Grading plan check is done by the Engineering Division. After grading plans have been approved by the Engineering Division, grading permits are issued by the Building Division. Retaining walls are checked by the Building Division and require additional Building Division plan check fees.

The above fees include checking all relevant supporting documents required to accompany a plan submittal.

*** Soils reports and conditions of approval are required for grading submittals. † Title reports and closure calculations are required for lot merger, parcel merger, lot line adjustment, tract map, and parcel map submittals.**

The above fees assume no more than three plan checks will be necessary. Additional plan checks may require additional plan check fees to be paid prior to further processing. Additional sheets added after first plan check in order to address plan check comments will require additional plan check fees.

Hydrology Study Review	\$175.00 per hour – three hour minimum
Water Quality Management Plan Review (WQMP)
