Q: Will the City require any additional landscaping or grading behind new sidewalk or minor concrete items (retaining curb) that are not shown in the plans? If required of the contractor, can you please verify how this work will be paid and what is expected of the contractor?

A: Design Consultant Response: "The plans show anticipated grading limits behind back of walk, where grading is expected. These areas are very limited and are adjacent to grassy areas. Stabilization of the exposed native soil to prevent erosion should be sufficient. We did not call out any planting or irrigation in this scope of work. We are not expecting any significant grading behind the retaining curbs. Treatment of those areas should be the same; stabilization of the exposed native soil to prevent erosion."
