- A town in which there are concerns for all segments of society, including businesses and residents;
- A town that encourages the participation of all of its citizens in civic and community activities;
- A council and staff that responds courteously and respectfully to the concerns and needs of the town's residents; and
- A plan that calls for slow, quality growth while preserving the financial integrity of the town.

Town Expectations

The Town is taking extraordinary measures to make the Draft General Plan Documents available for agency and public review throughout the General Plan update process.

- The Town desires early and continuous input on the Draft General Plan documents in order to have accurate and complete information for decision makers.
- The General Plan Process is an iterative process, each version of the General Plan Documents builds upon the previous version. This requires frequent and ongoing participation.
- The Town desires early input from the community to assure the communities voice is considered.
- The Town encourages collaboration between the Town Staff and Consultants in preparing the updated General Plan Documents.
 - Collaboration includes the review and written recommendations of documents posted on the Town's Web Site.
 - Collaboration includes the review and input of the General Plan Committees.
- Collaboration includes the input from public comments received at the General Plan Committee Meetings, Planning Commission Meetings and Town Council Meetings, as well as input from written comments submitted to the General Plan Update email and through the Town's Social Pinpoint Survey and a separate Housing Element survey.
- The Town assumes that the Draft General Plan documents are accurate and complete if input is not received within a reasonable period of time after the documents have been posted on the Town's web site.
- Factual input on the Draft General Plan Documents will be incorporated on a regular basis and the revised General Plan Documents will be shown with a new version number (V1, V2, V3, etc.)
