**MAYOR'S TIME** – City Engineer Jerry Morrissette will be updating the City of Ruston 2018 Six Year TIP early this year and planned to present the 2018 Six Year TIP to Council at the next Council meeting. Once the 2018 Six Year TIP is adopted the City will begin grant applications with Pierce County. Along with an available \$853,000 grant from the Department of Ecology the City planned to address three Ruston projects, Pearl Street Greenway Bulb Outs, Pedestrian Priority Crossing and Traffic Signalization and Calming at 51<sup>st</sup> and Winnifred, and Pedestrian Sidewalk Replacement on the north side of 51<sup>st</sup> up the hill from the roundabout at 51<sup>st</sup> and Ruston Way. Mayor Hopkins believed that these funds could complete the three projects at no cost to the City. Mayor Hopkins provided an update on the Silver Cloud permit letting Council know the permit had not been picked up yet. Mayor Hopkins noted that what the City and developer had negotiated was still unacceptable to the owners of the Silver Cloud hotel and the City was waiting for additional comments. The City had planned to meet with the developer, but the meeting was canceled. EPA sent a letter, dated February 22, 2018, to the developer regarding the superfund site and Asarco Tacoma Smelter Third Amended Consent Decree between the United States and Point Ruston, LLC, outlining how behind the developer was in not meeting deadlines imposed by the EPA. Mayor Hopkins was concerned about the developer's movement of contaminated soil and the effects it would have to the residents of Ruston.
