

# SAVE THE DATE!

## COME JOIN US FOR THE MARIN CITY STORMWATER PLAN COMMUNITY MEETING #2

- WHO:** The Marin County Flood Control & Water Conservation District
- WHAT:** A Community Meeting to Discuss the Marin City Stormwater Plan Project Concepts
- WHEN:** Saturday, March 9, 2024 from 11:00 a.m. to 1:00 p.m.
- WHERE:** Martin Luther King Jr. Academy Multi-Purpose Room, 200 Phillips Drive, Marin City, CA 94965
- WHY:** To understand and provide your input on the Stormwater Plan Project Concepts and prioritize what is important to the community.

### The Purpose of the Marin City Stormwater Plan:

During storm season and high tides, the Marin City neighborhood is regularly impacted by flooding tied to challenging drainage issues. This flooding may worsen and occur more frequently as climate change disrupts weather patterns, strengthens atmospheric river events, and raises sea levels. Marin County's Flood District and the Marin City community are collaborating to address these issues for the health and safety of the community. The Marin City Stormwater Plan aims to develop a public stormwater infrastructure plan that will guide the potential implementation of future project concepts and help to attract grant funding.

### PRIMARY PLAN GOALS:

- Protect public access during flooding events.
- Collaborate on an equitable and inclusive community engagement process.
- Recommend improvements to reduce flood risk to existing publicly owned structures, public roadways, and to the highway interchange.
- Improve effectiveness of flood management operations.
- Integrate with Caltrans Planning.
- Attract funding sources.
