

- Please provide specific references to DEIR chapters, sections, figures, or tables when making comment on the content or analysis in the DEIR.
- Identify specific text in the DEIR.
- Identify data that should be included.
- Provide citations of documents to be considered that support your comment.

Tips on How to Comment Effectively on the DEIR

The most effective comments are accompanied by technical data or factual support. A Draft Environmental Impact Report (DEIR) has been prepared to evaluate the potential environmental impacts of the General Plan Update (2040 General Plan). In accordance with Section 15087 of the CEQA Guidelines, the Town is seeking comment on the DEIR from responsible agencies, the public, and other interested parties. Comments and concerns regarding the environmental issues associated with the proposed 2040 General Plan and the analysis in the DEIR may be submitted to the Town from September 22, 2023 through November 6, 2023.

2040 General Plan Draft Environmental Impact Report

The General Plan is the Town's Constitution and provides the vision and guidance for development. The Town adopted its General Plan in 2001 and it is appropriate to update the General Plan to reflect the Town's existing conditions, changes in Federal and State regulations, technology, the economy, and to assure the General Plan is internally consistent.
