BUDGET MESSAGE

BUDGET DEVELOPMENT

Budgeting is a year-round activity in most municipalities. We are either preparing to start a new budget, analyzing, generating reports, and amending the current budget, or reporting on the most recent budget year. Most of the time, we are doing all these activities simultaneously. For example, preparations for the FY22-23 budget began in November 2021 with the budget kick-off that included instructions to department heads regarding how to submit budget requests and an overview of the budget calendar. In February, department heads submitted their budget requests. In March, each department head met with the Manager, Assistant Manager, Finance Director, Human Resources Director, and Budget Accountant (the Budget Team) to review their submissions.

The first two budget work sessions on March 23 and March 30 allowed department heads to present their personnel and capital requests directly to the City Council. The third budget work session was held on April 13, focused on the operating budget, and provided more details on personnel and capital requests. The City Manager will present his recommended budget to the City Council on May 2. On June 6, a public hearing will be held as required by General Statute 159.12 (b). Also, on June 6, the Council will possibly approve the FY22-23 budget.

July: New **Fiscal** Year

September/October: Year-end review

May/June: Manager's Budget Recommendation, public hearings and budget adoption

November/December: Mid-Year Review

March/April: Funding Allocation Reviews & **Budget Preparation and** Budget Work Sessions February/March:

January: Budget Planning Packages

BUDGET CALENDAR

November

4th: Budget Kickoff Meeting

16th: Budget Training

18th: Budget Training

December

No due dates or meetings.

January

10th: Budget due to Finance by the end of the day.

11th – 28th: Finance and City Manager to review budget requests

Week of 31st: Group A meetings with the Budget Team

February

Week of 7th: Group B meetings with the budget team

11th: Group A PowerPoints due to Finance

Week of 14th: Group A PowerPoint budget presentation to the Budget Team

18th: Group B PowerPoints due to Finance

Week of 21st: Group B PowerPoint budget presentation to the Budget Team

March

4th: Final budget presentations due to Finance

5th – 18th: Final budget prepared by Finance

23rd: Group A presentations to Council

30th: Group B presentations to Council

April

13th: Overall budget outlook presented to Council

18th – 27th: Final changes to the City Manager's recommended budget

May

2nd: City Manager's Recommended Budget presented to Council

June

6th: Budget hearing and anticipated budget approval by Council

BUDGET MESSAGE

May 2, 2022

The Honorable Ed Hooks, Mayor Members of the Mebane City Council

Dear Mayor Hooks and Mebane City Council,

Submitted for your consideration is the proposed budget for the fiscal year beginning July 1, 2022. This budget has been prepared in accordance with the North Carolina Local Government Budget and Fiscal Control Act (G.S. 159-8(a)). The budget is balanced and identifies all revenue and expenditure estimates for Fiscal Year (FY) 2021-2022 per G.S. 159-8(b).

Multiple factors influence the annual budget process, including the condition of the national, state, and local economies and the needs identified in our community by elected officials, staff, advisory boards, and citizens. Considering the external effects of the economy and the needs identified for our community, the proposed budget represents a significant amount of careful consideration and study for the City to meet its obligations, fulfill its goals, and remain fiscally healthy.

In preparing the Fiscal Year 2022-2023 (FY22-23) Budget, city staff strived to develop a proactive budget that will balance improving or maintaining current city programs and services with the development of new programs and projects.

FY 22-23 Budget Highlights						
General Fund Expenditures	<u> </u>	\$28,285,589				
Utility Fund Expenditures		<u>\$9,920,803</u>				
Total Expenditures		\$38,206,392				
Utility Capital Reserve Fund		<u>\$1,601,000</u>				
	\$39,807,392					
Property Tax Rate	\$0.47 per \$100 valuation					
	The rate is unchanged from FY 21-22					
Water Rates						
	Inside City	\$7.13 per 1,000 gallons				
	Outside City	\$14.26 per \$1,000 gallons				
Sewer Rates						
	Inside City	\$7.66 per 1,000 gallons				
	Outside City	\$15.30 per 1,000 gallons				
	Water and Sewer Rate	s are 6% higher than FY 21-22				
Garbage/Recycling	\$8 per month per add	ress				
, 3	The rate is unchanged ;					
Cost of Living Increase	3%					
	This is a 1% increase ov	ver the original FY21-22 budget				
	A 3% COLA implemen					
Health Insurance Increase	\$253,085 estimated					
	This is a 20.32% increase	e over FY 21-22				
Retirement Rate Increase	General 22.60%; Law	Enforcement 23.60%				
	This is a 0.75% and 1.0	6% increase over FY 21-22				
	Retirement rates are se	t by the N.C. State Treasurer				

Recommended Budget

General Fund

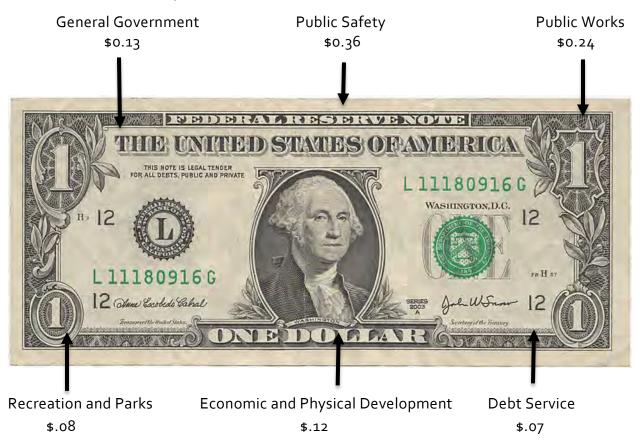

The General Fund accounts for resources not required legally or by sound financial management to be accounted for in another fund. The General Fund includes services that cannot be operated as a business enterprise and rely on tax dollars as their primary source of revenue. The FY 22-23 Recommended Budget for the General Fund totals \$28,285,589, which is 12.9% higher than the FY 21-22 original budget and 1.7% higher than the amended FY 21-22 budget as of May 1, 2022. The FY 21-22 original budget appropriated \$1,950,000 in fund balance, and the amended budget appropriated \$4,319,955 in fund balance.

General Fund Expenditures

Mebane's population continues to grow at a rapid pace, with the 2020 Census showing a 56.21% increase in total population from 2010 to 2020. The new growth brings about increasing demands on city services. To keep pace with this demand and provide new services, the City must provide for necessary resources in the budget. These resources include personnel, supplies, equipment,

and investment in facilities and infrastructure, both old and new. The City of Mebane is dedicated to sound financial management and diligently evaluates all expenditures to maintain a responsible budget and demonstrate good stewardship of public funds. The City's 17 General Fund departments and divisions can be grouped into six primary function areas. Over one-third of every dollar spent in the General Fund goes toward public safety, which includes police and fire services.

General Fund Function per Dollar

Comparing the recommended FY22-23 budget to the revised FY21-22 budget reveals a modest increase of 1.7%. Capital and personnel expenditures and debt service are the primary drivers of the increase. The \$332,884 increase in the police department results from funding a full year of the four police patrol positions approved in the FY 21-22 budget. The \$950,555 increase in the fire department includes purchasing a fire engine for \$650,000 and funding six new firefighter positions starting January 1, 2023. Debt service (\$272,016) was added for the purchase of rolling stock and the Holt Street Greenway project. The increase in the Administration department is primarily attributed to Diversity Training (\$50,000) and the Racial Equity Advisory Committee (\$25,000). Decreases in several departments kept the overall budget increase to a minimum. The reductions are related to one-time expenditures, primarily capital, in the department's FY 21-22 budget that are not in the FY22-23 budget.

General Fund Expenditures by Type									
_	FY 2020-2021	FY 2021-2022	FY 2022-2023 Manager's						
Type	Actual	Current Budget	Recommended	Percent Change					
Personnel	\$10,252,426	\$11,923,290	\$13,693,241	14.8%					
Operating	\$6,445, 320	\$9,193,085	\$8,880,607	(3.4%)					
Capital	\$1,098,336	\$4,170,678	\$3,787,383	(9.2%)					
Debt Service	\$1,450,732	\$2,528,242	\$1,924,358	(23.9%)					
Total	\$19,246,815	\$27,815,295	\$28,285,589	1.69%

Non-Departmental	\$2,015,404	\$3,456,135	\$3,712,113	7.4%	\$255 , 978			
Total	\$18,092,512	\$26,047,163	\$26,131,201	0.3%	\$84,038			

General Fund Personnel Highlights

The FY22-23 budget includes eight new positions and four reclassifications. The new full-time positions include six Firefighter positions beginning January 1, 2023, a Parks Superintendent and an Inspections Plan Reviewer. The full-time reclassifications include a Recreation Superintendent, Supervisor of Athletics, Parks Operations & Maintenance Supervisor, and an Automotive Mechanic. The total cost of these positions for the FY22-23 budget is \$545,935. Additionally, a 3% cost of living increase, as well as health insurance and retirement increases, are included for all personnel.

General Fund Capital Highlights

In order to continue providing outstanding services to the community, the City intends to continue investing in infrastructure and other capital needs during FY22-23. More information about capital projects, including project descriptions, expected funding sources, debt, operating impacts, and schedules, is located in the Capital Improvement Plan section of the budget document. Highlighted below are some of the significant capital projects included in the FY22-23 Recommended Budget. They are all related to General Fund activities and may be included in the General Fund budget or transferred to a capital project ordinance during the year.

Holt Street Greenway - \$900,000

The design and permits for the Holt Street Greenway are complete, and the City is currently in the process of obtaining its last easement. The cost of this project includes a \$250,000 donation from Impact Alamance. This greenway will begin with the MACC serving as a trailhead extending easterly along MoAdams Creek to South Mebane Elementary School.

Fire Engine - \$650,000

The replacement of Engine 32 is necessary to maintain a responsive and capable fleet of fire apparatus. Since 2002, call volume has increased 43%, and an ever-expanding fire district has placed a burden on these engines, ultimately limiting their service as frontline engines. Once retired, the City will surplus Engine 32. Due to supply chain issues, engine delivery is expected two years from the order date.

Leaf Truck - \$320,000

This leaf truck will replace the City's 1999 Mack Leaf Truck with a 2022 Xtreme Vac DCL700CB (or another comparable model) with a chassis mount automated one-person leaf and debris vacuum system, 25 cubic yard capacity self-dumping hopper.

Garbage Truck - \$210,000

This garbage truck will replace the City's 2002 rear loader garbage truck with a 2022 25-yard New Way Cobra Magnum on a Freightliner M2 106 chassis (or another comparable model).

Police Vehicle Replacements - \$260,006

Police vehicles are in constant use in city traffic and therefore experience more wear and tear in a shorter period of time than privately owned vehicles. Police officers must be ready at a moment's notice to respond to any situation, so it is vital the police department have vehicles that are well-equipped and up to date to keep officers prepared and safe. The department plans to replace four vehicles in FY 2022-2023.

Lake Michael Lebanon Rd. Connector - \$121,000

This connector will complete the pedestrian gap between the private sector construction pedestrian routes to the immediate west and east. Of the \$165,000 budget in FY 21-22, \$36,000 was spent on the preliminary design, leaving \$129,000 to roll over to FY 2022 – 2023 and combine with the current request.

Pickup Trucks \$120,000

Three pickup trucks urgently need replacing. The model years being replaced range from 1997 to 2002. The new trucks will be three 2022 Chevrolet Silverado's 2500HD, 4WD Double Cab 162" work trucks with a snowplow added.

Fire Station 4 - \$110,000

The site for the new station is located on Buckhorn Road and is proposed to be donated. This area of the City has experienced an increase in response times for both fire and medical incidents. Additionally, this area has seen tremendous commercial and residential growth, with future development already projected to occur. The new station will improve response times, proper fire load management, adequate water distribution, and comply with the International Organization for Standardization's (ISO) 1.5-mile engine company districts. In addition, the projected population density warrants a fire station to provide adequate fire protection and medical services and provide coverage for voluntary annexations of the rated district. The cost estimate includes a preliminary engineering design.

Sidewalk Projects \$109,000

- S. Third St. Extension from Corporate Park Drive to Augusta Drive (Governors Greene Subdivision) engineering design \$55,000 for Phase I
- W. Carr St./ Yoder Elementary School final design and construction: \$54,000

Mebane Main Street Program

The transitional year of the Mebane Main Street Program has been included within the proposed budget. Per the presentation/discussion at the April budget work session, an amount of \$100,000 has been included to work towards achieving full Main Street Designation in August 2023. City staff will remain heavily involved during the initial phase of this transitional year while the seven members of the Mebane Downtown Associate Community Steering Committee serve as the Provisional Board of Directors (their appointment via adoption of the FY 22-23 budget ordinance) of the to be created 501c(3) entity. The recommendations of the April budget work session Main Street Program Overview presentation will direct the first steps of FY 22-23 with the Provisional Board of Directors & City Officials adding additional items as the program progresses. This

transitional year will result in the FY 23-24 budget process authorizing the commitment to full designation of our Mebane Model Main Street Program.

Outside Agencies

Outside agencies are a minor part of the budget appropriations; however, these agencies provide essential services and quality of life value for the citizens of Mebane.

- The Mebane Historical Museum has long been funded by the City to operate the museum and keep a cultural record of the City's history. No increase was requested.
- The Alamance County Arts Council provides the City with several performances each year, as well as public art sculptures. No increase was requested.
- The volunteer Train Group continues upgrading the Tommy Long Train Collection and has become a top-rated attraction. No increase was requested.
- The Alamance County Transportation Authority (ACTA) provides medical and human service transportation to Mebane residents. ACTA did not request an increase this year.
- Finally, United Way provides 211 services to our citizens who have emergency needs for housing, food, utilities, mental health issues, and other household needs. The 211 service, which connects people with these needs to appropriate agencies for assistance, is being widely used during the coronavirus crisis.

Outside Agencies							
		FV					
	E) (FY 2022-2023					
	FY 2021-2022	Manager's	Percent				
Agency	Current Budget	Recommended	Change				
Mebane Historical Museum Subsidy	\$39,700	\$39,700	о%				
Tommy Long Train Display	\$10,000	\$10,000	о%				
Alamance County Arts Council	\$10,000	\$10,000	о%				
ACTA Subsidy	\$6,500	\$6,500	о%				
United Way 211	\$5,000	\$5,000	о%				
Total	\$71,200	\$71,200	o%				

General Fund Revenues

The City of Mebane continues to experience growth in its primary revenue sources – ad valorem taxes and sales tax. A growing population has naturally contributed to a growing tax base that helps Mebane retain a modest tax rate while providing exceptional services. The total assessed value in Mebane has increased by 56.87% percent between 2012 to 2021, including a revaluation in 2017. The FY22-23 tax base for Mebane is projected to grow by \$97,205,145 (3.8 percent) to \$2,622,918,349, and each penny on the tax rate is equivalent to \$261,243 in revenue. Excluding property tax and sales tax revenues, debt proceeds, and use of fund balance, all other General Fund revenues collectively represent a 6.8 percent decrease from the FY21-22 Amended Budget. Overall, the FY22-23 Budget

reflects a 1.7 percent increase in revenues when compared to the FY21-22 Amended Budget. This modest increase reflects a significant fund balance allocation in FY21-22 primarily due to purchase order carry-overs from the prior fiscal year (\$1.2 million) and a transfer to the Lake Michael Dam Spillway Replacement capital project ordinance (\$908,240). Additionally, the FY21-22 budget included \$480,000 for a Building Reuse Grant, which is not in the FY22-23 budget—adjusting for the grant results in a more accurate picture of revenue trends with a revenue increase of 3.48 percent.

Ad Valorem Tax

Property taxes represent 48.3 percent of General Fund revenues. This category includes taxes on real, personal, and public service companies, as well as fire district taxes. The City's property tax rate is recommended to remain unchanged at \$0.47 per \$100 valuation; the estimated collection rate is 99.6 percent. The East Alamance Fire District sets the tax rate for the fire district. The FY21-22 fire tax rate is \$0.105. An increase in ad valorem revenue of \$570,676 (4.4 percent) is estimated for FY22-23.

Local Option Sales Tax

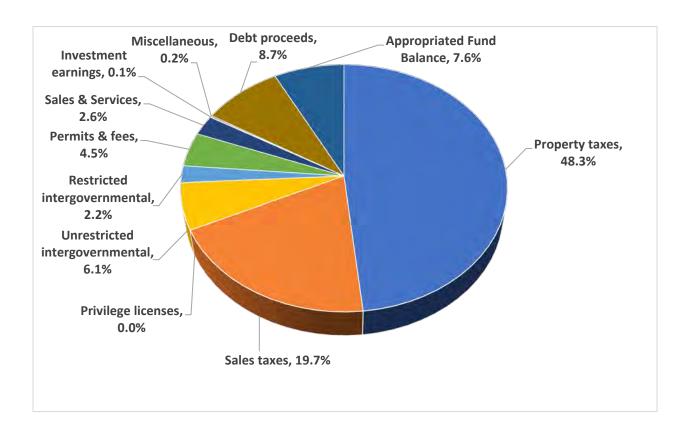

Sales tax represents the City's second-largest revenue source in the General Fund at \$5.6 million (19.75 percent). The State of North Carolina collects sales tax and distributes it to the local units. Sales tax revenues are distributed on a proportional population basis in Alamance and Orange Counties. The population growth in Mebane has allowed the City to increase its share of sales tax revenues. Sales tax revenues have increased over the past several years with a strengthened economy, the natural growth in Alamance and Orange Counties, and because the State expanded sales tax to include some services. The positive trend continued into FY21-22, and the City has experienced an average 34.51 percent year-over-year increase in sales tax each month. The FY22-23 sale tax estimates reflect this positive trend, albeit with a more modest growth rate of 29.81 percent over the current budget and 6.14 percent over the end of year projections.

Fund Balance Appropriation

Fund balance is, simply explained, the amount of assets in excess of liabilities in a given fund. These funds enable the City to meet financial obligations without interruptions due to cash flow, generate investment income, eliminate the need for short-term borrowing, and provide a reserve of funds to respond to emergencies or opportunities. Occasionally, the City will use money from fund balance to cover one-time expenses such as specific capital items. The City evaluates any decision to use fund balance carefully and often plans the use in advance to ensure adherence to the City's fund balance policy. The FY22-23 Recommended Budget includes a fund balance appropriation of \$2,157,078, which adheres to the City's Fund Balance Policy to bridge the funding gap. The appropriation is the maximum permitted by the policy, therefore leaving unassigned fund balance at 50% of expenditures or \$14,142,795. Fiscal year 23-24 is a revaluation year for Alamance County, which will be a more opportune time to assess the future of the City's tax rate.

General Fund Revenues by Source FY22-23

Enterprise Fund (Water and Sewer)

The City of Mebane operates one major fund as an enterprise – the Utility Fund. Enterprise funds provide governmental services that can operate similarly to a business and are self-sustaining with user rates that generate all revenues to cover expenditures.

The Utility Fund

The Utility Fund comprises all revenues and expenditures that result from the City's water and sewer utility operations. Customer charges and fees generate enough revenue to support the fund completely. The FY22-23 Recommended Budget for the Utility Fund totals \$9,920,803, a 48.24 percent decrease from the FY21-22 Amended Budget of \$19,165,348 as of May 1, 2022, and a 4.41 percent decrease from the FY21-22 Original Budget.

Utility Fund Expenditures

The FY22-23 Utility Fund Budget reflects a decrease in all expenditure categories except personnel. The personnel increase is primarily due to the addition of two new full-time Maintenance Technicians at the cost of \$107,960 in FY22-23. Additionally, a 3% cost of living increase, as well as health insurance and retirement increases, are included. During FY21-22, the City refunded \$3 million of utility fund debt and transferred \$3.5 million to a capital project ordinance for the WRRF expansion. Additionally, \$1,900,000 was budgeted in FY21-22 for the GKN Pump Station Reroute. These transactions will not be repeated in FY22-23, which is why the expenditures decreased from year to year. The Utility Fund is not issuing any new debt in FY22-23.

Utility Fund Expenditures by Type								
Туре	FY 2020-2021 Actual	FY 2021-2022 Current Budget	FY 2022-2023 Manager's Recommended	Percent Change

Utility Capital Highlights

In order to continue providing clean, safe, reliable water and to collect wastewater in a manner that protects public health and the environment, the City intends to continue investing in infrastructure and other capital needs during FY22-23. More information about capital projects, including project descriptions, expected funding sources, debt, operating impacts, and schedules, is located in the Capital Improvement Plan section of the budget document. Some of the significant capital projects included in the FY22-23 Recommended Budget are highlighted below. They are all related to Utility Fund activities and may be included in the Utility Fund budget or be transferred during the year to a capital project ordinance.

Oversize Reimbursement - \$200,000

This amount represents payments to increase the size of water and sewer mains on development projects to allow for future growth. The expected projects include Oakwood for \$125,000, Buckhorn for \$15,000, Cambridge for \$25,000, Tupelo for \$25,000, and Meadowstone for \$10,000.

City of Graham Water Treatment Plant Improvements - \$200,000

Mebane has a 50% ownership interest in Graham's water treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Elevated Storage Tank - \$185,000

A new 1 million gallon (MG) elevated storage tank is necessary because the existing elevated storage tank is too small to equalize projected water demands and sustain fire flows. Currently, the water system compensates for the lack of storage capacity by taking advantage of surplus pumping capacity at the water plant using ground storage at the clear wells. However, this strategy will only work until the projected max day demand exceeds the firm pumping capacity at the plant, which is expected to happen by 2030. This cost includes engineering design.

Utility Fund Revenues

Projections for Utility Fund revenues rely on variables such as the size of the customer base and water usage. The FY22-23 Recommended Budget includes \$8.4 million in revenues from water and sewer charges, an increase of 11.3 percent. New customer growth is expected to be approximately 400 residential homes. The continued customer growth rate and an increase in water and sewer fees account for the rise in sales and services. The Recommended Budget includes a six percent rate increase for both water and sewer to fund the WRRF renovation debt. The decrease in intergovernmental revenues is due to moving the engineering construction inspection fees to the permits and fees category.

The debt proceeds in FY21-22 are related to the purchase of rolling stock, the revenue bond issue for the GKN pump station reroute, and the debt refunding. The FY22-23 budget does not include issuing any debt.

Water and Sewer Rates

In FY21-22, the City issued revenue bonds to fund the WRRF Renovation, the GKN Pump Station Rehabilitation and to refund \$3.5 million in debt. A feasibility study was performed to evaluate if the City's current and future customer base and usage could support the debt while maintaining operations. The study revealed the City's base could support the debt; however, rates would need to increase in FY21-22 and FY22-23. Additionally, the rates would need to modestly increase each year afterward to keep up with the capital needs of the utility system. In FY21-22, both water and sewer rates were raised by ten percent. The Recommended Budget includes a six percent increase in both water and sewer rates. The increase will ensure the fund can cover all debt and be able to maintain the current system. The average customer uses 4,000 gallons of water per month; therefore, the monthly increase for an average customer is \$3.40.

Water and Sewer Rates									
Fiscal Year	Inside Water	Outside Water	Inside Sewer	Outside Sewer	Increase				
FY21-22	\$6.72	\$13.44	\$7.22	\$14.43	10%				
FY22-23	\$7.13	\$14.26	\$7.66	\$15.30	6%				

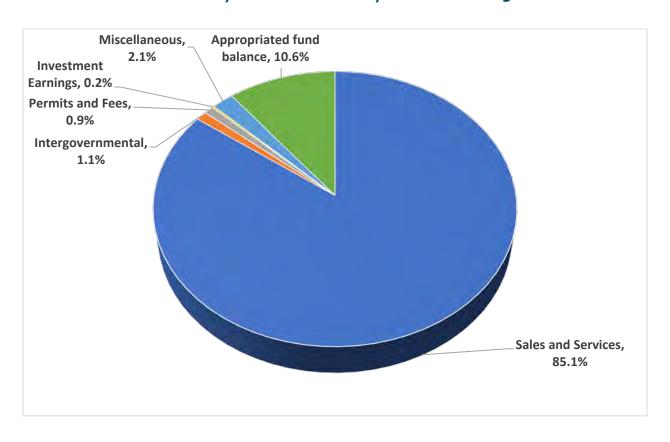

^{*}Rates are per 1,000 gallons

Fund Balance Appropriation

The FY21-22 appropriated fund balance consists primarily of a \$3.5 million transfer to the WRRF 1.5 MGD Expansion capital project ordinance. For the FY22-23 Budget, despite the six percent rate increase, there remains a \$1,047,212 gap between expenditures and revenue. Prior gaps were partially filled by transfers-in from the Capital Reserve Fund; however, that is not recommended for the FY22-23 budget. The City is focused on building up fund balance in the reserve fund to lower the debt required for the WRRF 1.5 MGD Expansion project. The Recommended Budget includes a fund balance appropriation to close the funding gap. The appropriation is in line with the Fund Balance Policy.

Utility Fund Revenues by Source FY22-23

Utility Capital Reserve Fund

This fund is used to account for system development fees. The estimated revenues for FY22-23 are \$1,601,000, which is an increase of 22.3% over the FY22 revised budget. Growth projections support this estimate. The goal is to build up fund balance in the reserve fund to reduce the amount of debt necessary for the WRRF 1.5 MGD Expansion project. Therefore, no transfers are

in the Recommended Budget for FY22-23. There was one transfer in the current year to purchase land for the elevated water tank (\$199,177).

Conclusion

In summary, the Recommended Budget is a balanced budget in accordance with state statutes. While it is typically difficult to fund all the requests made by departments or external agencies, the budget team included as many requests as possible. The FY22-23 Budget is fiscally sound and addresses the top priority needs of the City. The City's sound financial practices and conservative budgeting approach have positioned it to continue delivering high-level services for Mebane's residents. This budget reflects our commitment to maintaining and improving our community and positioning Mebane to be financially sound in the future. I recommend this proposed budget for the Fiscal Year 2022-2023 to the Mebane City Council

Respectfully submitted,
Chris Rollins
City Manager

BUDGET SUMMARY SECTION

- The City-Wide FY22-23 recommended budget is \$39,807,392.
- The Fiscal Year 22-23 was prepared with the tax rate of \$.47 per \$100 assessed valuation.
- The Fiscal Year 22-23 budget reflects a 6% increase to both water and sewer rates. This is to fund the WRRF renovation.
- The Fiscal Year 22-23 expenditures include funding for a total of 167 full-time positions in both funds.
- The Fiscal Year 22-23 includes a 3% cost of living adjustment for all full-time employees and regular part-time employees. Merit pay is also included for full-time employees.
- A summary breakdown of the Fiscal Year 2022-2023 budget is as follows:

General Fund Budget	\$28,285,589
Water & Sewer Fund Budget	\$9,920,803
Utility Capital Reserve Fund Budget	\$ 1,601,000
Total	\$39,807,392

• The Fee Schedule is in the Budget Summary Section on page 25.

Notes:						

Information from the January 1, 2022 Rate Dashboards of the UNC School of Government Environmental Finance Center, or from the website of each unit of government or directly from the unit of government.

Orange-Alamance and Ossipee do not provide sewer service.

5,000 gallons a month is considered an average statewide residential user; Mebane residents average closer to 4,000 gallons a month; so 4,000 gallons have been used for this comparison.

BUDGET SECTION

GENERAL FUND DEPARTMENT BUDGET

GENERAL FUND

CITY COUNCIL

FY 22- 23 Manager's Recommended Budget

City Council

The City Council is the governing body of the City of Mebane, and consists of the mayor and five other councilmembers.

The City Council's budget includes salaries and stipends for members, supplies, and dues for members to NC League of Municipalities, UNC School of Government and Peidmont Triad Regional Council.

ADMINISTRATION

FY 22- 23 Manager's Recommended Budget

Administration

Administration includes the City Manager and Assistant Manager, City Clerk, City Attorney and Human Resources.

The personnel budget for Administration includes an allowance for a 3% cost of living increase, an increase in the retirement contribution and insurance rates netted with an allocation (\$314,941) of administrative costs to the Utility Fund for the administrative staff's time spent on utility-related projects and administrative support. The operating budget includes continued funding for risk management, safety initiatives, employee benefits administration, board and commission expenses, along with an increase in various line items. No capital requests are being made this year.

FINANCE

FY 22- 23 Manager's Recommended Budget

Finance

The Finance Department consists of six employees responsible for all revenue collections and financial reporting for the City. One position, the Utility Billing & Collections Specialist, is funded by the Utility Fund.

The 2022 personnel budget includes a 3% allowance for a cost of living, an increase in the retirement and insurance rates netted with an allocation (\$205,821) of administrative costs to the Utility Fund for the Finance staff's time spent on utility-related projects and administrative support. The operating budget includes the continued contract with Alamance and Orange Counties for tax collection (which increases as taxes increase), audit preparation, the addition of Adobe Sign to increase efficiencies, and reflects various rate increases to other line items. No capital request were made this year.

INFORMATION TECHNOLOGY

FY 22- 23 Manager's Recommended Budget

Information Technology (IT)

The IT Department has two employees and is responsible for management and maintenance of the citywide network of servers, computers and peripherals.

The 2023 budget includes a 3% cost of living adjustment, an increase in the retirement and insurance rates netted with an allocation (\$90,844) of administrative costs to the Utility Fund for the IT staff's time spent on utility-related projects and administrative support. The operating budget for 2023 provides for the continuation of work to secure the city's growing network, including firewalls, backups and other disaster recovery measures, along with cybercrime measures and consolidating backup charges from other departments into the IT budget. As the number of users in the network increases, so do annual charges and backup fees. The capital line includes upgrading the door system at the fire stations (\$30,000), upgrading network switches (\$10,000), increasing wireless access points (\$22,300), and adding wireless connectivity to Giles Park (\$5,000).

ECONOMIC DEVELOPMENT

FY 22- 23 Manager's Recommended Budget

Economic Development

The Economic Development division provides for the City's efforts to attract desirable new businesses, industries and jobs.

Incentive payments are triggered by request of companies when they successfully achieve the level of investment and jobs creation specified in their agreements with the City. Aided by revenue sharing with our partners Alamance County, Orange County and the City of Graham, the 2023 budget for Economic Development provides for the continuation of existing agreements.

POLICE

FY 22- 23 Manager's Recommended Budget

Police

The Police Department includes the Police Chief and sworn law enforcement officers who, along with their support staff, maintain the safety and peace of the community.

The Police personnel budget for 2023 includes a 3% cost of living adjustment and an increase in the retirement and insurance rates. No additional positions have been requested this year. Operating costs include communications and animal shelter services with Alamance County, community outreach and education, and training and development for staff. Capital requests include four replacement vehicles (\$260,000) and all upfitting and equipment costs (\$115,000). Two vehicles will be used for patrol and two will be used for K9 policing.

FIRE

FY 22- 23 Manager's Recommended Budget

Fire

The Fire Department coordinates career and volunteer staff at three stations for providing suppression and life safety services to the City, including first responder services.

The Fire personnel budget for 2023 includes a 3% cost of living adjustment, an increase in the retirement and insurance rates, and six new firefighter positions budgeted to begin on January 1, 2023. Operating cost increases are primarily due to uniform and equipment needs for new staff and increased bank charges for payments being taken online for inspections and permits. The capital costs reflect replacing five HVAC units at Station #2 (\$40,000), reparing the ceiling in the upstairs portion of Station #1 (\$15,000), bids on construction for Fire Station #4 (\$110,000), replacing two fire engines (\$650,000), adding a fire prevention vehicle (\$45,000) and life safety vehicle (\$35,000), and replacing the thermal imaging camera (\$10,000).

PLANNING

FY 22- 23 Manager's Recommended Budget

Planning

The Planning Department provides long- and short-range planning and review, to provide for the orderly and safe growth of the City.

The Planning personnel budget for 2023 includes a 3% cost of living adjustment, and an increase in the retirement and insurance rates. Operating increases reflect the costs for the comprehensive plan \$200,000. Capital requests include a vehicle (\$35,418) and new plotter/scanner (\$9,665).

INSPECTIONS

FY 22- 23 Manager's Recommended Budget

Inspections

The Inspections Department provides permitting and code enforcement for safe growth of the City.

The Personnel budget for 2023 includes a 3% cost of living adjustment and a rate increase for retirement and insurance. One position was requested to add a Plan Reviewer. The Operating budget for 2023 includes an increase for bank charges for online payments, iWorq contract, and Laserfiche scanning. One capital request has been made for two replacement vehicles for inspectors (\$56,000)

ENGINEERING

FY 22- 23 Manager's Recommended Budget

Engineering

The Engineering Department consolidates the costs of the General Fund's plan review, construction review, technical review and other engineering services required to provide for the orderly and safe growth of the City. The services include technical review, construction inspections, stormwater engineering, as well as our City Engineer's various services.

The Operating budget for 2023 will remain the same as 2022.

PUBLIC WORKS

FY 22- 23 Manager's Recommended Budget

Public Works

The Public Works Department manages and maintains the City's streets, sidewalks, drainage systems and cemeteries, including infrastructure maintenance, landscaping and emergency/inclement weather response.

Funding sources for Public Works include Powell Bill funds and cemetery plot sales. Personnel costs include a 3% cost of living increase, an increase in the retirement and insurance rates, and the addition of an Automotive Mechanic. Operating expenses in 2023 reflect an increase in schools for CDL licensing for seven employees, street maintenance, street lights, and other miscellaneous costs. Capital requests include renovations to the public works office to provide a public entrance (\$7,000), various sidewalk projects and design studies for street projects (\$1,224,000), replacing a pickup truck (\$40,000) and purchasing a brine mount system and body (\$50,000).

PUBLIC FACILITIES

FY 22- 23 Manager's Recommended Budget

Public Facilities

The Public Facilities budget provides for citywide maintenance and upkeep of City property including the Mebane Library, City Hall, cemeteries, and the Veteran's Garden.

The 2023 personnel budget includes a 3% cost of living adjustment and an increase in the retirement and insurance rates. The 2023 operating budget includes maintenance of all greenspace along public streets and rights-of-way, including an increase for tree removal (\$25,000), and maintenance all municipal buildings. Capital requests include adding an office to the former reception area at City Hall (\$7,000) and development and signs for Giles Park (\$25,000).

SANITATION

FY 22- 23 Manager's Recommended Budget

Sanitation

The Sanitation division provides for weekly garbage, recycling and yard waste pickup for residents within the City.

Sanitation's personnel budget provides for a 3% cost of living adjustment and an increase in the retirement and insurance rates. The operating budget includes costs for yard-waste, bulk and trash cart collections, as well as costs for material disposal. Capital requests include replacing two pick up trucks with plows (\$80,000), replacing one rearloading trash collection vehicle (\$210,000) and replacing one leaf collection vehicle (\$320,000).

RECREATION & PARKS

FY 22- 23 Manager's Recommended Budget

Recreation

The Recreation Department provides cultural and recreational opportunities to the residents of the City, including programming and maintenance at the athletic parks, two recreation centers, Lake Michael, Cates Farm and pocket parks throughout the city.

The 2023 personnel budget includes increases in part-time salaries, a 3% cost of living adjustment and an increase in the retirement and insurance rates, as well as reclassifications of one position to a Recreation Superintendent, promotion of three employees and adding a Parks Supertintendent. Operating costs include maintenance of various playground equipment, the boat house at Lake Michael, program support, and maintenance and repairs to facilities. Many requests are responsive to the needs of the growing community. Capital requests include various building repairs (\$172,500), replacement projectors at the MACC (\$13,000), bleacher rails (\$10,000), a storage building (\$8,500), the Lake Michael/Lebanon Road connector (\$121,000), a maintenance truck (\$35,000), and a gate camera at Lake Michael (\$5,500).

NON-DEPARTMENTAL

FY 22- 23 Manager's Recommended Budget

Non-Departmental

The Non-Departmental division includes general government expenditures that are not specific to any one functional area. Included in this department are group insurance contributions, outside agencies, property and liability insurance, unemployment insurance, debt payments (both principal and interest), and interfund transfers.

Personnel costs for Non-Departmental include retiree health and unemployment benefits, with the increase reflecting both rate changes and anticipated retirements in 2023. Continuing operating costs include allocations to nonprofits with slight increases in the allocation to United Way and the Mebane Historical Museum. New debt includes the purchase of a fire engine (\$520,000), rolling stock (\$1,046,006), and the Holt Street Greenway project (\$900,000).

WATER & SEWER FUND DEPARTMENT BUDGET

UTILITY ADMINISTRATION

FY23 Manager's Recommended Budget

Utility Administration

The Utility Administration division includes billing and collections costs, the allocation of administrative costs from the General Fund and replacement and repair of new meters and the extension of other utility infrastructure.

The Personnel budget includes a 3% cost of living allowance, an increase in the retirement rate, and a continued allocation (\$744,976) of administrative costs to the Utility Fund for administrative staff's time spent on utility-related projects and administrative support. Operating expenses are increasing with growing fees for credit cards and online services as more customers choose online services. The capital budget includes new meters at \$200,000 for growth.

UTILITY OPERATIONS & MAINTENANCE

FY23 Manager's Recommended Budget

Utility Operations & Maintenance

Utility Operations and Maintenance monitors all pump stations and provides maintenance for the water and sewer systems, including installation of new service and coordinating with Finance for cutoffs for nonpayment.

The personnel budget for 2023 includes a 3% allowance for cost of living increases and a rise in the City's retirement rate, as well as two new Maintenance Technicians. The Operating budget has a large increase for CDL licensing for nine employees, cost sharing for monument signs, and pump station beautification. Additional costs for chemicals also increased this line by 70%. Capital spending includes design phase of the elevated storage tank for \$185,000, water treatment plant repairs at \$200,000, oversizing reimbursements for \$200,000 and replacing the outfall tractor for \$60,000.0

UTILITY ENGINEERING

FY23 Manager's Recommended Budget

Utility Engineering

The Utility Engineering division consolidates the cost of the City Engineer for utility-related projects including design, review, testing and administrative functions like attending Council meetings.

Technical review and construction inspection on development projects account for a majority of the engineering costs.

Revenues	20)-21 Actual	22 Current Budget	22-23 anager's ommended	% Change

WATER RESOURCE RECOVERY FACILITY (WRRF)

FY23 Manager's Recommended Budget

Water Resources Recovery Facility (WRRF)

This division operates and maintains the WRRF in order to remove nutrients from the city's wastewater to return it to the environment.

The WRRF budget for 2023 includes a 3% allowance for cost of living increases and an increase in the retirement rate. General operating costs include a measurable increase in the cost of fuel for vehicle and buildings as well as chemicals. Capital costs for 2023 are shared costs for upgrades to Graham's Water Plant \$52,000, replacing a golf cart with a Gator to increase safety for employees performing inspections around the exterior of the plant at \$11,700, influent in-line monitoring at \$26,198 and an aeration basin electrical upgrade \$50,000.

SECTION 1: OVERVIEW OF THE CAPITAL IMPROVEMENT PLAN

The Capital Improvement Plan (CIP) is the planning mechanism by which the City Council allocates limited financial resources to implement long-term goals as defined in the Comprehensive Land Development Plan, Comprehensive Transportation Plan, Bicycle and Pedestrian Transportation Plan, Mebane Downtown Vision Plan, Recreation and Parks Master Plan, Long Range Utility Master Plan, and other similar planning documents. The purpose of the CIP is to forecast and match projected revenues and significant capital needs over five years. Capital planning is an important management tool that strengthens the linkage between community infrastructure needs and the City's financial capacity.

The CIP is a multi-year plan for significant capital expenditures such as the acquisition of land, construction or considerable renovation of public facilities (i.e., buildings and parks), construction of new transportation infrastructure (i.e., roads, sidewalks, multi-use paths), expansion or significant renovation of water, wastewater, or stormwater infrastructure, capital equipment to support operations, or any combination of the above. Projects eligible for inclusion in the CIP are those with an asset value of greater than \$25,000 and useful life of greater than three years.

When identifying new projects, staff looks to the long-term priorities and direction set by City Council and submits formal requests through the CIP process. A formal request includes a description of the project, the estimated cost, and an estimate of the recurring expenses associated with a completed project (i.e., additional staff, additional utilities, etc.). The formal request also includes alternative solutions, if any, and a statement on the effect on services and programs if the project is not funded.

Once adopted by the City Council, the CIP becomes a statement of City policy regarding the need, priority, timing, and funding of future capital projects. The Capital Improvement Plan is simply that – a plan. As such, projects and funding mechanisms are subject to change based on new or shifting service needs, unique financing opportunities, emergency needs, or other directives or priorities established by the City Council. Future needs and financial constraints may result in changes in priority over the five-year period. Because priorities can change, projects included in outward planning years are not guaranteed funding. The CIP represents the City Administration and City Council's best judgment when the Plan is adopted. Priorities established in the CIP subsequently guide decisions made by City Administration and the various boards and commissions appointed by City Council.

RELATIONSHIP TO THE ANNUAL OPERATING BUDGET

Some CIP projects are funded through annual operating funds, such as the General Fund and the Water and Sewer Fund. In these cases, the CIP and the Annual Operating Budget are directly linked as CIP projects become authorized through the adoption of the Annual Operating Budget. Projects funded through debt financing also impact the operating budget through ongoing debt service expense. Finally, some completed CIP projects will directly impact the operating budget as they will require ongoing expenditures for staff and other operating costs.

CIP STRUCTURE

The CIP is organized into six functional categories, called "elements," in order to group projects with similar items.

- 1. **Transportation Element:** funds the construction of new roadways, improvements to existing roadways, sidewalks, bicycle, and pedestrian facilities, transit projects, and railroad crossing improvements. The Bike and Pedestrian Plan is funded in this element.
- 2. Parks, Recreation, and Cultural Resources Element: funds land acquisition for new park and greenway facilities, the construction of park and recreation amenities, and significant renovations of current facilities. Implementation of the Parks and Recreation Master Plan is funded in this element.
- 3. **Public Safety Element:** funds the acquisition of capital equipment to support the operations of the two public safety departments in the City (Fire and Police). Public safety facilities are considered in the public facilities element.
- 4. **Public Facilities Element:** funds construction and significant renovation of general government and public safety facilities and infrastructure. This element also funds improvements to communications and technology infrastructure.
- 5. **Public Works & Environmental Services Element:** funds projects designed to manage and mitigate the effects of stormwater runoff, manage the collection and disposal of solid waste, and maintain streets. These projects include structural improvements, Stormwater Control Measure (SCM) construction, and infrastructure replacement. They also include the equipment needed to manage solid waste collection and maintain City streets.
- 6. Water and Sewer Utility Element: funds the construction and improvement of water and sewer infrastructure. These projects include main additions and replacements, water/wastewater treatment plant renovations/expansions, filter rehabilitation, pump station additions, infrastructure replacement, and the equipment necessary to maintain the system

CAPITAL IMPROVEMENT FUNDING

The funding sources used to execute the Plan are as important as the capital projects contained in the Plan. Capital Improvements for the City of Mebane are funded using a variety of sources that are broadly categorized as cash, grants, or debt financing.

Cash, or pay-as-you-go (PAYGO), funds come from sources such as tax revenue, development-related fees, program fees, State revenue, and interest earnings. Some of these sources, such as State revenue from the Powell Bill, and certain others, may only be spent to meet particular needs. Other revenue sources come with no restriction on the needs they may be used to address. Major funding sources for the CIP are as follows:

<u>General Fund</u>: General Fund revenue, such as ad valorem taxes, sales taxes, utility taxes, and other similar revenues, are used to fund City operations and may be used to fund capital projects such as facility improvements, transportation system improvements, and other similar projects. Compared to other sources, General Fund resources are a flexible revenue source without restrictions on their use.

<u>Enterprise Funds</u>: Enterprise funds, such as the water/sewer fund, collect user fees as part of their operations, then invest a portion of that revenue into capital projects. The City uses these funds only for corresponding enterprise projects.

<u>Water/Sewer Capital Reserve Fees</u>: These fees are charged, based upon a City Council-approved System Development Fee Schedule, to developers of land within the City of Mebane to pay for the capital facility burden created by new development. Revenue from these fees is restricted for capital improvements to the water/sewer system or to fund debt service payments for improvements to these systems.

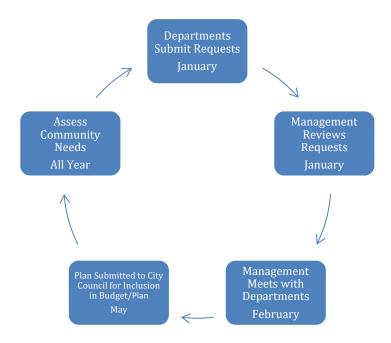

<u>Debt Financing</u>: For debt financing, the City uses several types of debt mechanisms, including revenue bonds and traditional lease-purchase or installment financing. The tool selected varies depending on the level of funding needed, the term of the need, and current debt market conditions. The City does not currently have general obligation bonds; however, they require approval by voters and are backed by the City's taxing authority to repay the bonds. Revenue bonds pledge the revenue generated by specific enterprise (water and sewer) charges.

<u>Grants:</u> The City actively searches out local, state, and federal grant opportunities. Expenditures are normally restricted to the purpose of the grant and, at times, will require a matching contribution from the City.

<u>Reserve from Prior Years:</u> As projects are completed, unspent budgeted amounts accumulate into reserves, available for future projects. Reserves can also build up when the City collects revenue in excess of the amount budgeted.

EE CIP PROCESS

The process for developing the CIP, as illustrated below, begins shortly after the beginning of a new fiscal year (July 1) as staff considers unmet capital needs in the recently adopted budget and other emerging needs. For each project, staff in the requesting department complete a CIP project request form and compile supporting documentation. All CIP project requests are due by the beginning of January of each year.

CIP PRACTICES

<u>Long-Range Cost Estimates:</u> Using the upcoming fiscal year as the base, staff consult the City Engineer to estimate future construction costs better.

<u>Closing Projects:</u> Projects are closed when the approved scope of work is complete. Staff reviews project statuses periodically to identify finished projects that can be closed. If the budget for a completed project is not fully expended, generally, the budget is closed, and the remaining balance accumulates in the fund balance. The accumulated fund balance is available to pay for future projects.

<u>Horizon Issues</u>: The proposed CIP funds the City's highly prioritized needs. Staff reviews and analyzes the project details supporting these projects and considers them ready to move forward.

However, in many situations, the City has identified a future need but has not yet completed a detailed analysis, weighed options, or designed a specific facility. These projects include facilities, capital infrastructure, and business systems needed in the future, often beyond the CIP's five-year timeframe.

PLANNING BY FUND

The following sections represent a description of the projects submitted, by element, for the five-year planning timeframe under consideration. Each element begins with a brief description of what types of projects are funded and includes a tabular summary of all projects considered and the proposed revenue source to fund the projects each year. At the end of each section, there is a summary table showing the total cost of the projects in each year and the total of each revenue source. More details regarding the cost of borrowing are provided in each summary section. The reference to "Local Revenue" in the revenue portion of the tables is indicative of the need for current year funding for some projects/purchases in each year. This could include appropriation of reserve funds from one or both of the major funds: General and Water and Sewer.

SECTION 2: GENERAL FUND

A majority of projects included in the CIP are housed in the General Fund. This revenue is generated in large part by ad valorem taxes, along with sales taxes, utility taxes, and other similar revenues.

The types of capital projects that qualify for this fund include facility improvements, transportation system improvements, and other similar projects.

Compared to other sources, General Fund resources are a flexible revenue source without restrictions on their use.

The icons below signify each element within the General Fund. They are located on the top right corner of the pages that are associated with their projects.

Transportation Element

Public Safety Element

Parks, Recreation, and Cultural Resources Element

Public Facilities Element

Public Works and Environmental Services Element

TRANSPORTATION ELEMENT PROJECTS

Projects Funded: Construction of new roadways, improvements to existing roadways, sidewalks, bicycle, and pedestrian facilities, transit projects, and railroad crossing improvements.

Transportation infrastructure, like Clay Street shown on the right, is the location of a charming collection of cafes, restaurants, and unique shops and the site of outdoor music events in the summer.

The table below shows each of the projects submitted for consideration in this year's CIP process and the project's estimated cost in each fiscal year in the Plan. In addition, Section 6 of this document contains detailed information regarding the proposed funding source for each project.

Transportation Element	Total	FY22-23	FY23-24	FY24-25	FY25-26	FY26-27
Holt Street Greenway	\$ 900,000	900,000	-	-	-	-

Element Total	\$ 3,270,000	\$ 1,109,000	\$ 440,000	\$ 626,000	\$ 400,000	\$ 695,000

 $[\]boldsymbol{\ast}$ Cost to be determined for the year highlighted.

Holt Street Greenway

\$900,000

The design of the Holt Street Greenway is complete, and the City is currently in the process of obtaining permits and easements. The cost of this project includes a \$250,000 donation from Impact Alamance. This greenway will begin with the MACC serving as a trailhead extending easterly along MoAdams Creek to South Mebane Elementary School.

Sidewalk Projects \$109,000

- S. Third St. Extension from Corporate Park Drive to Augusta Drive (Governors Greene Subdivision) engineering design \$55,000
- W. Carr St./ Yoder Elementary School final design and construction: \$54,000

Downtown Stamped Asphalt Crosswalk Refurbishing

\$70,000

This project will result in the refurbishment of sixteen crosswalks at the intersections of W. Clay St. and Second St., Third St., Fourth St., and Fifth St.

Dead-end Street Reconstruction

\$30,000

Preliminary engineering design for turnarounds for six dead-end streets in the City that cause issues for the sanitation trucks and neighborhoods.

Sidewalk Projects

\$210,000

- N. Second St.(W. Graham St. to Second St.) and Crawford St. (Second St. to First St.)
 construction: \$125,000
- Crawford St. from N. Charles St. to N. First St. preliminary engineering design: \$30,000
- S. Third St. Extension from Augusta Drive to Gibson Rd (Cooperstone Subdivision) engineering design \$55,000

Dead-end Street Reconstruction

TBD

Construction of turnarounds for six dead-end streets in the City that cause issues for the sanitation trucks.

Signal Light and Control Box Replacement

\$50,000

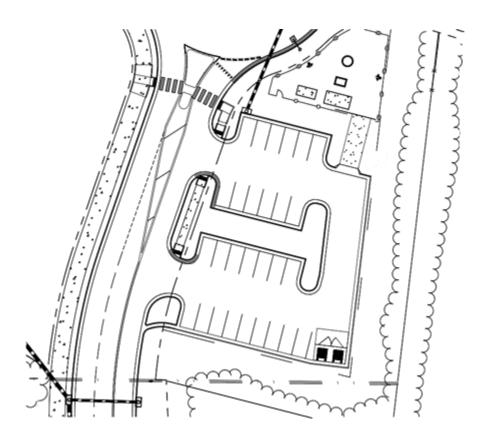

This is a scheduled replacement of Fourth & Clay or Third & Clay intersection signal light/control box. A consultant will be inspecting all City operated signal lights/control boxes in FY 22-23 to report estimated duration.

Community Park Gravel Lot

\$130,000

The project would include the conversion of the current gravel parking lot to a paved curb & gutter parking lot. This will result in the reduction of total parking spaces from 40 gravel spaces to 28 paved curb & gutter spaces.

Repave Old Rec Parking Lot

\$50,000

In 2020, the City painted the Old Rec parking lot. Currently, the asphalt condition makes repainting and filling cracks unfeasible, and repaving is the most efficient path forward.

2024 - 2025

Sidewalk Projects

\$206,000

- Sidewalk Connection/Extension to Asbury Blvd. preliminary engineering design: \$30,000
- Crawford St. from N. Charles St. to N. First St. construction: \$176,000

Third-Fifth St. Connector Greenway

\$40,000

This greenway will serve as both an extension of the Holt Street Greenway and a pedestrian connection between South Third and Fifth Streets. City staff is in communication with Duke Energy regarding an easement for construction along their transmission line. Cost includes easements and preliminary engineering design.

Repave Mebane Arts and Community Center (MACC.) Parking Lot

\$380,000

In 2020, the City repainted and crack filled the MACC parking lot, understanding it was the last time this option for repair would be recommended. Repaving is recommended to maintain the parking lot.

2025 - 2026

Sidewalk Projects

\$400,000

- Third St. Extension from Corporate Park Dr. to Augusta Dr. (Governors Greene Subdivision) construction
 - o Easement costs will be added after preliminary engineering design.

2026 - 2027

Sidewalk Projects

\$445,000

- Connection to Collington Farm Subdivision preliminary engineering design: \$45,000
- Third St. Extension from August Dr. to Gibson Rd. (Copperstone Subdivision) construction \$400,000
 - o Easement costs will be added after preliminary engineering design

Third-Fifth St. Connector Greenway

\$250,000

This greenway will serve as both an extension of the Holt Street Greenway and a pedestrian connection between South Third and Fifth Streets. This cost includes construction.

PARKS, RECREATION, AND CULTURAL RESOURCES ELEMENT

Projects Funded: The construction of park and recreation amenities, expansion of existing parks, and significant renovations of current facilities.

Community Park Splash Pad

Mebane Baseball/Softball Complex

The City of Mebane is proud to have over 350 acres in its nine beautiful parks for its citizens, including many amenities that satisfy the community's wants and needs. These amenities include twelve ball fields, nine tennis courts, five playgrounds, over four miles of trails and multi-use paths, two pocket parks, and many other recreation opportunities within these parks.

The table below shows each of the projects submitted for consideration in this year's CIP process and the project's estimated cost in each fiscal year of the Plan. In addition, Section 6 of this document contains detailed information regarding each project's proposed funding source.

Parks, Recreation, and Cultural Resources Element	Total	FY	22-23	FY23-24	FY24	-25	F	Y25-26	FY26-27
Lake Michael Dam Spillway	\$ 6,000,000		-	6,000,000		-		-	-
Lake Michael Lebanon Rd. Connector	\$ 121,000	:	21,000	-		-		-	-
Community Park Fiddler Stage	\$ 75,000		75,000	-		-		-	-
Shade Cover for Fitness Court	\$ 55,000		-	55,000		-		-	-
Lake Michael Remaining Trail*	\$ 45,000		-	45,000		-		-	-
Maintenance Truck	35,000		35,000	-		-		-	-
Pickle Ball Courts*	\$ -		-	-		-		-	-
Youth Walker Field Repurpose*	\$ -		-	-		-		-	-
Shade for Farmer's Market*	\$ -		-	-		-		-	-
Community Park Expansion*	\$ -		-	-		-		-	-
Lake Michael Pier Replacements	\$ 150,000		-	-		-		150,000	-
Element Total	\$ 481,000	\$:	231,000	\$ 6,100,000	\$	-	\$	150,000	\$ -

^{*} Cost to be determined for the year(s) highlighted.

Lake Michael Lebanon Rd. Connector

\$121,000

This connector will complete the pedestrian gap between the private sector construction pedestrian routes to the immediate west and east.Of the \$165,000 budget in FY 21-22, \$36,000 was spent on the preliminary design, leaving \$129,000 to roll over to FY 2022 – 2023 and combine with the current request.

Community Park Fiddler Stage

\$75,000

The Mebane Community Park Fiddler Stage will improve residents' health and wellbeing by providing movies, concerts, and other programs related to arts in a safe environment. The stage cover will provide an aesthetically pleasing shade structure for the residents and a sound barrier to nearby homeowners during performances at the Mebane Community Park.

Maintenance Truck \$35,000

This truck is only needed if the Park Superintendent position is approved. The Plan is to purchase a Chevy Silverado 1500 or a comparable truck.

FY 2023 - 2024

Lake Michael Dam Spillway

\$4,000,000 to \$6,000,000

Construction will occur after the preliminary engineering design, permitting, and debt service/bonding is completed. The construction cost and resulting debt service/bonding will be determined once DEQ approval is authorized.

Shade Cover for Fitness Court

\$55,000

Adding a shade cover for the fitness court will increase use during hot weather due to the cooling effect. A three-pole system and shade sails are the best options based on the size of the footers required.

Lake Michael Remaining Trail

\$45,000

The Lake Michael Trial extension will provide an excellent trail completing the loop entirely around Lake Michael. In addition, the trail will provide another wonderful active amenity for the residents of Mebane and eventually tie into the Mebane Greenway from a nearby subdivision. City Council approved the application for a \$100,000 NC Trails Grant to help with the cost of this project. Once

the final design and engineering are complete, the City will submit the grant. The bulk of the funds will be associated with bridges and boardwalks. This cost is for preliminary engineering design.

Pickle Ball Courts TBD

Pickleball is a growing sport that the City only offers to residents indoors at the MACC. As a result, many residents have requested outside courts. The Parks and Recreation Master Plan Update will determine the location for the courts. The completion of the Plan is expected in FY 2022- 2023. Therefore, a cost estimate is not feasible at this time.

Youth Walker Field Repurpose

TBD

The Plan is to repurpose this field based on the outcome of the Parks and Recreation Master Plan. This year the focus will be on engineering design.

FY 2024 - 2025

Lake Michael Remaining Trail

TBD

The Lake Michael Trial extension will provide an excellent trail completing the loop entirely around Lake Michael. In addition, the trail will provide another wonderful active amenity for the residents of Mebane and eventually tie into the Mebane Greenway from a nearby subdivision. City Council approved the application for a \$100,000 NC Trails Grant to help with the cost of this project. Once the final design and engineering are complete, the City will submit the grant. The bulk of the funds will be associated with bridges and boardwalks. This cost is for construction.

Shade for Farmers Market

TBD

The goal is to make the Farmers Market a regional destination by creating a robust and convenient location for our vendors. Additionally, the site may be used for small concerts, movies, and programs. This endeavor will be considered in the Parks and Recreation Master Plan update.

Community Park Expansion

TBD

The feasibility for this expansion will be evaluated during the Parks and Recreation Master Plan Update. This is the year for engineering design.

FY 2025 - 2026

Youth Walker Field Repurpose

TBD

The Plan is to repurpose this field based on the outcome of the Parks and Recreation Master Plan. This is the year for construction.

Lake Michael Pier Replacements

\$150,000

Install a floating dock system for the deck and dock area at Lake Michael. This cost estimate includes the removal of the current piers that are not in service.

FY 2026 - 2027

Community Park Expansion

TBD

The feasibility for this expansion will be evaluated during the Parks and Recreation Master Plan Update. This is the year for construction.

PUBLIC SAFETY ELEMENT

Projects Funded: Acquisition of capital equipment to support the operations of the two public safety departments in the City. (Note: Public safety *facilities* are considered in the *public facilities* element.)

The table below shows each of the projects submitted for consideration in this year's CIP process and the project's estimated cost in each fiscal year of the Plan. In addition, Section 6 of this document contains detailed information regarding the proposed funding source for each project.

Public Safety Element	Total	F	Y22-23	F	Y23-24	FY24-25	FY25-26	FY26-27
Police Vehicles	\$ 976,921		260,006		171,362	176,503	181,798	187,252
Fire Engines	\$ 1,950,000		650,000		650,000	650,000	-	-
Fire Prevention Vehicle	\$ 90,000		45,000		45,000	-	-	-
Life Safety Education Vehicle	\$ 35,000		35,000		-	-	-	-
Training Simulator	\$ 75,000		-		75,000	-	-	-
Quint Truck	\$ 1,300,000		-		-	1,300,000	-	-
Replace Fire Chief's Vehicle	\$ 50,000		-		-	50,000	-	-
Platform Truck	\$ 1,800,000		-		-	-	1,800,000	-
Command Vehicle	\$ 55,000		-		-	-	55,000	-
Rescue Truck	\$ 1,300,000		-		-	-	-	1,300,000
Element Total	\$ 7,631,921	\$	990,006	\$	941,362	\$ 2,176,503	\$ 2,036,798	\$ 1,487,252

CONTINUOUS REPLACEMENTS

Annual Police Vehicle Replacements

\$976,921 over 5 years

Police vehicles are in constant use in city traffic and therefore experience more wear and tear in a shorter period of time than privately owned vehicles. Police officers must be ready at a moment's notice to respond to any situation, so it is vital the police department have vehicles that are well-equipped and up to date to keep officers prepared and safe. The department plans to replace four vehicles in FY 2022-2023 and three vehicles for the remaining four years of the Plan.

FY 2022 - 2023

Fire Engine \$650,000

The replacement of Engine 32 is necessary to maintain a responsive and capable fleet of fire apparatus. Since 2002, call volume has increased 43%, and an ever-expanding fire district has placed a burden on these engines, ultimately limiting their service as frontline engines. Once retired, the City will sell Engine 32. Due to supply chain issues, engine delivery is expected two years from the order date.

Fire Prevention Vehicle

\$45,000

A replacement vehicle is needed to support updated division systems and to meet the requirements outlined in the NC Fire Code for the frequency of inspections. In addition, the City's population growth makes it necessary to maintain a fleet of fire prevention vehicles capable of supporting staff members responsible for the safety of all City residents and visitors. Due to supply chain issues, vehicle delivery is expected one year from the order date.

Life Safety Education Vehicle

\$35,000

Fire and life safety education has become a key part of the fire department's mission. Each year the Mebane Fire Department educates approximately 5,000 children within the city limits of Mebane. Additionally, the Mebane Fire Department is requested multiple times a year to educate businesses and their staff on the use of fire safety equipment, as well as hosting a car seat safety program once a month. These programs are vital to the safety of our community and the success of the fire department. Staff travel required to provide life safety education programs has more than doubled in recent years. Presently, the staff relies on their personal vehicles to attend classes, transport materials, and support the City's public education programs.

Fire Engine \$650,000

The replacement of Engine 35 is necessary to maintain a responsive and capable fleet of fire apparatus. Since 2002, call volume has increased 43%, and an ever-expanding fire district has placed a burden on these engines, ultimately limiting their service as frontline engines. Once retired, the City will use Engine 35 as a reserve tanker. Due to supply chain issues, engine delivery is expected two years from the order date.

Fire Prevention Vehicle

\$45,000

A replacement vehicle is needed to support updated division systems and to meet the requirements outlined in the NC Fire Code for the frequency of inspections. In addition, the City's population growth makes it necessary to maintain a fleet of fire prevention vehicles capable of supporting staff members responsible for the safety of all City residents and visitors.

Training Simulator

\$75,000

This simulator will allow for required courses for Fire Fighter certification to be given locally. More importantly, this mandatory class requires burning a vehicle, an LP tank, and a flammable fuel spill to complete the course successfully. This simulator allows for real-world scenarios with next to no detrimental impacts on the environment. Due to the NFPA standard changes for firefighter training, these scenarios are required for certification.

FY 2024 - 2025

Quint Truck \$1,300,000

An increase in commercial growth warrants an additional elevated master stream on the City's south side. Although many buildings on the south side contain sprinkler systems, the mechanical components associated with these facilities are not protected and are generally on the roof. Additionally, the height of many residential homes in the district renders ground ladders insufficient for rescue access. Therefore, an additional aerial device is needed to improve deployment analysis citywide.

Fire Engine \$650,000

Engine 35 was replaced as a frontline engine and became a reserve tanker in FY 2023-2024. However, Engine 35 does not comply with the updated safety standards outlined in the National Fire Prevention Association 1901. In 2009, new safety measures were implemented, including, but are not limited to, rollover safety systems, seatbelt warning alarms, slip-resistant surfaces, scene lighting, and reflectivity. Therefore, a new fire engine needs to be purchased so that one of the older but compliant fire engines in the fleet can replace engine 35 as a reserve tanker.

Fire Chief's Vehicle \$50,000

This vehicle is projected for replacement in FY 2024-2025 based on existing to date mileage and the average miles driven each year. In addition to the high mileage projected, fire service vehicles accrue copious amounts of engine hours since the vehicle is often required to operate in an idle position. Based on the projected engine hours and mileage, the vehicle is anticipated to have significant equipment failures.

FY 2025 - 2026

Platform Truck \$1,800,000

The current platform truck will reach 25 years of age in 2027. The existing platform truck has seen significant mechanical failures that are often costly and impactful. Platform 38 has seen an enormous amount of time out of service due to these mechanical failures leaving the City without the protection of a ladder truck.

Command Vehicle \$55,000

With the addition of two fire stations and the personnel needed to staff those stations, the current managerial span of control will be exceeded. Therefore, a supervisory position to manage shift personnel and provide an incident command to all daily responses will be necessary. This position will require a mobile presence throughout the City based upon the job requirements.

FY 2026 - 2027

Rescue Truck \$1,300,000

In FY 2026-2027, the rescue and service truck will have reached the 20 years of age mark. This

truck responds to incidents citywide and in mutual aid districts providing heavy rescue services. The truck is a specialty vehicle with many dedicated technical capabilities. Based on the type of responses, the long travel distances, and the amount of interstate commerce that this vehicle protects, it must remain as a constant frontline piece of fire apparatus. This vehicle has experienced significant mechanical failures removing it from service for an extended time. This vehicle is a stand-alone vehicle with no support from any other vehicle in the fleet.

PUBLIC FACILITIES ELEMENT

Projects Funded: Construction and significant renovations of general government and public safety facilities and infrastructure, including upgrades to existing City facilities, new public safety facilities, and additional public works facilities.

In FY 2020-2021, the Planning and Inspection Departments' building, sidewalk, and parking lot expanded. The facility grew by 750 square feet, and the repaired parking lot has four new spaces, including an Americans with Disabilities Act (ADA) compliant space. In addition, the new sidewalk is compliant with the North Carolina Building Codes.

The table below shows each of the projects submitted for consideration in this year's CIP process and the project's estimated cost in each fiscal year of the Plan. Section 6 of this document contains detailed information regarding each project's proposed funding source.

Public Facilities Element	Total	FY22-2	3	FY23-24	FY24-25	FY25-26	FY26-27
New Police Station	\$ 16,500,000		-	1,750,000	14,750,000	-	-
Fire Station 4	\$ 5,110,000	110,	000	5,000,000	-	-	-
Training Classroom	\$ -		-				
Upgrade door systems at Fire stations	\$ 30,000	30,0	000	-	-	-	-
Old Rec Building Improvements	\$ 72,000	72,	000	-	-	-	-
Public Works Office Renovation	\$ 35,000			35,000			
Fire Station 1 Bay Door Replacement	\$ 47,500		-	47,500	-	-	-
Police Station HVAC Replacement	\$ 40,000			40,000	-	-	-
Two-Bay Addition to Public Works Storage Building	\$ 150,000			150,000			
MACC Roof Restoration and New Lights	\$ 328,000		-	168,000	160,000	-	-
Lake Michael Building Renovation/Removal*	\$ -		-	-	-	-	-
Police Station Roof Replacement	\$ 300,000		-	-	300,000	-	-
Fire Station 5	\$ 5,110,000		-	-	110,000	5,000,000	-
Public Works New Equipment Shed	\$ 200,000		-	-	200,000	-	-
Public Works Salt Shed with Brining Station	\$ 150,000		-	-	-	150,000	-
Element Total	\$ 28,072,500	\$ 212,	000	\$ 7,190,500	\$15,520,000	\$ 5,150,000	\$ -

^{*} Cost to be determined for the year highlighted.

Fire Station 4 \$110,000

The site for the new station is located on Buckhorn Road and will be donated. This area of the City has experienced an increase in response times for both fire and medical incidents. Additionally, this area has seen tremendous commercial and residential growth, with future development already projected to occur. The new station will improve response times, proper fire load management, adequate water distribution, and comply with the International Organization for Standardization's (ISO) 1.5-mile engine company districts. In addition, the projected population density warrants a fire station to provide adequate fire protection and medical services and provide coverage for voluntary annexations of the rated district. The cost estimate includes a preliminary engineering design.

Upgrade Door Systems at Fire Stations

\$30,000

The City has replaced the City Hall and Planning and Inspections door control system, so this project will allow the City to be uniform across the board and eliminate the need for multiple platforms to control the doors at City locations.

Old Rec Building Improvements

\$72,000

The floor in the Train Room is sagging and needs renovation, and the roof needs extensive work.

FY 2023 - 2024

New Police Station

\$16,500,000 over 2 years.

The City is looking for land to build a new police station to accommodate its growing police force for decades to come. The new station will increase staff efficiency, provide a wide range of new opportunities for both the public and the police department, and assist in attracting and retaining quality staff. The station will also serve the City during natural disasters and public emergencies. The cost estimate includes the purchase of land and preliminary engineering design.

Fire Station 4 \$5,000,000

The site for the new station is located on Buckhorn Road and will be donated. This area of the City has experienced an increase in response times for both fire and medical incidents. Additionally, this area has seen tremendous commercial and residential growth, with future development already projected to occur. The new station will improve response times, proper fire load management, adequate water distribution, and comply with the International Organization for Standardization's (ISO) 1.5-mile engine company districts. In addition, the projected population density warrants a fire station to provide adequate fire protection and medical services and provide coverage for voluntary annexations of the rated district. The cost estimate includes a preliminary engineering design. Construction is expected to begin in FY 2023-2024.

Public Works Office Renovation

\$35,000

This renovation will include the creation/construction of entryway for the general public within the Public Works & Public Utilities Building and the construction of an office within the Fleet Maintenance area.

Fire Station 1 Bay Door Replacement

\$47,500

This project includes the replacement of the two station vehicle doors at Station # 1.

Police Station HVAC Replacement

\$40,000

This is a recommended maintenance item from the 2021 CPL Facilities study.

Two-Bay Addition to Public Works Storage Building

\$150,000

This is a referenced space item from the 2021 CPL Facilities study.

MACC Roof Restoration

\$168,000

This is a recommended item from the 2021 CPL Facilities study.

Lake Michael Building Renovation/Removal

TBD

Renovation is a recommended item from the 2021 CPL Facilities study. An additional physical/financial analysis of renovation versus removal/new construction is being conducted.

FY 2024 - 2025

Old Police Station Roof Replacement

\$300,000

This is a recommended item from the 2021 CPL Facilities study.

Fire Station 5 \$110,000

This station would be located on the western side of the City. A site location is being analyzed, but has not been determined yet. Cost estimates and construction processes from Station 4 have been utilized but will need to be updated with site specific estimates.

Public Works New Equipment Shed

\$200,000

This is a referenced space item from the 2021 CPL Facilities study.

MACC Lights \$160,000

This is a recommended item from the 2021 CPL Facilities study.

FY 2025 - 2026

Fire Station 5 5,000,000

This station would be located on the western side of the City. A site location is being analyzed, but has not been determined yet. Cost estimates and construction processes from Station 4 have been utilized but will need to be updated with site specific estimates.

Public Works Salt Shed with Brining Station

\$150,000

This project is the construction of a specific purpose facility for salt shed and brining station operations.

PUBLIC WORKS AND ENVIRONMENTAL SERVICES ELEMENT

Projects Funded: Projects designed to manage and mitigate the effects of stormwater runoff, manage the collection and disposal of solid waste, and maintain streets. These projects include structural improvements, construction, and significant infrastructure expansion. They also include the equipment needed to manage solid waste collection and maintain City streets.

The table below shows each of the projects submitted for consideration in this year's CIP process and the project's estimated cost in each fiscal year of the Plan. Section 6 of this document contains detailed information regarding each project's proposed funding source.

Public Works & Environmental Services Element		Total	FY22-23	FY23-24	FY24-25	FY25-26	FY26-27
Leaf Truck	. \$	975,000	320,000	325,000	-	-	330,000
Garbage Truck	. \$	535,000	210,000	-	325,000	-	-
Pick-up Trucks	. \$	372,000	120,000	120,000	44,000	44,000	44,000
Pull-behind Leaf Vacuum and Box		110,000	-	110,000	-	-	-
Vehicles	. \$	56,000	56,000	-	-	-	-
FEMA Area at Public Works Facility	. \$	60,000	60,000	-	-	-	-
Brine Mount System and Body	. \$	50,000	50,000	-	-	-	-
East Graham St. Stormwater Project	\$	25,000	25,000	-	-	-	-
Fleet Services - Service Truck		200,000	-	200,000	-	-	-
Bucket Truck	. \$	175,000	-	175,000	-	-	-
Ventrac Tractor w/edger and mowing deck	\$	45,000	-	45,000	-	-	-
Dump Truck	. \$	325,000	-	325,000	-	-	-
Salt and Sand Spreader		75,000	-	75,000	-	-	-
Tractor	. \$	60,000	-	-	60,000	-	-
New fuel station and pumps	. \$	30,000	-	-	-	30,000	-
Swap Loader	. \$	350,000	-	-	-	350,000	-
Element Total		3,443,000	841,000	1,375,000	429,000	424.000	374,000

Leaf Truck \$320,000

This leaf truck will replace the City's 1999 Mack Leaf Truck with a 2022 Xtreme Vac DCL700CB (or another comparable model) with a chassis mount automated one-person leaf and debris vacuum system, 25 cubic yard capacity self-dumping hopper.

Garbage Truck \$210,000

This garbage truck will replace the City's 2002 rear loader garbage truck with a 2022 25 yard New Way Cobra Magnum on a Freightliner M2 106 chassis (or another comparable model).

Pickup Trucks \$120,000

Three pickup trucks need replacing. The model years being replaced range from 1997 to 2002. The new trucks will be three 2022 Chevrolet Silverado's 2500HD, 4WD Double Cab 162" work trucks with a snowplow added.

Vehicles \$56,000

This cost represents two-vehicle replacements. The two replacements are for the Inspections Department to purchase Chevy Traverse AWD vehicles for staff.

FEMA Area at the Public Works Facility

\$60,000

This includes site surveying, environmental determination & flagging, soil evaluation, and permitting to allow a temporary FEMA debris facility.

Brine Mount System and Body

\$50,000

This will be the purchase of a new system and body for the existing swap loader.

East Graham St. Stormwater Project

\$25,000

This project addresses the drainage pipe condition on E. Graham St. between N. Fourth St. and N. Fifth St. This cost is for the City's portion of design and construction; there is also a private property portion of the project that has been piped.

Leaf Truck \$325,000

This leaf truck will replace the City's 2002 Mack Leaf Truck with a 2023 Xtreme Vac by ODB (or another comparable model) with a chassis mount automated one-person leaf and debris vacuum system, 25 cubic yard capacity self-dumping hopper.

Pull-behind Vacuum and Leaf Box

\$110,000

The goal is to purchase a new trailer mount leaf and debris loader and collector box before the 2022 leaf collection season. This will supplement our leaf collection trucks/process & efficiencies by utilizing non CDL drivers in residential streets/neighborhoods.

Pickup Trucks \$120,000

Three pickup trucks need replacing. The model years being replaced range from 2000 to 2007. The new trucks will be three 2023 Chevrolet Silverado's 2500HD, 4WD Double Cab 162" work trucks with a snowplow added.

Fleet Services – Service Truck

\$200,000

Fleet services does not currently have a service truck and thereby utilizes other divisions trucks when necessary or a 1998 Dodge Van.

Bucket Truck \$175,000

Replacement of ST 60 Bucket Truck.

Ventrac Tractor with Edger and Mowing Deck

\$45,000

This is a new equipment purchase to assist with mowing operations and sidewalk edging.

Dump Truck \$325,000

This is to replace SAN 42 Dump Truck with a plow. This truck will allow for the use of a sand & salter spreader.

Salt and Sand Spreader

\$75,000

This will be the purchase of a new salt and sand spreader for the existing swap loader.

FY 2024 - 2025

Garbage Truck \$325,000

This garbage truck will replace the City's 2007 garbage truck with a side-arm collection model or another comparable model).

Pickup Trucks \$44,000

A 1998 van will be replaced with a pick-up truck.

Tractor \$60,000

Purchase of an additional tractor to the Public Works fleet as City continues to grow.

FY 2025 - 2026

Pickup Truck \$44,000

A 2007 pick-up truck will be replaced.

New fuel station and pumps

Upgrade to the existing fuel station and pumps.

\$30,000

Swap Loader \$350,000

This is a purchase of an additional swap loader with a dump body, plow, and salt/sand spreader.

FY 2026 - 2027

Leaf Truck \$330,000

This will replace SAN 35 Leaf Truck.

Pickup Truck \$44,000

A pick-up truck will be replaced.

GENERAL FUND SUMMARY

The table below shows the total of the capital needs in each of the CIP elements supported by the General Fund and the revenue sources proposed to support these needs. The grant and fee revenues are explained in the capital improvement funding section. Local revenue is indicative of the need for current year revenue supported funding for some projects/purchases in each year. Section 6 of this document contains detailed information regarding the proposed funding source for each individual project.

The level of capital need reflected in this document necessitates the issuance of additional debt to meet these needs. In the table below, the new debt service is shown as a total amount proposed in each fiscal year. Installment purchase is the preferred method to fund projects. If there is a significant difference between installment purchase and bond interest rates, the City will consider issuing bonds. For the purpose of the estimates shown, we have used an interest rate of 2 percent for FY 2022-2023, with the exception of the financing for the fire engine for which 1 percent was used, and added a half percent for each year afterward.

For items such as minor renovations and sidewalks, we generally use "PAYGO" financing to avoid interest costs and use accumulated fund balance for these one-time purchases. For all other issues in the General Fund, financing terms are routinely tied to the life cycle of the underlying asset as well as current interest rates.

General Fund Element Total		Total		2023	y	2024		2025		2026		2027
Transportation	\$	3,270,000	\$	1,109,000	\$	440,000	\$	626,000	\$	400,000	\$	695,000

After acquiring or constructing capital assets, most will entail ongoing expenses for routine operation, repair, and maintenance. These operations, repair, and maintenance costs are accounted for annually in each year's operating budget.

Transportation Element: New road and parking lot construction will necessitate future maintenance work, including pothole repair, crack sealing, road marking repair, sweeping, and resurfacing.

Sidewalk construction will involve regular pavement repair, repainting crosswalk markings, and performing maintenance work on crosswalk signals.

Parks, Recreation, & Cultural Arts Element: New greenway connections will necessitate future maintenance work, including brush clearing, sign and bench replacement, and trail reconstruction. Once constructed and operational, the Community Park Fiddler Stage and shade cover for the fitness court will necessitate ongoing maintenance costs. New park construction will require regular annual costs such as landscaping, irrigation system maintenance, restroom, public facility cleaning, and wages for park maintenance and programming staff.

Public Safety Element: The replacement police vehicles, replacement fire engines, replacement fire prevention, and life safety education vehicles will incur regular costs such as repair and maintenance. Once acquired, the training simulator will necessitate annual repair and maintenance costs.

Public Facilities Element: New police and fire stations will incur future costs, including staff wages, building cleaning and maintenance, and utility services. A new training classroom will incur future costs, including building cleaning and maintenance and utility services. In addition, the Old Rec building improvements will need repairs and maintenance in future years.

Public Works & Environmental Element: New and replacement vehicles and equipment such as leaf trucks, garbage trucks, and pickup trucks will incur regular maintenance and repair costs throughout their useful lives.

SECTION 3: CIP FINANCIAL IMPACT ANALYSIS ON THE GENERAL FUND

A vital element of the CIP is the financial impact analysis that discusses the effects of capital spending on the City's operation costs, debt capacity, and other important debt ratios. It is crucial to understand how capital spending affects these indicators because the Local Government Commission (LGC) and bond rating agencies use them to evaluate the City's financial condition and issue ratings. Mebane currently has a bond rating of AA+ with Standard & Poor's Corporation. This rating represents a robust financial standing and is the third highest-ranking attainable.

PROJECTIONS AND ESTIMATES

Proper financial planning requires projections and estimates for expenditures, revenues, and other economic indicators. Expenditure and revenue estimates require forecasts for changes in population, assessed property value, and other factors such as changes in the economy. The CIP projections represent a four percent growth factor for operations expenditures throughout the fiveyear scope. This estimate is in line with current trends. The City has benefited from sustained growth in property values with a four-year rolling average of 4.94 percent, not including revaluation years. Alamance County will perform a revaluation in 2023, and Orange County will do so in 2025, which will affect the assessed value and the revenue-neutral tax rate for Mebane. The CIP includes an adjustment in 23-24 for a potential revenue-neutral rate in response to the revaluation. Orange County is a smaller portion of the City's tax base, and therefore a revaluation is not factored into this model. Apart from gains in property tax revenues and sales tax revenues, estimates indicate growth in other revenues collectively is primarily flat or nominal. The CIP includes a revenue growth rate of approximately nine percent for 22-23, ten percent for 23-24, and five percent for the final three years of the Plan. For projects subject to financing in 22-23, an interest rate of 2 percent is accurate based on other recent financings by the City. A half percent has been added to the interest rate per year for future years beginning in 23-24. That rate may vary depending on the size of the project and the length of the term. Financing recommendations in this CIP include installment financing in the General Fund and revenue bonds in enterprise funds.

DEBT RATIOS

The significant costs associated with capital projects may require financing, which results in debt obligation for the City. The LGC and lending institutions assess the City's ability to incur and repay debt through various debt capacity ratios and indicators. In the General Fund, the City evaluates debt as a percentage of the total assessed value of taxable property, the aggregate ten-year principal payout ratio, and the ratio of debt service expenditures as a percent of total fund expenditures.

Debt per assessed valuation is an important indicator because it considers the City's largest

revenue source and greatest means for repaying debt. This ratio is a measure of debt capacity as well as debt burden and is more practical than the legal debt margin. This ratio divides the City's debt by its total assessed value, where debt is defined as all tax-supported debt. Mebane's expected debt-to-assessed valuation ratio for 22-23 is 0.33 percent. Mebane is well within the legal limit set forth by NCGS 159-55, limits debt to eight percent or less of a local government's total property valuation. Mebane's legal debt limit, based on the June 30, 2021, audited valuation, is \$190,098,152. The CIP includes a maximum debt obligation of \$43,835,289 in FY23-24.

The 10-year payout ratio measures the amount of principal being retired in the next ten years. As an indicator, it determines if debt is back-loaded, which can cause concern for long-term financial stability. The CIP includes the issuance of previously authorized and new installment purchase financing. The new debt brings the payout ratio to 99.33 percent in FY22-23, which is the highest ratio in the five-year forecast. A ratio no lower than 55 percent is desirable.

Debt service as a percentage of total expenditures measures annual debt service payments of non-self supporting projects as a portion of the City's General Fund expenditures. Debt service payments can become a large portion of a city's budget and should be monitored to ensure acceptable levels. Too much debt service may indicate excessive debt and fiscal strain. Bond rating agencies consider a net debt service percentage between 15 and 20 percent to be high. A ratio below five (5) percent indicates the capacity for significant new debt. For FY22-23, the General Fund debt service ratio is 6.8 percent and reaches a high of 12.91 percent in FY26-27. Without significant changes to the CIP, the debt service ratio will be above 10 percent in the final two years of the CIP. The goal is to keep this ratio below 10 percent providing the city with opportunities to finance more projects.

PAYGO financing and grants can help keep key debt ratios in an acceptable range by eliminating new debt obligations and annual debt service payments. The proposed CIP indicates differences from year to year in PAYGO financing over the five-year period. This is due to the significant costs associated with some larger projects such as a new police station and a new fire station. If debt ratios begin to approach unacceptable ranges, delaying projects or using PAYGO financing should be considered to keep the City in good financial standing and reduce fiscal strain.

Other factors bond rating agencies consider when assessing a city's financial condition may include the community's wealth, tax base, sources of revenues, and the overall economy.

Summary of CIP Impact on General Fund Debt Ratios and Fiscal Indicators

Debt Obligations	FY22-23	FY23-24	FY24-25	FY25-26	FY26-27
General Obligation (GO) Bond Debt	\$ -	\$ -	\$ -	\$ -	\$ -
Installment Purchase Debt	\$ 8,779,896	\$ 43,835,289	\$ 42,271,659	\$ 40,904,759	\$ 38,980,355
Total Net Debt Obligations	\$ 8,779,896	\$ 43,835,289	\$ 42,271,659	\$ 40,904,759	\$ 38,980,355
Debt Service					
Installment Purchase Principal	\$ 1,751,336	\$ 2,645,589	\$ 3,237,216	\$ 3,684,571	\$ 3,920,302
Installment Purchase Interest	\$ 173,022	\$ 422,246	\$ 622,355	\$ 604,026	\$ 685,967
Total General Fund Debt Service	\$ 1,924,358	\$ 3,067,835	\$ 3,859,571	\$ 4,288,597	\$ 4,606,269

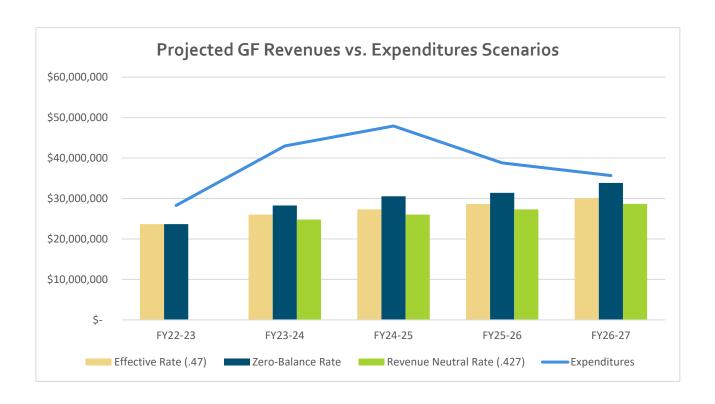

General Fund Debt Ratios & Fiscal Indicators	FY22-23	FY23-24	FY24-25	FY25-26	FY26-27
Fund Balance Projection	\$ 17,014,615	\$ 14,857,537	\$ 14,857,537	\$ 14,857,537	\$ 14,857,537
Projected Unassigned Fund Balance	\$ 16,299,872	\$ 14,142,794	\$ 14,142,794	\$ 14,142,794	\$ 14,142,794
Revenue per Capita	\$ 1,330	\$ 1,332	\$ 1,283	\$ 1,284	\$ 1,289
% Property Tax Revenue to Total Revenue	55.55%	55.55%	55.08%	54.61%	54.14%
10-Year Principal Payout	99.33%	94.87%	94.27%	95.24%	94.74%
Debt Per Assessed Valuation	0.33%	1.52%	1.41%	1.31%	1.20%
Debt Service to Expenditures less transfers-in	6.80%	7.14%	8.06%	11.06%	12.91%
PAYGO Percent of capital expenditures	42.31%	38.86%	42.30%	36.29%	42.63%

TAX RATE ANALYSIS

One method of assessing the CIP impact on the operating budget is to illustrate the effects in terms of the tax rate. The table and graphs below depict the potential tax rate needed to generate enough revenue to account for General Fund (GF) CIP project costs beyond the City's typical capital and operating expenditures. This calculation is dependent on the City's assessed value and the revenue generated by a penny on the tax rate. The formula does not take into account substantial increases or decreases in revenues from other sources such as sales tax or service fees. In addition, it does not address changes in operational needs for the City unless addressed in the CIP. The FY22-23 Recommended Budget includes a tax rate of \$.470, which reflects no change in the current rate. Alamance County will undergo another revaluation in 2023, and the projections for FY23-24 use a revenue-neutral tax rate of \$.427. For this analysis, the City's capital expenditures do not include grant-funded projects except for the required local contributions.

If projections are accurate, CIP projects will create a funding gap each year beginning in FY22-23, with potential shortfalls ranging from \$2.1 million in FY22-23 to \$3.8 million in FY26-27. These funding gaps represent potential policy decisions for the City Council regarding the use of fund balance, setting the tax rate, delaying projects, and consideration of operational cuts. The funding gap is noticeable for all years due to large capital projects that will require financing, such as the construction of a Police Station and Fire Stations 4 and 5, the Holt Street Greenway development, and the Lake Michael Dam Spillway renovation. Additionally, the new Fire Stations have a substantial impact on the operating budget with the addition of two full engine companies upon completion of Fire Station 4 in FY24-25 and Fire Station 5 in FY26-27. The CIP includes \$3.3 million in transportation projects over the next five years. Public Works and Environmental Element projects total \$3.4 million over the next five years. How to finance these projects presents another policy decision for the City Council. The CIP includes installment loans beginning in FY22-23 to cover the following projects totaling \$43.7 million over five years: the Holt Street Greenway, the Lake Michael dam spillway, the new police station, two fire stations, six fire apparatus and 43 rolling stock trucks and vehicles. The Manager's Recommended budget includes appropriating \$2,157,078 of fund balance and issuing \$2,466,006 of debt to bridge the funding gap in FY 22-23

The five-year tax rate assessment table indicates the change in tax rate needed to account for the potential funding gaps. Estimated expenditures and tax rate scenarios are depicted in the chart below. This does not account for any significant increases in other revenues sources or cuts in the operating budget that may offset the gap. The effective rate bar reflects revenues with no change The zero-balance rate line reflects revenues with the tax rate adjusted to offset the funding gap.

5-Year Tax Rate Assessment

Forecasted Expenditures (Including CIP Projects)	FY22-23	FY23-24	FY24-25	FY25-26	FY26-27
Operating	\$22,612,260	\$23,516,750	\$24,951,283	\$25,989,721	\$28,157,227

SECTION 4: WATER AND SEWER UTILITY

Projects assigned to the Water and Sewer Utility element are funded through the Water and Sewer Enterprise Fund. This fund only pays for projects related to the water and sewer system and not for the General Fund.

The capital projects that qualify for this fund include main additions and replacements, water/wastewater treatment plant renovations/expansions, filter rehabilitation, pump station additions, and significant infrastructure. They also include the equipment necessary to maintain the system.

The icon below signifies the Water and Sewer Utility element and is located on the top right corner of the pages that are associated with these projects.

WATER AND SEWER UTILITY ELEMENT

Projects Funded: Construction and improvement of water and sewer infrastructure. These projects include main additions and replacements, water/wastewater treatment plant renovations/ expansions, filter rehabilitation, pump station additions, and major renovations to infrastructure.

Our water and sewer utilities face increasing maintenance, improvements, and expansion demands to serve current and future needs.

The table shows each of the projects submitted for consideration in this year's CIP process and the project's estimated cost in each fiscal year of the Plan. Section 6 of this document contains detailed information regarding each project's proposed funding source.

Water and Sewer Utility Element	Total	FY22-23	FY23-24	FY24-25	FY25-26	FY26-27
Inflow and Infiltration (I&I)	2,000,000	-	500,000	500,000	500,000	500,000
Oversize Reimbursement	600,000	200,000	100,000	100,000	100,000	100,000
City of Graham Water Treatment Plant Improvements		200,000	200,000	200,000	200,000	200,000
Elevated Storage Tank	4,025,000	185,000	3,840,000	-	-	-
Jones Road Outfall (Arbor Creek)	1,000,000	-	-	112,500	887,500	-
Outfall Tractor Replacement		60,000	-	-	-	-
Aeration Basins Electrical Upgrade		50,000	-	-	-	-

Water Rehabilitation	400,000				200,000	200,000
Rotary Drum Thickener Rebuild		-	-	100,000	-	-
Aqua Guard Influent Screen Rehab	100,000					100,000
Mini Excavator Replacement	100,000	-	-	-	-	100,000
Total	\$ 60,610,198	\$ 773,198	\$ 54,652,000	\$ 1,216,500	\$ 2,626,500	\$1,342,000

^{**}A Capital Project Ordinance was created in FY21-22, and \$3.5M was funded for engineering design.

Oversize Reimbursement

\$200,000

This amount represents payments to increase the size of water and sewer mains on development projects to allow for future growth. The expected projects include Oakwood for \$125,000, Buckhorn for \$15,000, Cambridge for \$25,000, Tupelo for \$25,000, and Meadowstone for \$10,000.

City of Graham Water Treatment Plant Improvements

\$200,000

Mebane has a 50% ownership interest in Graham's water treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Elevated Storage Tank

\$185,000

A new 1 million gallon (MG) elevated storage tank is necessary because the existing elevated storage tank is too small to equalize projected water demands and sustain fire flows. Currently, the water system compensates for the lack of storage capacity by taking advantage of surplus pumping capacity at the water plant using ground storage at the clear wells. However, this strategy will only work until the projected max day demand exceeds the firm pumping capacity at the plant, which is expected to happen by 2030. This cost includes engineering design.

Outfall Tractor Replacement

\$60,000

The existing outfall tractor is a 1993 model with approximately 2,300 operating hours. The high range is not working on the tractor, and the estimated repair cost is in excess of the current value of the tractor.

Aeration Basins Electrical Upgrade

\$50,000

Electrical upgrade project to replace 1992-93electrical system, while ensuring complainace with current electrical & industry standards.

City of Graham Wastewater Treatment Plant (WWTP) Improvements \$52,000

Mebane has a 21.43% ownership interest in Graham's wastewater treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Xylem Influent Monitoring

\$26,198

This equipment will allow the plant to continuously monitor wasterwater entering the plant and alert staff to understiable contanimants.

FY 2023 - 2024

WRRF 1.5 MGD Expansion

\$47,500,000

This project is the increase of the current WRRF via expansion and conversion to a 4MGD facility.

Inflow and Infiltration (I&I)

\$500,000

The City conducted I&I studies for multiple drainage areas within the city limits. Several areas were identified as needing rehabilitation. Completion of these projects will reduce the wet weather flows received at the Water Resource Recovery Facility (WRRF).

Elevated Storage Tank

\$3,840,000

A new 1 million gallon (MG) elevated storage tank is necessary because the existing elevated storage tank is too small to equalize projected water demands and sustain fire flows. Currently, the water system compensates for the lack of storage capacity by taking advantage of surplus pumping capacity at the water plant using ground storage at the clear wells. However, this strategy will only work until the projected max day demand exceeds the firm pumping capacity at the plant, which is expected to happen by 2030. This cost includes construction.

WRRF Flood Wall \$2,000,000

This project includes the construction of a concrete wall along MoAdams Creek to protect WRRF plant equipment and personnel from potentially damaging flood events.

Oversize Reimbursement

\$100,000

This amount represents payments to increase the size of water and sewer mains on development projects to allow for future growth.

City of Graham Water Treatment Plant Improvements

\$200,000

Mebane has a 50% ownership interest in Graham's water treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Water Line Replacements

\$195,000

The replacement of galvinazed water mains.

Backhoe Replacement

\$150,000

Replacement of a 2002 Backhoe with 7,600 hours.

Vehicle Replacement

\$65,000

Purchase a pickup truck to replace a 2007 Ram 3500 with 106,000 miles.

City of Graham Waste Water Treatment Plant (WWTP) Improvements

\$52,000

Mebane has a 21.43% ownership interest in Graham's wastewater treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Utility Oversizing

\$50,000

Utility oversizing will allow the system to allow for land development and future services.

FY 2024 - 2025

Inflow and Infiltration (I&I)

\$500,000

The City conducted I&I studies for multiple drainage areas within the city limits. Several areas were identified as needing rehabilitation. Completion of these projects will reduce the wet weather flows received at the Water Resource Recovery Facility (WRRF).

Oversize Reimbursement

\$100,000

This amount represents payments to increase the size of water and sewer mains on development projects to allow for future growth..

City of Graham Water Treatment Plant Improvements

\$200,000

Mebane has a 50% ownership interest in Graham's water treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Jones Road Outfall (Arbor Creek)

\$112,500

This project consists of the installation of approximately 3,000 linear feet (LF) of ten-inch gravity sewer from the existing Arbor Creek pump station to the existing sewer outfall for Cambridge Park at Jones Road. This project will allow for the elimination of the Arbor Creek pump station. This cost represents design.

Rotary Drum Thickener Rebuild

\$100,000

Reconstruction of 1993 RDT (will serve a backup device in new WRRF expansion).

Sewer Jetty Replacement

\$70,000

Replacement of 2001 jetter trailer with 1,200 hours.

City of Graham Waste Water Treatment Plant (WWTP) Improvements

\$52,000

Mebane has a 21.43% ownership interest in Graham's wastewater treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Utility Oversizing

\$50,000

Utility oversizing will allow the system to allow for land development and future services.

Vehicle Replacement

\$32,000

Purchase a pickup truck to replace a 2012 Ram 1500 with 121,000 miles.

FY 2025 - 2026

Jones Road Outfall (Arbor Creek) Construction

\$887,500

This project consists of the installation of approximately 3,000 linear feet (LF) of ten-inch gravity sewer from the existing Arbor Creek pump station to the existing sewer outfall for Cambridge Park at Jones Road. This project will allow for the elimination of the Arbor Creek pump station.

Inflow and Infiltration (I&I)

\$500,000

The City conducted I&I studies for multiple drainage areas within the city limits. Several areas were identified as needing rehabilitation. Completion of these projects will reduce the wet weather flows received at the Water Resource Recovery Facility (WRRF).

Vac Truck Replacement

\$450,000

The 2004 Clean Air Sewer Vac will be replaced.

Oversize Reimbursement

\$100,000

This amount represents payments to increase the size of water and sewer mains on development projects to allow for future growth.

City of Graham Water Treatment Plant Improvements

\$200,000

Mebane has a 50% ownership interest in Graham's water treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Water Rehabilitation

\$200,000

This project is water lining projects in the downtown area and under neath railroad tracks.

Water Line Replacements

\$125,000

The replacement of galvinazed water mains.

Vehicle Replacement

\$62,000

Purchase vehicles to replace a 2008 Ram 1500 with 106,000 miles and a 2008 Ford Escape with 126,000 miles.

City of Graham Waste Water Treatment Plant (WWTP) Improvements

\$52,000

Mebane has a 21.43% ownership interest in Graham's wastewater treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Utility Oversizing

\$50,000

Utility oversizing will allow the system to allow for land development and future services.

Inflow and Infiltration (I&I)

\$500,000

The City conducted I&I studies for multiple drainage areas within the city limits. Several areas were identified as needing rehabilitation. Completion of these projects will reduce the wet weather flows received at the Water Resource Recovery Facility (WRRF).

Oversize Reimbursement

\$100,000

This amount represents payments to increase the size of water and sewer mains on development projects to allow for future growth. The expected projects include Oakwood for \$125,000, Buckhorn for \$15,000, Cambridge for \$25,000, Tupelo for \$25,000, and Meadowstone for \$10,000.

City of Graham Water Treatment Plant Improvements

\$200,000

Mebane has a 50% ownership interest in Graham's water treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Water Rehabilitation

\$200,000

This project is water lining projects underneath railroad tracks and interstates.

Mini Excavator Replacement

\$100,000

Replacement of 2015 mini-excavator with 1,800 hours.

Aqua Guard Influent Screen Rehab

\$100,000

City of Graham Waste Water Treatment Plant (WWTP) Improvements

\$52,000

Mebane has a 21.43% ownership interest in Graham's wastewater treatment plant and has agreed to pay a corresponding share of the capital improvements to the plant.

Utility Oversizing

\$50,000

Utility oversizing will allow the system to allow for land development and future services.

Vehicle Replacement

\$40,000

Purchase a vehicle to replace a 2011 Ram 2500 with 104,000 miles.

WATER AND SEWER FUND SUMMARY

The table below shows the total capital needs in the Water and Sewer Fund, which is supported by fees in exchange for services. Enterprise fees and grant revenues are explained in the capital improvement funding section. Enterprise funds are, by definition, self-supporting. Section 6 of this document contains detailed information regarding each project's proposed funding source.

The level of capital need reflected in this document necessitates the issuance of additional debt to meet these needs. In the table below, the new debt service is shown as a total amount proposed in each fiscal year. Revenue bonds are the preferred method to fund projects. For the purpose of the estimates shown, we have used an interest rate of 2.5 percent for FY 2023-2024 and added a half percent for each year afterward.

For items such as minor renovations and infrastructure, we generally use "PAYGO" financing to avoid interest costs and use accumulated fund balance or capital reserve funds for these one-time purchases. For all other issues in the Water and Sewer Fund, financing terms are routinely tied to the life cycle of the underlying asset as well as current interest rates.

Water and Sewer Fund Element Total	Total	7		2021		2006	·
Water and Sewer Fund Element Total	TOTAL		2023	2024	2025	2026	2027

Total	\$ 80,745,064	\$	773,198	\$ 74,516,138	\$ 1,216,500	\$ 2,897,228	\$ 1,342,000

After acquiring or constructing capital assets, most will entail ongoing expenses for routine operation, repair, and maintenance. These operations, repair, and maintenance costs are accounted for annually in each year's operating budget.

SECTION 4: CIP FINANCIAL IMPACT ANALYSIS ON THE WATER AND SEWER FUND

A vital element of the CIP is the financial impact analysis that discusses the effects of capital spending on the enterprise funds operation costs and debt coverage ratio. It is crucial to understand how capital spending affects these indicators because the City is required to comply with the debt covenants related to the 2021 revenue bond issue. Additionally, the Local Government Commission (LGC) and bond rating agencies use financial indicators to evaluate the Water and Sewer Fund's financial condition and issue ratings. Mebane currently has a bond rating of AA+ with Standard & Poor's Corporation. This rating represents a robust financial standing and is the third highest-ranking attainable.

PROJECTIONS AND ESTIMATES

Proper financial planning requires projections and estimates for expenditures, revenues, and other economic indicators. Expenditure and revenue estimates require forecasts for changes in the utility customer base and changes in the economy. The CIP projections represent a four percent growth factor for operations expenditures throughout the five-year scope. This estimate is in line with current trends. The City has benefited from sustained growth in the customer base. The growth assumptions used in the projections below are 400 new water and sewer accounts in FY22-23 and 500 for each subsequent year, with estimated usage at 4,000 gallons per month. Additionally, a 6% increase in rates is included for FY22-23, with a 1.5 percent increase each of the next three years with a 4 percent increase in the fifth year. For projects subject to financing, an interest rate of 2.5 percent was used for FY23-24 and 3.5 percent for FY25-26. These projected rates are based on recent financings. Actual rates may vary depending on the size of the project and the length of the term.

DEBT SERVICE COVERAGE RATIO

The Master Trust Agreement for the City's revenue bonds requires a 1.20 debt service coverage ratio for senior or parity debt and a 1.0 debt service coverage ratio for all debt. A debt service coverage ratio indicates the financial margin required to meet the current total annual debt service with current revenues available for debt service. As shown below, the 1.20 and 1.0 debt service coverage is met for each year in the Plan.

Debt Service Coverage Ratio Calculation	FY22-23	FY23-24	FY24-25	FY25-26	FY26-27
Operating Revenues	\$10,451,591	\$11,569,568	\$12,066,515	\$12,576,400	\$13,343,43
