

ALYNN - MAGS (AMANDALYNN - LADY MAGS)

PETALUMA MURAL PROJECT PROPOSAL

Amandalynn is a Muralist and Fine Artist based in Northern California. Inspired by the feminine in all things, Amandalynn depicts the subtle beauty of the natural world and humankind, through illustrated line work and decorative patterning. Her works can be found in Galleries and Streets all over the world. She began developing her distinct Street Art style mural work in 2001, painting alongside the graffiti community of San Francisco. Amandalynn is very passionate about her outdoor mural work and still enjoys collaborating with a variety of different artists, as well as creating large solo works. Fine Art also plays a key role in Amandalynn's life, as she continues to develop her career as a professional gallery artist. She has a bachelor's degree of Fine Art from the San Francisco Academy of Art, and recently has started teaching mural classes to high school students. Amandalynn believes that sharing the creative process with others is the key to living an inspired life.

Lady Mags has been a graffiti writer since the early 2000s, when she started painting tracksides in Chicago. She has travelled extensively, painting graffiti and large-scale murals around the world. Lady Mags began showing fine art in galleries across the United States more recently. She also received a PhD in International Comparative Education from Stanford University.

Together, Amanda Lynn and Lady Mags are known as Alynn-Mags, a street mural and fine art team. Both artists are North Bay residents, and together they have over two decades of painting experience. Alynn-Mags has been immediately recognized for their large-scale spray paint and acrylic brush paint mural combinations. In their fine art collaborations, the duo also merges different mediums and techniques to create their pieces. Lady Mags often works with abstract imagery, which Amandalynn incorporates into her detailed illustrations. The symbiotic friendship between these two women shines through in their collaborative works, each element supports the other in their final compositions.
