

Element 11 – Communication Program

The City maintains a website (<http://cityofpetaluma.net/>) along with Facebook and Twitter, to inform the public about City activities. Nixel is used in case of emergencies. The City's website is an effective communication channel for providing alerts and news to the public. The main page of the website provides important announcements, links agendas and minutes for City Council meetings, and other key information for City residents. Various public works information is published on the City's public works department page of the website, linked from the City services tab.

The City has provided information about the SSMP and a PDF of the Audits and the SSMP on the City website. The website also has a link to CIWQS SSO public reports website.

The City also uses its website to notify the public of important upcoming activities related to sewer system management and CIP projects.
