

Mission Statement

We exist to share black history and culture with our community. We do this through our annual black history program, black history exhibit and other events that we share with our community free of charge to encourage attendance by all

Our Vision

Our vision is to help make our community free of hate and get rid of those issues that divide us based on color

Our Values

Our values are those of uplifting all children, being a positive role model, and sharing the ideas that we feel help to make us a better community together

Our Goals Are:

- Continue our annual black history program and exhibit free to all our community
- Work within our community, share in our schools positive facts about black people who have made a positive impact on our country
- Stay abreast of important issues within our city and county that affect us individually or as community members and speak out
- Work with other non-profits and community organizations to help support inclusivity, diversity and equity within our community

We are a diverse group and welcome all people who share our mission
