

Staff Report

March 14, 2023

TO: Honorable Mayor and Members of the Town Council
FROM: Merrill Buck, Town Engineer
RE: Presentation to Council on Street Pavement Condition and Needs

Recommendation

Receive an information-only, power-point presentation from the Town Engineer on the condition of the Town's streets. The presentation will discuss resurfacing options that the Town can make, both in terms of budget and treatment selection, and the results that those choices will have, over time, on the overall street network's pavement condition.
