

Neighbors,

It has been my genuine pleasure to represent you for the past six years as your councilmember for the City of Montclair, where I was raised and where I now work and raise my own family. As your advocate for health, safety, and the strength of our community, I have overseen one of the largest periods of redevelopment in our city's history, which includes major park enhancements, transit-oriented housing and commercial development, and an increased proactivity in handling traffic and school safety.

I remain committed to addressing housing insecurity, expanding mental health services, and investing in youth programs like our Montclair to College program, which saw a record number of graduates in 2026. I believe in empowering our community, providing good-paying jobs and economic opportunity, and ensuring that every resident has access to the services they need to thrive.

With your support, we can continue to build a community that strengthens neighborhoods and improves quality of life for all.

I would love to hear from you and continue to be your voice on the City Council.
