidewalk sign.** An **A-frame** or **sandwich board** sign.
- 41 27. **Portable sign.** A sign that is not permanently affixed to a structure or the ground.

- 1 28. **Projecting sign.** A sign other than a wall sign suspending from, or supported by, a structure
2 and projecting outward.
- 3 29. **Real estate sign.** A sign indicating that a property or any portion thereof is available for
4 inspection, sale, lease, rent, or directing people to a property, but not including temporary
5 subdivision signs.
- 6 30. **Roof sign.** A sign constructed upon or over a roof, or placed so as to extend above the edge
7 of the roof.
- 8 31. **Temporary sign.** A sign intended to be displayed for a limited period of time and capable of
9 being viewed from a public right-of-way, parking area or neighboring property.
- 10 32. **Vehicle sign.** A sign which is attached to or painted on a vehicle which is parked on or
11 adjacent to any property, the principal purpose of which is to attract attention to a product
12 sold or business located on the property.
- 13 33. **Wall sign.** A sign which is attached to or painted on the exterior wall of a structure with the
14 display surface of the sign approximately parallel to the building wall.
- 15 34. **Window sign.** A sign posted, painted, placed, or affixed in or on a window exposed to public
16 view. An interior sign which faces a window exposed to public view and is located within
17 three feet of the window.

18
19 **Sign Area.** The entire area within a perimeter defined by a continuous line composed of right angles using
20 not more than four lines which enclose the extreme limits of lettering, logo, trademark, or other graphic
21 representation
22

23 **Sign Height.** The vertical distance from the uppermost point used in measuring the area of a sign to the
24 average grade immediately below the sign, including its base or the top of the nearest curb of the street on
25 which the sign fronts, whichever measurement is the greatest.
26

27 **Significant Ecological Area.** areas that include but are not limited to: wetland areas; stream
28 environment zones; suitable habitat for rare, threatened or endangered species, and species of
29 concern; large areas of non-fragmented habitat, including oak woodlands and riparian habitat;
30 potential wildlife movement corridors; and important spawning areas for anadromous fish.
31

32 **Significant Effect.** A beneficial or detrimental impact on the environment. May include, but is not limited
33 to, significant changes in an area's air, water, and land resources.
34

35 **Siltation.** (1) The accumulating deposition of eroded material. (2) The gradual filling in of streams and
36 other bodies of water with sand, silt, and clay.
37

38 **Single-family Dwelling.** A building designed for and/or occupied exclusively by one family. Also
39 includes factory-built, modular housing units, constructed in compliance with the Uniform Building Code
40 (UBC), and mobile homes/manufactured housing units that comply with the National Manufactured
41 Housing Construction and Safety Standards Act of 1974, placed on permanent foundations.
42

43 **Single-family Dwelling, Attached.** A dwelling unit occupied or intended for occupancy by only one
44 household that is structurally connected with at least one other such dwelling unit. (See "Townhouse.")

1
2 **Single-family Dwelling, Detached.** A dwelling unit occupied or intended for occupancy by only one
3 household that is structurally independent from any other such dwelling unit or structure intended for
4 residential or other use. (See "Family.")

5
6 **Site.** A parcel or adjoining parcels under single ownership or single control, considered a unit for the
7 purposes of development or other use. A parcel of land used or intended for one use or a group of uses
8 and having frontage on a public or an approved private street. A lot. (See "Lot.")

9
10 **Site Coverage.** The percentage of total site area occupied by structures **and impervious surfaces such as**
11 **driveways and patios.** Structure or building coverage includes the primary structure, all accessory
12 structures (e.g., carports, garages, patios covers, storage sheds, trash dumpster enclosures, etc.) and
13 architectural features (e.g., chimneys, balconies, decks above the first floor, porches, stairs, etc.).
14 Structure/building coverage is measured from exterior wall to exterior wall.

15
16 **Slope.** Land gradient described as the vertical rise divided by the horizontal run and expressed in percent.

17
18 **Small-family Day Care Home.** See **Day Care.**

19
20 **Small Town Character.** **The visual and social character of the central areas of Town that are more densely**
21 **developed than the outskirts of Town and provide small-scale residential, commercial, industrial, and**
22 **public uses. Small Town Character reflects a community where people value the natural landscape and**
23 **are a generally friendly, polite, and where everybody knows their neighbors.**

24
25 **Social Service Organization.** A public or quasi-public establishment providing social and/or
26 rehabilitation services, serving persons with social or personal problems requiring special services, the
27 **disabled** ~~handicapped~~, and the otherwise disadvantaged. Examples of this land use include: counseling
28 centers, welfare offices, job counseling and training centers, or vocational rehabilitation agencies. Includes
29 organizations soliciting funds to be used directly for these and related services, and establishments
30 engaged in community improvement and neighborhood development. Does not include **day-care**
31 **services, emergency shelters and transitional housing, or residential care,** which are separately
32 defined.

33
34 **Soil.** The unconsolidated material on the immediate surface of-the earth created by natural forces that serves
35 as natural medium for growing land plants.

36
37 **Solid Waste.** Any unwanted or discarded material that is not a liquid or gas. Includes organic wastes, paper
38 products, metals, glass, plastics, cloth, brick, rock, soil, leather, rubber, yard wastes, and wood, but does
39 not include sewage and hazardous materials. Organic wastes and paper products comprise about 75 percent
40 of typical urban solid waste.

41
42 **Sound Exposure Level (SEL).** A rating, in decibels, of a discrete event, such as an aircraft flyover or
43 train pass by, that compresses the total sound energy into a one-second event.

44
45 **Specific Plan.** Under Article 8 of the Government Code (Section 65450 et seq), a legal tool for detailed
46 design and implementation of a defined portion of the area covered by a General Plan. A specific plan

1 may include all detailed regulations, conditions, programs, and/or proposed legislation that may be
2 necessary or convenient for the systematic implementation of any General Plan element(s).

3
4 **Speed, Average.** The sum of the speeds of the cars observed divided by the number of cars observed.

5
6 **Speed, Critical.** The speed that is not exceeded by 85 percent of the cars observed.

7
8 **Sphere of Influence.** The probable ultimate physical boundaries and service area of a local agency (city
9 or district) as determined by the Local Agency Formation Commission (LAFCo) of the County.

10
11 **Sports and Entertainment Assembly.** A large-scale indoor or outdoor facility accommodating spectator-
12 oriented sports, concerts, and other entertainment activities. Examples of this land use include
13 amphitheaters, racetracks, stadiums, and coliseums. May also include commercial facilities customarily
14 associated with the above uses, including bars and restaurants, gift shops, video game arcades, etc.

15
16 **Sports and Active Recreation Facility.** Public and private facilities for various outdoor sports and other
17 types of recreation, where the facilities are oriented more toward participants than spectators. Examples
18 include: athletic/sport fields (e.g., baseball, football, softball, soccer); health and athletic club outdoor
19 facilities; skateboard parks; swimming pools; and tennis and other sport courts (e.g., handball, squash).

20
21 **Standards.** (1) A rule or measure establishing a level of quality or quantity that must be complied with or
22 satisfied. The State Government Code (Section. 65302) requires that General Plans spell out the
23 objectives, principles, "standards", and proposals of the General Plan. Examples of standards might
24 include the number of acres of park land per 1,000 population that the community will attempt to acquire
25 and improve, or the "traffic Level of Service" (LOS) that the plan hopes to attain. (2) Requirements in a
26 zoning ordinance that govern building and development as distinguished from use restrictions – for
27 example, site design regulations such as lot area, height limit, frontage, landscaping and floor area ratio.

28
29 **Storage, Accessory.** The indoor storage of materials accessory and incidental to a primary use is not
30 considered a land use separate from the primary use

31
32 **Storage, Outdoor.** An area not within a building that is proposed or used for the storage of building
33 materials, other supplies, equipment, or other materials, either as the primary use of a parcel or as storage
34 accessory to another use. Includes towing impound and storage facilities, which are subject to the
35 requirements for outdoor storage in the Zoning Code.

36
37 **Storage, Personal Storage Facility.** Structures containing generally small, individual,
38 compartmentalized stalls or lockers rented as individual storage spaces and characterized by low parking
39 demand.

40
41 **Storage, Storage Yard.** The storage of various materials outside of a structure other than fencing, either
42 as an accessory or primary use.

43
44 **Storage, Warehouse, Indoor Storage.** Facilities for the storage of furniture, household goods, or other
45 commercial goods of any nature. Includes cold storage. Does not include: warehouse, storage or mini-
46 storage facilities offered for rent or lease to the general public (**storage—personal storage facility**);

1 warehouse facilities primarily used for wholesaling and distribution (see **wholesaling and distribution**);
2 or terminal facilities for handling freight (see **truck or freight terminal**).

3
4 **Storm Runoff.** Surplus surface water generated by rainfall that does not seep into the earth but flows
5 overland to flowing or stagnant bodies of water.

6
7 **Storm Water.** Storm water is generated when precipitation from rain and snowmelt events flows over
8 land or impervious surfaces and does not percolate into the ground. As storm water flows over the land or
9 impervious surfaces, it accumulates debris, chemicals, sediment or other pollutants that could adversely
10 affect water quality if the storm water is discharged untreated.

11
12 **Story.** That portion of a building included between the surface of any floor and the surface of the floor
13 next above, or if there is no floor above, then the space between the floor and the ceiling or floor next
14 above. Basements are excluded from being considered a story.

15
16 **Stream.** All watercourses shown as blue lines on the most recent United States Geological Survey
17 (USGS) 7.5-minute topographic quadrangle maps applicable to the Town or as otherwise designated by
18 the Town.

19
20 **Stream Corridor.** A horizontal distance of one hundred feet measured from each side of the centerline
21 of the stream, totaling a width of two hundred feet; or a horizontal distance of fifty feet measured from
22 the top of each stream or creek bank, whichever is greater. The commission may establish different
23 horizontal measurements to match specific stream environments.

24
25 **Stream or Creek Bank.** The point where the break in slope occurs between a stream channel and
26 surrounding topography.

27
28 **Street.** A public or private thoroughfare, which affords the principal means of access to abutting property,
29 including avenue, place, way, drive, lane, boulevard, highway, road and any other thoroughfare, except
30 an alley. (See "Alley.")

31
32 **Street Furniture.** Those features associated with a street that are intended to enhance that street's physical
33 character and use by pedestrians, such as benches, trash receptacles, kiosks, lights, newspaper racks.

34
35 **Street Tree Plan.** A comprehensive plan for all trees on public streets that sets goals for solar access, and
36 standards for species selection, maintenance, and replacement criteria, and for planting trees in patterns
37 that will define neighborhood character while avoiding monotony or maintenance problems.

38
39 **Streets, Local.** (See "Streets, Minor")

40
41 **Streets, Major.** The transportation network that includes a hierarchy of freeways, arterials, and
42 collectors to service through traffic.

43
44 **Streets, Minor.** Local streets not shown on the Circulation Plan, Map, or Diagram, whose primary
45 intended purpose is to provide access to fronting properties.

1 **Streets, Through.** Streets that extend continuously between other major streets in the community.

2
3 **Structure.** Anything constructed or erected, the use of which requires attachment to the ground or
4 attachment to something located on the ground (excluding swimming pools, fences, and walls used as
5 fences).

6
7 **Studio, Art, Dance, Martial Arts, Music, etc.** Small scale facilities, typically accommodating one group
8 of students at a time, in no more than one instructional space. Larger facilities are included under the
9 definition of **schools—specialized education and training**. Examples of these facilities include:
10 individual and group instruction and training in the arts; production rehearsal; photography, and the
11 processing of photographs produced only by users of the studio facilities; martial arts training studios;
12 gymnastics instruction, and aerobics and gymnastics studios with no other fitness facilities or equipment.
13 Also includes production studios for individual musicians, painters, sculptors, photographers, and other
14 artists.

15
16 **Subdivision.** The division, by any subdivider, of any unit or portion of land shown on the latest equalized
17 Placer County assessment roll as a unit or contiguous units, for the purpose of sale, lease or financing,
18 whether immediate or future. Property shall be considered as contiguous units, even if it is separated by
19 roads, streets, utility easement or railroad rights-of-way. Subdivision includes the following, as defined in
20 Civil Code Section 1315: a condominium project; a community apartment project; or the conversion of
21 five or more existing dwelling units to a stock cooperative.

22
23 **Subdivision Map Act.** Division 2 (Sections 66410 et seq) of the California Government Code, this
24 act vests in local legislative bodies the regulation and control of the design and improvement of
25 subdivisions, including the requirement for tentative and final maps. (See "Subdivision.")

26
27 **Subsidence.** The gradual settling or sinking of an area with little or no horizontal motion. (See
28 "Settlement.")

29
30 **Subsidize.** To assist by payment of a sum of money or by the granting of terms or favors that reduce
31 the need for monetary expenditures. Housing subsidies may take the forms of mortgage interest
32 deductions or tax credits from federal and/or state income taxes, sale or lease at less than market
33 value of land to be used for the construction of housing, payments to supplement a minimum
34 affordable rent, and the like.

35
36 **Substandard Housing.** Residential dwellings that, because of their physical condition, do not
37 provide safe and sanitary housing.

38
39 **Substantial.** Considerable in importance, value, degree, or amount.

40
41 **Supportive Housing.** Housing with no limit on length of stay, that is occupied by the target population,
42 and that is linked to an on-site or off-site service that assists the supportive housing resident in retaining
43 the housing, improving his or her health status, and maximizing his or her ability to live and, when
44 possible, work in the community.

45
46 **Surface Water.** Any water found in rivers, lakes, streams, ponds, and underground rivers.

1
2 **Swale.** A shallow storm water channel that can be vegetated with some combination of grasses, shrubs,
3 and/or trees designed to slow, filter, and often infiltrate storm water runoff.

4
5 **Tax Increment.** Additional tax revenues that result from increases in property values within are
6 development area. State law permits the tax increment to be earmarked for redevelopment purposes
7 but requires at least 20 percent to be used to increase and improve the community's supply of very
8 low-and low-income housing.

9
10 **Telecommunications Facility.** Public, commercial and private electromagnetic and photoelectrical
11 transmission, broadcast, repeater and receiving stations for radio, television, telegraph, telephone, data
12 network, and wireless communications, including commercial earth stations for satellite-based
13 communications. Includes antennas, commercial satellite dish antennas, and equipment buildings. Does
14 not include telephone, telegraph and cable television transmission facilities utilizing hard-wired or direct
15 cable connections.

16
17 **Temporary Structure.** A structure without any foundation or footings, and which is removed when the
18 designated time period, activity, or use for which the temporary structure was erected has ceased.

19
20 **Temporary Use.** A use of land that is designed, operated and occupies a site for a limited time, typically
21 less than twelve months.

22
23 **Tenant.** A person or entity who temporarily occupies land or property from a landlord.

24
25 **Theater, Auditorium.** An indoor facility for public assembly and group entertainment, other than
26 sporting events. Examples of these facilities include: civic theaters, and facilities for “live” theater and
27 concerts; movie theaters; and similar public assembly facilities. See also **sports and entertainment**
28 **assembly.**

29
30 **Threshold of Hearing.** The lowest sound that can be perceived by the human auditory system, generally
31 considered to be 0 dB for persons with perfect hearing

32
33 **Topography.** Configuration of a surface, including its relief and the position of natural and man-
34 made features.

35
36 **Tot Lot.** A small area devoted to children’s play.

37
38 **Tourism.** The business of providing services for persons traveling for pleasure, tourism contributes
39 to the vitality of the community by providing revenue to local business. Tourism can be measured
40 through changes in the transient occupancy tax, or restaurant sales.

41
42 **Town.** The Town of Loomis, State of California.

43
44 **Town Council.** The Loomis town council, referred to as the “council”.

1 **Traffic Model.** A mathematical representation of traffic movement within an area or region based
2 on observed relationships between the kind and intensity of development in specific areas. Many
3 traffic models operate on the theory that trips are produced by persons living in residential areas and
4 are attracted by various non-residential land uses. (See "Trip.")

5
6 **Trail.** A public access corridor providing non-motorized access between points of interest such as
7 Passive Parks, Recreation Parks, schools, and the Town Center. Trails can include: unpaved walking
8 paths, paved bikeways, equestrian paths, short sidewalk segments between portions of trails, railroad
9 corridors, and publicly accessible utility corridors.

10
11 **Transit.** The conveyance of persons or goods from one place to another by means of a local, public
12 transportation system.

13
14 **Transit-dependent.** Refers to persons unable to operate automobiles or other motorized vehicles, or
15 those who do not own motorized vehicles. Transit-dependent citizens must rely on transit, paratransit,
16 or owners of private vehicles for transportation. Transit-dependent citizens include the young, the
17 ~~handicapped~~ **disabled**, the elderly, the poor, and those with prior violations in motor vehicle laws.

18
19 **Transit, Public.** A system of regularly scheduled buses and/or trains available to the public on a fee-
20 per-ride basis. Also called "Mass-Transit."

21
22 **Transit Station or Terminal.** A passenger station for vehicular, and rail mass transit systems; also
23 terminal facilities providing maintenance and service for the vehicles operated in the transit system.
24 Includes buses, taxis, railway, etc.

25
26 **Transitional Housing.** Buildings configured as rental housing developments but operated under program
27 requirements that require the termination of assistance and recirculating of the assisted unit to another
28 eligible program recipient at a predetermined future point in time that shall be no less than six months
29 from the beginning of the assistance.

30
31 **Transportation Demand Management (TDM).** A strategy for reducing demand on the road system
32 by reducing the number of vehicles using the roadways and/or increasing the number of persons per
33 vehicle. TDM attempts to reduce the number of persons who drive alone on the roadway during the
34 commute period and to increase the number in carpools, vanpools, buses and trains, walking, and
35 biking. TDM can be an element of TSM (see below).

36
37 **Transportation Systems Management (TSM).** A comprehensive strategy developed to address the
38 problems caused by additional development, increasing trips, and a shortfall in transportation
39 capacity. Transportation Systems Management focuses on more efficiently utilizing existing highway
40 and transit systems rather than expanding them. TSM measures are characterized by their low cost
41 and quick implementation time frame, such as computerized traffic signals, metered freeway ramps,
42 and one-way streets.

43
44 **Trees, Heritage.** Trees planted by a group of citizens or by the City or County in commemoration
45 of an event or in memory of a person figuring significantly in history.

1 **Trees, Landmark.** Trees whose size, visual impact, or association with a historically significant
2 structure or event have led the City or County to designate them as landmarks.

3
4 **Trees, Street.** Trees strategically planted--usually in parkway strips, medians, or along streets--to
5 enhance the visual quality of a street.

6
7 **Trip.** A one-way journey that proceeds from an origin to a destination via a single mode of
8 transportation; the smallest unit of movement considered in transportation studies. Each trip has one
9 "production end," (or origin--often from home, but not always), and one "attraction end,"
10 (destination). (See "Traffic Model.")

11
12 **Trip Generation.** The dynamics that account for people making trips in automobiles or by means of
13 public transportation. Trip generation is the basis for estimating the level of use for a transportation
14 system and the impact of additional development or transportation facilities on an existing, local
15 transportation system. Trip generations of households are correlated with destinations that attract
16 household members for specific purposes.

17
18 **Truck Route.** A path of circulation required for all vehicles exceeding set weight or axle limits, a
19 truck route follows major arterials through commercial or industrial areas and avoids sensitive areas.

20
21 **Truck or Freight Terminal.** A transportation facility furnishing services incidental to air, motor freight,
22 and rail transportation. Examples of these facilities include: freight forwarding services; freight terminal
23 facilities; joint terminal and service facilities; overnight mail processing facilities; packing, crating,
24 inspection and weighing services; postal service bulk mailing distribution centers; transportation
25 arrangement services; and trucking facilities, including transfer and storage.

26
27 **Undevelopable.** Specific areas where topographic, geologic, and/or surficial soil conditions indicate
28 a significant danger to future occupants and a liability to the City or County are designated as
29 "undevelopable" by the City or County.

30
31 **Undue.** Improper, or more than necessary.

32
33 **Uniform Building Code (UBC).** A national, standard building code that sets forth minimum
34 standards for construction

35
36 **Uniform Housing Code (UHC).** State housing regulations governing the condition of habitable
37 structures with regard to health and safety standards, and which provide for the conservation and
38 rehabilitation of housing in accordance with the Uniform Building Code (UBC).

39
40 **United States Department of Agriculture Rural Development Administration.** A division within
41 the United States Department of Agriculture that runs programs to improve the economy and quality
42 of life in rural America through loans, loan guarantees, and grants, technical assistance and
43 information to help agricultural producers and cooperatives, and through programs that help rural
44 residents buy or rent safe, affordable housing or make health and safety repairs to existing homes.
45 Formerly the Farmers Home Administration. <http://www.rd.usda.gov/>.

1 **Urban Design.** The attempt to give form, in terms of both beauty and function, to selected urban
2 areas or to whole cities. Urban design is concerned with the location, mass, and design of various
3 urban components and combines elements of urban planning, architecture, and landscape architecture
4

5 **Urban Services.** Utilities (such as water, gas, electricity, and sewer) and public services (such as
6 police, fire, schools, parks, and recreation) provided to an urbanized or urbanizing area.
7

8 **Urban Sprawl.** Haphazard growth or outward extension of a city resulting from uncontrolled or
9 poorly managed development.
10

11 **Use.** The purpose for which a lot or structure is or may be leased, occupied, maintained, arranged,
12 designed, intended, constructed, erected, moved, altered, and/or enlarged in accordance with the City
13 or County zoning ordinance and General Plan land use designations. See also **Land Use** and **Primary**
14 **Use**.
15

16 **Use, Non-conforming.** (See "Non-conforming Use.")
17

18 **Use Permit.** The discretionary and conditional review of an activity or function or operation on a site
19 or in a building or facility.
20

21 **Utility Corridors.** Rights-of-way or easements for utility lines on either publicly or privately owned
22 property. (See "Right-of-way" or "Easement.")
23

24 **Utility Facility.** A fixed-base structure or facility serving as a junction point for transferring electric utility
25 services from one transmission voltage to another or to local distribution and service voltages, and similar
26 facilities for water supply and natural gas distribution. These uses include any of the following facilities
27 that are not exempted from land use permit requirements by Government Code Section 53091: corporation
28 and maintenance yards; electrical substations and switching stations; natural gas regulating and
29 distribution facilities; public water system wells, treatment plants and storage; telephone switching
30 facilities; and wastewater treatment plants, settling ponds and disposal fields. These uses do not include
31 office or customer service centers (classified in **offices**).
32

33 **Utility Infrastructure.** Pipelines for water, natural gas, and sewage collection and disposal; and facilities
34 for the transmission of electrical energy for sale, including transmission lines for a public utility company.
35 Also includes telephone, telegraph, cable television and other communications transmission facilities
36 utilizing direct physical conduits. Does not include offices or service centers (see **offices—business and**
37 **service**), or distribution substations (see **utility facility**).
38

39 **Vacant.** Lands or buildings that are not actively used for any purpose.
40

41 **Variance.** A departure from any provision of the zoning requirements for a specific parcel, except
42 use, without changing the zoning ordinance or the underlying zoning of the parcel. A variance usually
43 is granted only upon demonstration of hardship based on the peculiarity of the property in relation to
44 other properties in the same zone district.
45

1 **Vegetated Swale.** A long and narrow, trapezoidal or semicircular channel, planted with a variety of
2 trees, shrubs, and grasses or with a dense mix of grasses. Storm water runoff from impervious surfaces is
3 directed through the swale, where it is slowed and infiltrated, allowing pollutants to settle out. Check
4 dams are often used to create small, ponded areas to facilitate infiltration.

5
6 **Vehicle Miles Traveled (VMT).** A key measure of overall street and highway use. Reducing VMT
7 is often a major objective in efforts to reduce vehicular congestion and achieve regional air quality
8 goals.

9
10 **Vehicle Services.** The repair, servicing, alteration, restoration, towing, painting, cleaning, or finishing of
11 automobiles, trucks, recreational vehicles, boats and other vehicles as a primary use, including the
12 incidental wholesale and retail sale of vehicle parts as an accessory use. Does not include automobile
13 parking (see **parking facilities**), repair shops that are part of a vehicle dealership on the same site (see
14 **auto and vehicle sales and rental**, and **mobile home, RV, and boat sales and rental**); **gas stations**,
15 which are separately defined; or **dismantling yards**, which are included under **recycling scrap and**
16 **dismantling yards**. This use includes the following categories:

- 17 1. **Major repair/body work.** These establishments include towing, collision repair, other body
18 work, and painting services; tire recapping.
- 19 2. **Minor maintenance/repair.** Minor facilities providing limited repair and maintenance
20 services. Examples include: attended and self-service car washes; detailing services; muffler
21 and radiator shops; quick-lube services; tire and battery sales and installation (not including
22 recapping).

23
24 **Vehicle Storage.** A service facility for the long-term storage of operative cars, trucks, buses, recreational
25 vehicles, and other motor vehicles, for clients. Does not include dismantling yards (classified in
26 **recycling—scrap and dismantling yards**).

27
28 **Very Low-income Household.** A household with an annual income usually no greater than 50
29 percent of the area median family income adjusted by household size, as determined by a survey of
30 incomes conducted by a city or a county, or in the absence of such a survey, based on the latest
31 available eligibility limits established by the U.S. Department of Housing and Urban Development
32 (HUD) for the Section 8 housing program. (See "Area.")

33
34 **Veterinary Clinics, Animal Hospitals, Kennels.** Office and indoor medical treatment facilities used by
35 veterinarians, including large and small animal veterinary clinics, and animal hospitals. Kennels and
36 boarding operations are commercial facilities for the keeping, boarding or maintaining of four or more
37 dogs four months of age or older, or four or more cats, except for dogs or cats in pet shops.

38
39 **View Corridor.** The line of sight-identified as to height, width, and distance-of an observer looking
40 toward an object of significance to the community (e.g., ridgeline, river, historic building, etc.); the
41 route that directs the viewer's attention.

42
43 **Viewshed.** The area within view from a defined observation point.

44
45 **Volume-to-Capacity Ratio.** A measure of the operating capacity of a roadway or intersection, in terms
46 of the number of vehicles passing through, divided by the number of vehicles that theoretically could

1 pass through when the roadway or intersection is operating at its designed capacity. Abbreviated as
2 "v/c." At a v/c ratio of 1.0, the roadway or intersection is operating at capacity. If the ratio is less than
3 1.0, the traffic facility has additional capacity. Although ratios slightly greater than 1.0 are possible,
4 it is more likely that the peak hour will elongate into a "peak period." (See "Peak Hour" and "Level
5 of Service.")
6

7 **Warehouse.** See **storage—warehouse, indoor storage.**
8

9 **Warehouse Retail.** A retail store that emphasizes the packaging and sale of products in large
10 quantities or volumes, some at discounted prices, where products are typically displayed in their
11 original shipping containers. Warehouse retail includes associated sales of motor vehicle fuels at
12 onsite Fueling Stations operated by the warehouse retail use. Sites and buildings are usually large and
13 industrial in character. Patrons may be required to pay membership fees.
14

15 **Watercourse.** Natural or once natural flowing (perennially or intermittently) water including rivers,
16 streams, and creeks. Includes natural waterways that have been channelized, but does not include
17 manmade channels, ditches, and underground drainage and sewage systems.
18

19 **Watershed.** The total area above a given point on a watercourse that contributes water to its flow;
20 the entire region drained by a waterway or watercourse that drains into a lake, or reservoir.
21

22 **Waterway.** (See "Watercourse.")
23

24 **Wetlands.** Transitional areas between terrestrial and aquatic systems where the water table is usually
25 at or near the surface, or the land is covered by shallow water. Under a "unified" methodology now
26 used by all federal agencies, wetlands are defined as "those areas meeting certain criteria for
27 hydrology, vegetation, and soils."
28

29 **Wholesaling and Distribution.** Establishments engaged in selling merchandise to retailers; to
30 contractors, industrial, commercial, institutional, farm, or professional business users; to other
31 wholesalers; or acting as agents or brokers in buying merchandise for or selling merchandise to such
32 persons or companies. Examples of these establishments include: agents, merchandise or commodity
33 brokers, and commission merchants; assemblers, buyers and associations engaged in the cooperative
34 marketing of farm products; merchant wholesalers; and stores primarily selling electrical, plumbing,
35 heating and air conditioning supplies and equipment. Also includes storage, processing, packaging, and
36 shipping facilities for mail order and e-commerce retail establishments.
37

38 **Wildlife Refuge.** An area maintained in a natural state for the preservation of both animal and plant
39 life.
40

41 **Williamson Act.** ~~California Government Code Section 51200 et seq., as they may be amended from time~~
42 ~~to time.~~ Known formally as the California Land Conservation Act of 1965, it was designed as an
43 incentive to retain prime agricultural land and open space in agricultural use, thereby slowing its
44 conversion to urban and suburban development. The program entails a 10-year contract between the
45 Town or County and an owner of land whereby the land is taxed on the basis of its agricultural use

1 rather than the market value. The land becomes subject to certain enforceable restrictions, and certain
2 conditions need to be met prior to approval of an agreement.

3
4 **Wine Tasting.** A facility, or area within a winery where wine and related products are offered for
5 retail sale, where wine may be tasted for a fee, or without charge.

6
7 **Winery.** A manufacturing facility where wine grapes are crushed, fermented, aged, bottled, and sold at
8 wholesale as finished wine. May include tasting and accessory retail sales of wine produced on-site.

9
10 **Wired Communications.** Any communication system using wire, cable, fiber optics, or other like
11 connection between the point of origin and the point of reception.

12
13 **Yard.** An area between a lot line and a structure, unobstructed and unoccupied from the ground upward,
14 except for projections permitted by this title. See also **setback**.

- 15 1. **Front yard.** An area extending across the full width of the lot between the front lot line and
16 the primary structure.
- 17 2. **Rear yard.** An area extending the full width of the lot between a rear lot line and the primary
18 structure.
- 19 3. **Side yard.** An area between a side lot line and the primary structure extending between the
20 front and rear yards.

21
22 **Yard Area of Major Use.** That area to the rear or side of the main residence (usually not both) generally
23 containing a swimming pool, and/or patio area, and/or major landscaping, etc.

24
25 **Zero Lot Line.** The location of a building on a lot in such a manner that one or more building sides rests
26 directly on a lot line.

27
28 **Zone, Traffic.** In a mathematical traffic model, the area to be studied is divided into zones, with each
29 zone treated as producing and attracting trips. The production of trips by a zone is based on the
30 number of trips to or from work or shopping, or other trips produced per dwelling unit.

31
32 **Zoning.** The division of a city or county by legislative regulations into areas, or zones, which specify
33 allowable uses for real property and size restrictions for buildings within these areas; a program that
34 implements policies of the General Plan.

35
36 **Zoning District.** A designated section of a city or county for which prescribed land use requirements
37 and building and development standards are uniform. Any of the residential, commercial, public, or
38 overlay districts established by the Zoning Code, within which certain land uses are allowed or prohibited,
39 and certain site planning and development standards are established (e.g., setbacks, height limits, site
40 coverage requirements, etc.).

41
42 **Zoning Map.** Government Code Section 65851 permits a legislative body to divide a county, a city,
43 or portions thereof, into zones of the number, shape, and area it deems best suited to carry out the
44 purposes of the zoning ordinance. These zones are delineated on a map or maps, called the Zoning
45 Map.

1 **Zoning Ordinance.** The town of Loomis zoning ordinance, Title 13 of the Loomis Municipal Code.

2 3 **AGENCIES**

4
5 **Advisory Council on Historic Preservation (ACHP).** An independent federal agency that promotes the
6 preservation, enhancement, and productive use of our nation's historic resources, and advises the President
7 and Congress on national historic preservation policy. Established by the National Historic Preservation Act
8 (NHPA) in 1966, the ACHP is the only entity with the legal responsibility to encourage federal agencies to
9 factor historic preservation into federal project requirements. <https://www.achp.gov>

10
11 **Affordable Housing Development Corporation (AHDC).** AHDC has worked with numerous nonprofit
12 organizations, housing authorities, and cities in developing affordable housing throughout California. They
13 have developed 73 projects in 40 cities and 22 counties over 30 years. <https://ahdcinc.com>

14
15 **Alta California Regional Center (ACRC).** Alta California Regional Center is a private, non-profit
16 corporation working under contract with the State of California, Department of Developmental Services, to
17 provide services to persons, age three and above, with a developmental disability pursuant to the Lanterman
18 Act. ACRC also provides services to infants and toddlers, between birth and 36 months, who have a need for
19 early intervention services and who meet the eligibility criteria for the California Early Start program.
20 <https://www.altaregional.org>

21
22 **American National Standards Institute (ANSI).** The American National Standards Institute is a private non-
23 profit organization that oversees the development of voluntary consensus standards for products, services,
24 processes, systems, and personnel in the United States. <https://www.ansi.org>

25
26 **Brilliant Corners.** A Los Angeles-based organization that works to partner with government, health care,
27 service providers, landlords and developers to create supportive housing solutions that empower people to
28 achieve housing stability. <https://brilliantcorners.org>

29
30 **California Air Resources Board (CARB or ARB).** The state agency charged with protecting the public from
31 the harmful effects of air pollution and developing programs and actions to fight climate change. It promotes
32 and protects public health, welfare, and ecological resources through effective reduction of air pollutants while
33 recognizing and considering effects on the economy. CARB is the lead agency for climate change programs
34 and oversees all air pollution control efforts in California to attain and maintain health-based air quality
35 standards. <https://ww2.arb.ca.gov>

36
37 **California Building Standards Commission (BSC).** The California Building Standards Commission
38 (CBSC) is authorized by the state of California, through the California Building Standards Law, to manage
39 the many processes relating to development, adoption, approval, publication, and implementation of
40 California's building codes. <https://www.dgs.ca.gov/BSC>

41
42 **California Department of Developmental Services (DDS).** The California Department of Developmental
43 Services (DDS) ensures that Californians with developmental disabilities can lead independent, productive
44 lives in their community of choice. DDS oversees the coordination and delivery of services to over 350,000
45 individuals who have cerebral palsy, intellectual disabilities, autism, epilepsy, and related conditions through
46 a network of 21 regional centers and state-operated facilities. <https://www.dds.ca.gov>

47
48 **California Department of Education (CDE).** The California Department of Education is an agency within
49 the Government of California that oversees public education. The department oversees funding and testing
50 and holds local educational agencies accountable for student achievement. <https://www.cde.ca.gov>

1
2 **California Department of Fair Employment and Housing (DFEH).** The Department of Fair Employment
3 and Housing is the state agency charged with enforcing California’s civil rights laws. The mission of the
4 DFEH is to protect the people of California from unlawful discrimination in employment, housing, businesses,
5 and state-funded programs, and from bias-motivated violence and human trafficking. <https://www.dfeh.ca.gov>
6

7 **California Department of Finance (DoF).** The California Department of Finance is a state cabinet-level
8 agency within the government of California. The Department of Finance is responsible for preparing,
9 explaining, and administering the state’s annual financial plan. The Department of Finance’s other duties
10 include analyzing the budgets of proposed laws in the California State Legislature, creating and monitoring
11 current and future economic forecasts of the state, estimating population demographics and enrollment
12 projections, and maintaining the state’s accounting and financial reporting systems. <https://www.dof.ca.gov>
13

14 **California Department of Finance (DoF) Demographic Research Unit (DRU).** The Demographic
15 Research Unit (DRU) of the California Department of Finance is designated as the single official source of
16 demographic data for state planning and budgeting. <https://www.dof.ca.gov/forecasting/demographics/>
17

18 **California Department of Fish and Wildlife.** The California Department of Fish and Wildlife (CDFW),
19 formerly known as the California Department of Fish and Game (CDFG), is a state agency under the California
20 Natural Resources Agency. The Department of Fish and Wildlife manages and protects the state’s wildlife,
21 wildflowers, trees, mushrooms, algae (kelp) and native habitats (ecosystems). The department is responsible
22 for regulatory enforcement and management of related recreational, commercial, scientific, and educational
23 uses. <https://wildlife.ca.gov>
24

25 **California Department of Forestry and Fire Protection (CALFIRE).** The Department of Forestry and Fire
26 Protection serves and safeguards the people and protects the property and resources of California. Cal Fire’s
27 foremost operational role is to fight and prevent wildfire on 31 million acres of state forestland. The
28 organization works in both suppression and prevention capacities on state land and offers emergency services
29 of various kinds in 36 out of California’s 58 counties, through contracts with local governments. The
30 organization also assists in response to a wide range of disasters and incidents, including earthquakes, water
31 rescues, and hazardous material spills. <https://www.fire.ca.gov>
32

33 **California Department of Parks and Recreation (DPR; also known as California State Parks).** California
34 Department of Parks and Recreation manages more than 280 park units, which contain the finest and most
35 diverse collection of natural, cultural, and recreational resources to be found within California.
36 <https://www.parks.ca.gov>
37

38 **California Department of Resources Recycling and Recovery (also known as CalRecycle; formerly**
39 **California Integrated Waste Management Board (CIWMB)).** California’s Department of Resources
40 Recycling and Recovery (CalRecycle) brings together the state’s recycling and waste management programs
41 and continues a tradition of environmental stewardship. Through landmark initiatives like the Integrated Waste
42 Management Act and Beverage Container Recycling and Litter Reduction Act, California works toward a
43 society that uses less, recycles more, and takes resource conservation to higher and higher levels. Our state
44 leads the nation with an approximate 65 percent diversion rate for all materials, and today recycling supports
45 more than 140,000 green jobs in California. <https://www.calrecycle.ca.gov>
46

47 **California Department of Tax and Fee Administration (CDTFA).** The California Department of Tax and
48 Fee Administration (CDTFA) administers California’s sales and use, fuel, tobacco, alcohol, and cannabis
49 taxes, as well as a variety of other taxes and fees that fund specific state programs. CDTFA administered
50 programs collect over \$70 billion annually which in turn supports local essential services such as
51 transportation, public safety and health, libraries, schools, social services, and natural resource management

1 programs through the distribution of tax dollars going directly to local communities.
2 <https://www.cdtfa.ca.gov/about.htm>

3
4 **California Department of Toxic Substances Control (DTSC).** The California Department of Toxic
5 Substances Control is an agency of the government of the state of California. The mission of the DTSC is to
6 protect public health and the environment from toxic harm. <https://dtsc.ca.gov>

7
8 **California Department of Transportation (Caltrans).** The governmental agency that manages California's
9 highway and freeway lanes, provides inter-city rail services, and permits public-use airports and special-use
10 hospital heliports, working with local agencies. Caltrans has six primary programs: Aeronautics, Highway
11 Transportation, Mass Transportation, Transportation Planning, Administration and the Equipment Service
12 Center. <https://dot.ca.gov>.

13
14 **California Department of Water Resources (DWA).** The California Department of Water Resources
15 (DWR) is part of the California Natural Resources Agency and is responsible for the management and
16 regulation of the State of California's water usage. <https://water.ca.gov>

17
18 **California Energy Commission (CEC).** The state's primary energy policy and planning agency, the Energy
19 Commission is committed to reducing energy costs and environmental impacts of energy use while ensuring
20 a safe, resilient, and reliable supply of energy. <https://www.energy.ca.gov>

21
22 **California Employment Development Department (EDD).** In California, the Employment Development
23 Department (EDD) is a department of government that provides a variety of services to businesses, workers,
24 and job seekers. The EDD's largest task is the administration of the Unemployment Insurance (UI), Disability
25 Insurance (DI), and Paid Family Leave (PFL) programs, which provide benefits to workers who are willing to
26 work but are unemployed, disabled or must care for family members. The Department also provides
27 employment service programs and collects the state's labor market information and employment data.
28 <https://edd.ca.gov>

29
30 **California Environmental Protection Agency (CalEPA).** The governmental agency overseeing
31 environmental protections. CalEPA consists of the Air Resources Board, Department of Pesticide Regulation,
32 Department of Resources Recycling Recovery, the Department of Toxic Substances Control, the Office of
33 Environmental Health Hazard Assessment, and the State Water Resources Control Board.
34 <https://calepa.ca.gov>

35
36 **California Franchise Tax Board (FTB).** The California Franchise Tax Board (FTB) collects state personal
37 income tax and corporate income tax of California. It is part of the California Government Operations Agency.
38 The board is composed of the California State Controller, the director of the California Department of Finance,
39 and the chair of the California Board of Equalization. The chief administrative official is the executive officer
40 of the Franchise Tax Board. <https://www.ftb.ca.gov>

41
42 **California Geological Survey (CGS).** The California Geological Survey, previously known as the California
43 Division of Mines and Geology, is the California state geologic agency. It is a division of the Department of
44 Conservation. The mission of the California Geological Survey is to provide scientific products and services
45 about the state's geology, seismology, and mineral resources, including their related hazards, that affect the
46 health, safety, and business interests of the people of California. <https://www.conservation.ca.gov/egs>

47
48 **California Health and Human Services (CHHS).** The California Health and Human Services Agency
49 oversees departments and offices that provide a wide range of services in the areas of health care, mental
50 health, public health, alcohol and drug treatment, income assistance, social services and assistance to people
51 with disabilities. <https://www.chhs.ca.gov>

1
2 **California Housing Finance Agency (CHFA).** A State agency, established by the Housing and Home
3 Finance Act of 1975, which is authorized to sell revenue bonds and generate funds for the development,
4 rehabilitation, and conservation of low-and moderate-income housing. <https://www.calhfa.ca.gov>
5

6 **California Integrated Waste Management Board.** See California Department of Resources Recycling and
7 Recovery, also known as CalRecycle; formerly California Integrated Waste Management Board (CIWMB) above.
8

9 **California Native American Heritage Commission (NAHC or Commission).** The California Native American
10 Heritage Commission (NAHC or Commission), created in statute in 1976 (Chapter 1332, Statutes of 1976), is a
11 nine-member body whose members are appointed by the Governor. The NAHC identifies, catalogs, and protects
12 Native American cultural resources -- ancient places of special religious or social significance to Native Americans
13 and known ancient graves and cemeteries of Native Americans on private and public lands in California. The NAHC
14 is also charged with ensuring California Native American tribes' accessibility to ancient Native American cultural
15 resources on public lands, overseeing the treatment and disposition of inadvertently discovered Native American
16 human remains and burial items, and administering the California Native American Graves Protection and
17 Repatriation Act (CalNAGPRA). <http://nahc.ca.gov>
18

19 **California Native Plant Society (CNPS).** The California Native Plant Society (CNPS) is a California
20 environmental non-profit organization (501(c)3) that seeks to increase understanding of California's native flora
21 and to preserve it for future generations. The mission of CNPS is to conserve California native plants and their
22 natural habitats, and increase understanding, appreciation, and horticultural use of native plants throughout the
23 entire state and California Floristic Province. <https://www.cnps.org>
24

25 **California Occupational Safety and Health Administration (Cal/OSHA).** The Division of Occupational Safety
26 and Health of California is an agency of the Government of California established by the California Occupational
27 Safety & Health Act of 1973. Cal/OSHA provides free safety and health assistance to employers, with the goal of
28 preventing occupational injuries and illnesses. <https://www.dir.ca.gov/dosh/>
29

30 **California Office of Administrative Law (OAL).** The Office of Administrative Law (OAL) ensures that agency
31 regulations are clear, necessary, legally valid, and available to the public. OAL is responsible for reviewing
32 administrative regulations proposed by over 200 state agencies for compliance with the standards set forth in
33 California's Administrative Procedure Act (APA), for transmitting these regulations to the Secretary of State and
34 for publishing regulations in the California Code of Regulations. <https://oal.ca.gov>
35

36 **California Office of Emergency Services (CalOES).** The California Governor's Office of Emergency Services is
37 a California cabinet-level office responsible for overseeing and coordinating emergency preparedness, response,
38 recovery and homeland security activities within the state. <https://www.caloes.ca.gov>
39

40 **California Office for Environmental Health Hazard Assessment (OEHHA).** The Office of Environmental
41 Health Hazard Assessment (OEHHA) is the lead state agency for the assessment of health risks posed by
42 environmental contaminants. OEHHA's mission is to protect and enhance the health of Californians and our state's
43 environment through scientific evaluations that inform, support and guide regulatory and other
44 actions. <https://oehha.ca.gov>
45

46 **California Public Utilities Commission (CPUC).** The governmental agency which regulates the terms and
47 conditions of public utilities in the state. <https://www.cpuc.ca.gov>.
48

49 **California State Water Resources Control Board:** The State Regional Water Quality Control Board for the
50 State of California. There are nine regional water quality control boards statewide. Each Regional Board makes
51 critical water quality decisions for its region, including setting standards, issuing waste discharge

1 requirements, determining compliance with those requirements, and taking appropriate enforcement actions.
2 <https://www.waterboards.ca.gov>

3
4 **California Tax Credit Allocation Committee (CTCAC).** The California Tax Credit Allocation Committee
5 (CTCAC) administers the federal and state Low-Income Housing Tax Credit Programs. Both programs were
6 created to promote private investment in affordable rental housing for low-income Californians.
7 <https://www.treasurer.ca.gov/ctcac/>

8
9 **Capitol Corridor Joint Powers Authority (CCJPA).** The Capitol Corridor Joint Powers Authority (CCJPA)
10 is a partnership among the six local transit agencies in the eight-county service area which shares the
11 administration and management of the Capitol Corridor. The San Francisco Bay Area Rapid Transit District
12 (BART) provides day-to-day management support to the CCJPA. [https://www.capitolcorridor.org/ccjpa-](https://www.capitolcorridor.org/ccjpa-service/)
13 [service/](https://www.capitolcorridor.org/ccjpa-service/)

14
15 **Capital Region Small Business Development Center (Capital Region SBDC).** As part of the Northern
16 California Small Business Development Center (SBDC) program, Capital Region SBDC focuses on advising
17 small business clients located in the Capital Region SBDC network coverage area. Funded in part through a
18 grant with the Governor's Office of Business and Economic Development and a cooperative agreement with
19 the U.S. Small Business Administration. <https://www.capitalregionsbdc.com>

20
21 **Central Valley Regional Water Control Board.** The primary duty of the Regional Board is to protect the
22 quality of the waters within the Region for all beneficial uses. This duty is implemented by formulating and
23 adopting water quality plans for specific ground or surface water basins and by prescribing and enforcing
24 requirements on all agricultural, domestic and industrial waste discharges. Specific responsibilities and
25 procedures of the Regional Boards and the State Water Resources Control Board are contained in the Porter-
26 Cologne Water Quality Control Act. <https://www.waterboards.ca.gov/centralvalley/>

27
28 **Children's Receiving Home of Sacramento.** The Children's Receiving Home of Sacramento provides a
29 spectrum of services for youth in crisis across the Sacramento region. The continuum of care we offer includes
30 an on-site preschool for the youngest survivors of family trauma; outpatient mental health care for children
31 residing in the community dealing with anxiety and depression; and residential treatment for children who
32 have suffered abuse, neglect or other trauma. <https://www.crhkids.org>

33
34 **Dry Creek Conservancy (DCC).** DCC is a collaborative engine for healthy natural systems in our
35 communities with a focus on watersheds. We promote vibrant communities by expanding understanding of
36 our natural world, facilitating collaboration of government, non-government organizations, and citizens on
37 watershed projects. They organize projects and processes such as native plantings, salmon barrier removal,
38 and monthly collaborative meetings that provide the community with opportunities to come together as
39 partners. DCC is a first choice of local government when they need a nonprofit partner for resource projects
40 and resource outreach and is a valued partner in all stakeholder processes. <https://drycreekconservancy.org>

41
42 **Environmental Information Administration (EIR).** The U.S. Energy Information Administration (EIA) is
43 a principal agency of the U.S. Federal Statistical System responsible for collecting, analyzing, and
44 disseminating energy information to promote sound policymaking, efficient markets, and public
45 understanding of energy and its interaction with the economy and the environment. EIA programs cover data
46 on coal, petroleum, natural gas, electric, renewable and nuclear energy. EIA is part of the U.S. Department of
47 Energy. <https://www.eia.gov>

48
49 **Environmental Protection Agency (EPA).** The Environmental Protection Agency is an independent
50 executive agency of the United States federal government. It has the responsibility of maintaining and
51 enforcing national standards under a variety of environmental laws, in consultation with state, tribal, and local

1 governments. It delegates some permitting, monitoring, and enforcement responsibility to U.S. states and the
2 federally recognized tribes. www.epa.gov

3
4 **Federal Communications Commission (FCC).** The Federal Communications Commission is an independent
5 agency of the United States government that regulates communications by radio, television, wire, satellite,
6 and cable across the United States. www.fcc.gov

7
8 **Federal Highway Administration (FHWA).** A division of the Department of Transportation, the Federal
9 Highway Administration (FHWA) provides stewardship over the construction, maintenance and preservation
10 of the Nation's highways, bridges and tunnels. FHWA also conducts research and provides technical assistance
11 to state and local agencies to improve safety, mobility, and to encourage innovation. <https://highways.dot.gov>

12
13 **Federal Housing Administration (FHA).** The Federal Housing Administration (FHA) is part of the U.S.
14 Department of Housing and Urban Development. We provide mortgage insurance on loans made by FHA-
15 approved lenders. We insure mortgages on single family homes, multifamily properties, residential care
16 facilities, and hospitals throughout the United States and its territories.
17 https://www.hud.gov/program_offices/housing/fhahistory

18
19 **Federal Railroad Administration.** The Federal Railroad Administration is an agency in the United States
20 Department of Transportation. It is one of ten agencies within the U.S. Department of Transportation
21 concerned with intermodal transportation. The Federal Railroad Administration's mission is to enable the safe,
22 reliable, and efficient movement of people and goods. <https://railroads.dot.gov>

23
24 **Federal Transit Administration (FTA).** The Federal Transit Administration is an agency within the United
25 States Department of Transportation that provides financial and technical assistance to local public
26 transportation systems. The FTA is one of ten modal administrations within the Department of Transportation
27 (DOT). <https://www.transit.dot.gov>

28
29 **Foothill Airport Land Use Commission (FALUC).** Operated by the Sierra Planning Organization (SPO),
30 FALUC served as the Airport Land Use Commission (ALUC) for four counties: El Dorado, Nevada, Placer,
31 and Sierra. FALUC was dissolved in May 2010.

32
33 **The Gathering Inn (TGI).** TGI is a multifaceted, multi-location agency serving over 185 homeless men,
34 women, and children in Placer County through programs at four separate locations.
35 <https://www.thegatheringinn.com>

36
37 **Homeless Resource Council of the Sierras.** The Homeless Resource Council of the Sierras is a private,
38 nonprofit partnership that ensures comprehensive, regional coordination of efforts and resources to reduce the
39 number of homeless persons as well as the number at risk of homelessness. It is a coalition of shelter providers,
40 consumers, advocates, and government representatives that are working together to shape planning and
41 decision-making. <https://hrscoc.org>

42
43 **Housing and Community Development Department of the State of California (HCD).** The State agency
44 that has principal responsibility for assessing, planning for, and assisting communities to meet the needs of
45 low- and moderate-income households. <https://www.hcd.ca.gov>.

46
47 **Housing and Urban Development, U.S. Department of (HUD).** A cabinet-level department of the federal
48 government that administers housing and community development programs. <https://www.hud.gov>.

49
50 **Intergovernmental Panel on Climate Change (IPCC).** An intergovernmental body of the United Nations
51 responsible for advancing knowledge on human-induced climate change. The IPCC provides objective and

1 comprehensive scientific information on anthropogenic climate change, including the natural, political, and
2 economic impacts and risks, and possible response options. It does not conduct original research nor monitor climate
3 change, but rather undertakes a periodic, systematic review of all relevant published literature. <https://www.ipcc.ch>
4

5 **International Agency for Research on Cancer (IARC).** The International Agency for Research on Cancer is an
6 intergovernmental agency forming part of the World Health Organization of the United Nations. Its role is to
7 conduct and coordinate research into the causes of cancer. It also collects and publishes surveillance data regarding
8 the occurrence of cancer worldwide. <https://www.iarc.who.int>
9

10 **International Council of Shopping Centers (ICSC).** The member organization for industry advancement, ICSC
11 promotes and elevates the marketplaces and spaces where people shop, dine, work, play and gather as foundational
12 and vital ingredients of communities and economies. <https://www.icsc.com>
13

14 **Larson Davis Laboratories Larson Davis Laboratories (LDL).** Larson Davis instrumentation is used in
15 community and environmental noise monitoring, measurement of building acoustics, managing worker exposure to
16 noise and vibration, and various automotive, aerospace, and industrial applications. Larson Davis is a division of
17 PCB Piezotronics, Inc., a wholly owned subsidiary of Amphenol Corporation. <http://www.larsondavis.com>
18

19 **League of California Cities (Cal Cities).** Cal Cities expands and protects local control for cities through education
20 and advocacy to enhance the quality of life for all Californians. <https://www.calcities.org/home>
21

22 **Legal Services of Northern California (LSNC).** Since 1956 Legal Services of Northern California (LSNC) has
23 provided quality legal services that empower the poor to identify and defeat the causes and effects of poverty.
24 <https://lsnc.net>
25

26 **Local Governments Commission (LGC).** The Local Government Commission (LGC) is a non-profit organization
27 in Sacramento, California dedicated to local environmental sustainability, economic prosperity and social equity.
28 LGC has worked for over 35 years to support local policymakers on topics involving climate change, energy, water
29 and community design. The LGC approach includes connecting leaders, advancing policies and implementing
30 solutions. <https://www.lgc.org>
31

32 **Longitudinal Employer-Household Dynamics (LEHD).** The Longitudinal Employer-Household Dynamics
33 (LEHD) program is part of the Center for Economic Studies at the U.S. Census Bureau. The LEHD program
34 produces new, cost effective, public-use information combining federal, state and Census Bureau data on employers
35 and employees under the Local Employment Dynamics (LED) Partnership. State and local authorities increasingly
36 need detailed local information about their economies to make informed decisions. The LED Partnership works to
37 fill critical data gaps and provide indicators needed by state and local authorities. <https://lehd.ces.census.gov>
38

39 **Loomis Basin Chamber of Commerce.** www.loomischamber.com
40

41 **Loomis Basin Historical Society.** The Loomis Basin Historical Society was founded in 1993 for the purpose of
42 discovering, collecting, preserving, and making accessible the history and heritage of the Loomis Basin Area. The
43 Historical Society works to identify and preserve places of historical interest and promote public awareness of the
44 history of the Loomis Basin; to educate the public on the importance of the Loomis Basin's role in the history of
45 California and the United States; and to encourage the development of a Loomis Basin history museum. The
46 Historical Society maintains the local history collection and curates special museum shows.
47 <https://loomislibrary.org/loomis-historical-society/>
48

49 **Loomis Basin Horseman's Association (LBHA).** A non-profit 501(C)3 information and awareness group
50 dedicated to local trails, Traylor Ranch Nature Reserve, Loomis Basin Arena, and preservation of the rural lifestyle.
51 <https://www.lbha.us>

1
2 **Loomis Library and Community Learning Center (CLC).** The Loomis Library and Community Learning Center
3 is a free, municipal library located within walking distance of historic downtown Loomis. We welcome all people
4 and strive to be the learning center of our community; the place where people turn to discover ideas, engage in the
5 joy of reading, and the power of information. The library hosts a growing number of community enrichment
6 programs. <https://loomislibrary.org>
7

8 **Loomis Planning Commission.** The Planning Commission is entrusted to help set land-use goals and evaluate
9 individual project proposals to ensure that they are consistent with the Town's adopted plans.
10 <https://loomis.ca.gov/departments/planning-commission/>
11

12 **Loomis Union School District (LUSD).** Serves K-12th grade students in Loomis, California. [https://www.loomis-](https://www.loomis-usd.k12.ca.us)
13 [usd.k12.ca.us](https://www.loomis-usd.k12.ca.us)
14

15 **Mayor's Library Board (Loomis).** <https://loomis.ca.gov/departments/library-board/>
16

17 **Mercy Housing California (MHC).** Mercy Housing California (MHC) is the largest regional division of Mercy
18 Housing, Inc., with offices in Los Angeles, San Francisco, and Sacramento. MHC has developed and operates 134
19 affordable communities with more than 9,190 homes serving lower-income seniors, families, and people who have
20 experienced homelessness. <https://www.mercyhousing.org/california/>
21

22 **National Center for Digital Government (CDG).** The National Center for Digital Government (NCDG) was
23 established in 2002 with generous support from the National Science Foundation. NCDG is based at the
24 University of Massachusetts Amherst in the School of Public Policy and the College of Social and Behavioral
25 Sciences. NCDG's mission is to build global research capacity, to advance practice, and to strengthen the
26 network of researchers and practitioners engaged in building and using technology to improve governance and
27 civil society. The goal of NCDG is to apply and extend the social and policy sciences to advance research and
28 practice at the intersection of governance, institutions and information technologies.
29 <https://www.umass.edu/digitalcenter/home>
30

31 **National Flood Insurance Program (NFIP).** The NFIP provides flood insurance to property owners, renters and
32 businesses, and having this coverage helps them recover faster when floodwaters recede. The NFIP works with
33 communities required to adopt and enforce floodplain management regulations that help mitigate flooding effects.
34 <https://www.fema.gov/flood-insurance>
35

36 **National Highway Traffic Safety Administration (NHTSA).** The National Highway Traffic Safety
37 Administration is an agency of the U.S. federal government, part of the Department of Transportation. Their mission
38 is to save lives, prevent injuries, and reduce economic costs due to road traffic crashes, through education, research,
39 safety standards, and enforcement. <https://www.nhtsa.gov>
40

41 **National Institute of Standards and Technology (NIST).** The National Institute of Standards and Technology is
42 a physical sciences laboratory and non-regulatory agency of the United States Department of Commerce. Its mission
43 is to promote American innovation and industrial competitiveness. <https://www.nist.gov>
44

45 **National Marine Fisheries Service (informally NOAA Fisheries).** The United States federal agency responsible
46 for the stewardship of national marine resources. The agency conserves and manages fisheries to promote
47 sustainability and prevent lost economic potential associated with overfishing, declining species, and degraded
48 habitats. <https://www.fisheries.noaa.gov>
49

1 **National Neighborhood Watch (NNW).** Since 1972, the National Neighborhood Watch Program (housed within
2 the National Sheriffs' Association) has worked to unite law enforcement agencies, private organizations, and
3 individual citizens in a nation-wide effort to reduce crime and improve local communities. <https://www.nnw.org>
4

5 **National Parks Service (NPS).** The National Park Service is an agency of the federal government of the United
6 States that manages all national parks, many national monuments, and other conservation and historical properties
7 with various title designations. <https://www.nps.gov/index.htm>
8

9 **Natural Resources Conservation Service (NRCS).** Part of the United States Department of Agriculture (USDA),
10 NRCS helps America's farmers, ranchers and forest landowners conserve the nation's soil, water, air and other
11 natural resources. All programs are voluntary and offer science-based solutions that benefit both the landowner and
12 the environment. <https://www.nrcs.usda.gov/wps/portal/nrcs/site/national/home/>
13

14 **National Science Foundation (NSF).** The National Science Foundation is an independent agency of the United
15 States government that supports fundamental research and education in all the non-medical fields of science and
16 engineering. Its medical counterpart is the National Institutes of Health. <https://www.nsf.gov>
17

18 **Office of Planning and Research (OPR).** A governmental division of the State of California that has among
19 its responsibilities the preparation of a set of guidelines for use by local jurisdictions in drafting General Plans.
20 <https://opr.ca.gov>
21

22 **Pacific States Marine Fisheries Council (PSMFC).** Established in 1947 by consent of Congress, the Pacific States
23 Marine Fisheries Commission (PSMFC) is an interstate compact agency that helps resource agencies and the fishing
24 industry sustainably manage our valuable Pacific Ocean resources in a five-state region. Member states include
25 California, Oregon, Washington, Idaho, and Alaska, each represented by three Commissioners.
26 <https://www.psmfc.org/psmf-info/overview>
27

28 **Peace for Families.** PEACE for Families is a private, non-profit, community-based organization providing
29 comprehensive services to victims of domestic violence and sexual assault in Placer County. Services include: 24-
30 hour crisis line (1-800-575-5352), 24-hour emergency shelter for battered women and their children, in-person crisis
31 intervention, hospital accompaniment, individual and group peer counseling, therapeutic counseling, and assistance
32 in obtaining emergency food, clothing and transportation. [https://changingthepresent.org/collections/peace-for-
33 families](https://changingthepresent.org/collections/peace-for-families)
34

35 **Penryn Fire Protection District (PFPD).** Located 30 miles east of Sacramento on Interstate 80 at the base of the
36 Sierra foothills, at approximately 1000 feet above sea level, the Penryn Fire Protection District covers an area of
37 10.5 square miles, serving 1410 homes, 118 businesses and a permanent population of nearly 6,000 people. The
38 district also serves a large area of Interstate 80, the east & west bound Union Pacific rail lines, and underground
39 petroleum pipeline. The district responds to more than 650 calls each year; 70% of these calls are medical in nature
40 with the remaining 30% being primarily fire type calls. Automatic and mutual aid agreements with neighboring
41 jurisdictions are in place to provide an increased level of protection and to ensure the most efficient service to the
42 community. <https://penrynfir.ca.gov>
43

44 **Pioneer Community Energy (Pioneer).** Pioneer Community Energy is a community-owned provider of electricity
45 – powering the communities we serve with competitive rates, reliable service and a choice in energy options. We
46 have taken a conservative approach to ensure that Pioneer Community Energy has a solid financial foundation to
47 ensure our success in serving residents and businesses in the future. Pioneer provides a Community Choice
48 Aggregation program, which acts as an alternative electricity supplier to PG&E. The electric power is transmitted
49 over PG&E transmission and delivery infrastructure. <http://pioneercommunityenergy.ca.gov>
50

1 **Placer Business Resource Center.** A Placer County agency that helps plan, launch, manage and grow businesses
2 in the county. In collaboration with the Small Business Administration (SBA), Small Business Development
3 Centers (SBDC), Placer School for Adults (PSA) and others, we serve businesses of all sizes at every stage of the
4 business life cycle. <https://www.placer.ca.gov/brc>

5
6 **Placer Collaborative Network.** A project of the Placer Community Foundation. The Placer Collaborative Network
7 (PCN) brings community leaders together to develop creative solutions for change. Change that brings about a
8 better quality of life for those living in Placer County. Over 40 members comprise the army of service providers at
9 Placer Collaborative Network. Through on the ground projects, leadership development and linking, solutions are
10 forged for our most pressing community issues. <https://placercollaborativenetwork.org/index.html>

11
12 **Placer Community Foundation.** Placer Community Foundation helps identify and meet emerging needs within
13 our community by encouraging and increasing responsible and effective philanthropy by and for the benefit of all
14 who live, learn, work and play in Placer County. We track the impact of organizations and programs working to
15 make a difference in our community and through the generosity and vision of our donors we grant hundreds of
16 thousands of dollars annually. <https://placercf.org>

17
18 **Placer Consortium on Homelessness and Affordable Housing (PCOH).** The Placer Consortium on
19 Homelessness and Affordable Housing (PCOH) created through the Placer Collaborative Network (PCN), began
20 meeting in March 2001. PCOH is a collaborative of skilled people who are interested and experienced in solutions
21 to homelessness. Representatives from nonprofit and faith-based organizations, governmental agencies, business,
22 education, health care, advocacy, as well as homeless persons, constitute the membership. The PCN is a wider
23 collaborative of governmental, profit and non-profit agencies and companies that provide social services to people
24 in Placer County.

25
26 **Placer County Air Pollution Control District (PCAPCD):** A Placer County agency managing the County's air
27 quality to protect and promote public health through reduction and control of air pollutants with consideration to
28 economic and environmental impacts. The PCAPCD is charged with enforcement of local air pollution control rules
29 and state and federal air quality requirements, monitoring air quality, preparing, adopting, and implementing air
30 quality plans, providing incentives to local businesses and agencies to reduce pollutants, develops an annual
31 emission inventory of all sources within Placer County for the California Air Resources Board, and serves as a
32 commenting agency under CEQA. <https://www.placer.ca.gov/1569/Air-Pollution-Control>

33
34 **Placer County Adult System of Care (ASOC).** The Adult System of Care assists adults and older adults achieve
35 their optimal level of self-sufficiency and independence by providing mental health services, substance abuse
36 treatment, and in-home supportive services. Older and dependent adults are protected through investigations, case
37 management, and the conservatorship process as necessary. <https://www.placer.ca.gov/2158/Adult-System-of-Care>

38
39 **Placer County Agricultural Commission.** The Agricultural Commission is multipurpose: To promote and protect
40 agricultural interests in Placer County for present and future generations; Make recommendations to the Board of
41 Supervisors regarding land conservation act properties; Make recommendations on other issues affecting agriculture
42 and timber in the County. <https://www.placer.ca.gov/2304/Agricultural-Commission>

43
44 **Placer County Board of Supervisors.** The Board of Supervisors is the governing body of the County and certain
45 special districts. The Board enacts ordinances and resolutions, adopts the annual budget, approves contracts,
46 appropriates funds, determines land use zoning for the unincorporated area, and appoints certain County officers,
47 including the CEO and members of various boards and commissions. <https://www.placer.ca.gov/2231/Board-of-Supervisors>

48
49
50 **Placer County Economic Development Board.** The Placer County Economic Development Board, established by
51 the Board of Supervisors in 1991 serves as an advisory body for the Economic Development division. Members of

1 the board are responsible for carrying economic development information back to the governments and
2 organizations they represent to ensure that there is a united effort to attract new jobs to the County.
3 <https://www.placer.ca.gov/1508/Placer-County-Economic-Development-Board>

4
5 **Placer County Environmental Health Division.** Monitor and inspect the below for health and safety standards:
6 Restaurants, food trucks, grocery stores, convenience stores, caterers and food vendors at community events; Public
7 swimming pools, spas and body art facilities; Landfills, transfer stations, and facilities storing waste tires; Gas
8 stations, vehicle repair shops and other commercial facilities that store and dispose of hazardous materials like oil,
9 gasoline and diesel; Water well installations; Septic system installations; Contaminated site clean ups; Small public
10 water suppliers. Respond to and investigate incidents and complaints regarding: Chemical spills; Food poisoning;
11 Illegal dumping; Sewage spills; Substandard housing. <https://www.placer.ca.gov/3105/Environmental-Health>

12
13 **Placer County Flood Control and Water Conservation District (PCFCWCD).** Responsible for the conservation
14 and development of water resources, and control and management of drainage, storm, flood, and other waters;
15 prepares the Dry Creek Watershed Flood Control Plan, Stormwater Management Plan, and Placer County Flood
16 Hazard Mitigation Plan. <https://www.placer.ca.gov/2349/Flood-Control-Water-Conservation-District>

17
18 **Placer County Division of Public Health.** Public Health aims to protect and improve the health of the community
19 through health education, promotion of healthy lifestyles, disease and injury prevention, and eliminating health
20 disparities. By promoting public health programs, we are able to develop and provide resources that protect the
21 health of your family and community. <https://www.placer.ca.gov/2863/Public-Health>

22
23 **Placer County Health and Human Services (HSS).** Placer County Health and Human Services (HHS) is a
24 nationally recognized, award-winning organization committed to building a healthier community. More than 750
25 employees work across HHS in six divisions: the Adult System of Care; Children's System of Care; Human
26 Services; Public Health; Environmental Health and Animal Services; and Administrative Services.
27 <https://www.placer.ca.gov/1679/Health-Human-Services>

28
29 **Placer County Health and Human Services, Division of Environmental Health.** Health specialists regularly
30 monitor and inspect for health and safety standards as well as respond to spills, dumping, and substandard housing.
31 <https://www.placer.ca.gov/3105/Environmental-Health>

32
33 **Placer County Housing Authority.** To serve the diverse needs of our residents, Placer County prioritizes the
34 development of an inclusive and multi-faceted approach to addressing the accessibility of housing. Placer County's
35 housing goals include: Increase the availability of a mix of housing types in the county; Support infill development
36 to create sustainable communities; Encourage the preservation and development of affordable housing; Promote
37 development and availability of housing for the county's workforce. <https://www.placer.ca.gov/6947/Housing>

38
39 **Placer County Housing Trust (HTF).** The Placer County Housing Trust Fund (HTF) was established in 1992,
40 funded by projects eligible to pay a fee instead of providing ten percent (10%) of a residential subdivision as
41 affordable units. In 2002, the Board of Supervisors adopted the Housing Trust Fund – Housing Program Guidelines
42 (Housing Program Guidelines). The purpose of the Housing Program Guidelines is to provide direction on the
43 allocations and expenditures of the HTF. HTF supports achievement of the County's General Plan (including
44 Housing Element) goals of developing and preserving long-term below market rate housing for moderate, low-,
45 very low-, and extremely low-income households, support employee accommodations, and to maintain and enhance
46 the economic diversity of the County. To achieve this purpose, HTF resources shall be used to provide loans and
47 grants to qualified developers, public entities, groups, and individuals to undertake activities which create, maintain,
48 or expand the County's affordable and employee housing stock. [https://www.placer.ca.gov/DocumentCenter/
49 View/53430/Placer-County-Housing-Trust-Fund-Guidelines-Adopted-06-22-2021?bidId=](https://www.placer.ca.gov/DocumentCenter/View/53430/Placer-County-Housing-Trust-Fund-Guidelines-Adopted-06-22-2021?bidId=)
50

1 **Placer County Local Agency Formation Commission (LAFCO).** Each county in the state is required to have
2 a LAFCO. These LAFCOs fulfill their legislative mandate through the consideration and approval or denial of
3 boundary changes proposed by individuals or the local agencies themselves. [https://www.placer.ca.gov/2704/Local-](https://www.placer.ca.gov/2704/Local-Agency-Formation-Commission-LAFCO)
4 [Agency-Formation-Commission-LAFCO](https://www.placer.ca.gov/2704/Local-Agency-Formation-Commission-LAFCO)

5
6 **Placer County Office of Emergency Services (OES).** The Office of Emergency Services (OES), in cooperation
7 with local cities, special districts, and fire and law enforcement agencies, provides emergency management services.
8 During an active incident that requires emergency sheltering, such as a fire or a flood, OES secures resources
9 necessary for first responders to protect the community. It acts as the County Emergency Operations Division.
10 <https://www.placer.ca.gov/1371/About-OES>

11
12 **Placer County Open Space Implementation Project.** A county project responsible for developing economically
13 viable implementation programs to enable Placer County to preserve natural resources and habitats. The project is
14 part of Placer Legacy. Placer Legacy is a countywide, open space and habitat protection program. Placer Legacy
15 will result in a comprehensive open space plan for Placer County that preserves the diversity of plant and animal
16 communities in the county and addresses a variety of other open space needs, from agriculture and recreation to
17 urban edges and public safety. Placer Legacy will help maintain the County's high quality of life and promote
18 economic vitality. <https://www.placer.ca.gov/3420/Placer-Legacy>

19
20 **Placer County Sheriff's Office.** The Placer County Sheriff's Office serves the people of Placer County by
21 providing law enforcement to the unincorporated areas, from the Sacramento County line to the Nevada state line
22 at Lake Tahoe, plus providing contract law enforcement services to the city of Colfax and the township of Loomis.
23 The Sheriff's Office also provides jail services, coroner's services, court security, and marshal duties to the entire
24 county. <https://www.placer.ca.gov/1680/Sheriffs-Office>

25
26 **Placer County Solid Waste Division.** A county agency responsible for solid waste reduction and collection, as
27 well as the siting and management of solid waste facilities in Placer County; prepares the Placer County Integrated

25
26 **South Placer Wastewater Authority (SPWA).** Roseville, CA. [https://www.roseville.ca.us/government/
27 departments/environmental_utilities/at_your_service/sewer/south_placer_wastewater_authority](https://www.roseville.ca.us/government/departments/environmental_utilities/at_your_service/sewer/south_placer_wastewater_authority)

28
29 **St. Vincent de Paul.** Founded in 1833, the Society of St. Vincent de Paul is a worldwide organization of lay
30 Catholics, following Christ's call to serve the poor, the suffering, and the deprived. Our founding activity, still
31 practiced today, is the Home Visit. Through these visits, Vincentian members establish personal relationships
32 with our neighbors in need, not only providing material assistance such as rent, utilities, food, or clothing, but
33 also offering friendship, understanding, and prayer. <https://ssvpusa.org>

34
35 **Town of Loomis Department of Public Works.** The Public Works Department plays a vital role in providing
36 a myriad of Town services to promote quality of life for the Town of Loomis. Our goal is to implement
37 efficient and cost-effective services to preserve and enhance our Town streets and bike paths, as well as
38 promote sustainable programs to preserve our environment. <https://loomis.ca.gov/departments/public-works/>

39
40 **Unified Program Administration and Advisory Group (UPAAG).** Certified Unified Program Agencies
41 (CUPAs) and Program Agencies (PAs) throughout the state created a partnership and formed the California
42 CUPA Forum. Together, members of the California CUPA Forum and representatives of local, state and
43 federal agencies established the Unified Program Administration and Advisory Group (UPAAG) to effectively
44 address policy decisions, training and problem solving. <https://calepa.ca.gov/cupa/about/>

45
46 **Union Pacific Railroad.** The Union Pacific Railroad, legally Union Pacific Railroad Company and simply
47 Union Pacific, is a freight-hauling railroad that operates 8,300 locomotives over 32,200 miles routes in 23
48 U.S. states west of Chicago and New Orleans. <https://www.up.com/index.htm>

49
50 **United States Bureau of Labor Statistics (BLS).** The Bureau of Labor Statistics is a unit of the United States
51 Department of Labor. It is the principal fact-finding agency for the U.S. government in the broad field of labor

1 economics and statistics and serves as a principal agency of the U.S. Federal Statistical System.
2 <https://www.bls.gov>

3
4 **United States Census Bureau.** The Census Bureau's mission is to serve as the nation's leading provider of
5 quality data about its people and economy. Our goal is to provide the best mix of timeliness, relevancy, quality
6 and cost for the data we collect and services we provide. <https://www.census.gov>

7
8 **United States Department of Agriculture Rural Development Administration.** A division within the
9 United States Department of Agriculture that runs programs to improve the economy and quality of life in
10 rural America through loans, loan guarantees, and grants, technical assistance and information to help
11 agricultural producers and cooperatives, and through programs that help rural residents buy or rent safe,
12 affordable housing or make health and safety repairs to existing homes. Formerly the Farmers Home
13 Administration. <http://www.rd.usda.gov/>.

14
15 **United States Department of Energy (DOE).** The United States Department of Energy is a cabinet-level
16 department of the United States Government concerned with the United States' policies regarding energy and
17 safety in handling nuclear material. <https://www.energy.gov>

18
19 **United States Department of Transportation (DOT).** The United States Department of Transportation is a
20 federal Cabinet department of the U.S. government concerned with transportation. The Department of
21 Transportation is responsible for planning and coordinating federal transportation projects. It also sets safety
22 regulations for all major modes of transportation. <https://www.transportation.gov>

23
24 **United States Energy Information Administration (EIA).** The U.S. Energy Information Administration
25 (EIA) is a principal agency of the U.S. Federal Statistical System responsible for collecting, analyzing, and
26 disseminating energy information to promote sound policymaking, efficient markets, and public
27 understanding of energy and its interaction with the economy and the environment. EIA programs cover data
28 on coal, petroleum, natural gas, electric, renewable and nuclear energy. EIA is part of the U.S. Department of
29 Energy. <https://www.eia.gov>

30
31 **United States Fish and Wildlife Service (USFWS).** A bureau within the Department of the Interior. The
32 U.S. Fish and Wildlife Service is the premier government agency dedicated to the conservation, protection,
33 and enhancement of fish, wildlife and plants, and their habitats. They are the only agency in the federal
34 government whose primary responsibility is the conservation and management of these important natural
35 resources for the American public. <https://www.fws.gov>

36
37 **United States Geological Survey (USGS).** The United States Geological Survey, abbreviated USGS and
38 formerly simply known as the Geological Survey, is a scientific agency of the United States government. The
39 scientists of the USGS study the landscape of the United States, its natural resources, and the natural hazards
40 that threaten it. <https://www.usgs.gov>

41
42 **United States Green Building Council (USGBC).** A private 501(c)3, membership-based non-profit organization
43 that promotes sustainability in building design, construction, and operation. USGBC is best known for its
44 development of the Leadership in Energy and Environmental Design (LEED) green building rating systems and its
45 annual Greenbuild International Conference and Expo, the world's largest conference and expo dedicated to green
46 building. <https://www.usgbc.org>

47
48 **Urban Land Institute (ULI).** The Urban Land Institute, or ULI, is a nonprofit research and education organization
49 with regional offices in Washington, D.C., Hong Kong, and London. Its stated mission is to "shape the future of the
50 built environment for transformative impact in communities worldwide." <https://uli.org>

1 **Volunteers of America National Services (VOA).** Through our hundreds of human service programs, including
2 housing and healthcare, Volunteers of America touches the lives of 1.5 million people in over 400 communities in
3 46 states as well as the District of Columbia and Puerto Rico each year. Since 1896, we have supported and
4 empowered America's most vulnerable groups, including veterans, at-risk youth, the frail elderly, men and women
5 returning from prison, homeless individuals and families, people with disabilities, and those recovering from
6 addictions. Our work touches the mind, body, heart — and ultimately the spirit — of those we serve, integrating
7 our deep compassion with highly effective programs and services. [https://www.voa.org/volunteers-of-america-](https://www.voa.org/volunteers-of-america-national-services)
8 [national-services](https://www.voa.org/volunteers-of-america-national-services)

9
10 **West Placer Groundwater Sustainability Agency (WPGSA).** The West Placer Groundwater Sustainability
11 Agency was formed in 2017 to implement the Sustainable Groundwater Management Act passed in 2014. The
12 Act requires the formation of such agencies to manage local groundwater basins. Placer County, the cities
13 of Roseville and Lincoln, Placer County Water Agency, Nevada Irrigation District and in participation with
14 the California American Water Company, make up the West Placer Groundwater Sustainability Agency (WPGSA)
15 and manage a portion of the North American Subbasin. <https://westplacergroundwater.com>

16
17 **Western Placer Waste Management Authority (WPWMA).** The WPWMA is a regional agency established in
18 1978 through a joint exercise of powers agreement between Placer County and the cities of Lincoln, Rocklin and
19 Roseville to own, operate and maintain a sanitary landfill and all related improvements. The agency that provides
20 the Western Regional Sanitary Landfill (WRSL) site. <https://www.wpwma.ca.gov>
