MEMORANDUM

Engineering Department, 22 Bassett Street, Petaluma, CA 94952
(707) 778-4304 Fax (707) 778-4437 E-mail: engineeringr@ci.petaluma.ca.us

DATE: December 6, 1999

TO: Mayor and Councilmembers

FROM: Michael Ban, P.E. – Utility Engineer *MB*

SUBJECT: History of Wastewater Services In Penngrove

In accordance with the 1977 Joint Powers Agreement, Petaluma provides collection, treatment and disposal/reuse of Penngrove's wastewater. The Sonoma County Water Agency operates and maintains the wastewater collection system and pump station in Penngrove. The following is a chronological timeline describing the history of this project.

1971

A survey by the Sonoma County Public Health Officer determined that 73.8% of the parcels surveyed in Penngrove had failing septic systems, and that most of the discharge from these failures flowed directly into Lichau Creek.

1972

A soil survey conducted by the U.S. Soil Conservation Service determined that soils in the Penngrove area were generally unsuitable for septic leaching systems.

December 27, 1973

The California Regional Water Quality Control Board adopted Resolution No. 73-19 prohibiting, for the Penngrove area, the construction of any new septic system serving a property for which a septic tank permit had not previously been issued. It further prohibited the discharge of wastewater to any and all septic systems in the area after October 15, 1976. A copy is provided under Attachment A.

December 1, 1974

Publication of document titled "Project Report and Draft Environmental Impact Report For Wastewater Management Facilities For Penngrove, Sonoma County, California (James M. Montgomery Consulting Engineers, Inc.)." This report developed and evaluated alternative

solutions to Penngrove's water quality and public health problems. The recommended project consisted of a complete wastewater collection system to serve the Penngrove study area, a pumping station, and 14,400 feet of 6-inch force main from Penngrove to Petaluma's Wilmington Pump Station. Also included were modifications to Petaluma's Wilmington Pump Station.

March 10, 1975

Sonoma County Board of Supervisors adopted Resolution No. 48265 to complete land use zoning and file a final environmental impact report for the Penngrove wastewater management facilities (see Attachment B).

April 7, 1975

Petaluma City Council adopted Resolution No. 6893 (see Attachment C) declaring the City's intention to approve the wastewater management facility plan for Penngrove with several conditions, including a condition that the zoning and land use plan for the Penngrove area permit a population not to exceed 3,000 persons, and that the resolution of intention will be effective only if the transportation, treatment and disposal of Penngrove's wastewater by the City of Petaluma is the most cost effective plan.

June 17, 1975

Publication of document titled "Final Environmental Impact Report Wastewater Management Facilities For Penngrove, Sonoma County, California (James M. Montgomery Consulting Engineers, Inc.)". This document responded to questions raised during the Draft EIR review process and at the public hearing conducted on April 10, 1975.

April 1977

Plans and specifications for construction of the Penngrove Wastewater Collection and Pumping Facilities were completed.

May 26, 1977

City of Petaluma and Sonoma County execute Joint Powers Agreement for wastewater facilities in Penngrove. Key provisions of this agreement include:

- ◆ **Restriction to 3,000 persons.** Provision 10 states "...the City will accept into its system the wastewater generated within County Service Area 19 (Penngrove) up to a volume amount equivalent to usage by 3,000 persons using standard measuring formulas."
- ◆ **Right to Annex.** Under Provision 11 the County retains "the right to annex territory to County Service Area No. 19 and to detach territory therefrom."

- ◆ **Extensions and Improvements.** Under Provision 12 the County retains “the right to provide for such extensions and improvements to the Project as may from time to time be necessary to provide service within County Service Area No. 19.”

April 16, 1990

Petaluma City Council adopted Resolution No. 90-112 (see Attachment E) authorizing the City Manager to sign Amendment No. 1 to the 1977 Joint Powers Agreement with the County of Sonoma regarding Penngrove. Amendment No. 1 granted to Petaluma the authority to enforce Federal wastewater pre-treatment standards within Penngrove.

**California Regional Water Quality
Control Board Resolution No. 73-19**

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

RESOLUTION NO. 73-19

AMENDMENT TO THE WATER QUALITY CONTROL PLAN (INTERIM)
SAN FRANCISCO BAY BASIN, PROHIBITING WASTE DISCHARGES
TO LEACHING OR PERCOLATION SYSTEMS IN THE PENNGROVE AREA
OF SONOMA COUNTY

- I. WHEREAS the Penngrove area of Sonoma County, as defined on the attached map, incorporated herein and made a part of this Resolution, encompasses portions of Lichau Creek, a non-tidal stream, and
- II. WHEREAS the Regional Board has adopted the Water Quality Control Plan (Interim) San Francisco Bay Basin, which prohibits discharges of all sewage-bearing wastes to non-tidal waters, except as part of an approved reclamation project, and prohibits the degradation of any groundwater by any controllable water quality factor, and
- III. WHEREAS the beneficial uses of Lichau Creek and contiguous waters are:
 - Swimming and wading
 - Fish and wildlife propagation and sustenance, and habitat and resting for waterfowl and migratory birds
 - Esthetic enjoyment
 - Recharge of groundwater supplies, and
- IV. WHEREAS the beneficial uses of groundwaters in the Penngrove area include irrigation and domestic water supply, and
- V. WHEREAS all existing and proposed developments in the Penngrove area have septic tanks with leaching or percolation systems for sewage disposal, and
- VI. WHEREAS a study by the Sonoma County Public Health Service found that 74 per cent of all leaching or percolation systems in the Penngrove area were either failing or malfunctioning, and that most of the discharges from these unsatisfactory systems were flowing directly into Lichau Creek, and
- VII. WHEREAS a soil survey of Sonoma County prepared by the U. S. Soil Conservation Service found that soils in the Penngrove area had "severe limitations" for leaching systems because of low permeability and high water table.

VIII. THEREFORE BE IT RESOLVED that this Regional Board finds that discharges to leaching and percolation systems in the Penngrove area are incompatible with:

- a) The prohibition against sewage-bearing wastes to non-tidal waters contained in the Water Quality Control Plan (Interim), San Francisco Bay Basin,
- b) The protection of beneficial uses of ground and surface waters in the Penngrove area, including Lichau Creek, and
- c) The protection of the public from nuisances, including a serious threat to public health, and

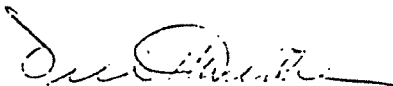

IX. BE IT FURTHER RESOLVED that the following be added to the Waste Discharge Prohibitions of the Water Quality Control Plan (Interim), San Francisco Bay Region:

The discharge of sewage-bearing wastewater to leaching or percolation systems in the Penngrove area of Sonoma County is prohibited for:

- A. Any new system serving a property for which a septic tank permit had not been issued prior to December 27, 1973.
- B. Any and all such systems after October 15, 1976.

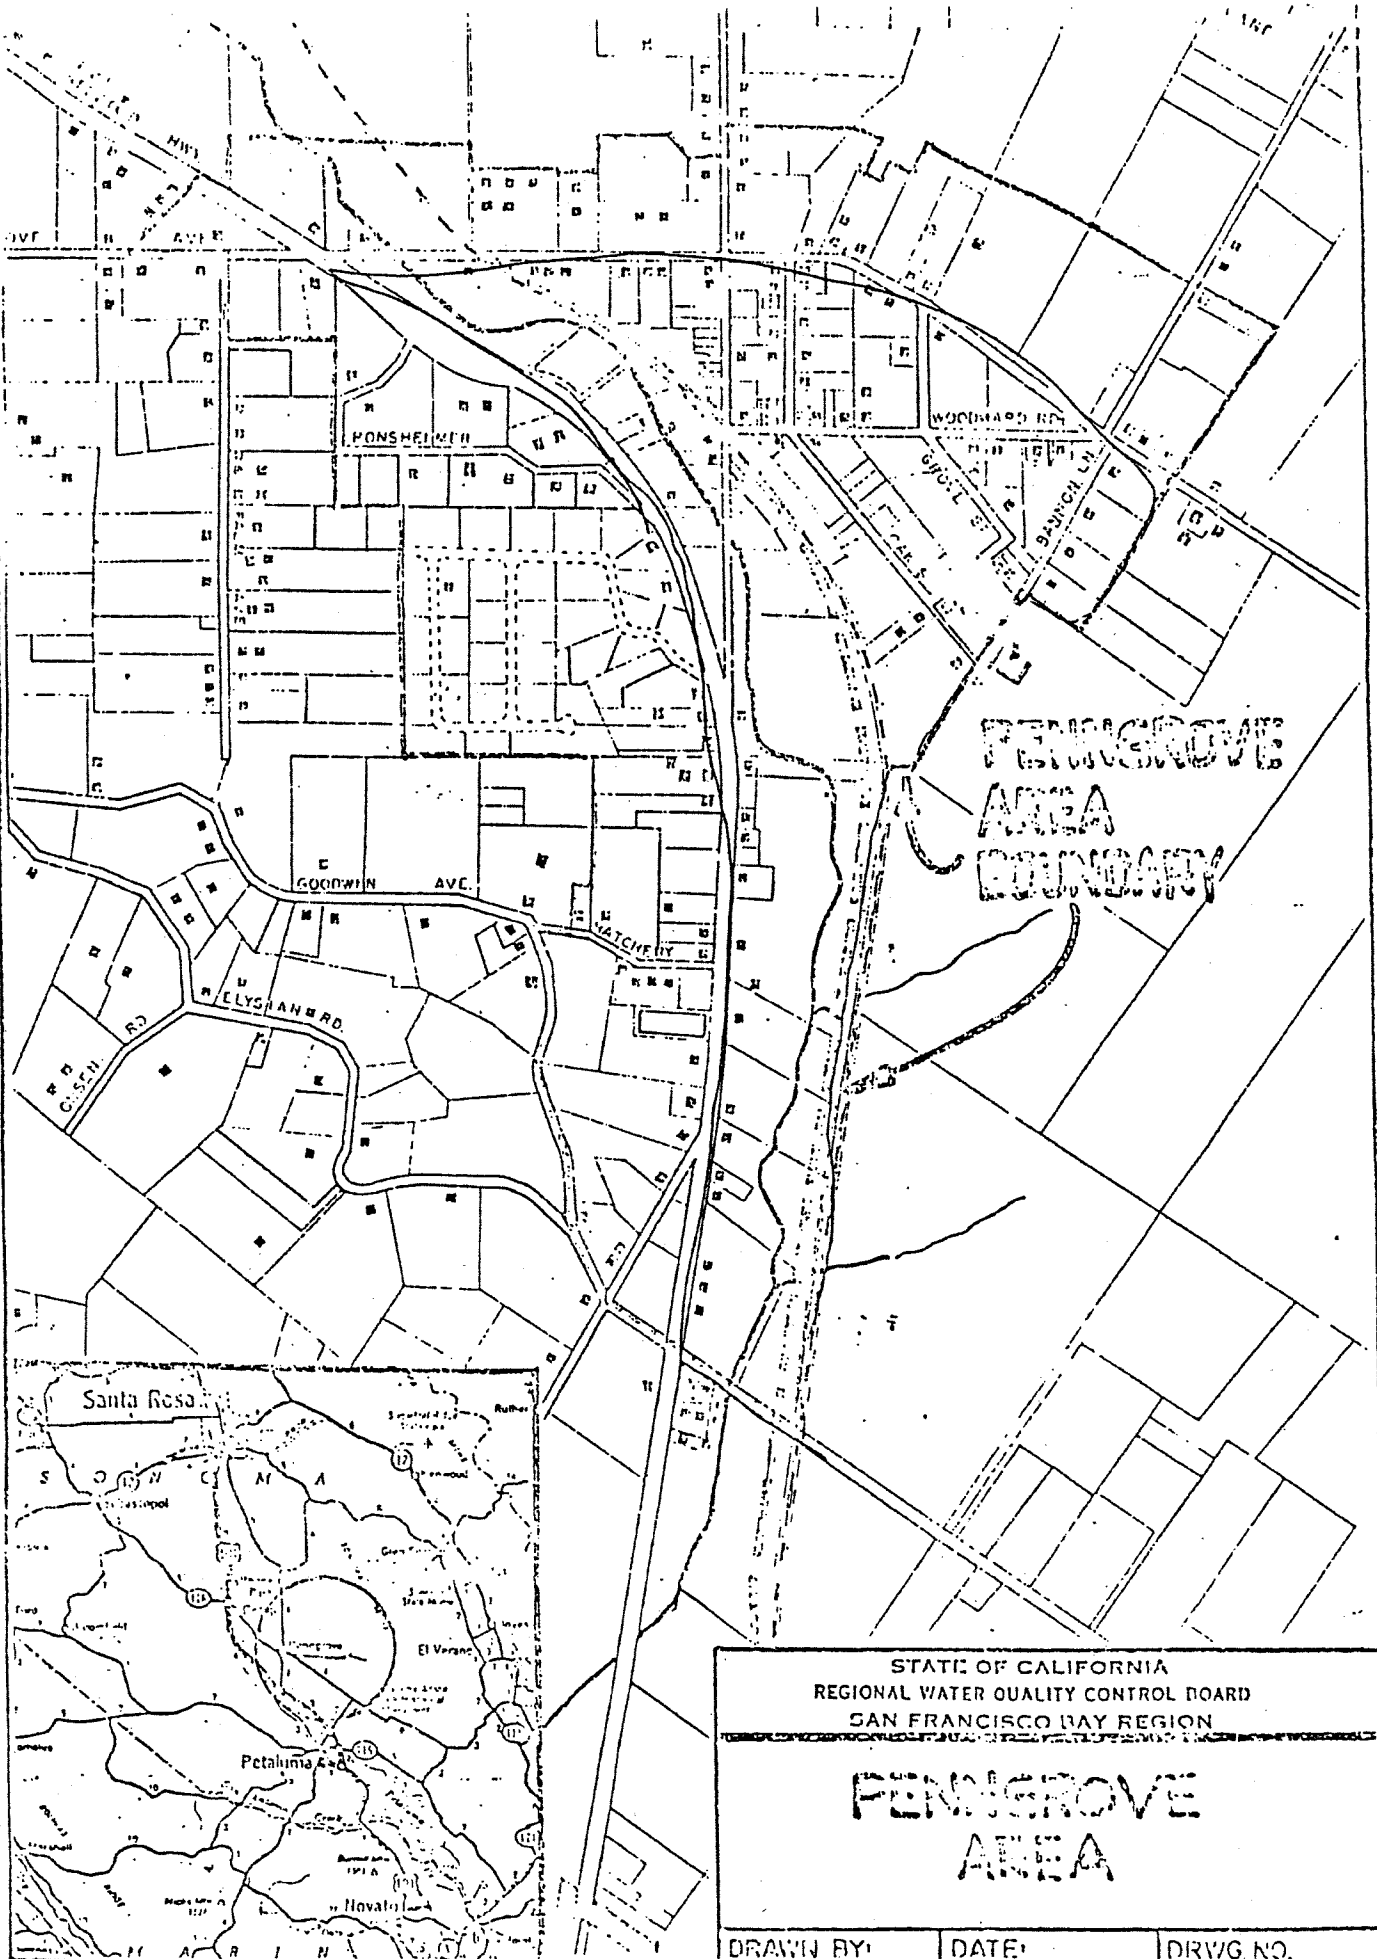

An exemption to prohibition B may be granted by the Executive Officer providing the discharger is able to document that the installation or continued use of leaching or percolation systems will not individually or collectively, directly or indirectly, either violate other discharge prohibitions, impair the beneficial uses specified in this Water Quality Control Plan for the affected waters, or result in threat to the public health. In the event of an adverse ruling by the Executive Officer, the matter may be appealed to the Board.

I, Fred H. Dierker, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of a Resolution adopted by the California Regional Water Quality Control Board, San Francisco Bay Region on December 27, 1973.

FRED H. DIERKER, Executive Officer

**Sonoma County Board of Supervisors
Resolution No. 48265**

MAR 14 1975

THE WITHIN INSTRUMENT IS A CORRECT COPY OF THE ORIGINAL ON FILE IN THIS OFFICE.

RESOLUTION NO. 48265 CITY CLERK

ATTEST: MAR 11 1975
EUGENE D. WILLIAMS
County Clerk & ex-officio Clerk of the Board of Supervisors of the State of California, In & for the County of Sonoma.
BY S. Hadenius DEPUTY

County of Sonoma
2555 Mendocino Avenue
Santa Rosa, California 95401

March 10, 1975

A RESOLUTION OF INTENTION BY THE BOARD OF SUPERVISORS OF THE COUNTY OF SONOMA TO COMPLETE LAND USE ZONING, DISTRICT ORGANIZATION AND FILE A FINAL ENVIRONMENTAL IMPACT REPORT FOR THE PENNGROVE WASTEWATER MANAGEMENT FACILITIES.

WHEREAS, the Board of Supervisors of the County of Sonoma adopted Resolution No. 43541 on February 5, 1974, authorizing J. M. Montgomery, Consulting Engineers, Inc., to prepare a project report, including an environmental impact report, for the Penngrove Wastewater Management Facilities, and

WHEREAS, a copy of the project report and environmental impact report was sent to the City of Petaluma on December 26, 1974 for preliminary review, and

WHEREAS, the Mayor of the City of Petaluma, Mrs. Helen Putnam, did submit a letter on January 21, 1975 with attached comments and questions regarding the environmental impact report, and

WHEREAS, the County's consulting engineer did submit a letter dated February 18, 1975, to the City of Petaluma answering these questions, and

WHEREAS, the County staff is now conducting citizen's committee meetings for the purpose of determining precise zoning and selecting the recommended project alternative, and

WHEREAS, the County has been informed by the State Water Resources Control Board's clean water grant staff that concept approval must be obtained from the agency treating the effluent.

NOW THEREFORE BE IT RESOLVED that the County Board of Supervisors intend to complete the following actions prior to accepting a grant offer or authorizing the preparation of detailed construction plans or specifications.

1. If the most cost effective solution to eliminating the water quality violation in Penngrove involves the construction of a local treatment plant and disposal facility, then the County Board of Supervisors will petition the Regional Water Quality Control Board for an ammendment to the Basin plan for this construction.

2. The Board of Supervisors will conduct a public hearing on April 10, 1975 to consider the public comments on the draft environmental impact report and will submit a final environmental impact report for submittal to the Secretary of Resources.

COPY TO:

- City Council
- City Manager
- City Attorney
- Dir. of P.H.
- Dir. of Comm. Dev.
- Fiscal Analyst

3. The Board of Supervisors will complete a detailed financial plan for the recommended alternatives.
4. The Board of Supervisors will complete and adopt a revised zoning map for the proposed service area and surrounding environs.
5. The Board of Supervisors will submit an application to LAFCO for the purpose of forming County Service Area No. 19 (Penngrove).

BE IT FURTHER RESOLVED that the Board of Supervisors herein requests the Petaluma City Council to adopt a resolution of intention whereby the City also will approve the wastewater management facility plan for Penngrove; and, if determined to be the most cost effective plan, then accept effluent for transport treatment and disposal for a population not to exceed 3,000 persons, and when the County has completed all items of intent, then enter into an agreement prepared jointly by the City and County staff to operate the project in such a manner as to provide service to the proposed County Service Area No. 19 (Penngrove) on a fair and equitable basis, including the amount and method of billing for user charges.

The foregoing resolution was introduced by Supervisor Kortum, who moved its adoption, seconded by Supervisor Theiller, and adopted on roll call by the following vote:

Supervisor Vella	<u>Aye</u>
Supervisor Kortum	<u>Aye</u>
Supervisor Johnson	<u>Aye</u>
Supervisor Theiller	<u>Aye</u>
Supervisor Hinkle	<u>Aye</u>

Ayes: 5, Noes: 0, Absent or not voting: 0.

WHEREUPON, the Chairman declared the foregoing resolution adopted, and

SO ORDERED.

Attachment C

**Petaluma City Council Resolution No.
6893**

RESOLUTION OF INTENTION RE PENNGROVE WASTEWATER MANAGEMENT FACILITIES

ORIGINAL

INTRODUCED BY COUNCILMAN William A. Perry
SECONDED BY COUNCILMAN Robert E. Daly
Regular Meeting of the City Council of the
City of Petaluma, on the 7th day of April 1975

WHEREAS, the Board of Supervisors of Sonoma County has adopted a Resolution of Intention to complete land use zoning and district organization and to file a final environmental impact report for the Penngrove wastewater management facilities; and,

WHEREAS, in said Resolution of Intention the Board of Supervisors of Sonoma County the Board has asked this City Council to adopt a Resolution of Intention to approve the wastewater management facility plan for Penngrove; and,

WHEREAS, it is the principle concern of this City Council that state and local land use planning rules and regulations be followed and implemented concerning the wastewater management facility plan for Penngrove and that the appropriate zoning be adopted for the Penngrove area,

NOW, THEREFORE, BE IT RESOLVED that this City Council hereby declares its intention to approve the wastewater management facility plan for Penngrove provided the following conditions are complied with:

- 1. That a local land use plan be adopted for the subject area in conformance with state and local land use planning laws and regulations;
2. That appropriate zoning consistent with the aforementioned land use plan is adopted for the subject area so as to permit a population not to exceed 3,000 persons in the subject area in accord with County Resolution No. 41168, which assigned 80,000 population to the Petaluma Valley including a 77,000 population for the City of Petaluma, and County Resolution No. 48265.

Council File 609

6893

3. That in any event this Resolution of Intention will be effective only if the transportation, treatment and disposal of waste water by the City of Petaluma is the most cost effective plan; and,
4. That the City of Petaluma's Engineering and Community Development Departments shall be advised at least 60 days prior to any action by the County of Sonoma which would result in a change of zoning, a change in the County General Plan for the area, the construction of any road, street or any other public improvement in the subject area or the issuance of any building permit.

under the power and authority conferred upon this Council by the Charter of said City.

I hereby certify that the foregoing Resolution was duly and regularly introduced and adopted by the Council of the City of Petaluma on the 7th day of April, 1975, by the following votes:

AYES: Councilmen Brunner, Laly, Perry, and Mayor Putnam.

NOES: None. ABSTAINED: Councilman Cavanagh.

ABSENT: Councilmen Harberson and Mattel.

**Joint Powers Agreement Between City of
Petaluma and County of Sonoma**

AGREEMENT FOR INSTALLATION OF WASTEWATER COLLECTION
FACILITIES THROUGH JOINT EXERCISE OF POWERS BY
CITY OF PETALUMA AND COUNTY OF SONOMA

COUNTY SERVICE AREA NO. 19 (PENNGROVE)

THIS AGREEMENT, made and entered in duplicate pursuant to the provisions of Government Code Sections 6500 et seq., this 26TH day of MAY, 1977, by and between the CITY OF PETALUMA, a municipal corporation (hereinafter called "City"), and the COUNTY OF SONOMA, (hereinafter called "County").

RECITALS:

(a) The public interest, convenience and necessity require the construction and installation and operation and maintenance by County of facilities (hereinafter called "the Project") to provide for the collection of wastewater within County Service Area No. 19 (Pennygrove) (hereinafter called "the Service Area");

(b) The City owns, operates and maintains a wastewater collection, treatment and disposal system which is capable, within certain limitations, of treating and disposing of wastewater collected within the Service Area; and

(c) County and City desire to provide for the treatment and disposal in City's system of wastewater collected by County's facilities to be constructed and installed to serve the lands within the Service Area.

NOW, THEREFORE, IT IS AGREED, as follows:

1. Except as herein otherwise specifically provided, the provisions of Resolution No. 48265, adopted by the Board of Supervisors of County on March 10, 1975, and the provisions of Resolution No. 6893 N.C.S., adopted by the City Council of City on April 7, 1975, copies of said Resolutions being attached hereto as Exhibits A and B, respectively, are incorporated into this Agreement.

2. The Project shall be constructed and installed by County in accordance with plans and specifications prepared for and approved by the County Director of Public Works and by the City Engineer, and as finally approved by the Board of Supervisors of County.

3. City will provide such inspection as it shall deem necessary to assure compliance with City excavation permits.

4. County will provide project inspection and certify to City that the portion of the project described in paragraph 8 (to be maintained and operated by City) has been constructed in accordance with the approved plans and specifications entitled "Construction of Wastewater Collection and Pumping Facilities Project C-06-1112", approved by Donald B. Head, Director of Public Works on February 7, 1977.

5. County will pay City reasonable inspection fees and all other expenses of City incidental to the construction and installation of the Project, as such expenses may be incurred; the payments to commence upon the availability of the bond proceeds to finance the Project.

6. County shall require that the contractor performing the work of constructing and installing the Project name the City, its officers, agents and employees, together with County, upon all bonds and insurance to be provided under the specifications hereinabove referred to.

7. City will permit the contractor to work on City-owned property and facilities as necessary to provide connection to, and to increase the capacity of, the existing system of the City in accordance with the approved plans and specifications. In addition, City will, and does hereby, grant County the right to utilize the surface area for temporary construction purposes on the City-owned 15 foot wide easement commencing adjacent to and northerly of the Wilmington Pump Station to its terminus at the Northwestern Pacific Railroad right of way and State Route 101 right of way.

8. Upon completion of the construction of the 6-inch force main within City streets from the Wilmington Pump Station to the manhole located at Arlington and Madison Streets and the replacement of the electric motor on the existing pump, the City will accept this portion of the Project, which shall henceforth be the property of City and be operated, maintained and managed by City as an integral part of its wastewater collection and treatment system and under its rules and regulations.

9. Upon completion of said construction and installation to the satisfaction of County, County will accept the Project, which shall henceforth be the property of County (except facilities described in item 8), and be operated, maintained and managed by County.

10. The Project is designed to serve an estimated ultimate population of 3,000 persons, and the City will accept into its system the wastewater generated within County Service Area No. 19 (Penngrove) up to a volume amount equivalent to usage by 3,000 persons using standard measuring formulas.

11. County shall retain the right to annex territory to County Service Area No. 19 (Penngrove) and to detach territory therefrom. However, such annexations and detachments will be approved by County only in accordance with Resolution No. 48265, adopted by the Board of Supervisors of County on March 10, 1975 (Exhibit A), and the provisions of Resolution No. 6893 N.C.S., adopted by the City Council of City on April 7, 1975 (Exhibit B).

12. County shall retain the right to provide for such extensions and improvements to the Project as may from time to time be necessary to provide service within County Service Area No. 19 (Penngrove).

13. The County shall adopt an Industrial Waste Ordinance that contains as a minimum all of the essential provisions of the City of Petaluma's Industrial Waste Ordinance.

14. For providing such treatment and disposal County shall pay to City the equivalent amount of the City's rates and charges for use of its system within its corporate limits as are from time to time generally established.

Each year, County shall submit to City a copy of the report submitted to the Board of Supervisors pursuant to the provisions of Section 25210.77a of the Government Code. Such report will designate the total number of monthly equivalent residential service units, commercial units, and industrial units. Such total number will be multiplied by such rates and charges as established on a monthly basis. The City will have the opportunity to review and comment on the County's revenue program for County Service Area No. 19 (Penngrove) prior to adoption by the County Board of Supervisors.

The total amount so calculated will be paid to City before each February 1 for the preceding calendar year.

15. The signatures of all parties to this Agreement are predicated upon the completion of funding arrangements by County to an amount sufficient to pay all costs and expenses in connection with the Project.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day and year first hereinabove written.

AMENDMENT NUMBER 1

AGREEMENT FOR INSTALLATION OF
WASTEWATER COLLECTION FACILITIES
THROUGH JOINT EXERCISE OF POWERS
BY CITY OF PETALUMA
AND COUNTY OF SONOMA

COUNTY SERVICE AREA NO. 19 (PENNGROVE)

Article No. 13 shall be revised to read as follows:

- a. The County shall revise its existing industrial waste ordinance to contain as a minimum all the essential provisions of the City of Petaluma's Industrial Waste Ordinance and to grant to the City of Petaluma the authority to enforce Federal pre-treatment standards within the Sonoma County Service Area No. 19 (Penn Grove) all as required by the San Francisco Regional Water Quality Control Board.
- b. Sonoma County grants to the City of Petaluma the authority to require permits for non-residential discharge and to review and accept or reject applications for non-residential discharge.
- c. The County of Sonoma authorizes the City of Petaluma to make appropriate charges for administration and industrial waste monitoring on non-residential dischargers within the County Service Area No. 19.
- d. The County authorizes the City of Petaluma to enforce Federal pre-treatment standards including City of Petaluma Industrial Waste Ordinance local limits.
- e. The County of Sonoma authorizes the City of Petaluma to take enforcement actions against non-compliant non-residential dischargers based upon the City of Petaluma's inspection and monitoring program.
