

Excerpt from Page 3-10-4 of Chapter 3 Appendix 3-10-Ravenna Facilities Planning Area with proposed text-only changes shown with strikethroughs (deletions) and highlighted text (additions):

“...City of Ravenna Jurisdiction

Areas Currently Served with Sanitary Sewers (yellow):

Of 4000+ water customers, approximately 20 still have septic systems. No new building is permitted in areas that do not have public sewers. ~~Any property owner's boundary within 100 feet of a public sewer~~ Any premises that are not served by a public sewer when the foundation wall of the structure from which sewage or other wastes originates is less than two hundred feet from the nearest public sewer must tie-in to that sewer at the owner's expense, as long as the public sewer is available and accessible, as determined by the City of Ravenna and the Portage County Health District. ~~None of the 20 on-site systems are presently a known health problem.~~ If in the future a problem with a septic system develops, the owners will be encouraged to extend a public sewer to their property if feasible public sewer is available and accessible. If a public sewer is not feasible available and accessible as determined by the City of Ravenna and Portage County Health District, the owner will be required to repair or replace the on-site system in accordance with the regulations of the Portage County Health Department...”

Excerpt from Page 3-28-5 of Chapter 3 Appendix 3-28-Akron Facilities Planning Area with proposed text-only changes shown with strikethroughs (deletions) and highlighted text (additions):

“...Akron Jurisdictions (City of Akron, City of Barberton (part), City of Cuyahoga Falls (part), City of Fairlawn, City of Tallmadge (part), Village of Lakemore (part), Village of Silver Lake, Copley Township (part), Coventry Township (part), Springfield Township (part))

Areas Currently Served with Sanitary Sewers (yellow): - These areas are currently served with sanitary sewers that have been constructed and are currently in operation. However, there are undeveloped tracts of land and vacant lots subject to improvement. All new development and construction in the yellow areas of this facilities planning area will be required to connect and/or provide sanitary service to ensure that wastewater will be treated and discharged at an existing publicly-owned treatment facility (POTW). Existing HSTSs which fail to operate properly will be required to connect and/or provide sanitary sewer service to ensure that wastewater will be treated at an existing POTW. Failing HSTSs serving single-family homes shall be abandoned in accordance with Ohio Administrative Code 3701-29-02. Exceptions may be (granted/requested) based on sanitary sewer availability and/or accessibility, soil conditions, extent of failure, and cost of repair as determined by the City of Akron and/or Summit County Public Health in which case the HSTS must be repaired or replaced to meet the standards found within OAC 3701-29.

~~Updates, revisions, and exceptions shall be approved by NEFCO...”~~
