Mayor's Report
March 22, 2021

I am asking all our citizens to participate in our Munford Clean Up Day on Saturday, March 27 from 8:00-Noon beginning at City Hall parking lot and covering the major roads in town. Safety escorts and supplies will be provided by the City of Munford and Hot Dogs will be served to all volunteers at noon.

Additionally, March 27- April 10, a large dumpster will be placed at City Hall for disposing of yard debris, spring cleaning trash, and general junk you need to dispose of. No batteries, tires, or hazardous waste is allowed. This is a free service provided by the City and Waste Pro. Please take advantage of this opportunity to clean up around the house. Let's make "My Kind of Town a clean town!"

Please join us tomorrow night, March 23 at 6:00 PM via Zoom to participate in our Community Mobility Study, focusing on Munford Avenue and Tipton Road. We are seeking public input about sidewalks, connectivity, intersections, and safety on these State Routes. For specific details, visit munford.com.

We are entering the home stretch for our Munford Avenue intersection improvement project, which will provide turn lanes at Beaver Road and Doctors Drive. Included in this project are sidewalk improvements from Park Street to College Street. The final piece will be in place when we close on the purchase of the Sutherland property at 1256 Munford Avenue on March 25. We are hoping to be able to advertise for bids in the coming months.

Park Street suffered extensive damage during last month's ice, snow, and Arctic temperatures. Public Works did an excellent job of addressing the issue and temporarily repairing this highly travelled road. Last week, we had core samples and a geotechnology report performed to evaluate the extent of the damage. That report is now with our engineer and he will provide a recommendation soon.

March 18 was Public Utility Workers Day and we certainly appreciate our public works employees. They are on duty and on call at all times to keep the city moving. Thank you for the many services you provide for our citizens and customers!

Former City Alderman Dave Elmore passed away on March 10. Dave was a fine man and a great public servant. He and I served on the same committee together as Aldermen and he was a kind and loyal friend. We send our condolences to his family.

Warm Spring regards,

Dwayne Cole, Mayor
