PRESS RELEASE # 1 Water Plant / Boil Notice

There are frozen pipes all over the City of Marlin this morning which means many of our citizens are without water. Please be advised the water plant is fully functional and clean water is being produced. The problem is frozen pipes. Emergency measures have been deployed but the City remains subject to thawing weather conditions and requests your patience and assistance. Please continue to observe the Boil Water Notice still in effect; let your pipes drip if possible; and report all water leaks to Dispatch at 254-883-9255. The City of Marlin employees are on top of this present situation and working diligently to meet all our water needs but as pipes thaw throughout the day and re-freeze tonight, there may be additional water leaks requiring repair and affecting water pressure in your neighborhood. This site will be updated throughout the day regarding important information from the City of Marlin. Again, please direct your calls to Dispatch at 254-883-9255.

Thank you for your patience and attention.

Susan Byrd, Mayor
