

ROAD CLOSURE

On May 3, 2024, the Texas Department of Transportation approved a permit for the reconstruction of the driveway access of Pioneer Road at FM 407. The project includes the installation of a couple of culverts, ditch grading, base repair, and asphalt paving of approximately 300 linear feet of Pioneer Road. The New Fairview City Council awarded a roadway reconstruction project for Pioneer Road to 3H Concrete Inc. Work will begin next week, September 4th, and there will be intermittent lane closures of Pioneer Road. Weather permitting, the project should be completed by September 20, 2024. Please be on the lookout for workers and follow all construction signs.

Please contact the City (817-638-5366) with any questions.
