

Coaches Handbook

1. Welcome:

- a. Welcome to the MBSL program! I greatly appreciate your willingness to be a volunteer coach for our 2023 spring season. Your investment into this program is what allows this program to function. Without you, we would not be able to provide this program to our community.
- b. Our job as league administrators is to make your job as a volunteer coach simpler. We recognize that each of you are taking on this responsibility in addition to the myriad of other responsibilities and activities you are involved in. We want to equip you for success because you are helping us bring a quality program to our community.
- c. I truly thank you for the time, energy, and resources that you will invest into the season. I hope that this handbook and the resources in it is helpful and informative to you throughout the season!

2. Coaching Philosophy:

- a. We expect our coaches to maintain a positive, encouraging attitude while promoting the importance of teamwork, fair play, and sportsmanship.
- b. Volunteer Coaches have a large level of influence on the outcome of a child or parent's experience in the MBSL program. You are the on-going hands-on individual that parents and children will directly associate with the league.
- c. We challenge all our coaches to conduct themselves with excellence to help create a positive environment for the children to play and for the parents to enjoy the festivities.
- d. There is nothing wrong with wanting to win the game, but there are things more important for kids than the final score of the game.
 - i. We want you to focus on increasing confidence, showing improvement in individual performances, and a positive team atmosphere.

- ii. Kids will remember the friends that they made and the enjoyment they had while playing more than any game result.
 - iii. When a loss does occur, focus on the reaction and perseverance to try your best the next time you play.
- e. Strive to find the balance between a healthy level of competition and a focus on the importance of teamwork, improvement, sportsmanship, and perseverance.

3. Coach Registration:

- a. Coach registration opens before player registration to secure enough head coaches to meet the expected enrollment of players in any particular age group.
- b. Registration is then monitored based on the number of coaches to find the right balance of a full team where all players can have an enjoyable experience with enough quality playing time.
- c. Registration for head and assistant coaches is the same.
- d. Head or assistant coaches may register at any time prior to the start of the season.
- e. Coach registration is done via an online application.

- f. Once a coach is approved, more information will be emailed to them from the league administrators.
- g. Approved head coaches will receive 1 free player registration for the season.
- h. All coaches must have a current Concussion in Sports Certificate on file with the City of Miamisburg Parks and Recreation Department from the NFHS. This is a free online course.
