INTRODUCTORY SECTION

March 8, 2016

The Honorable Mayor, Councilmembers,
And Citizens of the City of Lucas, Texas:

It is our pleasure to submit to you the Comprehensive Annual Financial Report (CAFR) of the City of Lucas, Texas for the fiscal year ended September 30, 2015. Responsibility for both the accuracy and completeness of the presented data and the creation of transparency between the local government and the community in which it serves rests with the City.

The goal of the independent audit, conducted by BrooksCardiel, PLLC, is to provide reasonable assurance that the financial statements of the City for fiscal year ended September 30, 2015 were free of material misstatement. The independent auditor's report is located in the beginning of the financial section of the CAFR and we are pleased to report the issuance of an unmodified ("clean") opinion on the City of Lucas' financial statements for the year ended September 30, 2015.

This letter of transmittal is designed to complement Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditors' report and provides a narrative introduction, overview and analysis of the basic financial statements.

Our City

The City of Lucas was incorporated in February 1959 and adopted its Home-Rule Charter on May 15, 2008. The City of Lucas operates under the Council-Manager form of government. The City Council is the legislative body of the City government, and it is composed of seven members, including the Mayor and six councilmembers elected at-large and is responsible for enacting local legislation, adopting the annual budget and serving as policy-makers. The City Council appoints a City Manager who serves as the chief executive officer of the City and is responsible for the City's proper administration and daily operations including the implementation of the policies adopted by the City Council.

The citizens of Lucas enjoy a unique quality of life that incorporates a rural lifestyle, family-friendly atmosphere and natural beauty which is preserved through zoning that requires homes to be built on 1, 1.5 or 2 acre lot minimums.

Our Economy

With an estimated population 6,800, the population of Lucas is expected to grow steadily as people leave the more urban areas of the metroplex, and seek the higher quality of life that Lucas offers its residents. Most Lucas residents work outside of the Lucas city limits, and commute within the Dallas area.

Lucas enjoys a stable economy and has benefited from a robust economy in the Metropolitan area. The creation/further expansion of commercial development within the corporate city of Lucas should cause sales tax revenues to increase within the next few years.

Given Lucas' convenient location, proximity to higher population density areas, and the high quality of home sites available, the City continues to prosper economically. Highlights include:

- 126 new homes were permitted annually with an average taxable market value of \$454,000.
- Opening of commercial businesses: Wendy's and Starbucks.
- Completion of \$2.8 million Fire Station Expansion Project.
- Completion of a 2,100 square foot Community Center for public use. The building contains two rooms, bathrooms, and a small kitchen area.
- Approximately 2,000 old meter registers were replaced with a new RG3 Telsa 4 register.
- Asphalt resurfacing was completed late September for Graham Lane, Estelle Lane, Wendy Lane, Christian Lane, Lakeview Drive, and Forest Grove Road.
- Completion of 12-inch Water Lines at Stinson Road and Rock Ridge Road.

Lucas, Texas 75002
972.727.8999
www.lucastexas.us

Our Future

At the end of September 2015, the City of Lucas is working on these projects:

- Design for Rock Ridge Water Line Phase Two is near completion. Survey and engineer improvements were needed between Rock Ridge Phase One and the existing eight inch water line located at the Lovejoy High School Site.
- Design for Parker Road Water Line Phase One is thirty percent complete. The project limits are from Stinson Road to Southview Drive.
- Neighborhood Connector Street Project – The city has prioritized five streets in need of improvements: Blondy Jhune, Winningkoff, Snider, Forest Grove, and Stinson. The highest priority was given to the east and west bridges on Blondy Jhune Road and the reverse curve on Winningkoff Road. Certificates of Obligation for \$2 million was issued June 15, 2015 to help fund this project. There are currently four consulting engineering firms focused on design efforts and obtaining cost estimates for the project. Updated design and costs should be available late January to early February 2016 for the bridges at Blondy Jhune Road.
- Redesign of the City Website is projected to be completed early 2016.

New City events occurring early December 2015 included the first annual Lucas Country Christmas, which included a tree lighting and activities for families, and a Service Tree Dedication program where four beautiful trees including plaques were dedicated to four outstanding citizens of Lucas.

Our Financial Standards

The City's accounting records for general government are maintained on a modified accrual basis, with revenues being recorded when available and measurable, and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the City's water and sewer utility, and other proprietary activities are maintained on the accrual basis.

Budgeting is an essential element of the financial planning, control and evaluation process of municipal government. In compliance with GASB 54, the City's financial practice requires a General Fund reserve equal to at least six months of working capital, which equates to 50% of expenditures. The current reserve in the general fund is at 19 months with funds equaling 154% of this year's budgeted expenditures. The City also maintains a reserve of 6 months of working capital, which equates to 50% of expenditures in its Water Fund. Water bond covenants require the City to maintain reserve amounts sufficient to cover the average annual debt service requirements. The City's current reserve in the Water Fund is at 13 months with current funds equaling 110% of this year's expenditures.

Our Awards

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Lucas for its Comprehensive Annual Financial Report ("CAFR") for the fiscal years ended September 30, 2014, 2013, 2012, 2011 and 2010. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such report must satisfy both Generally Accepted Accounting Principles and applicable legal requirements. This was the fifth consecutive year that the City has received this prestigious award.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

Our Appreciation

Many persons are responsible for the preparation of this report and for the maintenance of records upon which it is based. Appreciation is expressed to the City employees throughout the organization, especially those employees of the

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the City Council
City of Lucas, Texas:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lucas, Texas (the "City"), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

Management's Responsibility for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes

evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of September 30, 2015 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note V.D. the City adopted new accounting guidance GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the 2015 financial statements have been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, the schedule of changes in net pension liability and related ratios, and the schedule of employer contributions to pension plan be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, budgetary comparison information, and statistical section are presented for additional analysis and are not a required part of the basic financial statements.

The supplementary information noted above is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and the statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

*MANAGEMENT'S DISCUSSION
AND ANALYSIS*

City of Lucas, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS

September 30, 2015

As management of the City of Lucas, Texas (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-5 of this report.

Financial Highlights

- The assets of the City exceeded its liabilities (net position) at September 30, 2015 by \$41,965,125. Of this amount, \$7,017,061 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$5,941,492. The majority of the City's net position are invested in capital assets and restricted for specific purposes.
- The City's governmental funds reported combined ending fund balances of \$11,315,431 at September 30, 2015, an increase of \$760,509 from the prior fiscal year; this includes an increase of \$168,095 in the debt service fund, an increase of \$94,814 in the capital improvement fund, increase of \$50,075 in the nonmajor Lucas Fire District fund, and an increase of \$447,525 in the general fund.
- At the end of the fiscal year, unassigned fund balance for the general fund was \$6,203,973 or 158% of total general fund expenditures.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-Wide Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

City of Lucas, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

September 30, 2015

The *statement of net position* presents information on all of the City's assets and liabilities. The difference between the two is reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Other non-financial factors, such as the City's property tax base and the condition of the City's infrastructure, need to be considered in order to assess the overall health of the City.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, culture and recreation, and community development. The business-type activities of the City include water and sewer operations.

The government-wide financial statements only include the City itself (known as the *primary government*), and does not include any other legally separate entities for which the City is financially accountable.

FUND FINANCIAL STATEMENTS

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By

City of Lucas, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

September 30, 2015

doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and capital projects fund, which are considered to be major funds. The Lucas fire district fund is considered nonmajor for reporting purposes.

The City adopts an annual appropriated budget for its general fund, debt service fund, and capital projects fund. A budgetary comparison statement has been provided for each fund to demonstrate compliance with the budget.

Proprietary Funds

The City maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer operations. All activities associated with providing such services are accounted for in this fund, including administration, operation, maintenance, debt service, capital improvements, meter maintenance, billing and collection. The City's intent is that costs of providing the services to the general public on a continuing basis is financed through user charges in a manner similar to a private enterprise.

Proprietary financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer fund since it is considered a major fund of the City.

City of Lucas, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

September 30, 2015

Notes to Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City's progress in funding its obligation to provide pension benefits to its employees and budgetary comparison for the general fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted previously, net position may serve over time as a useful indicator of the City's financial position. For the City of Lucas, assets exceed liabilities by \$41,965,125 as of September 30, 2015 in the primary government.

The largest portion of the City's net position, \$29,481,705, reflects its investments in capital assets (e.g., land, city hall, police station, streets, and drainage systems, as well as the public works facilities), less any debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

City of Lucas, Texas
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
September 30, 2015

Statement of Net Position:

The following table reflects the condensed Statement of Net Position:

	2015			2014		
	Governmental	Business-Type	Total	Governmental	Business-Type	Total
	Activities	Activities		Activities	Activities	
Current and other assets	\$ 12,392,608	\$ 5,547,219	\$ 17,939,827	\$ 10,728,127	\$ 5,437,417	\$ 16,165,544
Capital assets, net	19,918,842	18,107,861	38,026,703	14,804,623	16,720,990	31,525,613
Total Assets	32,311,450	23,655,080	55,966,530	25,532,750	22,158,407	47,691,157
Total Deferred Outflows	344,315	86,730	431,045	112,817	-	112,817
Other liabilities	1,758,787	659,492	2,418,279	182,182	252,066	434,248
Long-term liabilities	7,912,749	4,099,066	12,011,815	6,665,438	4,659,315	11,324,753
Total Liabilities	9,671,536	4,758,558	14,430,094	6,847,620	4,911,381	11,759,001
Total Deferred Inflows	2,356	-	2,356	21,340	-	21,340
Net Position:						
Net investment						
in capital assets	15,687,778	13,793,927	29,481,705	11,388,630	13,112,606	24,501,236
Restricted	5,101,359	365,000	5,466,359	2,535,158	382,027	2,917,185
Unrestricted	2,192,736	4,824,325	7,017,061	4,852,819	3,752,393	8,605,212
Total Net Position	\$ 22,981,873	\$ 18,983,252	\$ 41,965,125	\$ 18,776,607	\$ 17,247,026	\$ 36,023,633

During the current year, the City's current assets and restricted net assets increased due to the issuance of debt for capital improvement projects. Long-term liabilities also demonstrated an increase due to the issuance of debt. The City's deferred outflows demonstrated an increase of \$318,228. This increase is mainly caused by larger pension contributions made by the City during the current year.

Graphic presentations of selected data from the summary tables are displayed below to assist in the analysis of the City's activities.

Governmental Activities - Revenues

For the year ended September 30, 2015, revenues from governmental activities totaled \$8,196,265. Property tax, sales tax and franchise tax are the City's largest general revenue sources. Overall revenue increased \$1,790,072 or 28% due to large amounts of contributed capital that occurred during the year. Grants and contributions increased by \$862,199 related to said contributed capital. Property tax revenue increased \$69,595 due to increase property values and a growing tax base. Sales tax increased by \$366,138 or 45% due to growth and development within the City as well as the Lucas Fire District's ability to receive sales tax revenue. Charges for services increased by \$472,951, primarily from development and permit fees. All other revenues remained relatively stable when compared to the previous year.

This graph shows the governmental function expenses of the City:

Governmental Activities - Expenses

For the year ended September 30, 2015, expenses for governmental activities totaled \$4,311,243. This represents an increase of \$510,888 or 13% from the prior year. The City's largest functional expense is public safety of \$1,522,999. All expenditures increased from the previous year. General government

City of Lucas, Texas

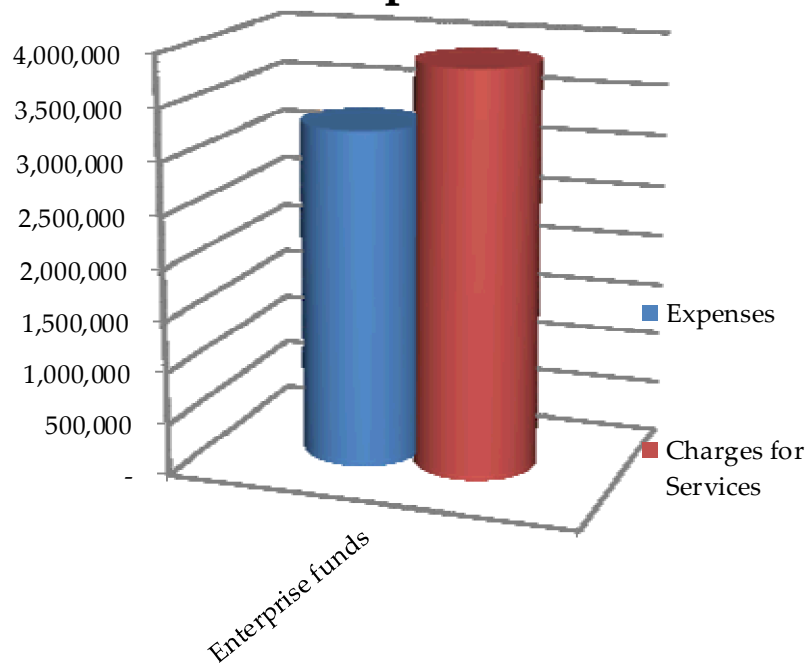

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

September 30, 2015

increased \$93,324 or 11%, public works increased \$223,894 or 26% and development services increased \$95,387 due to growth and development within the City. In addition, interest and fiscal charges increased \$98,976 or 43%. This category demonstrated a large increase due to bond issuance costs incurred during the year.

Business-type activities are shown comparing operating costs to revenues generated by related services.

Business-Type Activities - Revenues and Expenses

For the year ended September 30, 2015, charges for services by business-type activities totaled \$3,879,602. This is an increase of \$47,524, or 1%, from the previous year. This increase directly relates to water usage within the City.

Total expenses increased \$238,337 to a total of \$3,237,288, due primarily to an increase in the North Texas Municipal Water District contract, the City's source of water.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

City of Lucas, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

September 30, 2015

Governmental Funds - The focus of the City's governmental funds is to provide information of near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the year.

At September 30, 2015, the City's governmental funds reported combined fund balances of \$11,315,431, an increase of \$760,509 in comparison with the prior year. Approximately 55% of this amount (\$6,203,973) constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is *restricted*.

As of the end of the year the general fund reflected a total fund balance of \$7,129,637, the total of which is unassigned. As a measure of the general fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. The total fund balance of General Fund is 182% of total general fund expenditures. The unassigned (the amount available for spending) fund balance of the general fund of \$6,203,973 is 158% of total general fund expenditures.

The debt service fund had an ending fund balance of \$560,000 at September 30, 2015 compared to the previous year's balance of \$391,905.

The capital projects fund ending fund balance is \$3,575,719. During the year, the City expended \$2,755,146 on various projects, utilizing funds from the 2011 certificates of obligation, impact fees, and reserves.

Proprietary Funds - The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Net position in the utility fund totaled \$18,983,252. Unrestricted net position of the enterprise fund at the close of the fiscal year amounted to \$4,824,325. Total net position demonstrated an increase of \$1,736,226. The fund had an investment in capital assets, net of related debt of \$13,793,927. The City operates and maintains a water and sewer distribution system with force mains and lift stations. The City has six water storage facilities with a total capacity of approximately 6.9 million gallons. The following are additional comments regarding operations of the enterprise fund:

- The City received capital contributions of \$1,299,604 consisting of water and sewer infrastructure.
- Operational expenses excluding depreciation and amortization were \$2,509,073.
- Cash and cash equivalents in the utility fund were \$4,660,531 at fiscal year end.

City of Lucas, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

September 30, 2015

GENERAL FUND BUDGETARY HIGHLIGHTS

There were three budget amendments approved during the fiscal year, and increases totaling \$114,150. There was a positive variance of \$1,262 over budgeted general fund revenues. The following are additional comments regarding appropriations:

- There was a total positive variance of \$302,257 in budgeted appropriations.
- \$711,087 is the surplus of revenues over expenditures before transfers.
- There was a net positive change in fund balance of \$447,525.

CAPITAL ASSETS

As of the end of the year, the City's governmental activities funds had invested \$38,026,703 in a variety of capital assets and infrastructure, net of accumulated depreciation. The City's business-type activities funds had invested \$18,107,861 in a variety of capital assets and infrastructure, net of accumulated depreciation. This investment in capital assets includes land, buildings, vehicles, equipment, park improvements, and infrastructure. The City's total investment in capital assets increased by \$6,501,090, net of depreciation.

Major capital asset events during the current year include the following:

- Contribution of assets by a developer.
- Construction of fire department expansion.
- Infrastructure expansion

More detailed information about the City's capital assets is presented in note IV. C to the financial statements.

LONG-TERM DEBT

At the end of the current fiscal year, the City had total bonded debt obligations of \$12,124,404 including premiums. Of this amount, \$4,315,983 is self-supporting through revenues collected from the rates of the City's utility fund. All of the City's debt is backed by a full-faith credit pledge of property taxes with a limited pledge of revenues of the enterprise/utility system. The City monitors its debt obligations and callable bonds for refinancing opportunities with market conditions.

More detailed information about the City's long-term liabilities is presented in note IV. D to the financial statements.

City of Lucas, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

September 30, 2015

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The following known factors were considered in preparing the City's operating budget for FY 2015-2016:

- This budget will raise more total property taxes than last year's budget by \$304,615, or 13.74%, and of that amount, \$136,133 is tax revenue to be raised from new property added to the tax roll.
- The approved budget for all funds for FY 2015-2016 reflects total anticipated revenues of \$9,196,179 and total anticipated expenditures of \$8,855,139.
- The City tax rate is set each fall and is enacted via ordinance. The rate for fiscal year 2015-2016 was enacted by Ordinance #2015-09-00819 and is set to \$0.320661 cents per \$100 of valuation.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information, contact the Department of Finance at 665 Country Club Rd., Lucas, Texas 75002 or call (972) 727-8999.

RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION GOVERNMENTAL FUNDS

September 30, 2015

Fund Balances - Total Governmental Funds	\$ 11,315,431
Adjustments for the Statement of Net Position:	
Capital assets used in governmental activities are not current financial resources and, therefore, not reported in the governmental funds.	
Capital assets - non-depreciable	1,127,552
Capital assets - net depreciable	18,791,290
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the governmental funds.	
Property tax receivable	36,039
Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expense/expenditure) until then.	
Pension contributions	288,705
Pension investment earnings	11,214
Deferred charge on refunding	44,396
Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.	
Pension losses	(2,356)
Some liabilities, including bonds payable and deferred charges, are not reported as liabilities in the governmental funds.	
Accrued interest	(52,541)
Bond premium	(138,421)
Non-current liabilities due in one year	(665,108)
Non-current liabilities due in more than one year	(7,289,274)
Net pension liability	(485,054)
Net Position of Governmental Activities	\$ 22,981,873

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended September 30, 2015

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$	760,509
---	----	---------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay		3,422,242
Depreciation expense		(778,300)

The effect of capital assets contributed to the City during the current year.		2,470,277
---	--	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(7,516)
--	--	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Compensated absences		(9,089)
Accrued interest		(15,117)
Pension expense		178,090
Contribution to new pension fund		(170,536)

The issuance of long-term debt (e.g., bonds, leases, certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when they are first issued; whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Issuance of debt premium		(85,771)
Amortization of deferred charges on refunding		(7,400)
Amortization of debt premium		3,510
Issuance of debt		(2,000,000)
Debt payments		444,367

Change in Net Position of Governmental Activities	\$	4,205,266
--	-----------	------------------

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS
September 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Lucas, Texas (the "City") is a municipal corporation of the State, duly organized and existing under the laws of the State of Texas including the City's Home Rule Charter. The City was incorporated in 1959, and first adopted its Home Rule Charter in September 2008. The City operates under a Council/Manager form of government with a City Council composed of the Mayor and six-member Council. The City provides the following services as authorized by its charter: public safety, public works, water and sanitary sewer utilities, culture-recreation, planning and zoning, and general administrative services.

The City is an independent political subdivision of the State of Texas governed by an elected council and a mayor and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the City's financial reporting entity. The Lucas Fire District (the "LFD"), although legally separate, is considered part of the reporting entity. No other entities have been included in the City's reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the City's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the City is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the City's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and is fiscally independent of other state and local governments. Additionally prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Blended Component Unit

Lucas Fire District

The City created the Lucas Fire District in January 2014 to fund and improve fire control, prevention, and emergency medical service within the City's limits. The creation of this district allows the City to collect extra sales tax that is restricted for this purpose. Currently, the City's Mayor and Council serve as directors of this district.

City of Lucas, Texas

B. Basis of Presentation - Government-Wide and Fund Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and the proprietary funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and transit functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category; governmental and proprietary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The government reports the following governmental funds:

General Fund

The general fund is used to account for all financial transactions not properly includable in other funds. The principal sources of revenues include local property taxes, sales and franchise taxes, licenses and permits, fines and forfeitures, and charges for services. Expenditures include general government, public safety, public works, culture and recreation, community development, and nondepartmental. This fund is considered to be a major fund.

Debt Service Fund

The debt service fund is used to account for the payment of interest and principal on all general obligation bonds and other long-term debt of governmental funds. The primary source of revenue for debt service is local property taxes. This fund is considered to be a major fund.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

Capital Improvements Fund

The capital projects fund accounts for the acquisition and construction of the government's major capital facilities, other than those financed by proprietary funds. This fund is considered to be a major fund.

Lucas Fire District Fund

The fund accounts for the activity of the aforementioned Lucas Fire District. This fund is a non-major fund.

The government reports the following major enterprise fund:

Utility Fund

This fund is used to account for the provision of water and sewer services to the residents of the City. Activities of the fund include administration, operations and maintenance of the water production and distribution system, water collection and treatment systems. The fund also accounts for the accumulation of resources for and the payment of long-term debt. All costs are financed through charges to utility customers.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

C. Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary, pension and other postemployment benefit trust, and private-purpose trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

D. Assets, Liabilities, and Fund Equity or Net Position

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition. For the purpose of the statement of cash flows, the proprietary fund types consider temporary investments with maturity of three months or less when purchased to be cash equivalents.

In accordance with GASB Statement No. 31, *Accounting and Reporting for Certain Investments and External Investment Pools*, the City reports all investments at fair value, except for "money market investments" and "2a7-like pools." Money market investments, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations, are reported at amortized costs. Investment positions in external investment pools that are operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940, such as TexPool and LOGIC, are reported using the pools' share price.

The City has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, of the Texas Governmental Code. In summary, the City is authorized to invest in the following:

- Direct obligations of the U.S. Government, State of Texas and agencies thereof
- Fully collateralized certificates of deposit and money market accounts
- Statewide investment pools

2. Receivables and Interfund Transactions

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements. If the transactions are between the primary government and its component unit, these receivables and payables are classified as "due to/from component unit/primary government." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds are offset by a nonspendable fund balance account in the applicable governmental fund to indicate they are not available for appropriation and are not expendable available financial resources.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

All trade receivables are shown net of any allowance for uncollectible amounts.

3. Inventories and Prepaid Items

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred, (i.e., the purchase method). The inventories are valued at the lower of cost or market using the first-in/first-out method. Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures) are recognized as expenditures when utilized (the consumption method).

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years.

Asset Description	Estimated Useful Life
Vehicles	5 to 10 years
Machinery and equipment	5 to 10 years
Infrastructure	5 to 30 years
Buildings and improvements	25 years

5. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

6. Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in the fund.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

7. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing body (council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The government has adopted a policy to maintain a minimum reserve of an amount equal to or greater than 50% of operating expenditures in the general fund.

8. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. The long-term debt consists primarily of bonds payable and accrued compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payments of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

Long-term debt and other obligations, financed by proprietary funds, are reported as liabilities in the appropriate funds. For proprietary fund types, bond premiums, discounts and issuance costs are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are reported as deferred charges.

Assets acquired under the terms of capital leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, capital lease transactions are recorded as other financing sources and as capital outlay expenditures in the general fund. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

9. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

10. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

E. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the City.

3. Compensated Absences

City employees earn vacation and sick leave, which may either be taken or accumulated, up to certain amounts, until retirement or termination. There is no liability for unpaid accumulated sick leave when employees separate from service with the City. All vacation and qualifying sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be liquidated with expendable available financial resources, for example, as a result of employee resignations and retirements. Vested or accumulated vacation leave and compensated leave of government-wide and proprietary funds are recognized as an expense and liability of those funds as the benefits accrue to employees.

It is the City's policy to liquidate compensated absences with future revenues rather than with currently available expendable resources. Accordingly, the City's governmental funds recognize accrued compensated absences when it is paid.

4. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer fund are charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes reconciliation between *fund balance-total governmental funds* and *net position-governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds, are not due and payable in the current period and, therefore, are not reported in the funds.

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, “the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.”

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for the general, debt service, capital improvements, Lucas Fire District, and utility funds. The original budget is adopted by the City Council prior to the beginning of the year. The legal level of control as defined by the City Charter is the department level. No funds can be transferred or added to a budgeted item without Council approval. Appropriations lapse at the end of the year. Three supplemental budget appropriations were made during the year.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

As of September 30, 2015, the primary government did not hold any investments:

Interest rate risk In accordance with its investment policy, the City manages its exposure to declines in fair values by limiting the weighted average of maturity not to exceed five years; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations; monitoring credit ratings of portfolio position to assure compliance

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

with rating requirements imposed by the Public Funds Investment Act; and invest operating funds primarily in short-term securities or similar government investment pools.

Credit risk The City's investment policy limits investments to obligations of the United States, State of Texas, or their agencies and instrumentalities with an investment quality rating of not less than "A" or its equivalent, by a nationally recognized investment rating firm. Other obligations must be unconditionally guaranteed (either express or implied) by the full faith and credit of the United States Government or the issuing U.S. agency and investment pools with an investment quality not less than AAA or AAA-m, or equivalent, by at least one nationally recognized rating service. As of September 30, 2015, the City's investment in TexPool, LOGIC, and the Lone Star Investment Pool were rated AAAM by Standard & Poor's.

Custodial credit risk – deposits In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statutes require that all deposits in financial institutions be insured or fully collateralized by U.S. government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. As of September 30, 2015, the market values of pledged securities and FDIC exceeded bank balances.

Custodial credit risk – investments For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that it will seek to safekeeping securities at financial institutions, avoiding physical possession. Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in the City's safekeeping account prior to the release of funds.

TexPool

TexPool was established as a trust company with the Treasurer of the State of Texas as trustee, segregated from all other trustees, investments, and activities of the trust company. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. Finally, Standard & Poor's rate TexPool AAAM. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as to the office of the Comptroller of Public Accounts for review.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

LOGIC

LOGIC is a local government investment pool organized under the authority of the Interlocal Cooperation Act, chapter 791, of the Texas Government Code, and the Public Funds Investment Act, chapter 2256, of the Texas Government Code. The pool was created in April 1994 through a contract among its participating governmental units, and is governed by a board of directors (the board) to provide for the joint investments of participant's public funds and funds under their control. LOGIC's policy seeks to invest pooled assets in a manner that will provide for safety of principal, liquidity in accordance with the operating requirements of the Participants, and a competitive rate of return by utilizing economies of scale and professional investment expertise. Standard & Poor's rates Local Government Investment Cooperative (LOGIC) 'AAAm'. This is Standard & Poor's highest principal stability fund rating and is based on an analysis of the pool's investment portfolio and guidelines, market price exposure, and management. The rating demonstrates that the pool has an extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit risk. LOGIC has a conservative investment policy and invests in only authorized investments under the Texas Public Funds Investment Act. To ensure an accurate and current rating, Standard & Poor's monitors pertinent pool information, including the fund's portfolio holdings, on a weekly basis.

Lone Star Investment Pool

The Lone Star Investment Pool limits investments only to those allowed by the Public Funds Investment Act. The Lone Star fund has earned Standard & Poor's highest rating (AAA), which meets the standards set by the Public Funds Investment Act.

B. Receivables

The following comprise receivable balances of the primary government at year end:

	<u>General</u>	<u>Debt Service</u>	<u>Lucas Fire District</u>	<u>Water & Sewer</u>	<u>Total</u>
Property taxes	\$ 26,768	\$ 9,271	\$ -	\$ -	\$ 36,039

D. Long-term Debt

The following is a summary of changes in the City's total governmental long-term liabilities for the year ended. In general, the City uses the debt service fund to liquidate governmental long-term liabilities.

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Amounts Due within One Year</u>
Governmental Activities:					
Bonds, notes and other payables:					
General Obligation Bonds	\$ 1,695,000	\$ -	\$ (180,000)	\$ 1,515,000	\$ 190,000
Certificates of Obligation Premium	4,365,000	2,000,000	(210,000)	6,155,000	370,000
	56,160	85,771	(3,510)	138,421	-
Other liabilities:					
Capital lease	288,008	-	(54,367)	233,641	54,368
Compensated absences	41,651	66,758	(57,669)	50,740	50,740
Total Governmental Activities	<u>\$ 6,445,819</u>	<u>\$ 2,152,529</u>	<u>\$ (505,546)</u>	<u>\$ 8,092,802</u>	<u>\$ 665,108</u>
Long-term liabilities due in more than one year				<u>\$ 7,427,694</u>	
Business-Type Activities:					
Bonds, notes and other payables:					
General Obligation Bonds	\$ 1,040,000	\$ -	\$ (175,000)	\$ 865,000	\$ 170,000
Certificates of Obligation Premium	3,600,000	-	(185,000)	3,415,000	195,000
	38,232	-	(2,249)	35,983	-
Other liabilities:					
Compensated absences	11,137	19,817	(14,689)	16,265	16,265
Total Business-Type Activities	<u>\$ 4,689,369</u>	<u>\$ 19,817</u>	<u>\$ (376,938)</u>	<u>\$ 4,332,248</u>	<u>\$ 381,265</u>
Long-term liabilities due in more than one year				<u>\$ 3,950,983</u>	

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. The City intends to retire all of its general long-term liabilities, plus accrued interest, from property taxes and other current revenues from the debt service fund as has been done in prior years. The business-type long-term debt will be repaid, plus accrued interest, from operating revenues of the water and sewer fund. The general fund has typically been used to liquidate the liability for compensated absences for governmental activities.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

Long-term debt at year end was comprised of the following debt issues:

Description	Interest Rates	Original Balance	Current Balance
Governmental Activities:			
2007 General obligation refunding bonds	3.76%	\$ 1,790,000	\$ 1,515,000

F. Deferred Charges on Refunding

Deferred charges resulting from the issuance of series 2007 general obligation refunding and improvement bonds have been recorded as deferred outflows of resources and are being amortized to interest expense over the shorter of either the remaining term of the refunded debt or the refunding certificates of obligation. End of year balances totaled \$44,396 for governmental activities and \$31,853 for business-type activities. Current year amortization expense for governmental activities totaled \$7,400. For business-type activities amortization expense was \$5,308.

G. Interfund Transactions

Transfers between the primary government funds during the 2015 year were as follows:

<u>Transfer Out</u>	<u>Transfer In</u>	<u>Amount</u>
General	Capital Improvement	\$ 575,822
General	Debt Service	93,027
Utility Fund	Capital Improvement	120,683
Utility Fund	General	199,561
Lucas Fire District	General	205,726
	Total	\$ 1,194,819

Transfers between funds were made for costs borne by the receiving funds.

H. Restricted Net Position

The City records restricted net position to indicate that a portion is legally restricted for a specific future use.

The following is a list of restricted net position of the City:

	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Restricted for:		
Impact fees	\$ 867,279	\$ -
Debt service	560,000	365,000
Capital improvements	3,575,719	-
* Municipal court	45,612	-
* Fire protection	50,075	-
* Cable fees	12,773	-
Total	<u>\$ 5,111,458</u>	<u>\$ 365,000</u>

* Restricted by enabling legislation

V. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters for which the City participates along with over 2,800 other entities in the Texas Municipal League's Intergovernmental Risk Pools. The Pool purchases commercial insurance at group rates for participants in the Pool. The City has no additional risk or responsibility to the Pool outside of the payment of insurance premiums. The City has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

B. Contingent Liabilities

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

GASB 62 defines probability of loss contingencies as the following:

Probable. The future event or events are likely to occur.

Reasonably possible. The chance of the future event or events occurring is more than remote but less than likely.

Remote. The chance of the future event or events occurring is slight.

Liabilities are recorded when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors.

At year end there was no litigation that was required to be recorded.

C. Pension Plans

Texas Municipal Retirement Systems

1. Plan Description

The City of Lucas participates as one of 860 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tMrs.com.

All eligible employees of the city are required to participate in TMRS.

2. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an

City of Lucas, Texas

NOTES TO FINANCIAL STATEMENTS, *Continued*

September 30, 2015

annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	<u>Plan Year 2014</u>	<u>Plan Year 2015</u>
Employee deposit rate	7.00%	7.0%
Matching ratio (city to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service retirement eligibility (expressed as age / years of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% Repeating Transfers	100% Repeating Transfers
Annuity increase (to retirees)	0% of CPI	70% of CPI

Employees covered by benefit terms

At the December 31, 2014 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	7
Inactive employees entitled to but not yet receiving benefits	25
Active employees	26
Total	58

3. Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Lucas were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Lucas were 9.61% and 14% in calendar years 2014 and 2015, respectively. The City's contributions to TMRS for the

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

year ended September 30, 2015, were \$192,781, and were equal to the required contributions.

4. Net Pension Liability

The city's Net Pension Liability (NPL) was measured as of December 31, 2014, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions:

Inflation	3.0% per year
Overall payroll growth	3.0% per year
Investment Rate of Return	7.0%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2014, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2006 through December 31, 2009, first used in the December 31, 2010 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation.

The long-term expected rate of return on pension plan investments is 7.0%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return

City of Lucas, Texas

NOTES TO FINANCIAL STATEMENTS, *Continued*

September 30, 2015

(expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	17.5%	4.80%
International Equity	17.5%	6.05%
Core Fixed Income	30.0%	1.50%
Non-Core Fixed Income	10.0%	3.50%
Real Return	5.0%	1.75%
Real Estate	10.0%	5.25%
Absolute Return	5.0%	4.25%
Private Equity	5.0%	8.50%
Total	100.0%	

Discount Rate:

The discount rate used to measure the Total Pension Liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

Changes in the Net Pension Liability:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)
Balance at 12/31/13	\$ 1,688,674	\$ 1,503,828	\$ 184,846

Balance at 12/31/14	\$ 2,315,141	\$ 1,766,684	\$ 548,457

Sensitivity of the Net Pension Liability to Changes in the Discount Rate:

The following presents the net pension liability of the City, calculated using the discount rate of 7.0%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

1% Decrease 6.00%	Current Single Rate Assumption 7.00%	1% Increase 8.00%
\$ 929,655	\$ 548,457	\$ 241,131

Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmr.com.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
 September 30, 2015

5. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 26,006	\$ -
Difference between projected and investment earnings	15,362	-
Contributions subsequent to the measurement date	161,876	-
Total	\$ 203,244	\$ -

The City reported \$161,876 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability for the year ending September 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30:	
2016	\$ 11,415
2017	11,415
2018	11,415
2019	7,123
Thereafter	-
Total	\$ 41,368

Supplemental Death Benefits Fund

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

City of Lucas, Texas

NOTES TO FINANCIAL STATEMENTS, *Continued*

September 30, 2015

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB.

The City offers supplemental death to:	Plan Year 2014	Plan Year 2015
Active employees (yes or no)	Yes	Yes
Retirees (yes or no)	Yes	Yes

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The City's contributions to the TMRS SDBF for the years ended 2015, 2014 and 2013 were \$2,829, \$2,514 and \$1,551, respectively, which equaled the required contributions each year.

Schedule of Contribution Rates
(RETIREE-only portion of the rate)

Plan/ Calendar Year	Annual Required Contribution (Rate)	Actual Contribution Made (Rate)	Percentage of ARC Contributed
2013	0.19%	0.19%	100.0%
2014	0.19%	0.19%	100.0%
2015	0.18%	0.18%	100.0%

Texas Emergency Services Retirement System

1. Plan Description

The Fire Fighter's Pension Commissioner is the administrator of the Texas Emergency Services Retirement System (TESRS), a cost-sharing multiple employer pension system established and administered by the State of Texas to provide pension benefits for emergency services personnel who serve without significant monetary remuneration. At August 31, 2014, there were 193 member fire or emergency services departments actively participating in TESRS. Eligible participants include volunteer emergency services personnel who are members in good standing of a participating department.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

At August 31, 2014, TESRS membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits	2,679
Terminated Participants Entitled to Benefits but Not Yet Receiving Them	2,161
Active Participants (Vested and Nonvested)	<u>4,036</u>
Total	8,876

Senate Bill 411, 65th Legislature, Regular Session (1977), created TESRS and established the applicable benefit provisions. The 79th Legislature, Regular Session (2005), recodified the provisions and gave the TESRS Board of Trustees authority to establish vesting requirements, contribution levels, benefit formulas, and eligibility requirements by board rule. The benefit provisions include retirement benefits as well as death and disability benefits. Members are 50% vested after the tenth year of service, with the vesting percent increasing 10% for each of the next five years of service so that a member becomes 100% vested with 15 years of service.

Upon reaching age 55, each vested member may retire and receive a monthly pension equal to his vested percent multiplied by six times the governing body's average monthly contribution over the member's years of qualified service. For years of service in excess of 15 years, this monthly benefit is increased at the rate of 6.2% compounded annually.

On and off-duty death benefits and on-duty disability benefits are dependent on whether or not the member was engaged in the performance of duties at the time of death or disability. Death benefits include a lump sum amount and continuing monthly payments to a member's surviving spouse and dependent children.

2. Funding Policy

Contribution provisions were originally established by S.B. 411, 65th Legislature, Regular Session (1977) and were amended by board rule in 2006. No contributions are required by individual members of participating departments. The governing bodies of participating departments are required to contribute at least the minimum prescribed amount per month for each active member and may contribute more. Additional contributions may be made by a governing body to pay for granting credit for service before the department began participating in TESRS (prior service). The State may also be required to make annual contributions up to a limited amount to make TESRS actuarially sound.

City of Lucas, Texas
NOTES TO FINANCIAL STATEMENTS, Continued
September 30, 2015

3. Contributions

The contribution requirement per active emergency services personnel member per month is not actuarially determined. Rather, the minimum contribution provisions were set by board rule. For the fiscal year ending August 31, 2014, total contributions (dues and prior service) of \$4,176,659 were paid into TESRS by the political subdivisions served by the member volunteer emergency services personnel. The maximum state contribution is one third of the total contributions by governing bodies in a particular year. This amount was paid in early September 2014.

The purpose of the biennial actuarial valuation is to test the adequacy of the contribution arrangement to determine if it is adequate to pay the benefits that are promised. The actuarial valuation as of August 31, 2014 concluded that the system has an adequate contribution arrangement.

To the best of our knowledge, the actuarial information supplied in this section is complete, accurate and in compliance with GASB Statement No. 25. In our opinion, the assumptions used are reasonably related to the experience of the System and to reasonable expectations. The assumptions represent a reasonable estimate of anticipated experience of the System over the long-term future, and their selection complies with the appropriate actuarial standards of practice.

Schedule of Employer Contributions

Fiscal Year Ending August 31,	Annual Required Contributions	Actual Contributions	Percentage Contributed	
2010	2,875,103	2,875,103	100%	(1)
2011	3,125,329	3,125,329	100%	(2)
2012	4,425,898	4,425,898	100%	(2)(3)
2013	5,020,980	5,020,980	100%	(4)
2014	5,707,002	5,707,002	100%	(4)

(1)Based on the August 31, 2010 actuarial valuation.

(2)Based on the August 31, 2012 actuarial valuation.

(3)Includes a requested state contribution of \$906,443.

(4)Based on the August 31, 2014 actuarial valuation.

City of Lucas Volunteer Firefighter Length of Service Award (LOSAP) Pension Plan

6. Plan Description

During the course of the year, the City created the City of Lucas Volunteer Firefighter Length of Service Award Pension Plan as a replacement to the participation in TESRS. As of September 30, 2015 a valuation has not been performed. The City contributed \$170,536 in order to fund this plan. This contribution has been accounted for as a deferred outflow – contribution at year end.

D. Restatement

The City has restated beginning fund balance/net position within governmental and business type activities due to the adoption of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, to correct construction in progress, and bond discounts. The restatement of beginning net position/fund balance is as follows:

	<u>Governmental Activities</u>	<u>Water & Sewer</u>	<u>Business-Type Activities</u>
Prior year ending net position			
fund balance as reported	\$ 19,156,104	\$ 17,133,145	\$ 17,133,145
Adoption of GASB 68	(179,937)	(27,339)	(27,339)
