

To: CITY OF PETALUMA RESIDENTS AND BUSINESSES
Re: 2021 Pavement Restoration Project

Your street is scheduled to receive a pavement slurry sealing as part of the City's Public Improvement Projects. Pavement improvements will include weed removal, tree trimming, street sweeping, slurry sealing and pavement striping work activities. The treatment involves placing a thin layer of an emulsion-aggregate slurry or Slurry Seal. Benefits include reducing pavement deterioration due to weather elements, improving skid resistance, and reducing the aging of the asphalt. The City's contractor for the project is Dryco Construction, Inc. The work is scheduled to occur between the months of June to July.

How Will I Be Affected? This work requires your street to be closed or have restricted travel access starting at 8:00 a.m. and continuing until the Contractor removes the traffic control devices. You will be notified 48 hours in advance of the day work will be performed on your street by a notice left at your front door. On the reverse of this notice you will find the work schedule in no particular order. You will also notice temporary no parking signs on your street with specific no parking dates written on them. "No Parking" signs will be posted on portable barricades at least 48 hours in advance of the work that will restrict parking. **Residents will know the exact date your street will be closed when you review the schedule on the reverse of this notice and observe the "No Parking" signs and written dates.**

What Do I Need to Do to Prepare? If you do not plan to leave your home before 8:00 a.m. on the day your street will be sealed and you will need to use your vehicle later in the day, please park your car on an adjacent street in your neighborhood that is not designated as a "No Parking" zone.

On the Day of Your Street Maintenance A successful street maintenance program relies on your cooperation. Please note the following:

- Do not drive, walk, play, skate or allow pets on the sealed street until it has dried. Walking on the newly sealed street will leave black residue on the bottom of your shoes. The residue is known to damage some surfaces, will mark all surfaces that you track it on, and will be very difficult to remove.
- Wait for the street to dry before washing your car or turning on any sprinklers.
- On your regularly scheduled garbage collection day, please put out your carts like you normally do; no service impact is anticipated.
- On the day your street is sealed, mail delivery may be delayed until the next day

Questions or Concerns? If you have any questions about this project, please contact:

Dryco Construction; Mike Wallen at 916-381-8033
Or the City's Engineer; Ken Eichstaedt, PE, TE at 707-776-3672

FRIENDLY REMINDER:

PLEASE REVIEW THE SCHEDULE BELOW TO ENSURE
 “NO PARKING” ON THE STREET WITHIN THE LIMITS
 AND DATES LISTED BELOW. **VEHICLES WITHIN THE
 LIMITS ON THE DATES BELOW WILL BE TOWED.**
