## City of Montgomery Individual Income Tax Return 2022 Page 2

## \*\*Worksheets to be completed only by individuals who have taxable income other than wages.\*\*

To receive all available deductions and credits, attach copies of Federal Schedule 1, applicable copies of Federal Schedule(s) C, E, F, Form(s) K-1, Form 4797 and any other filed local tax returns.

Note: Losses from business activities may not be used as a deduction from W-2 wages or other compensation.

If rental property is located within the City of Montgomery, a current tenant listing must accompany this tax filing. A tenant listing includes name, address, move in/move out date, and phone number, if available.

<u>Worksheet A</u>: For the calculation of all types of <u>business income</u> reported on an individual's tax return. Do not report Partnership or S Corp income from businesses located within the City of Montgomery on this worksheet as the entity is required to file a separate business tax return.

Income from S Corps located outside of Montgomery is not taxable. All profit and loss from businesses, regardless of location, must be combined to a net amount for taxation. Credit for taxes paid to other municipalities for these businesses will be calculated in **Worksheet B.** Total income per type of Schedule can be combined for **Worksheet A.** Total profit minus total loss equals the taxable business income and should be included on Page 1, Line 5. (See website for Line-by-line instructions)
