- Flu and COVID Numbers: Flu cases are high and ahead of historic figures, but COVID-19 cases are down. PHDMC maintains an active dashboard for tracking COVID-19. Mayor Duncan asked if a dashboard is also available to track the Flu. Commissioner Wentzel responded yes and that she would send an email with a link.
- ODH Swimming Pool Survey: The Ohio Department of Health (ODH) survey of Oakwood's Public Swimming Pool Program was completed. ODH finds that the program is meeting the acceptable minimum standards as mandated by the survey methodology.
- Flyboys Norovirus Event: Public Health – Dayton & Montgomery County investigated a public health matter at the beginning of October at Flyboys Deli in Oakwood after people became ill following a baby shower at the deli. There were 24 persons who became ill from Norovirus, a foodborne illness, with four being secondary. Some of the food consumed was prepared by Flyboys and some was brought in from outside sources. Inspections of the facility found a number of issues that have since been corrected.

Report from Board Administrator/City Manager: Mr. Klopsch commented on the following items:

- ODH Local Health District Efficiency and Effectiveness Study: The city will need to complete a Local Health District Efficiency and Effectiveness Study, but is still awaiting guidance from ODH on the study requirements. Provisions included in the 2022/2023 Ohio

Biennium Budget will likely require Oakwood's local health district to merge with Public Health – Dayton & Montgomery County. The Oakwood Health Board, under a different name, could continue to serve as a general advisory body to the city on health and safety matters.

- November 14 Houk Stream Event: Mr. Klopsch explained that during a routine patrol, an Oakwood Public Safety Officer found an unattended vehicle near the entrance of Houk Stream that belonged to an endangered missing adult.
