

Sick Child/Staff Isolation Procedure

The following procedures will be followed if a Camper/Staff exhibits signs of being sick or records a fever of a temperature of 100.40 (38.00C).

1. If A Camper/Staff is to become sick while at camp, they will be removed from the group immediately.
2. A staff member will move the camper to the self-isolation area located in Dressing Room in the Assembly Room.
3. Areas that have been used by the sick camper/staff will be disinfected as soon as they are removed from the area.
4. In the self-isolation area there will be a cot for the camper to use while awaiting pick-up.
5. A staff member will monitor the camper until a parent has been contacted and has arrived to pick-up.
6. As soon as the camper has been isolated from the rest of the group their parents/guardians will be contacted to pick up Asap.
7. Parents will be instructed to call the camp phone or camp coordinator to notify them of their arrival.
8. Once the parent has arrived in the parking lot to pick up their child, a staff member will walk the camper out to the parking lot.
9. Campers sent home will not be allowed to return to camp until they have been fever free for at least 24 hours WITHOUT medication. If tested positive for COVID 19, camper must remain home for at least 14 days.
10. Staff will then clean and sanitize the self-isolation area for future use.
11. Staff that become sick while at work will be sent home immediately after being self-isolated from the rest of the group. The same cleaning protocols will apply for staff illness.
