

# PROPOSITION 1E

## STORMWATER FLOOD MANAGEMENT

### GRANT PROPOSAL

#### Phoenix Lake Integrated Regional Water Management (IRWM) Retrofit

Phoenix Lake provides a variety of recreational opportunities for visitors from throughout the Bay Area. Photo shot from the dam crest showing the floating barge water supply pump station.

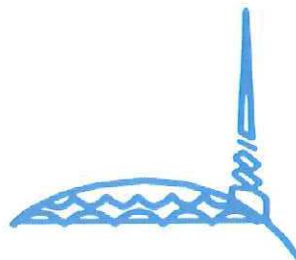

Grant proposal includes a 6-foot high pneumatic spillway gate that would increase lake storage capacity by 120 acre-feet providing both flood detention and water supply benefits.
