RULES AND REGULATIONS

E. MONUMENTS

All monument placements and installations must have the permission of the Cemetery Superintendent before being installed, erected, or placed. A Monument Installation Permit must be submitted to and approved by the Cemetery Superintendent.

No monument or other memorial may be placed in the cemetery until a sketch or blueprint showing the design, material, finish size, and proposed inscription thereon, is first submitted to the Cemetery Superintendent for approval. The Superintendent reserves the right to reject any plan or design for a memorial which on account of size, design, inscription, finish, or quality of stone is unsuited to the lot on which it is to be placed.

1. All monuments must have footings.

- The monument company is responsible to install footings.
- All footings must be poured concrete, installed to a depth of three (3) feet below grade.
- The length and width of all footings must be at least the length and width dimensions of the base of the monument to be erected upon it.
- The Cemetery Superintendent will mark the location of the foundation after the Monument Permit Application is approved.
- Installation of the footings must be witnessed by the Cemetery Superintendent or a designated representative and completed during normal business hours, Monday -Thursday 8AM to 4PM. Work will cease in the event of a funeral service.
- Upon the completion of the foundation the installer is responsible for cleanup and removal of fill from cemetery.

2. The maximum dimensions, inclusive of base, for monuments is as follows:

- Single grave: 2'W x 1'D x 3'H
- Two/Three grave lot: 3'W x 1'D x 3'H
- Four Grave Lot: 4'W x 1'D x 3'H
- Flush Marker, if preferred over upright monument: 2'W x 1'D
- Designated Cremation Lots: 2'W x 1'D x 3'H
