

May 07, 2018

Legislation changes effective January 1, 2015
Senate Bill No. 1467, Chapter 400

“SURVEY MONUMENT PRESERVATION”

Section 16: Section 8771(d) of the Business and Professions Code (Land Surveyor’s Act):

(d) The governmental agency performing or permitting construction or maintenance work is responsible for ensuring that either the governmental agency or landowner performing the construction or maintenance work provides for monument perpetuation required by this section.

The above referenced Code became effective and has been in place as of January 1, 2015. Pursuant to the above referenced Code, the County of Marin has modified the Encroachment and Grading permit process to ensure that there is an individual in responsible charge of the Land Surveying activities within the bounds of the permitted construction. The individual shall be a Licensed Land Surveyor or a Professional Engineer authorized to perform Land Surveying in the State of California. It shall be at the sole discretion of the County Land Surveyor to determine if the permitted construction activity warrants the need to fulfill this requirement.

- Minor construction activity where there is no potential for jeopardizing monuments would be a situation where the County of Marin would not require the permittee to designate an individual in responsible charge of the Land Surveying activities within the bounds of the permitted construction.
- All other permitted construction activity will require an acknowledgement signed by an individual in responsible charge of the Land Surveying activities within the bounds of the permitted construction prior to issuance of the permit. Prior to final acceptance of the construction activity, the County of Marin will require another acknowledgement signed by the designated individual in responsible charge of the Land Surveying activities, stating that all monuments within the bounds of the permitted construction have been preserved.

Acknowledgement of Monument Responsibility
“Pre-Construction”

Monument Preservation prior to construction activity

I, _____, a duly Licensed Land Surveyor or a Professional Engineer
(Please print)
