CITY OF HEALDSBURG

MAYOR'S UPDATE

February 8, 2024

Climate Mobilization Strategy: In October 2023, the City Council adopted Healdsburg's first Climate Mobilization Strategy to support State and Regional greenhouse gas (GHG) reduction goals. The Strategy identifies key measures and actions that will be most impactful in reducing GHG emissions, are equitable, feasible, and community driven.

Public Art Grant – 2nd Public Art Program Solicitation: City Council adopted Healdsburg's first ever Arts and Culture Master Plan in August 2021. As part of the City's efforts to enhance our creative community, we recently launched our second Public Art Grant Program solicitation. This program is one of the outcomes of the Arts and Culture Master Plan and marks the City's dedicated financial commitment to supporting the arts community.

Pro-housing Community: On January 31, 2024, Gavin Newsom recognized the City of Healdsburg as a pro-housing community, a significant accolade reflecting our city's proactive approach toward housing development. This designation highlights our efforts in streamlining housing approvals and aligns us with California's ambitious goal to construct 2.5 million new homes by 2030. This places us as one of 37 jurisdictions among the 58 counties and 482 municipalities in the State to receive this designation. As a pro-housing community, Healdsburg will now receive priority in accessing state funding for housing projects.

Healdsburg Highschool Interns: The City of Healdsburg has welcomed 10 high school juniors as part of Healdsburg High's internship program. Healdsburg High School offers the only internship program of its kind in Sonoma County. All juniors at Healdsburg High School attend a 6-day internship at a local business in January and February. Students are required to conduct career research, draft a resume and cover letter, attend an interview and are prepared on workplace etiquette. The students have matched with departments that overlap with their future interests including Police, Fire, Engineering, Human Resources, and Information Technology.

Villa Dog Park Renovation: The Villa Dog Park in Healdsburg is undergoing a comprehensive renovation project. Key features of the renovation project include ADA-compliant sidewalks, accessible entry points and pathways, new shade structure, water fountain area, dog wash station and accessible picnic tables and benches. We anticipate the renovation work to take approximately three months to complete, with a grand re-opening in May.

Foley Family Community Pavilion Groundbreaking: On February 6, 2024, the City Council will hold a groundbreaking ceremony for the new Foley Family Pavilion. Construction is anticipated to take 12-15 months to complete. When finished, the Foley Family Pavilion will be the new home for the Healdsburg Farmers' Market and provide another gathering opportunity for the Healdsburg Community.
