THANK YOU.
I am a local artist with a passion to beautify my hometown, support local business, and provide welcoming and safe spaces for the people who live and visit here.

The Keller Street Parking Garage is an asset to business owners and a convenience to patrons, yet it’s constantly threatened by vandalism. Even when painting crews come in to paint over the “tagging”, the color variation leaves an indelible scar on the building’s facade. The crews just can’t seem to get there fast enough as there is always inappropriate graffiti. Unsightly vandalism and tagging rob the local area of both aesthetics and a sense of safety. Citizens, business owners, and visitors do not feel safe in such a space that shows signs of abandonment and lack of supervision.

I am proposing a mural concept with a recommended and preferred location of Telephone Alley. The concept of the mural represents an abstract landscape of California. The backdrop colors suggest a sunset that glows over the rolling hills inspired by Sonoma Country and my hometown of Petaluma. Influences of nature and other native element were incorporated into the design.

The benefit of creating murals is multifold. It weaves Petaluma culture and history through local spaces for all to enjoy, it creates a welcoming atmosphere for residents and visitors, and it hides the unceasing, unsightly marks of street vandalism. Taggers are less likely to paint on a mural created by a local, respected artist than they are to claim a blank, unowned wall, prime for the taking.
